### **Special Cautionary Notice Regarding Forward-Looking Statements**

Statements and financial discussion and analysis contained in this quarterly report on Form 10-Q that are not historical facts are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on various facts and derived utilizing numerous important assumptions and are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. You should understand that the following important factors could affect our future results and cause actual results to differ materially from those expressed in the forward-looking statements:

- risks related to the concentration of our business within our geographic areas of operation in Texas, including risks associated with downturns in the energy, technology and real estate sectors within these areas;
- risks related to our energy reserve exposure and energy related service industry exposure of our total funded loans and the decline in oil prices;
- our ability to execute on our growth strategy, including through the identification of acquisition candidates that will be accretive to our financial condition and results of operation;
- risks related to the integration of any acquired businesses, including exposure to potential asset quality and credit quality risks and unknown or contingent liabilities, the time and costs associated with integrating systems, technology platforms, procedures and personnel, the need for additional capital to finance such transactions, and possible failures in realizing the anticipated benefits from acquisitions;
- our ability to comply with various governmental and regulatory requirements applicable to financial institutions;
- market conditions and economic trends nationally, regionally and in our target markets, particularly in Texas and the geographic areas in which we operate;
- our ability to attract and retain successful bankers that meet our expectations in terms of customer relationships and profitability;
- risks related to our strategic focus on lending to small to medium-sized businesses;
- risks associated with our commercial and industrial loan portfolio, including the risk for deterioration in value of the general business assets that generally secure such loans;
- potential changes in the prices, values and sales volumes of commercial and residential real estate securing our real estate loans;
- the sufficiency of the assumptions and estimates we make in establishing reserves for probable loan losses and other estimates;
- risks associated with the relatively unseasoned nature of a significant portion of our loan portfolio;
- risks related to our concentration of loans to a limited number of borrowers and in a limited geographic area;
- our ability to maintain adequate liquidity and to raise necessary capital to fund our acquisition strategy, operations or to meet increased minimum regulatory capital levels;
- changes in market interest rates that affect the pricing of our loans and deposits and our net interest income;
- our ability to maintain an effective system of disclosure controls and procedures and internal controls over financial reporting;
- the effects of competition from a wide variety of local, regional, national and other providers of financial, investment and insurance services;
- potential fluctuations in the market value and liquidity of the securities we hold for sale;
- potential impairment on the goodwill we may record in connection with business acquisitions;
- risks associated with system failures or failures to prevent breaches of our network security;
- a failure in or breach of operational or security systems of the Company's infrastructure, or those of its third-party vendors and other service providers, including as a result of cyber attacks;
- our ability to keep pace with technological change or difficulties when implementing new technologies;

- risks associated with data processing system failures and errors;
- risks associated with fraudulent and negligent acts by our customers, employees or vendors;
- the institution and outcome of litigation and other legal proceeding against us or to which we become subject;
- the impact of recent and future legislative and regulatory changes, including changes in banking, securities and tax laws and regulations and their application by our regulators, such as the Dodd-Frank Act;
- governmental monetary and fiscal policies, including the policies of the Board of Governors of the Federal Reserve System (the “Federal Reserve”);
- the failure of the Company’s enterprise risk management framework to identify or address risks adequately;
- our ability to comply with supervisory actions by federal banking agencies;
- changes in the scope and cost of Federal Deposit Insurance Corporation (the “FDIC”) insurance and other coverages;
- systemic risks associated with the soundness of other financial institutions;
- acts of terrorism, an outbreak of hostilities or other international or domestic calamities, weather or other acts of God and other matters beyond the Company’s control; and
- other risks and uncertainties listed from time to time in the Company’s reports and documents filed with the Securities and Exchange Commission.

Other factors not identified above, including those described in our Annual Report on Form 10-K for year ended December 31, 2014 under the headings “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and those described in the definitive joint proxy statement/prospectus on Form S-4 (Registration No. 333-205495) filed by the Company on August 12], 2015 may also cause actual results to differ materially from those described in our forward-looking statements. Most of these factors are difficult to anticipate and are generally beyond our control. You should consider these factors in connection with considering any forward-looking statements that may be made by us. We undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events unless we are required to do so by law.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**1. BASIS OF PRESENTATION**

The interim condensed consolidated financial statements include the accounts of Green Bancorp, Inc. (“Green Bancorp”), together with Green Bank, N.A., its subsidiary bank, (the “Company”). All intercompany transactions and balances have been eliminated.

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial information. In the opinion of management, the interim statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis and all such adjustments are of a normal recurring nature. These financial statements and the accompanying notes should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2014. Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015 or any other period.

**Organization**—Green Bancorp is a Texas corporation that was incorporated on October 20, 2004. In 2006 Green Bancorp entered into an agreement and plan of merger with Redstone Bank, National Association (“Redstone Bank”), a national banking association located in Houston, Texas, for the purpose of acquiring all of the issued and outstanding stock of Redstone Bank. The acquisition was completed on December 31, 2006, and Green Bancorp became a bank holding company registered under the Bank Holding Company Act of 1956, as amended.

Green Bank, N.A. (the “Bank”) is a national banking association, which was chartered under the laws of the United States of America as a national bank on February 17, 1999, as Redstone Bank. On September 14, 2007, the name was changed to Green Bank, N.A. The Bank provides commercial and consumer banking services in the greater Houston, Dallas, Austin and Louisville metropolitan areas.

**Use of Estimates**—The preparation of financial statements in conformity with generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the valuation of available-for-sale securities, acquired assets and liabilities, goodwill, and fair value of financial instruments.

**2. EARNINGS PER COMMON SHARE**

Basic earnings per common share is computed as net income available to common shareholders divided by the weighted average number of common shares outstanding during the period.

Diluted earnings per common share is computed using the weighted-average number of shares determined for the basic earnings per common share computation plus the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock using the treasury stock method. Outstanding stock options issued by the Company represent the only dilutive effect reflected in diluted weighted average shares.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

The following table illustrates the computation of basic and diluted earnings per share:

	Three Months Ended June 30,		2014		Six Months Ended June 30,		2014	
	2015	Per Share	Amount	Per Share	Amount	Per Share	Amount	Per Share
	Amount	Amount	Amount	Amount	Amount	Amount	Amount	Amount
	(Amounts in thousands, except per share amounts)							
Net income	\$ 4,138		\$ 4,674		\$ 8,787		\$ 8,162	
<b>Basic:</b>								
Weighted average shares outstanding	26,199	\$ 0.16	20,780	\$ 0.22	26,186	\$ 0.34	20,778	\$ 0.39

Add incremental shares for:								
Effect of dilutive securities - options	319		155		298		143	
Total	26,518	\$ 0.16	20,935	\$ 0.22	26,484	\$ 0.33	20,921	\$ 0.39

### 3. RECENT ACCOUNTING STANDARDS

#### *Accounting Standards Updates (“ASU”)*

FASB ASU No. 2014-04—“*Receivables—Troubled Debt Restructuring by Creditors (Subtopic 310-40): Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans Upon Foreclosure*” clarifies when an in substance foreclosure occurs, that is, when a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan. This is the point when the consumer mortgage loan should be derecognized and the real property recognized. ASU 2014-04 was effective for the Company on January 1, 2015 and did not have a significant impact on the Company’s financial statements.

FASB ASU No. 2014-09 — “*Revenue from Contract with Customers (Topic 606)*” supersedes the revenue recognition requirements in Revenue Recognition (Topic 605), and most industry-specific guidance throughout the Industry Topics of the Codification. Additionally ASU 2014-09 supersedes some cost guidance included in Revenue Recognition—Construction-Type and Production-Type Contracts (Subtopic 605-35). In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer are amended to be consistent with the guidance on recognition and measurement. The core principal of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. On June 9, 2015, FASB deferred the effective date, therefor the adoption of this ASU becomes effective for the Company beginning after January 1, 2018, with retrospective application to each prior reporting period presented, and is not expected to have a significant impact on the Company’s financial statements.

FASB ASU No. 2014-11 — “*Transfers and Servicing (Topic 860) – Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosure*” changes the accounting for repurchase-to-maturity transactions to secured borrowing accounting. It also requires separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty, which will result in secured borrowing accounting and disclosure for the repurchase agreement. The adoption of this ASU becomes effective for the Company beginning after January 1, 2016 and is not expected to have a significant impact on the Company’s financial statements.

FASB ASU No. 2014-12 — “*Compensation-Stock Compensation (Topic 718) – Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*” requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. The performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

should be recognized prospectively over the remaining requisite service period. The total amount of the compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved. The adoption of this ASU becomes effective for the Company beginning after January 1, 2016 and is not expected to have a significant impact on the Company's financial statements.

FASB ASU No. 2014-14 — *“Classification of Certain Government-Guaranteed Mortgage Loans Upon Foreclosure”* requires creditors to reclassify mortgage loans as another receivable that is separate from loans and to measure the receivable at the fixed or determinable amount expected to be received under the government guarantee if upon foreclosure the mortgage loans meet certain conditions. ASU 2014-04 was effective for the Company on January 1, 2015 and did not have a significant impact on the Company's financial statements.

FASB ASU No. 2015-01 — *“Income Statement - Extraordinary and Unusual Items (Subtopic 225-20) – Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items.”* ASU 2015-01 eliminates from U.S. GAAP the concept of extraordinary items, which, among other things, required an entity to segregate extraordinary items considered to be unusual and infrequent from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. ASU 2015-01 is effective for the Company beginning January 1, 2016, though early adoption is permitted. ASU 2015-01 is not expected to have a significant impact on the Company's financial statements.

FASB ASU No. 2015-02 — *“Consolidation (Topic 810) – Amendments to the Consolidation Analysis.”* ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. Specifically, the amendments: 1) Modify the evaluation of whether limited partnerships and similar legal entities are variable interest entities (VIEs) or voting interest entities, 2) Eliminate the presumption that a general partner should consolidate a limited partnership, 3) Affect the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships, 4) Provide a scope exception from consolidation guidance for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar to those in Rule 2A-7 of the Investment Company Act of 1940 for registered money market funds. ASU 2015-02 is effective for the Company beginning January 1, 2016. ASU 2015-02 is not expected to have a significant impact on the Company's financial statements.

FASB ASU No. 2015-03 — *“Interest – Imputation of Interest (Subtopic 835-30) – Simplifying the Presentation of Debt Issuance Costs.”* ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU 2015-03 is effective for the Company beginning January 1, 2017. ASU 2015-03 is not expected to have a significant impact on the Company's financial statements.

FASB issued ASU No. 2015-05 — *“Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40) – Customer's Accounting for Fees Paid in a Cloud Computing Arrangement.”* ASU 2015-05 provides a basis for evaluating whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, then the arrangement should be accounted for as a service contract. ASU 2015-05 is effective for the Company beginning January 1, 2016. ASU 2015-05 is not expected to have a significant impact on the Company's financial statements.

#### **4. ACQUISITIONS**

Acquisitions are an integral part of the Company's growth strategy. All acquisitions were accounted for using the acquisition method of accounting. Accordingly, the assets and liabilities of the acquired entities were recorded at their fair values at the acquisition date. The excess of the purchase price over the estimated fair value of the net assets for tax-free acquisitions is recorded as goodwill, none of which is deductible for tax purposes. The excess of the purchase price over the estimated fair value of the net assets for taxable acquisitions was recorded as goodwill, and is deductible for tax purposes. The identified core deposit intangibles for each acquisition are being amortized using a non-pro rata basis over an estimated life of six to sixteen years. The results of operations for each acquisition have been included in the Company's consolidated financial results beginning on the respective acquisition date.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

The measurement period for the Company to determine the fair values of acquired identifiable assets and assumed liabilities will end at the earlier of (1) twelve months from the date of the acquisition or (2) as soon as the Company receives the information it was seeking about facts and circumstances that existed as of the acquisition date or learns that more information is not obtainable. The Company is currently in the process of obtaining fair values for certain acquired assets and assumed liabilities and therefore the following estimates for the SharePlus acquisition are preliminary.

