#### Forward Looking Statements:

This supplemental package contains certain statements that may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements can generally be identified by our use of forward-looking terminology such as “may,” “will,” “expect,” “intend,” “anticipate,” “estimate,” “believe,” “continue,” or other similar words. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date this supplemental package is published, and which are subject to certain risks and uncertainties which could cause actual results to differ materially from those projected or anticipated. These risks and uncertainties include, without limitation: general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, dependence on tenants’ financial condition, and competition from other owners and operators of real estate); adverse economic or real estate developments in the company’s target markets; risks associated with the availability and terms of financing, the use of debt to fund acquisitions, and the ability to refinance indebtedness as it comes due; reductions in asset valuations and related impairment charges; risks associated with downturns in foreign, domestic and local economies, changes in interest rates; potential liability for uninsured losses and environmental contamination; risks associated with the company’s potential failure to qualify as a REIT under the Internal Revenue Code of 1986, as amended, and possible adverse changes in tax and environmental laws; and risks associated with the company’s dependence on key personnel whose continued service is not guaranteed. We do not intend to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. For additional risks and uncertainties that would cause actual results to differ materially from those presented in our forward-looking statements see our Annual Report on Form 10-K for the year ended December 31, 2012.

On the Cover: Top Left - 333 Market Street in San Francisco, CA; Top Right - 5 Houston in Houston, TX; Bottom - Market Square in Washington D.C.

AFFO Payout Ratio (7)	115.2%	102.1%	126.9%	212.2%	113.3%

(1) Gross Real Estate Assets includes (i) land, (ii) building and improvements, (iii) intangible lease assets, (iv) construction in progress, (v) intangible lease origination costs, less (vi) intangible lease liabilities.

(2) Net debt is calculated as the total principal amount of debt outstanding minus cash and cash equivalents.

(3) NOI margin is calculated as GAAP NOI divided by total GAAP revenues including continuing and discontinued operations.

(4) Fixed charge coverage is calculated as EBITDA divided by the sum of interest expense, principal amortization, capitalized interest and preferred dividends. Columbia had no capitalized interest or preferred dividends during any of the periods presented.

(5) EBITDA is annualized for the purposes of this calculation.

(6) Calculated as gross dividends for the quarter divided by FFO for the quarter.

(7) Calculated as gross dividends for the quarter divided by AFFO for the quarter.

NOTE: This section includes non-GAAP financial measures, which are accompanied by what we consider the most directly comparable financial measures calculated and presented in accordance with GAAP. Quantitative reconciliations of the differences between the non-GAAP financial measures presented and the most directly comparable GAAP financial measures are shown on pages 8 & 10. A description of the non-GAAP financial measures we present and a statement of the reasons why management believes the non-GAAP measures provide useful information to investors about the company's financial condition and results of operations can be found on page 19.

(1) Includes amounts attributable to consolidated properties, including discontinued operations.

(2) See Quarterly Report on Form 10-q for the quarter ended March 31, 2013 for a description of these one time fees.

(3) GAAP implicitly assumes that the value of intangible lease assets (liabilities) diminishes predictably over time and, thus, requires these charges to be recognized ratably over the respective lease terms. Such intangible lease assets (liabilities) arise from the allocation of acquisition price related to direct costs associated with obtaining a new tenant, the value of opportunity costs associated with lost rentals, the value of tenant relationships, and the value of effective rental rates of in-place leases that are above or below market rates of comparable leases at the time of acquisition. Like real estate values, market lease rates in aggregate have historically risen or fallen with local market conditions.

(4) This item represents amortization of financing costs paid in connection with executing our debt instruments, and the accretion of premiums (and amortization of discounts) on certain of our debt instruments. GAAP requires these items to be recognized over the remaining term of the respective debt instrument, which may not correlate with the ongoing operations of our real estate portfolio.

(5) See page 20 of this supplemental report for a description of Non-Incremental Capital Expenditures.

