City Holding Company Announces 2012 Earnings

Charleston, West Virginia – City Holding Company, “the Company” (NASDAQ:CHCO), a \$2.9 billion bank holding company headquartered in Charleston, today announced net income of \$38.9 million, or \$2.61 per diluted share for the year ended December 31, 2012. During 2012, City’s net interest income increased \$5.6 million from 2011, loan balances increased \$173 million, and noninterest income (exclusive of investment security gains) increased \$1.9 million. For 2012, the Company achieved a return on assets of 1.37%, a return on tangible equity of 14.7%, a net interest margin of 3.96%, and an efficiency ratio of 57.2%. City’s results for 2012 are down slightly compared to 2011 as a result of merger-related expenses of \$4.7 million. Exclusive of the acquisition and integration expenses, 2012’s results compared to 2011 were quite favorable.

For the fourth quarter of 2012 the Company reported net income of \$10.9 million, or \$0.73 per diluted share. The Company also achieved a return on assets of 1.49%, a return on tangible equity of 16.2%, a net interest margin of 3.99%, and an efficiency ratio of 53.1% in the fourth quarter of 2012.

City’s CEO Charles Hageboeck stated that, “2012 was an exciting and important year for City. The acquisition of Virginia Savings Bancorp marked our first acquisition in seven years and earlier this month, we completed our acquisition of Community Financial Corporation. With these acquisitions, City now has total assets of \$3.4 billion, and 15 branch locations in Virginia. We look forward to continuing the development of our presence in Virginia.”

“Net interest income in 2012 was up \$5.6 million due to the acquisition of Virginia Savings Bancorp, core loan growth of \$101 million, and lower deposit pricing. As a result, our net interest margin increased from 3.89% for 2011 to 3.96% for 2012.”

“Our asset quality continues to remain strong with stable and relatively low levels of past due loans. The ratio of non-performing assets to total loans and other real estate owned of 1.41% at December 31, 2012 was down compared to the prior quarter’s ratio of 1.53%. Provision expense was higher for 2012 due to loan growth throughout the year, particularly in the fourth quarter, rather than due to deteriorating asset quality.”

“During 2012, our bankcard interchange fee income increased \$1.3 million, or about 11%, due to increased transaction volumes. Trust and investment management fee income increased \$0.7 million, or 21.5%, from 2011 due to assets under management increasing from \$580 million at December 31, 2011 to \$750 million at December 31, 2012. This increase was the result of core growth, as Virginia Savings Bancorp did not offer these services. In addition, an increase in mortgage-related lending activity led to an increase of \$0.6 million in other income.”

“In summary, 2012 was another successful year for City both from a financial performance perspective and from a growth perspective. We expanded our footprint into Virginia while maintaining solid financial results. We look forward to 2013 and the opportunities to continue meeting the expectations of our shareholders and customers.”

Net Interest Income

The Company's tax equivalent net interest income increased \$5.5 million, or 5.9%, from \$93.0 million in 2011 to \$98.5 million in 2012. This increase is due primarily to the acquisition of Virginia Savings Bancorp as of May 31, 2012, an increase in loan balances outstanding, and a decline in the average rate paid on interest bearing deposits. The acquisition of Virginia Savings Bancorp increased our net interest income by \$4.5 million, which included \$2.6 million of accretion related to the fair value adjustments recorded as a result of the acquisition. Excluding the Virginia Savings Bancorp acquisition, the average balance of loans outstanding increased \$71 million, or 3.73%, from the year ended December 31, 2011. The average rate paid on interest bearing deposits decreased from 1.07% during 2011 to 0.70% during 2012 and was largely attributable to the average rate paid on time deposits declining from 1.93% during 2011 to 1.32% during 2012. These increases were partially offset by a decrease in investment interest income as approximately \$38 million of higher yielding trust preferred securities were called during the third quarter of 2012. The Company's reported net interest margin increased from 3.89% for the year ended December 31, 2011 to 3.96% for the year ended December 31, 2012. Excluding the favorable impact of the accretion from the fair value adjustments, the net interest margin for the year ended December 31, 2012 would have been 3.85%.

During the fourth quarter of 2012, the Company's tax equivalent net interest income increased \$0.6 million, or 2.6%, from \$25.1 million during the third quarter of 2012 to \$25.7 million. This increase is due to an increase in the accretion related to the accounting fair value adjustments recorded as a result of the acquisition of Virginia Savings Bancorp. The Company's reported net interest margin increased from 3.95% for the third quarter of 2012 to 3.99% for the fourth quarter of 2012. Excluding the favorable impact of the accretion from the fair value adjustments (\$1.7 million for the quarter ended December 31, 2012 and \$0.9 million for the quarter ended September 30, 2012), the net interest margin would have been 3.73% for the quarter ended December 31, 2012 and 3.80% for the quarter ended September 30, 2012.