On October 17, 2014, the Company completed the acquisition of SP Bancorp, Inc. and its wholly owned subsidiary SharePlus Bank (collectively "SharePlus"). SharePlus Bank was a Texas chartered state bank headquartered in Plano, Texas, with four branches, two in Plano, Texas, one in Dallas, Texas and one in Louisville, Kentucky. The expansion complements the Company's Dallas area growth. As of September 30, 2014, SharePlus, on a consolidated basis, had \$348.7 million in total assets, \$248.2 million in loans, \$280.5 million in deposits and \$33.7 million in stockholders' equity. The acquisition was not considered significant to the Company's financial statements and therefore pro forma financial data and related disclosures are not included.

Pursuant to the terms of the acquisition agreement, the Company paid \$46.4 million in cash for all outstanding shares of SP Bancorp capital stock, which resulted in goodwill of \$14.5 million as of June 30, 2015. Additionally, the Company recognized \$3.5 million of core deposit intangibles as of June 30, 2015. These goodwill, deferred tax asset and core deposit intangible balances as of June 30, 2015 do not include potential subsequent fair value adjustments that are still being finalized.

## 5. CASH AND CASH EQUIVALENTS

The Bank, as a correspondent of the Federal Reserve Bank, is required to maintain average reserve balances. Interest-bearing deposits include restricted amounts of \$51.0 million and \$42.0 million at June 30, 2015 and December 31, 2014, respectively, as a result of this requirement.

## 6. SECURITIES

The amortized cost and fair value of securities as of the dates set forth were as follows:

	June 30, 2015			Fair Value
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	
(Dollars in thousands)				
<b>Available-for-sale:</b>				
Obligations of the U.S. Treasury and other U.S. government agencies or sponsored enterprises	\$ 95,069	\$ 86	\$ (29)	\$ 95,126

Expected maturities of securities will differ from contractual maturities because the underlying borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. The following table sets forth, as of the date indicated, contractual maturities of securities:

	June 30, 2015			
	Available-for-sale		Held-to-maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
(Dollars in thousands)				
Due in one year or less	\$ 65,053	\$ 65,038	\$ -	\$ -
Due after one year through five years	30,016	30,088	-	-
Mortgage-backed securities issued by U.S. government agencies or sponsored enterprises	87,738	89,604	16,919	17,133
Collateralized mortgage obligations issued by U.S. government agencies or sponsored enterprises	26,852	26,733	30,500	30,211
<b>Total</b>	<b>\$ 209,659</b>	<b>\$ 211,463</b>	<b>\$ 47,419</b>	<b>\$ 47,344</b>

There were no sales of securities during the three or six months ended June 30, 2015 or 2014.

Management evaluates securities for other-than-temporary impairment (“OTTI”) at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. The investment securities portfolio is evaluated for OTTI by segregating the portfolio into two general segments and applying the appropriate OTTI model. Investment securities classified as available-for-sale or held-to-maturity are evaluated for OTTI under ASC 320, *Investments—Debt and Equity Securities*.

In determining OTTI, management considers many factors, including: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, (3) whether the market decline was affected by macroeconomic conditions, and (4) whether the entity has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The assessment of whether an other-than-temporary decline exists involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

When OTTI occurs, the amount of the other-than-temporary impairment recognized in earnings depends on whether an entity intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis less any current-period credit loss.

As of June 30, 2015, the Company does not intend to sell any debt securities classified as held-to-maturity and management believes that the Company more likely than not will not be required to sell any debt securities that are in a loss position before their anticipated recovery, at which time the Company will receive full value for the securities. Furthermore, as of June 30, 2015, management does not have the intent to sell any of its securities classified as available-for-sale that are in a loss position and believes that it is more likely than not that the Company will not have to sell any such securities before a recovery of cost. The unrealized losses are largely due to increases in market interest rates over the yields available at the time the underlying securities were purchased. The fair value is expected to recover as the securities approach their maturity date or repricing date or if market yields for such investments decline. Management does not believe any of the securities are impaired due to reasons of credit quality. Accordingly, as of June 30, 2015, management believes any impairment in the Company's securities is temporary and no impairment loss has been realized in the Company's consolidated statements of income.

Declines in the fair value of individual securities below their cost that are other-than-temporary would result in writedowns, as a realized loss, to their fair value. In evaluating other-than-temporary impairment losses, management considers several factors including the severity and the duration that the fair value has been less than cost, the credit quality of the issuer, and whether it is more likely than not that the Company will be required to sell the security before a recovery in value. The Company has not realized any losses due to other-than-temporary impairment of securities as of June 30, 2015.

Securities with unrealized losses segregated by length of continuous unrealized loss position as of the dates set forth were as follows:

	<b>June 30, 2015</b>					
	<b>Less than 12 Months</b>			<b>12 Months or More</b>		
	<b>Amortized Cost</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>	<b>Amortized Cost</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>

The Company did not own securities of any one issuer (other than the U.S. government and its agencies or sponsored enterprises) for which the aggregate adjusted cost exceeds 10% of the consolidated shareholders' equity at June 30, 2015 or December 31, 2014.

Securities with an amortized cost of \$16.3 million and \$17.7 million and fair value of \$16.4 million and \$17.9 million were pledged and available to be sold under repurchase agreements at June 30, 2015 and December 31, 2014, respectively. Securities with an amortized cost of \$100.0 million and \$55.0 million and fair value of \$100.0 million and \$54.8 million were pledged to various Federal Reserve Districts related to deposits of bankruptcy trustees at June 30, 2015 and December 31, 2014, respectively. In addition, securities with an amortized cost of \$566 thousand and \$669 thousand and fair value of \$592 thousand and \$701 thousand were pledged as collateral for the Company's derivative instruments at June 30, 2015 and December 31, 2014, respectively.

## 7. LOANS

The loan portfolio classified by type and class as of the dates set forth were as follows:

	June 30, 2015		
	Originated	Acquired	Total
(Dollars in thousands)			
Commercial & industrial	\$ 777,094	\$ 18,389	\$ 795,483
<b>Real estate:</b>

<b>Total loans held for investment</b>	<b>\$ 1,703,927</b>	<b>\$ 190,815</b>	<b>\$ 1,894,742</b>
<b>Total loans held for sale</b>	<b>\$ 1,287</b>	<b>\$ -</b>	<b>\$ 1,287</b>

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

	<u>Originated</u>	<b>December 31, 2014</b>	
		<u>Acquired</u>	<u>Total</u>
(Dollars in thousands)			
Commercial & industrial	\$ 759,810	\$ 28,600	\$ 788,410
Real estate:			
Owner occupied commercial real estate	148,197	15,395	163,592
Commercial real estate	308,521	30,485	339,006
Construction, land & land development	230,143	10,523	240,666
Residential mortgage	107,275	149,791	257,066
Consumer and other	6,785	3,630	10,415
Total loans held for investment	<u>\$ 1,560,731</u>	<u>\$ 238,424</u>	<u>\$ 1,799,155</u>
Total loans held for sale	<u>\$ 573</u>	<u>\$ -</u>	<u>\$ 573</u>

The loan portfolio is comprised of three types, commercial and industrial loans, real estate loans and consumer and other loans. The real estate loans are further segregated into owner occupied commercial real estate, commercial real estate, which includes multi-family loans, construction, land and land development, which includes both commercial construction and loans for the construction of residential properties and residential mortgage, which includes first and second liens and home equity lines. Consumer and other loans includes various types of loans to consumers and overdrafts. Loans are further separated between loans originated by the Company and loans acquired.

Included in the loans held for investment balance was \$9.6 million and \$10.3 million of net deferred loan origination fees and unamortized premium and discount at June 30, 2015 and December 31, 2014, respectively. Also included in loans at June 30, 2015 and December 31, 2014, respectively was \$601 thousand and \$1.4 million in non-accretable discount on acquired credit impaired loans. Accrued interest receivable on loans was \$4.8 million and \$4.5 million at June 30, 2015 and December 31, 2014, respectively. Consumer and other loans include overdrafts of \$77 thousand and \$51 thousand as of June 30, 2015 and December 31, 2014, respectively.

The loan portfolio consists of various types of loans made principally to borrowers located in the Houston, Dallas, Austin and Louisville metropolitan areas. Although the portfolio is diversified and generally secured by various types of collateral, a substantial portion of its debtors' ability to honor their obligations is dependent on local economic conditions. The risks created by this geographic concentration and our exposure to energy related borrowers have been considered by management in the determination of the adequacy of the allowance for loan losses.

Reserved-based energy loans in the commercial and industrial portfolio outstanding represented approximately 7.3% and 8.7% of total funded loans, respectively, as of June 30, 2015 and December 31, 2014. Energy related service industry loans represented approximately 4.1% and 5.2% of total funded loans, respectively, as of June 30, 2015 and December 31, 2014. None of these loans were impaired as of June 30, 2015. Management believes the allowance for loan losses is appropriate to cover estimated losses on loans at each balance sheet date.

In the ordinary course of business, the Company has granted loans to certain directors, officers and their affiliates. In the opinion of management, all transactions entered into between the Bank and such related parties have been and are in the ordinary course of business, made on the same terms and conditions as similar transactions with unaffiliated persons.

An analysis of activity with respect to these related-party loans for the periods ended June 30, 2015 and December 31, 2014 was as follows:

	<b>June 30, 2015</b>	<b>December 31, 2014</b>
	<b>(Dollars in thousands)</b>	
Beginning balance	\$ -	\$ -
Advances	-	2

**Impaired Loans** — The following is a summary of information related to nonaccrual restructured loans and accruing loans past due 90 days or more as of the dates set forth:

	<b>June 30, 2015</b>	<b>December 31, 2014</b>
	<b>(Dollars in thousands)</b>	
Nonaccrual loans	\$ 4,402	\$ 2,127
Accruing loans past due 90 days or more	-	16
Restructured loans - nonaccrual	1,712	2,717
Restructured loans - accruing	681	2,257
Total nonperforming loans	<u>\$ 6,795</u>	<u>\$ 7,117</u>

Impaired loans of \$6.1 million and \$4.8 million at June 30, 2015 and December 31, 2014 respectively, have been categorized by management as nonaccrual loans. Interest foregone on nonaccrual loans for the three months ended June 30, 2015 and 2014 was approximately \$66 thousand and \$133 thousand, respectively, and for the six months ended June 30, 2015 and 2014 was approximately \$230 thousand and \$341 thousand, respectively.

**Credit Quality** — Internally assigned risk grades for loans are defined as follows:

*Grade 1 (Highest Quality — No Apparent Risk)* — This category includes loans to borrowers of unquestioned credit standing which are secured by readily marketable collateral of undisputed value, with appropriate margin. It also includes loans to borrowing entities with: excellent capitalization, liquidity and earnings levels; quality management; positive financial trends; and favorable industry conditions.

*Grade 2 (Good Quality — Minimal Risk)* — This category includes loans to investment grade entities with: good liquidity and financial condition, nominal term debt, strong debt service capability, solid management, and quality financial information. These loans are usually secured with current assets, but may be unsecured. Alternative financing from other lenders is generally available to these borrowers.

*Grade 3 (Satisfactory Quality — Acceptable Risk — Tier One)* — This category includes loans to entities maintaining fair liquidity and acceptable financial conditions. The level of term debt is moderate, with adequate debt service capability. Earnings may be volatile, but borrowers in this category generally do not show a loss within the last three years. Primary debt service must be supported by identified secondary repayment sources or by guarantors with adequate and proven responsibility and capacity.

*Grade 4 (Satisfactory Quality — Acceptable Risk — Tier Two)* — This category includes loans to borrowers maintaining acceptable financial conditions; however may exhibit certain characteristics of leverage or asset dependency that reflect a greater level of risk than Tier One credits. This category may also include borrowers exhibiting explainable interim losses within the previous three years and/or industry characteristics that warrant frequent monitoring.