(1) Columbia Property Trust is party to an interest rate swap agreement, which effectively fixes its interest rate on the 333 Market Street Building mortgage note at 4.75% per annum and terminates on July 1, 2015. This interest rate swap agreement does not qualify for hedge accounting treatment; therefore, changes in fair value are recorded as loss on interest rate swaps in our consolidated statements of operations.

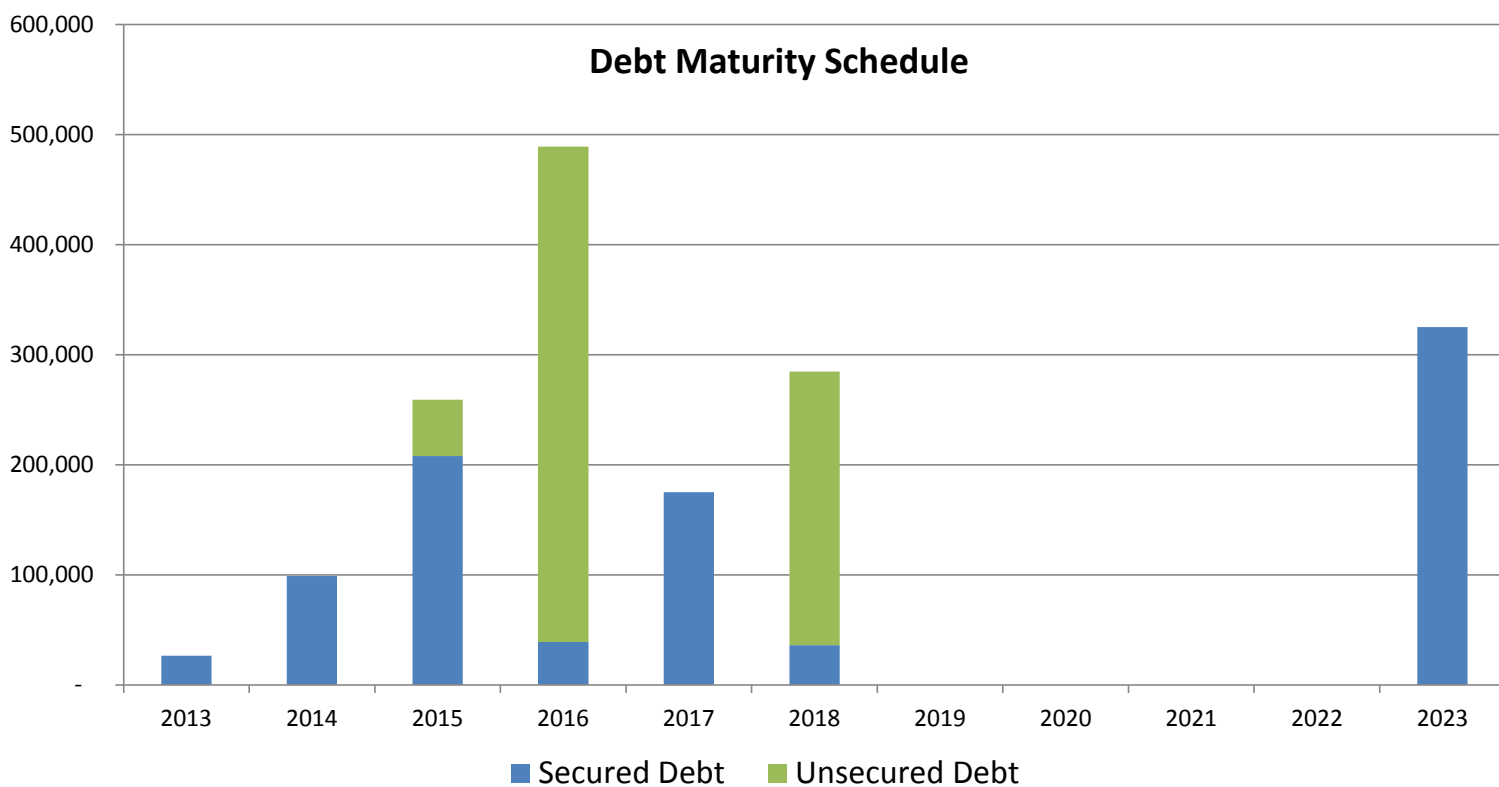

(2) Columbia Property Trust is party to an interest rate swap agreement, which effectively fixes its interest rate on the Three Glenlake Building mortgage note at 5.95% per annum and terminates on July 31, 2013. This interest rate swap agreement does not qualify for hedge accounting treatment; therefore, changes in fair value are recorded as loss on interest rate swaps in our consolidated statements of operations.