Credit Quality

As a result of the Company's quarterly analysis of the adequacy of the ALLL, the Company recorded a provision for loan losses of \$1.8 million in the fourth quarter of 2012 and \$6.4 million for the year ended December 31, 2012 compared to \$2.2 million and \$4.6 million of the comparable periods in 2011. During the fourth quarter of 2012 the Company's loan portfolio increased \$61.1 million from September 30, 2012 which resulted in a \$0.5 million addition to the ALLL. The provision for loan losses recorded during 2012 reflects difficulties encountered by certain commercial borrowers of the Company during the year, the downgrade of their related credits and management's assessment of the impact of these difficulties on the ultimate collectability of the loans. In addition, the Company received life insurance proceeds as the beneficiary of a life insurance policy carried by a commercial borrower during the third quarter of 2012 that enabled the Company to reduce the ALLL by approximately \$0.6 million for amounts previously included in the ALLL. Changes in the amount of the provision and related allowance are based on the Company's detailed systematic methodology and are directionally consistent with changes in the composition and quality of the Company's loan portfolio. The Company believes its methodology for determining the adequacy of its ALLL adequately provides for probable losses inherent in the loan portfolio and produces a provision and allowance for loan losses that is directionally consistent with changes in asset quality and loss experience.

Investment Securities Gains/(Losses)

During 2012, the Company realized investment gains of \$1.2 million from the sale of certain equity positions related to community banks and bank holding companies. In addition, the Company also recognized gains of \$0.3 million associated with the calls of trust preferred securities.

These gains were partially offset by \$0.6 million of credit-related net investment impairment losses that were recorded by the Company in 2012. The charges deemed to be other than temporary were related to pooled bank trust preferreds with a remaining carrying value of \$3.5 million at December 31, 2012. The credit-related net impairment charges related to the pooled bank trust preferred securities were based on the Company's quarterly reviews of its investment securities for indications of losses considered to be other than temporary.

Non-interest Income

Exclusive of net investment securities gains and losses, non-interest income increased \$1.9 million to \$54.3 million for the year ended December 31, 2012 as compared to \$52.4 million for the year ended December 31, 2011. Bankcard interchange fees increased \$1.3 million, or 11.3%, to \$12.4 million for the year ended December 31, 2012. This increase was primarily due to increased transaction volumes. In addition, trust and investment management fee income increased \$0.7 million, or 21.5%, to \$3.8 million due to core growth as Virginia Savings Bancorp did not offer these services. Other income increased \$0.6 million, or 30.8%, to \$2.7 million due largely to an increase in mortgage related lending activity.

Exclusive of other than temporary investment impairment losses and investment losses, total non-interest income increased \$1.2 million to \$14.3 million for the fourth quarter of 2012 as compared to the fourth quarter of 2011. This increase was due primarily to an increase in service charges from depository accounts of \$0.6 million, an increase of \$0.3 million in other income, and an increase of \$0.2 million in trust and investment management fee income.

Non-interest Expenses

During 2012, the Company recognized \$4.7 million of acquisition and integration expenses associated with the completed acquisition of Virginia Savings Bancorp and the upcoming acquisition of Community Financial Corporation. In comparison, during 2011, the Company recorded a \$3.0 million litigation reserve accrual. Excluding these expenses, noninterest expenses increased \$4.6 million from \$78.1 million for the year ended December 31, 2011 to \$82.7 million for the year ended December 31, 2012. Included in this increase are expenses of \$1.8 million related to the operation of the acquired Virginia Savings Bancorp facilities. Salaries and employee benefits increased \$2.8 million due primarily to additional employees associated with the acquisition of Virginia Savings Bancorp (\$1.0 million) and increased health insurance costs (\$1.0 million). Repossessed asset losses increased \$1.1 million due to the decline in estimated fair values of several residential properties located in the eastern panhandle of West Virginia and at the Greenbrier Resort located in southern West Virginia. The Company continually reevaluates the estimated fair value of properties that it has repossessed by obtaining updated appraisals on at least an annual basis. In addition, other expenses increased \$0.8 million, advertising expenses increased \$0.6 million, and bankcard expenses increased \$0.4 million. These increases were partially offset by a decrease in FDIC insurance expense of \$1.0 million due to a change in the assessment base methodology during the third quarter of 2011.

For the fourth quarter of 2012, total non-interest expenses increased \$2.6 million, from \$18.7 million for the fourth quarter of 2011 to \$21.3 million. Salaries and employee benefit expense increased \$1.0 million, primarily associated with the acquisition of Virginia Savings Bancorp and increased health insurance costs. In addition, advertising expense increased \$0.4 million, merger related expenses increased \$0.3 million, occupancy and equipment expenses increased \$0.2 million, and repossessed asset losses increased \$0.2 million from the fourth quarter of 2011.

