San Jose, CA - October 23, 2014 - Heritage Commerce Corp (Nasdaq: HTBK), the holding company (the "Company") for Heritage Bank of Commerce (the "Bank"), today reported that net income was $\$ 3.4$ million, or $\$ 0.11$ per average diluted common share, for the third quarter of 2014 , compared to $\$ 3.2$ million, or $\$ 0.10$ per average diluted common share for the third quarter of 2013 , and $\$ 3.3$ million, or $\$ 0.10$ per average diluted common share for the second quarter of 2014. For the nine months ended September 30, 2014, net income increased $20 \%$ to $\$ 9.8$ million, or $\$ 0.31$ per average diluted common share, from $\$ 8.2$ million, or $\$ 0.26$ per average diluted common share, for the nine months ended September 30, 2013. All results are unaudited.
"We reported another quarter of solid profitability, generating growth in loans and deposits, and further enhancing credit quality," said Walter Kaczmarek, President and Chief Executive Officer. "Our diversified loan portfolio increased $15 \%$ from a year ago and our total deposits increased $12 \%$ year-over-year, with noninterest-bearing deposits increasing $19 \%$ from the third quarter of 2013. Additionally, we announced that we are acquiring Bay View Funding, a nationally recognized leader in the factoring industry, which we expect to complement our commercial banking franchise."

On October 9, 2014, the Company announced that Heritage Bank of Commerce signed a definitive agreement to acquire BVF/CSNK Acquisition Corp. ("BVF") for $\$ 22.5$ million in cash. Based in Santa Clara, California, BVF is the parent company of CSNK Working Capital Finance Corp. dba Bay View Funding, which provides business-essential working capital factoring financing to various industries throughout the United States. BVF had total assets of $\$ 40.6$ million as of September 30, 2014. This transaction is expected to close in the fourth quarter of 2014. BVF will become a subsidiary of Heritage Bank of Commerce, reporting to Keith Wilton, the Chief Operating Officer. "Keith Wilton has a strong background in factoring, so this acquisition fits well with his expertise," Mr. Kaczmarek noted. Heritage Bank of Commerce expects to incur pre-tax acquisition and integration costs of approximately $\$ 1.0$ million to $\$ 1.3$ million in the third and fourth quarters of 2014. The pre-tax acquisition costs incurred by the Bank for the BVF transaction totaled $\$ 234,000$ during the third quarter of 2014.
"We are excited about this acquisition and look forward to welcoming Bay View Funding clients to the Heritage Bank of Commerce family," commented Mr. Kaczmarek. "We view this acquisition as an opportunity to strategically deploy excess capital and improve profitability, as we eventually combine these higheryielding assets with our low cost deposits. In addition, the acquisition will enhance our product offering and thus, our commercial banking franchise."
"With the continued profitability of our franchise, and the pending acquisition of BVF, we are again declaring a quarterly cash dividend of $\$ 0.05$ per share," added Mr. Kaczmarek. The dividend will be payable to holders of common stock and Series C preferred stock (on an as converted basis) on November 24, 2014, to shareholders of record on November 6, 2014.

The decrease for the third quarter of 2014 was primarily due to a higher average balance of low interest earning short-term deposits at the Federal Reserve Bank in anticipation of the BVF acquisition. For the nine months ended September 30,2014 , the net interest margin increased 17 basis points to $4.02 \%$, from $3.85 \%$ for the nine months ended September 30, 2013, reflecting loan growth, higher yields on securities, and a lower cost of funds.

## Operating Results

Net interest income increased $9 \%$ to $\$ 14.0$ million for the third quarter of 2014 , compared to $\$ 12.8$ million for the third quarter of 2013 , and increased $2 \%$ from $\$ 13.7$ million for the second quarter of 2014, as a result of growth in the loan portfolio and increases in core deposits. Net interest income increased $10 \%$ to $\$ 41.0$ million for the nine months ended September 30, 2014, compared to $\$ 37.1$ million for the nine months ended September 30, 2013.