(3) Columbia Property Trust is party to an interest rate swap agreement, which effectively fixes its interest rate on the \$450 Million Term Loan at 2.63% per annum and terminates on February 3, 2016. This interest rate swap agreement qualifies for hedge accounting treatment; therefore, changes in fair value are recorded as a market value adjustment to interest rate swap in our consolidated statements of other comprehensive income.

(4) The JPMorgan Chase Bank, N.A. (the "JPMorgan Chase Bank") unsecured debt bears interest at a rate based on, at the option of Columbia Property Trust, LIBOR for one-, two-, three-, or six-month periods, plus an applicable margin ranging from 1.25% to 2.05% based on credit rating, or the alternate base rate which is the greater of (a) Prime Rate, (b) Fed Funds plus 1/2 of 1%, and (c) the Libor Rate plus 1%, plus a margin ranging from 0.25% to 1.05%.

### Industry Diversification

(1) Credit rating may reflect the credit rating of the parent or a guarantor. Only the Standard & Poor's credit rating has been provided.

(2) Unless otherwise indicated, Lease Expiration represents the expiration year of the majority of the square footage leased by the tenant.

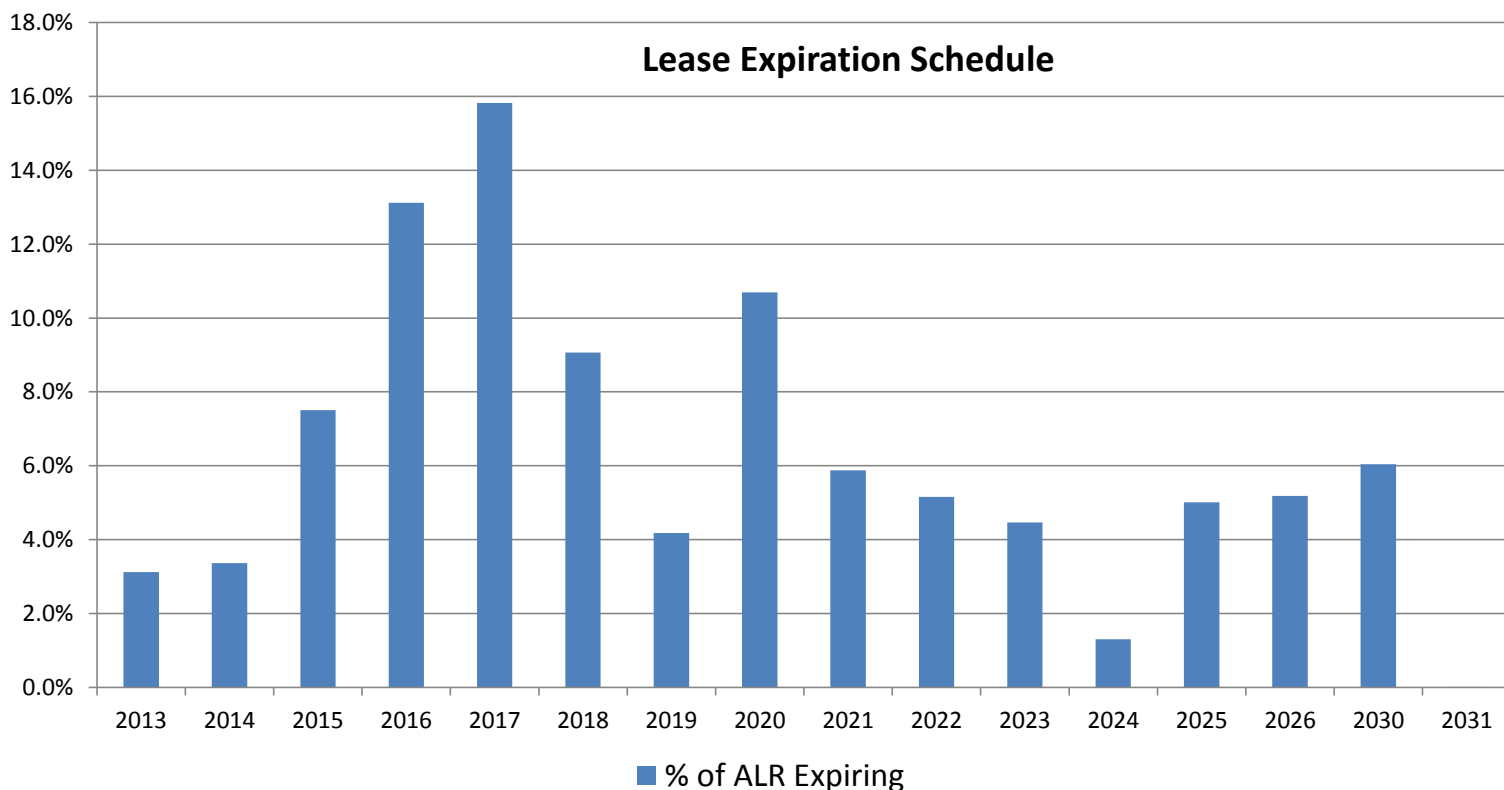

(3) There are several leases with AT&T with expiration years ranging from 2013-2023. As a percentage of AT&T's expiring ALR, there is 14.5% expiring in 2013, 6.1% in 2018, 48.1% in 2020, and 31.3% in 2023.

(4) There are several leases with Wells Fargo Bank N.A. with expiration years ranging from 2014-2026. As a percentage of Wells Fargo's expiring ALR, there is 0.9% expiring in 2014, 18.8% in 2016, 16.2% in 2017, 13.7% in 2019, and 50.4% in 2026.

