Integrys Energy Group, Inc. Reports First Quarter 2014 Earnings

Guidance Range for 2014 Diluted EPS - Adjusted Remains Between \$3.50 and \$3.75

**Chicago – May 1, 2014 –** Integrys Energy Group, Inc. (NYSE: TEG) recognized earnings on a Generally Accepted Accounting Principles (GAAP) basis and an adjusted basis as follows:

	Three Months Ended <u>March 31</u>			
	<u>2014</u>	<u>2013</u>		
GAAP earnings (millions)	\$152.4	\$187.5		
GAAP diluted earnings per share	\$1.89	\$2.37		
Adjusted earnings (millions) *	\$139.7	\$139.9		
Diluted earnings per share – adjusted *	\$1.73	\$1.76		

Adjusted earnings exclude the effects of certain items that are not comparable from one period to the next.

#### **FIRST QUARTER RESULTS**

Adjusted earnings for the first quarter of 2014 did not change significantly from the first quarter of 2013.

Both utility segments saw increases in adjusted earnings. Rate increases related to the Fox Energy Center purchase and the main replacement program in the City of Chicago were the primary drivers for these increases. While weather contributed to an increase in margins at the regulated utilities, this increase was substantially offset by increased operating expenses driven primarily by weather and increased plant maintenance.

A decrease in adjusted earnings at Integrys Energy Services was driven by a decrease in realized retail electric margins, partially offset by increased realized retail natural gas margins, and increased operating costs due to expansion of the retail natural gas business.

<sup>\*</sup> This news release includes non-GAAP financial measures. Schedules that provide details on these measures and reconcile these measures to the most comparable GAAP figures are included with this news release.

Integrys Energy Group, Inc.
First Quarter 2014 Earnings News Release
May 1, 2014

#### **EARNINGS FORECAST**

Integrys Energy Group's guidance range for 2014 diluted earnings per share on a GAAP basis is \$4.10 to \$4.35. This guidance assumes the availability of generation units, and normal weather conditions for the rest of the year. Integrys Energy Group is not estimating the impact of derivative and inventory fair value accounting activities for 2014. The company's guidance range for 2014 diluted earnings per share – adjusted is \$3.50 to \$3.75.

#### **SUPPLEMENTAL DATA PACKAGE**

A supplemental data package has been posted on Integrys Energy Group's website. It includes this news release, as well as financial statements, non-GAAP financial information, guidance information for diluted earnings per share, and quarterly financial information by reportable segment.

#### **CONFERENCE CALL**

An earnings conference call is scheduled for 8 a.m. Central time on Friday, May 2, 2014. The call can be accessed 15 minutes prior to the scheduled start time by dialing 888-788-9425. Callers will be required to supply EARNINGS as the passcode and MR. STEVEN ESCHBACH as the leader. A replay of the conference call will be available through July 29, 2014, by dialing 866-424-4009.

Investors may also listen to the live conference or a replay on Integrys Energy Group's website at http://www.integrysgroup.com/investor/presentations.aspx.

PowerPoint slides will be posted on the website and will be referred to within the prepared remarks during the call. The slides will be available at 6 a.m. Central time on May 2, 2014.

#### **FORWARD-LOOKING STATEMENTS**

Financial results in this news release are unaudited. In this news release, Integrys Energy Group makes statements concerning its expectations, beliefs, plans, objectives, goals, strategies, and future events or performance. These statements are "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are not guarantees of future results and conditions. Although Integrys Energy Group believes that these forward-looking statements and the underlying assumptions are reasonable, it cannot provide assurance that such statements will prove correct.

Forward-looking statements involve a number of risks and uncertainties. Some risks that could cause actual results to differ materially from those expressed or implied in forward-looking statements include those described in Item 1A of Integrys Energy Group's Annual Report on Form 10-K for the year ended December 31, 2013, as may be amended or supplemented in Part II, Item 1A of subsequently filed Quarterly Reports on Form 10-Q, and those identified below.

- The timing and resolution of rate cases and related negotiations, including recovery of deferred and current costs and the ability to earn a reasonable return on investment, and other regulatory decisions impacting the regulated businesses;
- Federal and state legislative and regulatory changes, including deregulation and restructuring of the electric and
  natural gas utility industries, financial reform, health care reform, energy efficiency mandates, reliability
  standards, pipeline integrity and safety standards, and changes in tax and other laws and regulations to which
  Integrys Energy Group and its subsidiaries are subject;