The net interest margin (FTE) was $3.93 \%$ for the third quarter of 2014, compared to $3.94 \%$ for the third quarter of 2013, and $4.07 \%$ for the second quarter of 2014. The decrease for the third quarter of 2014 was primarily due to a higher average balance of low interest earning deposits at the Federal Reserve Bank in anticipation of the BVF acquisition. For the nine months ended September 30, 2014, the net interest margin increased 17 basis points to $4.02 \%$, from $3.85 \%$ for the nine months ended September 30, 2013, reflecting loan growth, higher yields on securities, and a lower cost of funds.
Solid credit quality metrics led to a $\$ 24,000$ credit to the provision for loan losses for the third quarter of 2014 , compared to a $\$ 534,000$ credit to the provision for loan losses for the third quarter of 2013, and a $\$ 198,000$ credit to the provision for loan losses for the second quarter of 2014. There was a $\$ 232,000$ credit to the provision for loan losses for the nine months ended September 30, 2014, compared to an $\$ 804,000$ credit to the provision for loan losses for the nine months ended September 30, 2013.
Noninterest income was $\$ 1.9$ million for the third quarter of 2014, compared to $\$ 1.7$ million for the third quarter of 2013, and $\$ 2.0$ million for the second quarter of 2014. For the nine months ended September 30, 2014, noninterest income was $\$ 5.9$ million, compared to $\$ 5.3$ million for the nine months ended September 30, 2013. Largely due to a higher gain on sales of SBA loans and gain on sales of securities, noninterest income was higher for the third quarter and for the nine months ended September 30, 2014, compared to the same periods in 2013.
Noninterest expense for the third quarter of 2014 was $\$ 10.1$ million, a decrease of $2 \%$ from $\$ 10.4$ million for the third quarter of 2013, and decreased $7 \%$ from $\$ 10.9$ million for the second quarter of 2014. The decrease in noninterest expense for the third quarter of 2014, compared to the third quarter of 2013 and second quarter of 2014 , was primarily due to the reclassification of $\$ 353,000$ of low income housing investment losses, partially offset by $\$ 234,000$ in costs related to the BVF acquisition during the third quarter of 2014. Noninterest expense in the second quarter of 2014 also reflected costs associated with the reorganization of administrative responsibilities included in salaries and employee benefits expense, and net recoveries in legal fees as a result of the resolution or payoff of certain problem loans included in professional fees. Noninterest expense for the nine months ended September 30, 2014 increased $1 \%$ to $\$ 31.8$ million, compared to $\$ 31.6$ million for the nine months ended September 30, 2013. The increase in noninterest expense for nine months ended September 30, 2014 was primarily due to increased salaries and employee benefits expense and costs related to the BVF acquisition, partially offset by the reclassification of low income housing investment losses and lower professional fees. Higher salaries and employee benefits expense reflected the growth in staffing for business initiatives, and costs associated with the reorganization of administrative responsibilities in the second quarter of 2014. Full- time equivalent employees were 200, 192, and 203 at September 30, 2014, September 30, 2013, and June 30, 2014, respectively.
The Company adopted the proportional amortization method of accounting for its low income housing investments in the third quarter of 2014. The Company quantified the impact of adopting the proportional amortization method compared to the equity method to its current year and prior period financial statements. The Company determined that the adoption of the proportional amortization method did not have a material impact to its financial statements; therefore, the Company did not adjust its prior period financial statements. During the third quarter of 2014, the Company reclassified $\$ 353,000$ of low income housing investment losses that was previously reported as noninterest expense for the first six months of 2014. The low income housing investment losses, net of the tax benefits received, are included in income tax expense on the consolidated statements of income for the three months and nine months ended September 30, 2014. The change in accounting method also resulted in an increase in the effective tax rate from $33.5 \%$ for the three months and six months ended June 30,2014 to $40.4 \%$ and $36.1 \%$ for the three months and nine months ended September 30, 2014, respectively. Low income housing investment losses of $\$ 320,000$ and $\$ 930,000$ are reported in noninterest expense for the three months and nine months ended September 30, 2013, respectively. The effective tax rate was $32.0 \%$ and $30.1 \%$ for the three months and nine months ended September 30, 2013, respectively.
The efficiency ratio for the third quarter of 2014 improved to $63.92 \%$, compared to $71.25 \%$ for the third quarter of 2013 , and $69.50 \%$ for the second quarter of 2014. The efficiency ratio for the nine months ended September 30, 2014 was $67.75 \%$, compared to $74.32 \%$ for the nine months ended September 30, 2013. The decrease in the efficiency ratio in the third quarter and nine months ended September 30, 2014, compared to the same periods in 2013, was primarily due to the reclassification of low income housing investment losses, and higher net interest income and noninterest income.
Income tax expense for the third quarter of 2014 was $\$ 2.3$ million, compared to $\$ 1.5$ million for the third quarter of 2013, and $\$ 1.7$ million for the second quarter of 2014. The effective tax rate for the third quarter of 2014 increased to $40.4 \%$, compared to $32.0 \%$ for the third quarter of 2013 and $33.5 \%$ for the second quarter of 2014. Income tax expense for the nine months ended September 30, 2014 was $\$ 5.5$ million, compared to $\$ 3.5$ million for the nine months ended September 30, 2013. The effective tax rate for the nine months ended September 30,2014 was $36.1 \%$, compared to $30.1 \%$ for the nine months ended September 30, 2013. The increase in the effective tax rate for the third quarter of 2014 and nine months ended September 30, 2014, compared to the comparable periods in 2013, was primarily due to the adoption of the proportional amortization method of accounting for its low income housing investments in the third quarter of 2014. The difference in the effective tax rate for the periods reported, compared to the combined Federal and state statutory tax rate of $42 \%$, is primarily the result of the Company's investment in life insurance policies whose earnings are not subject to taxes, tax credits related to investments in low income housing limited partnerships, the adoption of the proportional amortization method of accounting for its low income housing investments in the third quarter of 2014, and taxexempt interest income earned on municipal bonds. The Company had California Enterprise Zone tax savings of approximately $\$ 162,000$ for 2013. The California state legislature eliminated the Enterprise Zone tax deductions beginning January 1, 2014.