(5) There are several leases with IBM with expiration years ranging from 2016-2020. As a percentage of IBM's expiring ALR, there is 35.9% expiring in 2016, 1.1% expiring in 2019, and 63.0% in 2020.

(1) Expiring ALR is calculated as expiring square footage multiplied by the gross rent per square foot of the tenant currently leasing the space.

(2) Total expiring lease revenue in any given year will not tie to the expiring Annualized Lease Revenue presented on the Lease Expiration Schedule on the previous page as the Lease Expiration Schedule accounts for the revenue effects of newly signed leases. Reflected herein are expiring revenues based on in place rental rates.

*Unaudited*

Included in this supplemental report are non-GAAP financial measures, which are accompanied by what we consider the most directly comparable financial measures calculated and presented in accordance with GAAP. A description of the non-GAAP financial measures we present and a statement of the reasons why management believes the non-GAAP measures provide useful information to investors about the company's financial condition and results of operations can be found below.

**Adjusted Funds From Operations ("AFFO"):** AFFO is calculated by adjusting Normalized FFO to exclude (i) additional amortization of lease assets (liabilities), (ii) straight-line rental income, (iii) gain (loss) on interest rate swaps, (iv) and non-incremental capital expenditures, and adding back (vi) non-cash interest expense. We believe AFFO is an indicator of our ability to fund cash needs and to make cash distributions to shareholders. AFFO is a non-GAAP financial measure and should not be viewed as an alternative measurement of our operating performance to net income, as an alternative to net cash flows from operating activities or as a measure of our liquidity.