*Grade 5 (Monitored Loans)* — This category includes loans with trends or characteristics which, if continued, could result in impaired repayment ability. The borrower may exhibit a low degree of liquidity and relatively high leverage, erratic earnings history (including the possibility of a reported loss in the past four years), significant term debt and a nominal cushion for debt service capacity. Loans in this category may also include financing to start-up borrowers backed by experienced management and significant capital investment or established companies in distressed industry conditions.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

*Grade 6 (Other Assets Especially Mentioned)* — This category includes loans which have potential weaknesses that deserve management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or a weakening of the Company’s credit position at some future date. Grade 6 loans are not adversely classified and do not expose the Company to sufficient risk to warrant adverse classification.

*Grade 7 (Substandard — Accruing)* — This category includes loans which are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any, or loans with identified weaknesses but where there is sufficient collateral value and/or cash flow coverage. This category includes loans that: (1) may require a secondary source of repayment (liquidation of collateral or repayment by a guarantor), (2) lack current financial information or appraisals, and/or (3) have collateral deficiencies such that the Company would be in an unsecured position with an obligor not deserving unsecured credit. This category may also include borrowers with operating losses in recent periods.

*Grade 8 (Substandard — Nonaccrual)* — This category includes loans with the same basic characteristics as Grade 7 loans and also meet the Company’s criteria for nonaccrual status, but do not warrant a Grade 9 or Grade 10 classification.

*Grade 9 (Doubtful/Exposure)* — This category includes loans with all the Grade 7 or 8 characteristics but with weaknesses that make collection (or liquidation) highly questionable and improbable.

*Grade 10 (Loss)* — This category includes loans which are considered uncollectible, or of such little value that they should no longer be carried as an asset of the Company.

The credit risk profile of loans aggregated by class and internally assigned risk grades as of the dates set forth were as follows:

	<b>June 30, 2015</b>

**Troubled Debt Restructurings** — The restructuring of a loan is considered a troubled debt restructuring if both the borrower is experiencing financial difficulties and the creditor has granted a concession. Concessions may include interest rate reductions or below market interest rates, principal forgiveness, restructuring amortization schedules and other actions intended to minimize potential losses.

Troubled debt restructurings identified during the periods indicated were as follows:

	<b>Six Months Ended</b>					
	<b>June 30, 2015</b>			<b>June 30, 2014</b>		
	<b>Number of Contracts</b>	<b>Pre-Modification Outstanding Recorded Investment</b>	<b>Recorded Investment as of June 30, 2015</b>	<b>Number of Contracts</b>	<b>Pre-Modification Outstanding Recorded Investment</b>	<b>Recorded Investment as of June 30, 2014</b>
	(Dollars in thousands)					
Commercial & industrial	3	\$ 985	\$ 877	3	\$ 545	\$ 542
Construction, land & land development	-	-	-	1	30	30
Consumer and other	-	-	-	1	125	125
Total	<u>3</u>	<u>\$ 985</u>	<u>\$ 877</u>	<u>5</u>	<u>\$ 700</u>	<u>\$ 697</u>

The modifications primarily related to extending the maturity date of the loans, which includes loans modified post-bankruptcy. The Company did not forgive any principal or interest on the restructured loans. For the six months ended June 30, 2015, the Company added \$985 thousand in new troubled debt restructurings of which \$877 thousand was still outstanding on June 30, 2015. The decrease in outstanding balance was primarily due to payments received. For the six months ended June 30, 2014, the Company added \$700 thousand in new troubled debt restructurings of which \$697 thousand was still outstanding on June 30, 2014. The decrease in outstanding balance was primarily due to payments received.

Troubled debt restructurings are individually evaluated for impairment. The allowance for loan losses included specific reserves of \$305 thousand related to the \$632 thousand of these loans at June 30, 2015.

## 9. PREMISES AND EQUIPMENT

Premises and equipment as of the dates indicated are summarized as follows:

	<u>June 30, 2015</u>	<u>December 31, 2014</u>
	(Dollars in thousands)	
Land	\$ 7,652	\$ 7,652
Buildings and improvements	21,882	21,831
Furniture, fixtures and equipment	8,191	8,075
	37,725	37,558
Less accumulated depreciation	(12,952)	(12,358)
Total	<u>\$ 24,773</u>	<u>\$ 25,200</u>

Depreciation of premises and equipment totaled \$394 thousand and \$371 thousand for the three months ended June 30, 2015 and 2014, respectively, and \$820 million and \$707 million for the six months ended June 30, 2015 and 2014, respectively.

## 10. GOODWILL AND CORE DEPOSIT INTANGIBLES

The Company reviews its goodwill for impairment annually, or more frequently, if indicators of impairment exist. At June 30, 2015 and December 31, 2014, management determined that goodwill, as reflected in the Company's financial statements, was not impaired. The most recent goodwill impairment test was as of December 31, 2014. Subsequent to year end, management has determined that no triggering events have occurred that would result in impairment.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

Changes in the carrying amount of goodwill and core deposit intangibles for the periods set forth were as follows:

	<b>Goodwill</b>	<b>Core Deposit Intangibles</b>
	<b>(Dollars in thousands)</b>	
Balance - December 31, 2013	\$ 15,672	\$ 984
Add - acquisition of SharePlus	14,457	3,467
Less - amortization	-	(303)
Balance - December 31, 2014	\$ 30,129	\$ 4,148
Less amortization	-	(296)
Balance - June 30, 2015	\$ 30,129	\$ 3,852

The Company initially records the total premium paid on acquisitions as goodwill. After finalizing the valuation, core deposit intangibles are identified and reclassified from goodwill to core deposit intangibles on the balance sheet. This reclassification has no effect on total assets, liabilities, shareholders' equity, net income or cash flows. The measurement period for the Company to determine the fair value of acquired identifiable assets and assumed liabilities will be at the end of the earlier of (1) twelve months from the date of acquisition or (2) as soon as the Company receives the information it was seeking about facts and circumstances that existed as of the date of acquisition. The Company may record subsequent adjustments to goodwill for amounts undeterminable at acquisition date, such as deferred taxes and real estate valuations, and therefore the goodwill amounts reflected in the table above may change accordingly. As such, the SharePlus acquisition completed during 2014 may be subject to adjustments in goodwill, core deposit intangibles and deferred taxes.

Core deposit intangibles are amortized on an accelerated basis over their estimated lives, which the Company believes is approximately six to sixteen years. The estimated future amortization expense for the core deposit intangibles remaining as of the date indicated is as follows:

	<b>June 30, 2015</b>	
	<b>(Dollars in thousands)</b>	
2015	\$	294
2016		571
2017		525
2018		318
2019		271
Thereafter		1,873
Total	\$	3,852

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**11. DEPOSITS**

Included in certificates and other time deposits are individual amounts of \$100,000 or more including brokered certificates of deposit, if any. The remaining maturities of these deposits as of the dates indicated are as follows:

	<b>June 30, 2015</b>	<b>December 31, 2014</b>
<b>(Dollars in thousands)</b>		
Three months or less	\$ 84,539	\$ 83,584
Over three through six months	79,455	86,893
Over six through twelve months	166,574	95,389
Over one through two years	92,618	112,316
Over two through three years	76,633	43,191
Over three through four years	27,990	74,745
Over four through five years	8,653	9,158
Over five years	-	-
Total	\$ 536,462	\$ 505,276

Interest expense for certificates of deposit and other time deposits of \$100,000 or more was approximately \$1.4 million and \$1.4 million for the three months ended June 30, 2015 and 2014, respectively, and \$2.7 million and \$2.8 million for the six months ended June 30, 2015 and 2014, respectively.

The Company had \$4.3 million and \$5.7 million in brokered time deposits, at June 30, 2015 and December 31, 2014, respectively.

There are no major concentrations of deposits with any one depositor.

**12. OTHER BORROWED FUNDS**

Other borrowed funds as of the dates indicated were as follows:

	<b>June 30, 2015</b>	<b>December 31, 2014</b>
<b>(Dollars in thousands)</b>		
Federal Home Loan Bank advances	\$ 67,309	\$ 47,586
Repurchase agreements	9,858	4,605
Total	\$ 77,167	\$ 52,191

**Federal Home Loan Bank Advances** — The Company has an available borrowing arrangement with the FHLB, which allows the Company to borrow on a collateralized basis. At June 30, 2015 and December 31, 2014, total borrowing capacity of \$392.6 million and \$367.2 million, respectively, was available under this arrangement. At June 30, 2015, \$67.3 million was outstanding with an average interest rate of 0.30% and all of the Company’s FHLB advances mature within eight years. At December 31, 2014, \$47.6 million was outstanding with an average interest rate of 0.25% and all of the Company’s FHLB advances mature within eight years. These borrowings are collateralized by a blanket lien on certain loans. The total borrowing capacity increased due to loan portfolio growth. The Company utilizes these borrowings to meet liquidity needs and to fund certain fixed rate loans in its loan portfolio.

**Federal Reserve Bank** — The Company has an available borrower in custody arrangement with the Federal Reserve Bank of Dallas (the “Fed”), which allows the Company to borrow, on a collateralized basis. Certain commercial and consumer loans are pledged under this arrangement. The Company maintains this borrowing arrangement to meet liquidity needs pursuant to its contingency funding plan. At June 30, 2015 and December 31, 2014, \$246.5 million and \$377.3 million, respectively, were available under this arrangement and no borrowings were outstanding.

**Securities Sold Under Agreements to Repurchase** — Securities sold under agreements to repurchase represent the purchase of interests in securities by banking customers. Securities sold under agreements to repurchase are stated at the amount of cash received

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

in connection with the transaction. Repurchase agreements with banking customers are settled on the following business day. All securities sold under agreements to repurchase are collateralized by pledged securities. The securities underlying the repurchase agreements are held in safekeeping by the Bank's safekeeping agent.

**Federal Funds Purchased** — The Company has available federal funds lines of credit with its correspondent banks. As of June 30, 2015 and December 31, 2014, there were no federal funds purchased outstanding.

### **13. INCOME TAXES**

Income tax expense was \$2.4 million and \$2.6 million for the three months ended June 30, 2015 and 2014, respectively, and \$5.0 million and \$4.6 million for the six months ended June 30, 2015 and 2014, respectively. The Company's effective tax rate was 36.3% and 35.9% for the three months ended June 30, 2015 and 2014, respectively, and 36.5% and 36.0% for the six months ended June 30, 2015 and 2014, respectively.

### **14. EMPLOYEE BENEFITS**

**Equity Incentive Plan** — The 2014 Omnibus Equity Incentive Plan (the "2014 Plan") was approved by the Company's Board of Directors and shareholders on July 28, 2014 and became effective immediately prior to the initial public offering on August 7, 2014. A total of 1,273,838 shares of common stock were reserved for issuance under the 2014 Plan, which permits the grant of incentive stock options, within the meaning of Section 422 of the IRS Code, to the Company's employees, and the grant of non-statutory stock options, stock appreciation rights, restricted stock, restricted stock units, performance units, performance shares and other forms of equity-based awards to the Company's employees, directors, consultants and independent contractors. The 2014 Plan is administered by the Compensation Committee of the Board of Directors, who may select which eligible participants receive awards, the types of awards to be granted, the purchase price, if any, to be paid for shares covered by the awards and the vesting, forfeiture, cancellation and other terms and conditions of the awards.

*Stock Options.* At June 30, 2015 and December 31, 2014 there were 41,000 and 11,000 time based options outstanding under the 2014 Plan, respectively. The Company has three additional stock options plans, all of which are frozen to further issuance.