## Balance Sheet Review, Capital Management and Credit Quality

Total assets were $\$ 1.56$ billion at September 30, 2014, compared to $\$ 1.40$ billion at September 30, 2013, and $\$ 1.48$ billion at June 30, 2014.
The investment securities available-for-sale portfolio totaled $\$ 191.7$ million at September 30, 2014, compared to $\$ 280.5$ million at September 30, 2013, and $\$ 261.5$ million at June 30, 2014. During the third quarter of 2014, the Company received proceeds of $\$ 63.2$ million from the sales and calls of securities available-for-sale, for a net gain on sales of securities of $\$ 47,000$. The sale of securities consisted of $\$ 27.3$ million of asset-backed securities, $\$ 22.8$ million of corporate bonds, and $\$ 8.4$ million of agency mortgage-backed securities. Additionally, a $\$ 4.5$ million agency mortgage-backed security was called during the third quarter of 2014.

At September 30, 2014, investment securities held-to-maturity totaled $\$ 94.8$ million, compared to $\$ 89.7$ million at September 30, 2013, and $\$ 96.0$ million at June 30, 2014. Loans, excluding loans held-for-sale, increased $15 \%$ to $\$ 1.03$ billion at September 30, 2014, from $\$ 893.1$ million at September 30, 2013, and increased $4 \%$ from $\$ 990.3$ million at June 30, 2014. The loan portfolio remains well-diversified with commercial and industrial ("C\&I") loans accounting for $42 \%$ of the loan portfolio at September 30, 2014. Consumer and home equity loans accounted for $8 \%$ of total loans, and land and construction loans accounted for the remaining $5 \%$ of total loans at September 30, 2014. C\&I line usage was $43 \%$ at September 30, 2014, compared to 45\% at September 30, 2013, and 42\% at June 30, 2014.

The yield on the loan portfolio was $4.77 \%$ for the third quarter of 2014 , compared to $4.85 \%$ for the third quarter of 2013. For the nine months ended September 30,2014 , the yield on the loan portfolio was $4.80 \%$, compared to $4.97 \%$ for the nine months ended September 30, 2013. The decrease in the yield on the loan portfolio for the third quarter and nine months ended September 30, 2014, compared to the same periods in 2013, reflects increasing competitive market conditions for new loan production.
NPAs decreased to $\$ 7.7$ million, or $0.50 \%$ of total assets, at September 30, 2014, compared to $\$ 15.7$ million, or $1.12 \%$ of total assets, at September 30, 2013, and $\$ 8.7$ million, or $0.59 \%$ of total assets, at June 30, 2014.