**Annualized Lease Revenue ("ALR"):** ALR is calculated by multiplying (i) rental payments (defined as base rent plus operating expense reimbursements, if payable by the tenant on a monthly basis under the terms of a lease that have been executed, but excluding a) rental abatements and b) rental payments related to executed but not commenced leases for space that was covered by an existing lease), by (ii) 12. In instances in which contractual rents or operating expense reimbursements are collected on an annual, semi-annual, or quarterly basis, such amounts are multiplied by a factor of 1, 2, or 4, respectively, to calculate the annualized figure. For leases that have been executed but not commenced relating to vacant space, ALR is calculated by multiplying (i) the monthly base rental payment (excluding abatements) plus any operating expense reimbursements for the initial month of the lease term, by (ii) 12.

**EBITDA :** EBITDA is defined as net income before interest, taxes, depreciation and amortization and incrementally removing any impairment losses, gains or losses from sales of property, consulting and transition services fees, real estate acquisition-related costs or other extraordinary items. We do not include impairment losses in this measure because we feel these types of losses create volatility in our earnings and make it difficult to determine the earnings generated by our ongoing business. We believe EBITDA is a reasonable measure of our liquidity. EBITDA is a non-GAAP financial measure and should not be viewed as an alternative measurement of cash flows from operating activities or other GAAP basis liquidity measures. Other REITs may calculate EBITDA differently and our calculation should not be compared to that of other REITs.

**Funds From Operations ("FFO"):** FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT"), represents net income (computed in accordance with GAAP), excluding gains (losses) on sales of real estate and impairments of real estate assets, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. The Company computes FFO in accordance with NAREIT's definition, which may differ from the methodology for calculating FFO, or similarly titled measures, used by other companies and this may not be comparable to those presentations. We consider FFO an appropriate supplemental performance measure given its wide use by and relevance to investors and analysts. FFO, reflecting the assumption that real estate asset values rise or fall with market conditions, principally adjusts for the effects of GAAP depreciation and amortization of real estate assets, which assume that the value of real estate diminishes predictably over time.

**Normalized FFO:** We calculate Normalized FFO by starting with FFO, as defined by NAREIT, and adjusting for (i) consulting and transition services fees and (ii) real estate acquisition-related costs. Such items create significant earnings volatility. We believe Normalized FFO provides a meaningful measure of our operating performance and more predictability regarding future earnings potential. Normalized FFO is a non-GAAP financial measure and should not be viewed as an alternative measurement of our operating performance to net income; therefore, it should not be compared to other REITs' equivalent to Normalized FFO.

**Net Operating Income ("NOI"):** NOI is defined as real estate operating income with the add-back of portfolio general and administrative expense, depreciation and amortization, and casualty and impairment losses and the deduction of income and expense associated with lease terminations. The company uses this measure to assess its operating results and believes it is important in assessing operating performance. NOI is a non-GAAP measure which does not have any standard meaning prescribed by GAAP and therefore may not be comparable to similar measures presented by other companies.

**Incremental Capital Expenditures :** Incremental Capital Expenditures are defined as capital expenditures of a non-recurring nature that incrementally enhance the underlying assets' income generating capacity. Tenant improvements, leasing commissions, building capital and deferred lease incentives incurred to lease space that was vacant at acquisition, improvements associated with the expansion of a building and renovations that change the underlying classification of a building are included in this measure.

**Non-Incremental Capital Expenditures:** Non-Incremental Capital Expenditures are defined as capital expenditures of a recurring nature related to tenant improvements and leasing commissions that do not incrementally enhance the underlying assets' income generating capacity. We exclude first generation tenant improvements and leasing commissions from this measure.

**Same Store Net Operating Income ("Same Store NOI"):** Same Store NOI is calculated as the NOI attributable to the properties owned or placed in service during the entire span of the current and prior year reporting periods. We believe Same Store NOI is an important measure of comparison of our stabilized properties' operating performance. Other REITs may calculate Same Store NOI differently and our calculation should not be compared to that of other REITs.

**Same Store Properties:** Same Store Properties is defined as properties owned or placed in service during the entire span of the current and prior year reporting periods. We believe Same Store Properties is an important measure of comparison of our stabilized portfolio performance.