The Green Bancorp, Inc. 2010 Stock Option Plan (the "2010 Option Plan"), which was approved by the Company's Board of Directors on June 30, 2010, permitted the grant of up to 2,239,906 options. The non-qualified stock options granted were in the form of time-based options and performance options and may have been granted to a director, officer or employee of the Company. Time-based options under the 2010 Option Plan vest over a period of four years and expire on the tenth anniversary of the date of the grant. Performance options under the 2010 Option Plan vest upon the occurrence of a liquidity event, with the vested amounts determined based on the achievement of specified performance and market metrics. The 2010 Option Plan was frozen to further issuance upon approval of the 2014 Omnibus Plan. At June 30, 2015 there were 392,225 time based options and 1,644,616 performance options outstanding under the 2010 Option Plan. At December 31, 2014 there were 425,996 time based options and 1,674,511 performance options outstanding under the 2010 Option Plan.

The Green Bancorp, Inc. 2006 Stock Option Plan (the "2006 Option Plan"), which was approved by the shareholders of the Company on June 21, 2006, permitted the grant of up to 450,000 options. The options granted may have been in the form of nonqualified stock options, which may have been granted to a director, officer or employee of the Company, or incentive stock options, which may have been granted only to officers of the Company. Awards under the 2006 Option Plan vest over a four-year period, which began on the first anniversary of the grant date, and must be exercised within 10 years from the grant date. The 2006 Option Plan was frozen to further issuance upon approval of the 2010 Option Plan. At June 30, 2015 and December 31, 2014, respectively, there were 302,757 and 362,500 options outstanding under the 2006 Option Plan.

In addition to the 2006 Option Plan, the Company's Board of Directors adopted the Redstone Bank 2004 Stock Option Plan (the "Redstone Option Plan") and froze the plan to further issuance, following the Company's acquisition of Redstone Bank. At the time of adoption, all options to acquire stock of Redstone Bank were converted to options to acquire stock of the Company and adjusted in terms of number and exercise price based on the terms of the merger agreement. All options issued under the Redstone Option Plan are fully vested as a result of the 2006 change of control event. At June 30, 2015 and December 31, 2014, respectively, there were 292,278 and 297,278 options outstanding under the Redstone Option Plan.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

Stock based compensation expense related to stock options of \$26 thousand and \$48 thousand for the three months ended June 30, 2015 and 2014, respectively, and \$49 thousand and \$97 thousand was recorded during the six months ended June 30, 2015 and 2014, respectively.

*Restricted Stock Units.* In connection with the initial public offering, 275,000 restricted stock units were granted under the 2014 Plan. At June 30, 2015 and December 31, 2014, respectively, there were 270,000 and 275,000 restricted stock units outstanding under the 2014 Plan. Total restricted stock units compensation expense was \$206 thousand for the three months ended June 30, 2015 and \$412 thousand for the six months ended June 30, 2015. There was no restricted stock units compensation expense for the same periods in 2014 due to no units having been granted.

**Stock Appreciation Rights Plan** — On May 18, 2007, the Company’s Board of Directors adopted the Green Bancorp Stock Appreciation Rights Plan (the “SAR Plan”). The SAR Plan provided for the issuance of up to 200,000 units to plan participants at an exercise price of no less than the fair market value of the common stock of the Company at the time of grant. Units are redeemable by plan participants under certain circumstances whereby the participant will be paid the excess, if any, of the book value of the Company’s common stock at the time of exercise over the exercise price. The SAR Plan provides for a 10-year maximum term for units issued, vesting and exercisability limitations and accelerated vesting and deemed exercise in the event of a change of control. The SAR Plan was frozen to further issuance upon approval of the 2014 Omnibus Plan. As of June 30, 2015 and December 31, 2014, respectively, there were 103,000 and 134,000 units outstanding under the SAR Plan.

Prior to the initial public offering, the Company elected to account for the accrued SAR Plan liability under the intrinsic-value method as allowed for non-public companies by FASB ASC 718, Compensation — Stock Compensation. During the quarter ended September 30, 2014, the Company began to account for the accrued SAR Plan liability utilizing the fair value method. Stock based compensation expense of \$214 thousand and \$17 thousand for the three months ended June 30, 2015 and 2014, respectively, and \$106 thousand and \$17 thousand was recorded during the six months ended June 30, 2015 and 2015, respectively, to reflect the fair value of the SARs.

**Benefit Plan** — The Company sponsors a 401(k) plan (the “401k Plan”), which is a defined contribution plan available to substantially all employees. Participants in the 401k Plan may make salary deferral contributions up to the amount allowed by law. The Company makes safe harbor matching contributions to the 401k Plan equal to 100% of the participant’s elective contribution for the plan year up to a maximum of 6% of the participant’s salary. The Company contributions are fully vested at the date of contribution. The total of Company contributions for the three months ended June 30, 2015 and 2014, were \$241 thousand and \$194 thousand, respectively, and for the six months ended June 30, 2015 and 2014, were \$484 thousand and \$381 thousand, respectively.

**15. OFF-BALANCE SHEET ARRANGEMENTS, COMMITMENTS AND CONTINGENCIES**

The following table summarizes the Company’s contractual obligations and other commitments to make future payments as of the date indicated (other than securities sold under agreements to repurchase). The Company’s future cash payments associated with its contractual obligations pursuant to its certificates and other time deposits, Federal Home Loan Bank advances including interest, and operating leases, as of the date indicated were as follows:

	<b>June 30, 2015</b>				<b>Total</b>
	<b>1 year or less</b>	<b>More than 1 year but less than 3 years</b>	<b>3 years or more but less than 5 years</b>	<b>5 years or more</b>	
(Dollars in thousands)					
Certificates and other time deposits	\$ 399,210	\$ 215,900	\$ 47,225	\$ -	\$ 662,335
Federal Home Loan Bank advances	63,745	1,156	2,069	544	67,514
Operating leases	1,261	2,312	1,378	1,921	6,872
Total	<u>\$ 464,216</u>	<u>\$ 219,368</u>	<u>\$ 50,672</u>	<u>\$ 2,465</u>	<u>\$ 736,721</u>

Payments related to leases are based on actual payments specified in underlying contracts.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**Leases** — The Company's noncancelable future operating lease commitments as of the date indicated was as follows:

	<u>June 30, 2015</u>	
	<u>(Dollars in thousands)</u>	
2015	\$	624
2016		1,274
2017		1,215
2018		860
2019		758
Thereafter		2,141
Total	\$	<u>6,872</u>

The Company leases certain office facilities and equipment under operating leases. Rent expense under all noncancelable operating lease obligations, net of income from noncancelable subleases aggregated, was approximately \$343 thousand and \$328 thousand for the three months ended June 30, 2015 and 2014, respectively, and was \$735 thousand and \$657 thousand for the six months ended June 30, 2015 and 2014, respectively.

**Litigation** — The Company from time to time is involved in routine litigation arising from the normal course of business. Management does not believe that there are any pending or threatened proceedings against the Company which, upon resolution, would have a material effect on the consolidated financial statements.

**Financial Instruments with Off-Balance Sheet Risk** — In the normal course of business, the Company is a party to various financial instruments with off-balance sheet risk to meet the financial needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheets. The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit is represented by the contractual or notional amount of these instruments. The Company uses the same credit policies in making these commitments and conditional obligations as it does for on-balance sheet instruments.

The following is a summary of the various financial instruments outstanding as of the date set forth:

	<u>June 30, 2015</u>				
	<u>1 year or less</u>	<u>More than 1 year but less than 3 years</u>	<u>3 years or more but less than 5 years</u>	<u>5 years or more</u>	<u>Total</u>
	<u>(Dollars in thousands)</u>				
Commitments to extend credit	\$ 153,871	\$ 187,226	\$ 78,588	\$ 94,191	\$ 513,876
Standby and commercial letters of credit	11,833	377	-	-	12,210
Total	<u>\$ 165,704</u>	<u>\$ 187,603</u>	<u>\$ 78,588</u>	<u>\$ 94,191</u>	<u>\$ 526,086</u>

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being fully drawn upon, the total commitment amounts disclosed above do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if considered necessary by the Company, upon extension of credit, is based on management's credit evaluation of the customer.

Standby and commercial letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. In the event of nonperformance by the customer, the Company has rights to the underlying collateral, which can include commercial real estate, physical plant and property, inventory, receivables, cash and marketable securities. The credit risk to the Company in issuing letters of credit is essentially the same as that involved in extending loan facilities to its customers.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

**16. DERIVATIVE FINANCIAL INSTRUMENTS**

In order to accommodate the borrowing needs of certain commercial customers, the Company entered into interest rate swap agreements with those customers. In order to offset the exposure and manage interest rate risk, at the time an agreement was entered into with a customer, the Company entered into an interest rate swap with a correspondent bank counterparty with offsetting terms. These derivative instruments are not designated as accounting hedges and changes in the net fair value are recognized in noninterest income or expense. Due to the nature of the offset in values between customer and correspondent swaps, the Company did not recognize any changes in the net fair value of the derivative instruments during the three or six months ended June 30, 2015 or 2014. The fair value amounts are included in other assets and other liabilities.

The following is a summary of the derivative instruments outstanding as of the dates set forth:

<b>June 30, 2015</b>					
	<u>Notional Amount</u>	<u>Fixed Rate</u>	<u>Floating Rate</u>	<u>Maturity</u>	<u>Fair Value</u>
(Dollars in thousands)					
<b>Non-hedging derivative instruments:</b>					
Customer interest rate swap:					
receive fixed/pay floating	\$ 20,634	4.87% - 5.99%	LIBOR 1 month + 3.25% - 4.50%	Wtd. Avg. 2.1 years	\$ 245
Correspondent interest rate swap:					
pay fixed/receive floating	\$ 20,634	4.87% - 5.99%	LIBOR 1 month + 3.25% - 4.50%	Wtd. Avg. 2.1 years	\$ (256)
<b>December 31, 2014</b>					
	<u>Notional Amount</u>	<u>Fixed Rate</u>	<u>Floating Rate</u>	<u>Maturity</u>	<u>Fair Value</u>
(Dollars in thousands)					
<b>Non-hedging derivative instruments:</b>					
Customer interest rate swap:					
receive fixed/pay floating	\$ 24,485	4.87% - 5.99%	LIBOR 1 month + 3.25% - 4.50%	Wtd. Avg. 2.5 years	\$ 274
Correspondent interest rate swap:					
pay fixed/receive floating	\$ 24,485	4.87% - 5.99%	LIBOR 1 month + 3.25% - 4.50%	Wtd. Avg. 2.5 years	\$ (287)

The estimated fair values of non-hedging derivative instruments are reflected within Company's consolidated balance sheet; customer interest rate swaps are included in other assets and correspondent interest rate swaps are included in other liabilities. The notional amounts and estimated fair values of the non-hedging derivative instruments by classification as the dates set forth were as follows:

<b>June 30, 2015</b>			
	<u>Notional Amount</u>	<u>Fair Value</u>	
(Dollars in thousands)			
<b>Customer interest rate swaps (commercial customer counterparty):</b>			
Assets	\$ 20,634	\$	245
<b>Correspondent interest rate swaps (financial institution counterparty):</b>			
Liabilities	\$ 20,634	\$	(256)

Assets	\$ 24,485	\$ 274
<b>Correspondent interest rate swaps (financial institution counterparty):</b>		
Liabilities	\$ 24,485	\$ (287)

**17. REGULATORY MATTERS**

**Capital Requirements** — The Company is subject to various regulatory capital requirements administered by federal banking agencies. Any institution that fails to meet its minimum capital requirements is subject to actions by regulators that could have a direct material effect on its financial statements. Under the capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines based on the Bank's assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Company's capital amount and classification under the regulatory framework for prompt corrective action are also subject to qualitative judgments by the regulators.