Integrys Energy Group, Inc. First Quarter 2014 Earnings News Release May 1, 2014

- The risk of terrorism or cyber security attacks, including the associated costs to protect assets and respond to such events;
- The risk of failure to maintain the security of personally identifiable information, including the associated costs to notify affected persons and to mitigate their information security concerns;
- Federal and state legislative and regulatory changes relating to the environment, including climate change and other environmental regulations impacting generation facilities and renewable energy standards;
- Costs and effects of litigation and administrative proceedings, settlements, investigations, and claims;
- The ability to retain market-based rate authority;
- The effects, extent, and timing of competition or additional regulation in the markets in which Integrys Energy Group's subsidiaries operate;
- Changes in credit ratings and interest rates caused by volatility in the financial markets and actions of rating
  agencies and their impact on Integrys Energy Group's and its subsidiaries' liquidity and financing efforts;
- The risk of financial loss, including increases in bad debt expense, associated with the inability of Integrys Energy Group's and its subsidiaries' counterparties, affiliates, and customers to meet their obligations;
- The effects of political developments, as well as changes in economic conditions and the related impact on customer energy use, customer growth, and the ability to adequately forecast energy use for Integrys Energy Group's customers;
- The ability to use tax credit and loss carryforwards;
- The investment performance of employee benefit plan assets and related actuarial assumptions, which impact future funding requirements;
- The risk associated with the value of goodwill or other intangible assets and their possible impairment;
- The timely completion of capital projects within estimates, as well as the recovery of those costs through established mechanisms;
- Potential business strategies, including acquisitions or dispositions of assets or businesses, which cannot be assured to be completed timely or within budgets;
- The risks associated with changing commodity prices, particularly natural gas and electricity, and the available sources of fuel, natural gas, and purchased power, including their impact on margins, working capital, and liquidity requirements;
- Changes in technology, particularly with respect to new, developing, or alternative sources of generation;
- Unusual weather and other natural phenomena, including related economic, operational, and/or other ancillary effects of any such events;
- The impact of unplanned facility outages;
- The financial performance of American Transmission Company and its corresponding contribution to Integrys Energy Group's earnings;
- The timing and outcome of any audits, disputes, and other proceedings related to taxes;
- The effectiveness of risk management strategies, the use of financial and derivative instruments, and the related recovery of these costs from customers in rates;
- The effect of accounting pronouncements issued periodically by standard-setting bodies; and
- Other factors discussed in reports Integrys Energy Group files with the United States Securities and Exchange Commission.

Except to the extent required by the federal securities laws, Integrys Energy Group undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

#### **About Integrys Energy Group, Inc.**

Integrys Energy Group is a diversified energy holding company with regulated natural gas and electric utility operations (serving customers in Illinois, Michigan, Minnesota, and Wisconsin), an approximate 34% equity ownership interest in

Integrys Energy Group, Inc. First Quarter 2014 Earnings News Release May 1, 2014

American Transmission Company (a federally regulated electric transmission company operating primarily in Wisconsin, Michigan, Minnesota, and Illinois), and nonregulated energy operations.

# Diluted Earnings Per Share – Adjusted and Weather Impacts

#### Diluted Earnings Per Share Information (Non-GAAP Information)

We prepare financial statements in accordance with accounting principles generally accepted in the United States (GAAP). In addition, we disclose and discuss diluted earnings per share (EPS) – adjusted and adjusted earnings (loss), which are non-GAAP measures. Management uses these measures in its internal performance reporting and for reports to the Board of Directors. We disclose these measures in our quarterly earnings releases, on investor conference calls, and during investor conferences and related events. Management believes that diluted EPS – adjusted and adjusted earnings (loss) are useful measures for providing investors with additional insight into our operating performance. These measures allow investors to better compare our financial results from period to period, as they eliminate the effects of certain items that are not comparable. This additional information is not meant to be considered in isolation or as a substitute for our results of operations prepared and presented in conformance with GAAP. Tax impacts are calculated using the applicable combined federal and state statutory rate modified for any attributable permanent tax effect and/or tax credit.

Note: All amounts are shown net of tax. Certain variances have been adjusted to exclude amounts that have no impact on net income, including certain utility riders.

<sup>(1)</sup> Includes the impact of variances in weather-normalized sales volumes on utility margins, changes in interest expense, and other miscellaneous items

<sup>(2)</sup> In the first quarter of 2013, Peoples Gas and North Shore Gas reversed reserves that had been recorded in 2012 against decoupling amounts

<sup>(3)</sup> Driven by an increase in natural gas distribution costs at Peoples Gas as well as an increase in depreciation and amortization expense

<sup>(4)</sup> Includes the impact of the purchase of the Fox Energy Center

<sup>(5)</sup> Driven by increased maintenance costs at Wisconsin Public Service's Pulliam generation plant and the purchase of the Fox Energy Center at the end of the first quarter of 2013

Total Exposure	\$	23.9	\$	17.3	\$	6.7	\$	(0.1)	\$	48.4	\$	43.6	\$	4.9	\$	(0.1)	

The investment and non-investment grade categories are determined by publicly available credit ratings of the counterparty or the rating of any guarantor, whichever is higher. Investment grade counterparties are those with a senior unsecured Moody's rating of Baa3 or above or a Standard & Poor's rating of BBB- or above. Exposure considers netting of accounts receivable and accounts payable where netting agreements are in place, as well as net mark-to-market exposure.