Balance Sheet Trends

Loans increased \$173.3 million (8.8%) from December 31, 2011 to \$2.15 billion at December 31, 2012, in part due to the Company's acquisition of Virginia Savings Bancorp, Inc. (\$72.0 million). Excluding the Virginia Savings Bancorp, Inc. acquisition, loans increased \$101.3 million (5.1%) from December 31, 2011 to \$2.07 billion at December 31, 2012. Increases in residential real estate loans of \$69.7 million (7.5%) and commercial real estate loans of \$57.6 million (7.9%) were partially offset by a decline in commercial and industrial ("C&I") loans of \$23.9 million.

Total average depository balances increased \$186.9 million, or 8.5%, from the quarter ended December 31, 2011 to the quarter ended December 31, 2012. This growth was primarily attributable to deposits acquired from Virginia Savings Bancorp, Inc. (\$122.7 million). Exclusive of this contribution, the Company experienced increases in noninterest-bearing demand deposits (\$35.2 million), savings deposits (\$31.5 million), and interest-bearing demand deposits (\$20.3 million) that were partially offset by a decrease in time deposits (\$22.9 million).

Income Tax Expense

The Company's effective income tax rate for the quarter and year ended December 31, 2012 was 34.9% and 34.3%, respectively, compared to 33.2% and 33.6% for the quarter and year ended December 31, 2011, respectively.

Capitalization and Liquidity

One of the Company's strengths is that it is highly profitable while maintaining strong liquidity and capital. With respect to liquidity, the Company's loan to deposit ratio was 89.1% and the loan to asset ratio was 73.6% at December 31, 2012. The Company maintained investment securities totaling 13.8% of assets as of this date. Further, the Company's deposit mix is weighted heavily toward checking and saving accounts that fund 51.1% of assets at December 31, 2012. Time deposits fund 31.5% of assets at December 31, 2012, but very few of these deposits are in accounts that have balances of more than \$250,000, reflecting the core retail orientation of the Company.

The Company is also strongly capitalized. The Company's tangible equity ratio was 9.4% at both December 31, 2012 and at December 31, 2011. At December 31, 2012, City National Bank's leverage ratio is 8.72%, its tier I capital ratio is 11.51%, and its total risk-based capital ratio is 12.40%. These regulatory capital ratios are significantly above levels required to be considered "well capitalized," which is the highest possible regulatory designation.

On December 19, 2012, the Board approved a quarterly cash dividend of 35 cents per share payable January 31, 2013, to shareholders of record as of January 15, 2013. During the year ended December 31, 2012, the Company repurchased 237,535 common shares at a weighted average price of \$33.32 as part of a one million share repurchase plan authorized by the Board of Directors in July 2011. At December 31, 2012, the Company could repurchase approximately 454,000 shares under the July 2011 authorization.

City Holding Company is the parent company of City National Bank of West Virginia. City National operates 73 branches across West Virginia, Kentucky, Virginia, and Ohio.

City completed the acquisition of Staunton, Virginia-based Community Financial Corporation ("Community") and its wholly owned banking subsidiary, Community Bank effective January 10, 2013 at 12:01 a.m. The merger, which was announced in August 2012, received the approval of all required regulatory agencies in December 2012 and Community's shareholders on January 8, 2013. Community shareholders received 0.1753 shares of City stock for each share of Community common stock, resulting in the issuance of 766,849 shares of City Holding Company. In connection with the acquisition, City repaid Community's borrowings under the U.S. Troubled Asset Relief Program (TARP) of \$12.6 million on January 9, 2013.

At December 31, 2012, Community had total assets of approximately \$460 million, with stockholders' equity of approximately \$53 million, loans of approximately \$410 million, and deposits of approximately \$380 million. In addition, nonperforming assets at December 31, 2012 totaled \$27 million. During the quarter ended December 31, 2012, Community had net interest income of \$5.1 million, noninterest income of \$0.85 million, and noninterest expenses of \$4.3 million. Included in the noninterest expenses for the quarter ending December 31, 2012 were compensation and benefit costs of \$2.0 million, repossessed asset losses of \$0.8 million, data processing expenses of \$0.25 million, and professional expenses of \$0.2 million. City expects to reduce compensation and benefit expenses by approximately 25% based on employees retained after January 2013. During the fourth quarter of 2012, City recognized approximately \$0.2 million, after taxes, of one-time merger related expenses for the Community acquisition and anticipates that between \$4.0 million and \$4.6 million, after taxes, will be recognized in the first quarter of 2013. Additionally, the credit mark originally estimated at \$55 million is now anticipated to be in the range of \$46 million to \$51 million.

This acquisition further expands City's presence in Virginia by adding ten branches and City grows to \$3.4 billion in assets with 83 banking offices in West Virginia, Virginia, Kentucky, and Ohio.