In July 2013, the Federal Reserve published final rules for the adoption of the Basel III regulatory capital framework (the "Basel III Capital Rules"). The Basel III Capital Rules, among other things, (i) introduce a new capital measure called "Common Equity Tier 1" ("CET1"), (ii) specify that Tier 1 capital consist of Common Equity Tier 1 and "Additional Tier 1 Capital" instruments meeting specified requirements, (iii) define Common Equity Tier 1 narrowly by requiring that most deductions/adjustments to regulatory capital measures be made to Common Equity Tier 1 and not to the other components of capital and (iv) expand the scope of the deductions/adjustments as compared to existing regulations. The Basel III Capital Rules became effective for us on January 1, 2015 with certain transition provisions fully phased in on January 1, 2019. Prior to January 1, 2015 the Basel I Capital Rules applied to us.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios CET1, Tier 1 and Total capital to risk-weighted assets, and of Tier 1 capital to average assets, each as defined in the regulations. Management believes, as of June 30, 2015, that the Company and the Bank met all capital adequacy requirements to which they are subject.

Financial institutions are categorized as well capitalized or adequately capitalized, based on minimum total risk-based, Tier 1 risk-based, CET1 and Tier 1 leverage ratios. As shown in the table below, the Company's capital ratios exceeded the regulatory definition of adequately capitalized as of June 30, 2015, and December 31, 2014. Based upon the information in its most recently filed call report, the Bank met the capital ratios necessary to be well capitalized. The regulatory authorities can apply changes in classification of assets and such changes may retroactively subject the Company to changes in capital ratios. Any such changes could result in reducing one or more capital ratios below well-capitalized status. In addition, a change may result in imposition of additional assessments by the FDIC or could result in regulatory actions that could have a material effect on condition and results of operations.

The most recent notification from the regulatory banking agencies categorized Green Bank as "well capitalized" under the regulatory capital framework for prompt corrective action and there have been no events since that notification that management believes have changed the Bank's category.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

The Company's consolidated capital ratios and the Bank's capital ratios as of the dates set forth are presented in the following table:

	June 30, 2015					
	Actual		For Capital Adequacy Purposes		To be Categorized as Well Capitalized under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
(Dollars in thousands)						
<b>The Company<sup>(1)</sup>:</b>						
Total capital (to risk weighted assets)	\$ 284,167	13.4 %	\$ 170,083	8.0 %	N/A	N/A

	December 31, 2014					
	Actual		For Capital Adequacy Purposes		To be Categorized as Well Capitalized under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
(Dollars in thousands)						
<b>The Company<sup>(1)</sup>:</b>						
Total capital (to risk weighted assets)	\$ 268,770	14.0 %	\$ 154,052	8.0 %	N/A	N/A
Tier 1 capital (to risk weighted assets)	252,963	13.1	77,026	4.0	N/A	N/A
Tier I capital (to average assets)	252,963	12.1	84,003	4.0	N/A	N/A
<b>The Bank<sup>(2)</sup>:</b>						
Total capital (to risk weighted assets)	\$ 259,313	13.5 %	\$ 153,867	8.0 %	\$ 192,334	10.0 %
Tier 1 capital (to risk weighted assets)	243,506	12.7	76,934	4.0	115,400	6.0
Tier I capital (to average assets)	243,506	11.6	83,738	4.0	104,673	5.0

<sup>(1)</sup> The Federal Reserve may require the Company to maintain capital ratios above the required minimums.

<sup>(2)</sup> The FDIC or the OCC may require the Bank to maintain capital ratios above the required minimums.

<sup>(3)</sup> Common equity tier 1 capital is a new ratio required under Basel III Capital Rules effective January 1 2015.

**Dividend Restrictions** — Dividends paid by the Bank are subject to certain restrictions imposed by regulatory agencies. The Basel III Capital Rules further limit the amount of dividends that may be paid by our bank. No dividends were paid for the periods ended June 30, 2015 and December 31, 2014.

## 18. DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

FASB ASC 820 applies to reported balances that are required or permitted to be measured at fair value under an existing accounting pronouncement. FASB ASC 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

in pricing the asset or liability and establishes a fair value hierarchy. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

*Level 1* — Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 1 assets and liabilities include debt and equity securities that are traded in an active exchange market, as well as certain U.S. Treasury securities that are highly liquid and are actively traded in over-the-counter markets.

*Level 2* — Inputs other than those quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates and yield curves that are observable at commonly quoted intervals. Level 2 assets and liabilities include available-for-sale securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. Available-for-sale securities are valued using observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, prepayment speeds, credit information, and the bond's terms and conditions, among other things. Derivative valuations utilize certain Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by the Company and its counterparties. The significance of the impact of these credit valuation adjustments on the overall valuation of derivative positions are not significant to the overall valuation and result in all derivative valuations being classified in Level 2 of the fair value hierarchy.

*Level 3* — Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. This category includes certain interest-only strip securities where independent pricing information was not able to be obtained for a significant portion of the underlying assets and loans held for sale.

The tables below presents the Company's assets and liabilities measured at fair value on a recurring basis as of the dates set forth aggregated by the level in the fair value hierarchy within which those measurements fall.

	<b>June 30, 2015</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>(Dollars in thousands)</b>			
<b>Financial Assets:</b>				
Available-for-sale securities	\$ 75,115	\$ 136,348	\$ -	\$ 211,463
Customer interest rate swaps	-	245	-	245
<b>Financial Liabilities:</b>				
Correspondent interest rate swaps	\$ -	\$ 256	\$ -	\$ 256
	<b>December 31, 2014</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>(Dollars in thousands)</b>			
<b>Financial Assets:</b>				
Available-for-sale securities	\$ 27,035	\$ 160,530	\$ -	\$ 187,565
Customer interest rate swaps	-	274	-	274
<b>Financial Liabilities:</b>				
Correspondent interest rate swaps	\$ -	\$ 287	\$ -	\$ 287

Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Assets measured on a nonrecurring basis include impaired loans, real estate acquired by foreclosure and other repossessed assets.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

A loan is defined as impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due, according to the contractual terms of the loan agreement. The allowance for loan losses related to impaired loans is determined based on the difference between the carrying value of the impaired loan and its fair value. The fair value of impaired loans is determined based on the fair value of the collateral if repayment is expected solely from the collateral. Fair value of the loan's collateral is determined by appraisals and third party estimates for real estate collateral and by appraisals or independent valuations for non-real estate collateral such as inventory, accounts receivable, equipment or other business assets. The fair value of real estate acquired by foreclosure is measured using appraisals and third party estimates. These values may be adjusted based on current information available to management, therefore the values are considered Level 3 inputs within the fair value hierarchy.

The following tables present the assets that were subject to fair value adjustments during the periods indicated, which were still on the balance sheet at the end of the reporting periods:

	<b>June 30, 2015</b>		<b>Losses for the Six Months Ended June 30, 2015</b>
	<b>Level 3</b>	<b>Total</b>	
	<b>(Dollars in thousands)</b>		
<b>Assets Measured on a Nonrecurring Basis:</b>			
Impaired loans	\$ 2,158	\$ 2,158	\$ 354
Other real estate owned	2,668	2,668	375

	<b>June 30, 2014</b>		<b>Losses for the Six Months Ended June 30, 2014</b>
	<b>Level 3</b>	<b>Total</b>	
	<b>(Dollars in thousands)</b>		
<b>Assets Measured on a Nonrecurring Basis:</b>			
Impaired loans	\$ 7,769	\$ 7,769	\$ 71
Other real estate owned	1,820	1,820	141

The estimated fair values of financial instruments were determined by management as of June 30, 2015 and December 31, 2014, and required judgment. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair values presented.

The following methods and assumptions were used to estimate the fair value of cash and of financial instruments for which it is practicable to estimate that value:

*Cash and Short-Term Investments* — The carrying amount of these short term investments is a reasonable estimate of fair value.

*Securities* — Securities are valued based on quoted prices in an active market when available. These securities are classified in Level 1 of the valuation hierarchy. If quoted market prices are not available for the specific security, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows or Level 2 of the valuation hierarchy.

*Loans Held for Sale* — The fair value of consumer residential mortgages held-for-sale is based on commitments from investors or prevailing market prices.

*Loans Held for Investment* — The fair value of loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

**GREEN BANCORP, INC. AND SUBSIDIARY**  
**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

*Real Estate Acquired by Foreclosure* — Real estate acquired by foreclosure is adjusted to fair value less estimated costs to sell at the time of foreclosure. Subsequently, these assets are carried at the lower of carrying value or fair value less estimated costs to sell. Fair value is generally based upon market prices or appraised values of the property, and accordingly, the Company classifies real estate acquired by foreclosure as Level 3.

*Deposit Liabilities* — The fair value of demand deposits, savings accounts and certain money market deposits is the amount payable on demand at the reporting date. The fair value of certificates of deposit is estimated using the rates currently offered for deposits of similar remaining maturities.

*Other Borrowed Funds* — The carrying amount of securities sold under agreements to repurchase is a reasonable estimate of fair value because these borrowings reprice at market rates generally daily. The fair value of long term FHLB advances is estimated using the rates currently offered for advances of similar remaining maturities.

*Off-Balance Sheet Financial Instruments* — The fair value of commitments is estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counterparties. For fixed-rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value of guarantees and letters of credit is based on fees currently charged for similar agreements or on the estimated cost to terminate them or otherwise settle the obligations with the counterparties at the reporting date. These amounts were not significant at the reporting dates. The fair value of interest rate swaps is derived from pricing models based on past, present and projected future market conditions, quoted market prices of instruments with similar characteristics or discounted cash flows, classified in Level 2 of the fair value hierarchy.

The estimated fair values of the Company's financial instruments as of the dates indicated are as follows:

	<b>June 30, 2015</b>				
	<b>Carrying Value</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Fair Value</b>
	<b>(Dollars in thousands)</b>

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Company’s interim consolidated financial statements and the accompanying notes included elsewhere in this report and with the consolidated financial statements and accompanying notes and other detailed information appearing in the Company’s Annual Report on Form 10-K for year ended December 31, 2014.

Except where the context otherwise requires or where otherwise indicated, in this Quarterly Report on Form 10-Q the terms “Company,” “we,” “us,” “our,” “our company” and “our business” refer to Green Bancorp, Inc. and our banking subsidiary, Green Bank, N.A., a national banking association, and the term “Bank” refers to Green Bank, N.A. In this Quarterly Report on Form 10-Q, we refer to the Houston—Sugar Land—Baytown, Dallas—Fort Worth—Arlington, Austin—Round Rock and Louisville—Jefferson County metropolitan statistical areas as the Houston, Dallas, Austin and Louisville MSAs.

### Overview

We are a Texas focused bank holding company headquartered in Houston, Texas. Our wholly owned subsidiary, Green Bank, N.A., a nationally chartered commercial bank, provides commercial and private banking services primarily to Texas based customers through sixteen full service branches in the Houston, Dallas, Austin and Louisville MSAs. The Houston, Dallas and Austin MSAs are our target markets, and we believe their growing economies and attractive demographics, together with our scalable platform, provide us with opportunities for long-term and sustainable growth. Our emphasis is on continuing to expand our existing business by executing on our proven business model as well as pursuing select strategic acquisitions and attracting additional talented portfolio bankers.

We generate the majority of our revenues from interest income on loans, customer service and loan fees and income from investment in securities. The revenues are partially offset by interest expense paid on deposits and other borrowings and noninterest expenses such as administrative and occupancy expenses. Net interest income is the difference between interest income on earning assets such as loans and securities and interest expense on liabilities such as deposits and borrowings which are used to fund those assets. Net interest income is our largest source of revenue. To evaluate net interest income, we measure and monitor (1) yields on our loans and other interest-earning assets, (2) the costs of our deposits and other funding sources, (3) our net interest spread, (4) our net interest margin and (5) our provision for loan losses. Net interest spread is the difference between rates earned on interest-earning assets and rates paid on interest-bearing liabilities. Net interest margin is calculated as net interest income divided by average interest-earning assets. Because noninterest-bearing sources of funds, such as noninterest-bearing deposits and shareholders’ equity, also fund interest-earning assets, net interest margin includes the benefit of these noninterest-bearing sources.

