**CAPITOL FEDERAL FINANCIAL, INC.
ANNOUNCES LEVERAGE STRATEGY**

Topeka, KS – Capitol Federal® Financial, Inc. (NASDAQ: CFFN) (the “Company”) announced today a leverage strategy being implemented by Capitol Federal Savings Bank (the “Bank”).

The leverage strategy involves borrowing from the Federal Home Loan Bank Topeka (“FHLB”) up to \$2.10 billion on the Bank’s line of credit (“LOC”). The borrowing will consist of two leverage tiers. The first \$800.0 million is intended to remain borrowed on the LOC for an extended period of time while the additional \$1.30 billion will be borrowed in the first days of each quarter and paid off prior to the end of each quarter. Per FHLB policy, the Bank is required to purchase 4.5% of the amount borrowed in FHLB stock. The proceeds of the borrowings, net of FHLB stock purchased, will be deposited at the Federal Reserve Bank of Kansas City. Under current conditions, this leverage strategy will increase pre-tax income approximately \$4.5 million annually, the average balance of borrowings approximately \$2.10 billion, the average balance of cash approximately \$2.00 billion and FHLB stock approximately \$100.0 million each quarter and reduce the net interest margin by approximately 35 basis points. The \$800.0 million of leverage not paid off at quarter end will reduce the Bank’s Tier 1 equity ratio to about 13.0%. This transaction is expected to have minimal impact on the Bank’s ability to manage its interest rate risk and liquidity.
