Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "We are gratified with our improved operating earnings for the fourth quarter of 2010 of \$1.3 million or \$.15 per

¹ Operating income is a non-GAAP measure and is defined as net income excluding non-cash charges related to the amortization of certain intangible assets recorded in purchase accounting, net realized investment losses, losses from discontinued operations and the federal income tax charge related to deferred taxes. The Company believes that the presentation of operating income may offer a better understanding of the core operating results of the Company. A reconciliation of net income to operating income is presented as an attachment to this press release.

share from \$0.9 million or \$.10 per share for the comparable period of 2009. Our financial condition and balance sheet remain strong. We have no debt, \$274 million of federal net operating loss carryforwards, and have grown our book value to \$10.82 per share at December 31, 2010 from \$10.46 per share at December 31, 2009. Our investment portfolio is rated, on average, AA and has a low duration although we are experiencing pressure on investment income due to lower yields on our fixed income portfolio."

Non-GAAP Financial Measures

The Company provides non-GAAP financial measures to complement its consolidated financial statements presented in accordance with GAAP: (i) Operating income is net income excluding non-cash charges related to the amortization of intangible assets recorded in purchase accounting, net realized investment gains (losses), and the federal income tax charge related to deferred taxes due to its federal net operating loss carryforwards, and (ii) Operating income per share is operating income (loss) on a per share basis. These non-GAAP financial measures are intended to supplement the user's overall understanding of the Company's current financial performance and its prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management and investors by identifying certain expenses that, when excluded from the GAAP results, may provide additional understanding of the Company's core operating results or business performance. However, these non-GAAP financial measures are not intended to supersede or replace the Company's GAAP results. A reconciliation of the non-GAAP results to the GAAP results is provided in the "Reconciliation of GAAP Income from Continuing Operations to Non-GAAP Operating Income from Continuing Operations" schedule below.