Total assets were \$2.4 billion as of June 30, 2015 compared with \$2.2 billion as of December 31, 2014, an increase of \$212.8 million or 9.7%. Total deposits were \$2.0 billion as of June 30, 2015 compared with \$1.8 billion as of December 31, 2014, an increase of \$178.8 million or 9.7%. Total loans held for investment were \$1.9 billion at June 30, 2015, an increase of \$95.6 million or 5.3% compared with \$1.8 billion as of December 31, 2014. At June 30, 2015 and December 31, 2014, we had \$6.1 million and \$4.8 million, respectively, in non-accrual loans and our allowance for loan losses was \$18.3 million and \$15.6 million, respectively. Shareholders’ equity was \$298.7 million and \$288.4 million at June 30, 2015 and December 31, 2014, respectively. The increases are primarily due to execution of our organic growth strategy.

### Critical Accounting Policies

Our significant accounting policies are integral to understanding the results reported. Our accounting policies are described in detail in Note 1 to the consolidated financial statements included in the Company’s Annual Report on the Form 10-K for the year ended December 31, 2014. We believe that of our significant accounting policies, the following may involve a higher degree of judgment and complexity:

*Allowance for loan losses*—The allowance for loan losses is maintained at a level that management estimates to be appropriate to absorb probable credit losses in the portfolio as of the balance sheet date. This estimate involves numerous assumptions and judgments. Management utilizes a calculation methodology that includes both quantitative and qualitative factors and applies judgment when establishing the factors utilized in the methodology and in assessing the overall adequacy of the calculated results.

The allowance for loan losses is a valuation allowance for losses incurred on loans. All losses are charged to the allowance when the loss actually occurs or when a determination is made that a loss is probable. Recoveries are credited to the allowance at the time of recovery. Our allowance for loan losses consists of two components including a general component based upon probable but unidentified losses inherent in the portfolio and a specific component on individual loans that are considered impaired.

The general component of the allowance for loan losses related to probable but unidentified losses inherent in the portfolio is based on various factors including our historical loss experience, historical loss experience for peer banks, growth trends, loan concentrations, migration trends between internal loan risk ratings, current economic conditions and other qualitative factors. The other qualitative factors considered may include changes in lending policies and procedures, changes in the experience and ability of lending and credit staff and management, changes in the quality of the loan review system and other factors.

To arrive at the general component of the allowance, loans are first separated into originated and acquired groups and then further separated by loan type for each group. The factors described above are calculated for the applicable loan groups and for each loan type within the applicable group and then applied to the loan balance by type to calculate the general reserve. The actual loss factor is based on our actual three year loss history as a percentage of loans by type. A minimum actual loss factor equal to the average three year loss history for the total loan portfolio is then applied. A peer loss factor is calculated by weighting our actual loss history and that of our peer banks as a percentage of loans by type for the same historical three year period. A peer loss factor is added to increase the allowance if our actual loss history is less than the calculated peer loss factor. Additional factors are evaluated based on our loan growth when compared to prior year growth, loan concentrations in groups of similar loan types, migration in our loans by internal risk grade and the level of monitored and classified loans to capital. Management also evaluates various economic indicators, such as state and national unemployment, initial jobless claims, consumer confidence, natural gas price, GDP and a composite city home price index, to establish an economic factor.

The specific component of the allowance for loan losses is calculated based on a review of individual loans considered impaired. The analysis of impaired losses may be based on the present value of expected future cash flows discounted at the effective loan rate, an observable market price or the fair value of the underlying collateral on collateral dependent loans. In determining the collectability of certain loans, management also considers the fair value of any underlying collateral. The amount ultimately realized may differ from the carrying value of these assets because of economic, operating, or other conditions beyond our control.

Throughout the year, management estimates the probable level of losses to determine whether the allowance for loan losses is adequate to absorb inherent losses in the existing portfolio. Based on these estimates, an amount is charged to the provision for loan losses and credited to the allowance for loan losses in order to adjust the allowance to a level determined to be adequate to absorb inherent losses. If economic conditions or borrower behavior deviate substantially from the assumptions utilized in the allowance calculation, increases in the allowance may be required.

Estimates of loan losses involve an exercise of judgment. While it is reasonably possible that in the near term we may sustain losses which are substantial relative to the allowance for loan losses, it is the judgment of management that the allowance for loan losses reflected in the consolidated balance sheets is adequate to absorb probable losses that exist in the current loan portfolio.

Determining the amount of the allowance is considered a critical accounting estimate, as it requires significant judgment and the use of subjective measurements, including management's assessment of overall portfolio quality. We maintain the allowance at an amount that management believes is sufficient to provide for estimated losses inherent in our loan portfolio at each balance sheet date, and fluctuations in the provision for loan losses may result from management's assessment of the adequacy of the allowance. Changes in these estimates and assumptions are possible and may have a material impact on our allowance, and therefore our financial position, liquidity or results of operations.

*Accounting for Acquired Loans and the Allowance for Acquired Loan Losses*—Acquisitions are accounted for using the acquisition method of accounting. Accordingly, the assets, including loans, and liabilities of the acquired entity were recorded at their fair values at the acquisition date. No allowance for credit losses related to the acquired loans is recorded on the acquisition date, as the fair value of the acquired loans incorporates assumptions regarding credit risk. These fair value estimates associated with acquired loans, and based on a discounted cash flow model, include estimates related to market interest rates and undiscounted projections of future cash flows that incorporate expectations of prepayments and the amount and timing of principal, interest and other cash flows, as well as any shortfalls thereof. The excess of cash flows expected at acquisition over the estimated fair value is considered the accretable discount and is recognized in interest income over the remaining life of the loan using the interest method.

Acquired loans with evidence of credit deterioration and the probability that all contractually required payments will not be collected as of the date of acquisition are accounted for in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 310-30. The difference between contractually required payments at acquisition and the cash flows expected to be collected is considered the non-accretable discount. The non-accretable discount represents the future credit losses expected to be incurred over the life of the loan. Subsequent increases in the expected cash flows will result in a recovery of any previously recorded allowance for loan losses and a reclassification from non-accretable discount to accretable discount.

At period-end after acquisition, the fair-valued acquired loans from each acquisition are reassessed to determine whether an addition to the allowance for credit losses is appropriate due to further credit quality deterioration. For further discussion of the methodology used in the determination of the allowance for credit losses for acquired loans, see “Financial Condition – Allowance for Loan Losses” section below.

*Business combinations*—The Company applies the acquisition method of accounting for business combinations in accordance with ASC 805, *Business Combinations*. Under the acquisition method, the acquiring entity in a business combination recognizes all of the assets acquired and liabilities assumed at their acquisition date fair values. Management utilizes valuation techniques appropriate for the asset or liability being measured in determining these fair values. The excess of the purchase price over the estimated fair value of the net assets, including identifiable intangible assets, for tax-free acquisitions is recorded as goodwill, none of which is deductible for tax purposes. The excess of the purchase price over the estimated fair value of the net assets, including identifiable intangible assets, for taxable acquisitions was also recorded as goodwill, and is deductible for tax purposes. Where amounts allocated to assets acquired and liabilities assumed is greater than the purchase price, a bargain purchase gain is recognized. Acquisition-related costs are expensed as incurred. The results of operations for each acquisition have been included in the Company’s consolidated financial results beginning on the respective acquisition date.

Determining the fair value of assets acquired and liabilities assumed is considered a critical accounting estimate because the allocation of the fair value to the assets acquired and liabilities assumed requires significant management judgment and the use of subjective measurements. Variability in the market and changes in assumptions or subjective measurements used to allocate fair value are reasonably possible and may have a material impact on our financial position, liquidity or results of operations.

*Goodwill*—Goodwill has an indefinite useful life and is subject to an annual impairment test and more frequently if a triggering event occurs indicating that it is more likely than not that the fair value of the Company, which is our only reporting unit, is below the carrying value of its equity. We completed our annual impairment analysis of goodwill as of December 31, 2014, and based on this analysis, we do not believe any of our goodwill is impaired as of such date because the fair value of our equity substantially exceeded our carrying value. The goodwill impairment test involves a two-step process. Under the first step, the estimation of fair value of the reporting unit is compared with its carrying value including goodwill. If step one indicates a potential impairment, the second step is performed to measure the amount of impairment, if any. Goodwill impairment exists when the implied fair value of goodwill is less than its carrying value. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation. As part of our impairment analysis, we use a variety of methodologies in determining the fair value of the reporting unit, including cash flow analyses that are consistent with the assumptions management believes hypothetical marketplace participants would use.

*Fair Value of Financial Instruments*—The Company determines the fair market values of financial instruments based on the fair value hierarchy established which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value. Level 1 inputs include quoted market prices, where available. If such quoted market prices are not available, Level 2 inputs are used. These inputs are based upon internally developed models that primarily use observable market-based parameters. Level 3 inputs are unobservable inputs which are typically based on an entity’s own assumptions, as there is little, if any, related market activity. The Company’s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

*Emerging Growth Company*—Pursuant to the JOBS Act, an emerging growth company can elect to opt in to any new or revised accounting standards that may be issued by the FASB or the SEC otherwise applicable to non-emerging growth companies. We have elected to opt in to such standards, which election is irrevocable.

We will likely take advantage of some of the reduced regulatory and reporting requirements that are available to us so long as we qualify as an emerging growth company, including, but not limited to, not being required to comply with the auditor attestation

requirements of Section 404(b) of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation, and exemptions from the requirements of holding non-binding advisory votes on executive compensation and golden parachute payments.

### **Recent and Pending Acquisitions**

On October 17, 2014 we acquired SP Bancorp, Inc. and its subsidiary SharePlus Bank (together, “SharePlus”), a Texas chartered state bank headquartered in the Dallas MSA for aggregate cash consideration of \$46.4 million. SharePlus operated as a full-service commercial bank, providing services that include the acceptance of checking and saving deposits and the origination of one- to four-family residential mortgage, mortgage warehouse, commercial real estate, commercial business, home equity, automobile and personal loans. SharePlus’ business consisted primarily of taking deposits from the general public and investing those deposits, together with funds generated from operations and borrowings, in loans and securities. As of September 30, 2014 SharePlus had four branches (three in the Dallas MSA and one in Kentucky), \$33.7 million in stockholders’ equity, \$348.7 million in assets, \$280.5 million in deposits and \$248.2 million in loans, and \$204.0 million, or 82.2% of its total loan portfolio was comprised of residential and commercial real estate loans. See “Note 4 – Acquisitions” for further information.

As previously announced, we entered into a definitive agreement and plan of merger with Patriot Bancshares, Inc. (“Patriot Bancshares”) on May 27, 2015. The merger agreement provides that we will issue at the closing up to 10,757,273 shares of our common stock to Patriot Bancshares shareholders in exchange for all outstanding Patriot Bancshares common shares as well as Patriot Bancshares’ Series D and Series F preferred stock which will be converted to Patriot Bancshares common stock in advance of the closing. In addition, it is a condition to the completion of the merger that Patriot Bancshares’ \$27.3 million Series B and Series C preferred stock will be redeemed prior to the closing.

As of June 30, 2015, Patriot Bancshares, on a consolidated basis, reported total assets of \$1.4 billion, total loans of \$1.0 billion, total deposits of \$1.1 billion and total shareholders’ equity of \$123.8 million.

The transaction has been approved by the Boards of Directors of both companies, and is expected to close in the fourth calendar quarter of 2015. The transaction is subject to the requisite approval by each company’s shareholders, as well as regulatory approval and other customary closing conditions. Certain shareholders of Green Bancorp and Patriot Bancshares have agreed to vote in favor of the transaction.

### **Results of Operations**

Net income available to common shareholders was \$4.1 million for the quarter ended June 30, 2015 compared with \$4.7 million for the quarter ended June 30, 2014, a decrease in net income of \$536 thousand or 11.5%. Earnings per common share on a diluted basis was \$0.16 for the quarter ended June 30, 2015 compared with \$0.22 for the same period in 2014, a decrease of \$0.06 or 27.3%. The decrease in net income was primarily due to \$1.3 million in one-time acquisition expenses in the quarter ended June 30, 2015. We experienced returns on average common equity of 5.60% and 9.12%, returns on average assets of 0.73% and 1.05% and efficiency ratios of 69.4% and 61.0% for the quarters ended June 30, 2015 and 2014, respectively. The efficiency ratio is calculated as noninterest expense divided by the sum of net interest income and noninterest income. The increase in the efficiency ratio was primarily due to increased noninterest expense driven by one-time acquisition expenses and the ongoing costs from the SharePlus acquisition.

For the six months ended months ended June 30, 2015 net income available to common shareholders was \$8.8 million compared with \$8.2 million for the same period in 2014, an increase in net income of \$625 thousand or 7.7%. The increase in net income was primarily due to increase interest income resulting from growth in loans partially due to the SharePlus acquisition. Earnings per common share on a diluted basis was \$0.33 for the six months ended June 30, 2015 compared with \$0.39 for the same period in 2014, a decrease of \$0.06 or 15.4%, the decrease was due to the increase in the number of shares outstanding resulting from our initial public offering in August 2014. We experienced returns on average common equity of 6.03% and 8.10%, returns on average assets of 0.79% and 0.94% and efficiency ratios of 65.3% and 61.1% for the six months ended June 30, 2015 and 2014, respectively.

### *Net Interest Income*

Our operating results depend primarily on our net interest income, which is the difference between interest income on interest-earning assets, including loans and securities, and interest expense incurred on interest-bearing liabilities, including deposits and other borrowed funds. Interest rate fluctuations, as well as changes in the amount and type of earning assets and liabilities, combine to affect net interest income. Our net interest income is affected by changes in the amount and mix of interest-earning assets and interest-

bearing liabilities, referred to as a “volume change.” It is also affected by changes in yields earned on interest-earning assets and rates paid on interest-bearing deposits and other borrowed funds, referred to as a “rate change.”

*Three months ended June 30, 2015 compared with three months ended June 30, 2014.* Net interest income before the provision for loan losses for the three months ended June 30, 2015 was \$20.9 million compared with \$16.7 million for the three months ended June 30, 2014, an increase of \$4.2 million or 25.2%. The increase in net interest income was primarily due to the increase in average loans outstanding of \$418.3 million, or 29.5% somewhat offset by a 23 basis point decrease in the average loan yield. The increase in average loans outstanding was due to the SharePlus acquisition and the marketing activity of our portfolio bankers within our target markets. Interest income was \$23.3 million for the three months ended June 30, 2015, an increase of \$4.1 million or 21.6% compared with the three months ended June 30, 2014. Interest income on loans was \$22.3 million for the three months ended June 30, 2015, an increase of \$4.3 million or 23.7% compared with the three months ended June 30, 2014 primarily due to the increase in average loans outstanding. Interest income on securities was \$838 thousand for the three months ended June 30, 2015, a decrease of \$186 thousand compared with the three months ended June 30, 2014 primarily due to a 33 basis point decrease in the average yield on the securities portfolio. Average interest-bearing liabilities increased \$223.9 million for the three months ended June 30, 2015 compared to the three months ended June 30, 2014 and average rate on interest-bearing liabilities decreased from 0.77% to 0.63% for the same time period resulting in an overall decrease in interest expense of \$84 thousand. During the three months ended June 30, 2015, average noninterest-bearing deposits increased \$173.2 million from \$318.1 million during the three months ended June 30, 2014 to \$491.3 million for the three months ended June 30, 2015. Total cost of funds, including noninterest-bearing deposits decreased 14 basis points to 0.48% for the three months ended June 30, 2015 compared to 0.62% for the same period in 2014.

Net interest margin, defined as net interest income divided by average interest-earning assets, for the three months ended June 30, 2015 was 3.84%, a decrease of 3 basis points compared with 3.87% for the same period in 2014.

*Six months ended June 30, 2015 compared with six months ended June 30, 2014.* Net interest income before the provision for loan losses for the six months ended June 30, 2015 was \$41.4 million compared with \$32.4 million for the six months ended June 30, 2014, an increase of \$9.1 million or 28.0%. The increase in net interest income was primarily due to the increase in average loans outstanding of \$412.9 million, or 29.6% partially offset by a 16 basis point decrease in the average yield on the loan portfolio. The increase in average loans outstanding was due to the SharePlus acquisition and continued loan generation within our target markets. Interest income was \$46.0 million for the six months ended June 30, 2015, an increase of \$8.7 million compared with the six months ended June 30, 2014. Interest income on loans was \$43.9 million for the six months ended June 30, 2015, an increase of \$8.9 million or 25.6% compared with the six months ended June 30, 2014 due to the increase in average loans outstanding, partially offset by the decrease in the average yield on the loan portfolio. Interest income on securities was \$1.7 million for the six months ended June 30, 2015, a decrease of \$337 thousand compared with the six months ended June 30, 2014 due to a 23 basis point decrease in the average yield on the securities portfolio. Average interest-bearing liabilities increased \$227.7 million for the six months ended June 30, 2015 compared to the six months ended June 30, 2014 and average rate on interest-bearing liabilities decreased from 0.78% to 0.62% for the same time period resulting in an overall decrease in interest expense of \$329 thousand. During the six months ended June 30, 2015, average noninterest-bearing deposits increased \$164.2 million from \$296.9 million during the same period in 2014 to \$461.1 million for the six months ended June 30, 2015. Total cost of funds including noninterest-bearing deposits decreased 16 basis points to 0.47% for the six months ended June 30, 2015 compared to 0.63% for the same period in 2014.

Net interest margin, defined as net interest income divided by average interest-earning assets, for the six months ended June 30, 2015 was 3.89%, an increase of 5 basis points compared with 3.84% for the same period in 2014.

The following tables present, for the periods indicated, the total dollar amount of average balances, interest income from average interest-earning assets and the resultant yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates. All average balances are daily average balances. Any nonaccruing loans have been included in the table as loans carrying a zero yield.

#### *Provision for loan losses*

Our provisions for loan losses are charged to income in order to bring our total allowance for loan losses to a level deemed appropriate by management based on the factors discussed under “—Critical Accounting Policies—Allowance for loan losses.” The allowance for loan losses at June 30, 2015 was \$18.3 million, representing 0.97% of total loans as of such date.

We recorded \$805 thousand in provision for loan losses for the three months ended June 30, 2015 compared with no provision for the same period in 2014. This increase was primarily due to loan growth during the period. Net charge-offs for the three months ended June 30, 2015 were \$55 thousand compared with net recoveries of \$586 thousand for the three months ended June 30, 2014. This increase reflected an increase in gross charge-offs from \$54 thousand to \$1.2 million for the three months ended June 30, 2014 and 2015, respectively, and an increase in recoveries from \$640 thousand to \$1.2 million for the three months ended June 30, 2014 and 2015, respectively.

The provision for loan losses for the six months ended June 30, 2015 million was \$2.3 million compared with \$1.2 million for the same period in 2014. Net recoveries for the six months ended June 30, 2015 were \$377 thousand compared with net charge-offs \$1.9 million for the six months ended June 30, 2014. This decrease reflected a decrease in gross charge-offs from \$2.6 million to \$1.4 million for the six months ended June 30, 2014 and 2015, respectively, and an increase in recoveries from \$694 thousand to \$1.8 million for the six months ended June 30, 2014 and 2015, respectively.

#### *Noninterest Income*

Our primary sources of recurring noninterest income are customer service fees, loan fees, gains on the sale of loans and available for sale securities and other service fees. Noninterest income does not include loan origination fees which are recognized over the life of the related loan as an adjustment to yield.

For the three months ended June 30, 2015, noninterest income totaled \$3.0 million, an increase of \$977 thousand or 49.4% compared with the three months ended June 30, 2014. This increase was primarily due to the acquired SharePlus operations and continued growth in sales of the guaranteed portion of loans.

For the six months ended June 30, 2015, noninterest income totaled \$5.0 million, an increase of \$1.5 million or 40.6% compared with the six months ended June 30, 2014. This increase was primarily due to increased customer service fees and gains on sale of the guaranteed portion of certain loans as well as the gain on sale of loans held-for-sale.

The following table presents, for the periods indicated, the major categories of noninterest income:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2015	2014	2014	2013
	(Dollars in thousands)			
Customer service fees	\$ 917	\$ 634	\$ 1,780	\$ 1,165
Loan fees	671	462	1,042	1,012
Gain on sale of guaranteed portion of loans	960	793	1,605	1,223
Gain on sale of loans held-for-sale, net	157	-	232	-
Other	250	89	381	185
Total noninterest income	<u>\$ 2,955</u>	<u>\$ 1,978</u>	<u>\$ 5,040</u>	<u>\$ 3,585</u>

#### *Noninterest Expense*

For the three months ended June 30, 2015, noninterest expense totaled \$16.6 million, an increase of \$5.2 million or 45.5% compared with the three months ended June 30, 2014. This increase was primarily due to \$2.0 million of one-time acquisition expenses primarily related to the pending merger with Patriot Bancshares; a \$1.7 million increase in salaries and employee benefits resulting primarily from increased staffing principally due to the SharePlus acquisition, increased compensation due to our portfolio banker compensation program and general merit compensation increases; and smaller increases in various expenses due primarily to the SharePlus acquisition and public company activity.

For the six months ended June 30, 2015, noninterest expense totaled \$30.3 million, an increase of \$8.3 million or 37.9% compared with the six months ended June 30, 2014. This increase was primarily due to an increase of \$3.6 million or 25.2% in salaries and employee benefits resulting from the previously discussed increased staffing levels and increased compensation due to our portfolio banker compensation program and general merit compensation increases, and \$2.2 million in one-time acquisition expenses. Additional factors contributing to the increase include other ongoing expenses related to the SharePlus acquisition and public company activity.

The following table presents, for the periods indicated, the major categories of noninterest expense:

	<b>For the Three Months Ended June 30,</b>		<b>For the Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>
	<b>(Dollars in thousands)</b>			
Salaries and employee benefits <sup>(1)</sup>	\$ 8,878	\$ 7,149	\$ 17,635	\$ 14,080
Non-staff expenses:				
Occupancy	1,562	1,172	3,022	2,305
Professional and regulatory fees	3,605	1,767	5,072	2,547
Data processing	583	389	1,227	777
Software license and maintenance	392	341	754	656
Marketing	152	196	300	368
Loan related	263	85	372	202
Real estate acquired by foreclosure, net	382	62	395	231
Other	761	235	1,557	827
<b>Total noninterest expense</b>	<b>\$ 16,578</b>	<b>\$ 11,396</b>	<b>\$ 30,334</b>	<b>\$ 21,993</b>

<sup>(1)</sup> Total salaries and employee benefits include stock based compensation expense of \$446 thousand and \$65 thousand for the three months ended June 30, 2015 and 2014, respectively, and \$567 thousand and \$114 thousand for the six months ended June 30, 2015 and 2014, respectively.

*Efficiency Ratio.* The efficiency ratio is a supplemental financial measure utilized in our internal evaluation of our performance. Efficiency ratio represents noninterest expense divided by the sum of net interest income and noninterest income. An increase in the efficiency ratio indicates that more resources are being utilized to generate the same volume of income, while a decrease would indicate a more efficient allocation of resources. Our efficiency ratio was 69.4% for the three months ended June 30, 2015, compared with 61.0% for the three months ended June 30, 2014. Our efficiency ratio was 65.3% and 61.1% for the six months ended June 30, 2015 and 2014, respectively. The decrease was primarily due to increased net interest income and noninterest income.

#### *Income Taxes*

Income tax expense decreased \$257 thousand, or 9.8% to \$2.4 million for the three months ended June 30, 2015, compared with \$2.6 million for the same period in 2014. The decrease was primarily attributable to lower pre-tax earnings for the three months ended June 30, 2015 compared with the same period in 2014. For the six months ended June 30, 2015, income tax expense was \$5.0 million, an increase of \$459 thousand or 10.0%, compared with \$4.6 million for the same period in 2014. The increase was primarily attributable to higher pre-tax net earnings for the six months ended June 30, 2015 compared with the same period in 2014. The effective income tax rate for the three months ended June 30, 2015 and 2014 was 36%. The effective income tax rate for the six months ended June 30, 2015 and 2014 was 37% and 36%, respectively.

#### **Financial Condition**

##### *Loan Portfolio*

At June 30, 2015, total loans held for investment were \$1.9 billion, an increase of \$95.6 million or 5.3% compared with December 31, 2014. This increase was primarily due to the execution of our growth strategy and the continued strength of our target markets. Our total loans held for sale were \$1.3 million at June 30, 2015 and \$573 thousand at December 31, 2014.

The following table summarizes our loan portfolio by type of loan as of the dates indicated:

	<b>June 30, 2015</b>		<b>December 31, 2014</b>	
	<b>Amount</b>	<b>Percent</b>	<b>Amount</b>	<b>Percent</b>
	<b>(Dollars in thousands)</b>			
Commercial & industrial	\$ 795,483	42.0%	\$ 788,410	43.8 %
Real Estate:				
Owner occupied commercial real estate	176,453	9.3	163,592	9.1
Commercial real estate	383,863	20.3	339,006	18.8
Construction, land & land development	290,469	15.3	240,666	13.4
Residential mortgage	234,026	12.3	257,066	14.3
Consumer and Other	14,448	0.8	10,415	0.6
Total loans held for investment	<u>\$ 1,894,742</u>	<u>100.0%</u>	<u>\$ 1,799,155</u>	<u>100.0 %</u>
Total loans held for sale	<u>\$ 1,287</u>	<u>100.0%</u>	<u>\$ 573</u>	<u>100.0 %</u>

### *Nonperforming Loans*

Nonperforming loans include loans on nonaccrual status, accruing loans 90 or more days past due and restructured loans. Impaired loans do not include purchased loans that were identified upon acquisition as having experienced credit deterioration since origination (“purchased credit impaired loans” or “PCI loans”). We had \$6.8 million in nonperforming loans at June 30, 2015, compared with \$7.1 million at December 31, 2014. The ratio of nonperforming loan to total loans was 0.36% at June 30, 2015 compared with 0.40% at December 31, 2014.

We generally place a loan on nonaccrual status and cease accruing interest when a loan displays problems that may jeopardize full and timely collection of principal and/or interest, evidenced by one or more of the following: (i) full payment of principal and interest becomes questionable; (ii) the loan becomes 90 days past due as to principal or interest; (iii) the loan is graded as doubtful; (iv) the borrower files bankruptcy and does not reaffirm its indebtedness to us; or (v) foreclosure proceedings are initiated against collateral property. An exception to this is if the loan is in the process of collection and the underlying collateral fully supports the carrying value of the loan.

The following table presents information regarding nonperforming loans at the dates indicated:

	<b>June 30, 2015</b>	<b>December 31, 2014</b>
	<b>(Dollars in thousands)</b>	
Nonaccrual loans	\$ 4,402	\$ 2,127
Accruing loans 90 or more days past due	-	16
Restructured loans—nonaccrual	1,712	2,717
Restructured loans—accrual	681	2,257
Total nonperforming loans	<u>\$ 6,795</u>	<u>\$ 7,117</u>

### *Allowance for loan losses*

Our allowance for loan losses is established through charges to income in the form of the provision in order to bring our allowance for loan losses to a level deemed appropriate by management based on the factors discussed under “—Critical Accounting Policies—Allowance for loan losses.” The allowance for loan losses at June 30, 2015 was \$18.3 million, representing 0.97% of total loans, compared with \$15.6 million, or 0.87% of total loans, at December 31, 2014. Loans acquired were recorded at fair value based on a discounted cash flow valuation methodology.

The following table presents, as of and for the periods indicated, an analysis of the allowance for loan losses and other related data:

	<b>As of and for the Six Months Ended</b>	
	<b>June 30,</b>	
	<b>2015</b>	<b>2014</b>
	<b>(Dollars in thousands)</b>	
Average loans outstanding <sup>(1)</sup>	\$ 1,808,472	\$ 1,395,565
Total loans outstanding at end of period <sup>(1)</sup>	1,894,742	1,433,702
Allowance for loan losses at beginning of period	15,605	16,361
Provision for loan losses	2,310	1,223
Charge-offs:		
Commercial and industrial	(1,304)	(1,288)

Allowance for loan losses at end of period	\$ 18,292	\$ 15,705
Ratio of allowance to end of period loans	0.97 %	1.10 %
Ratio of net recoveries (charge-offs) to average loans	0.02 %	(0.13)%

<sup>(1)</sup> Excluding loans held for sale

### *Securities*

We use our securities portfolio to provide a source of liquidity, to provide an appropriate return on funds invested, to manage interest rate risk, to meet pledging requirements and to meet regulatory capital requirements. At June 30, 2015, the carrying amount of investment securities totaled \$258.9 million, an increase of \$20.6 million or 8.6% compared with \$238.3 million at December 31, 2014. At June 30, 2015, securities represented 10.7% of total assets compared with 10.8% at December 31, 2014.

The following table summarizes the amortized cost and fair value by classification of securities as of the dates shown:

	<b>June 30, 2015</b>			
	<b>Amortized Cost</b>	<b>Gross Unrealized Gains</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>
		<b>(Dollars in thousands)</b>		
<b>Available-for-sale:</b>				
Obligations of the U.S. Treasury and other U.S. government agencies or sponsored enterprises	\$ 95,069	\$ 86	\$ (29)	\$ 95,126

Collateralized mortgage obligations issued by U.S. government agencies or sponsored enterprises	33,890	87	(437)	33,540
<b>Total</b>	<b>\$ 50,713</b>	<b>\$ 572</b>	<b>\$ (560)</b>	<b>\$ 50,725</b>

Certain investment securities are valued at less than their historical cost. Management evaluates securities for other than temporary impairment ("OTTI") at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation.

In determining OTTI, management considers many factors, including the severity and the duration of time that the fair value has been less than cost, the credit quality of the issuer and whether it is more likely than not that we will be required to sell the security before a recovery in value. The assessment of whether an other than temporary decline exists involves a high degree of subjectivity

and judgment and is based on the information available to management at a point in time. Securities within the available for sale portfolio may be used as part of our asset and liability management strategy and may be sold in response to changes in interest rate risk, prepayment risk or other factors.

Management does not intend to sell any debt securities classified as held to maturity and it is more likely than not that we will not be required to sell any such debt securities before their anticipated recovery of cost, if a loss currently exists, at which time we expect to receive full value for the securities. Furthermore, as of June 30, 2015, management does not have the intent to sell any of the securities classified as available for sale and believes that it is more likely than not that we will not be required to sell any such securities before a recovery of cost, if a loss currently exists. As of June 30, 2015, management believes any impairment in our securities is temporary and no impairment loss has been realized in our consolidated statement of income. We recorded no other than temporary impairment charges in the first six months of 2015 or the 2014 fiscal year.

### Deposits

Total deposits at June 30, 2015 were \$2.0 billion, an increase of \$178.8 million or 9.7% compared to \$1.8 billion at December 31, 2014, due primarily to an increase in noninterest bearing demand deposits of \$172.1 million. Noninterest bearing deposits at June 30, 2015 were \$604.1 million compared with \$431.9 million at December 31, 2014, an increase of \$172.1 million or 39.9%. Interest bearing deposits at June 30, 2015 were \$1.4 billion an increase of \$6.7 million or 0.5% compared with December 31, 2014.

The following table presents the daily average balances and weighted average rates paid on deposits for the periods indicated:

	<b>Six Months Ended June 30,</b>			
	<b>2015</b>		<b>2014</b>	
	<b>Average Balance</b>	<b>Average Rate</b>	<b>Average Balance</b>	<b>Average Rate</b>
(Dollars in thousands)				
Interest-bearing transaction deposits	\$ 134,455	0.06 %	\$ 75,916	0.23 %
Money market and savings deposits	647,040	0.20	532,718	0.42
Certificates and other time deposits	650,768	0.95	577,399	1.25
Total interest-bearing deposits	\$ 1,432,263	0.63	\$ 1,186,033	0.81
Noninterest-bearing deposits	461,091	-	296,937	-
Total deposits	<u>\$ 1,893,354</u>	0.47 %	<u>\$ 1,482,970</u>	0.65 %

### Other Borrowed Funds

The following table presents our borrowings at the dates indicated. There were no borrowings outstanding under our arrangement with the Dallas Fed and there were no federal funds purchased outstanding at the dates indicated.

	<b>June 30, 2015</b>	<b>December 31, 2014</b>
(Dollars in thousands)		
Federal Home Loan Bank advances	\$ 67,309	\$ 47,586
Repurchase agreements	9,858	4,605
Total	<u>\$ 77,167</u>	<u>\$ 52,191</u>

*FHLB advances*—We have an available borrowing arrangement with the FHLB, which allows the Company to borrow on a collateralized basis. At June 30, 2015 and December 31, 2014, total borrowing capacity of \$392.6 million and \$367.2 million, respectively, was available under this arrangement. At June 30, 2015, \$67.3 million was outstanding with an average interest rate of 0.30% and maturity within eight years. At December 31, 2014, \$47.6 million was outstanding with an average interest rate of 0.25% and all of the Company's FHLB advances mature within one year. These borrowings are collateralized by a blanket lien on certain loans. The increase in total borrowing capacity is due to loan portfolio growth. We utilize these borrowings to meet liquidity needs and to fund certain fixed rate loans in our portfolio.

*Securities Sold Under Agreements to Repurchase*—Securities sold under agreements to repurchase represent the purchase of interests in securities by banking customers. Securities sold under agreements to repurchase are stated at the amount of cash received

in connection with the transaction. We do not account for any of our repurchase agreements as sales for accounting purposes in our financial statements. Repurchase agreements with banking customers are settled on the following business day. All securities sold under agreements to repurchase are collateralized by pledged securities. The securities underlying the repurchase agreements are held in safekeeping by the Bank's safekeeping agent.

*Dallas Fed*—We have an available borrower in custody arrangement with the Dallas Fed, which allows us to borrow on a collateralized basis. Certain commercial and consumer loans are pledged under this arrangement. We maintain this borrowing arrangement to meet liquidity needs pursuant to our contingency funding plan. At June 30, 2015 and December 31, 2014, \$246.5 million, \$377.3 million, respectively, were available under this arrangement and no borrowings were outstanding.

*Federal Funds Purchased*—We have available federal funds lines of credit with our correspondent banks. As of June 30, 2015 and December 31, 2014, there were no federal funds purchased outstanding.

## Liquidity and Capital Resources

### Liquidity

Liquidity involves our ability to raise funds to support asset growth and acquisitions or reduce assets to meet deposit withdrawals and other payment obligations, to maintain reserve requirements and otherwise to operate on an ongoing basis and manage unexpected events. During the six months ended June 30, 2015 and the 2013 fiscal year, our liquidity needs have primarily been met by core deposits, security and loan maturities and amortizing investment and loan portfolios. Although access to purchased funds from correspondent banks and overnight advances from the FHLB and the Dallas Fed are available and have been utilized on occasion to take advantage of investment opportunities, we do not generally rely on these external funding sources. We expect capital resources and liquidity will be sufficient for at least the next twelve months.

As of June 30, 2015, we had outstanding \$513.9 million in commitments to extend credit and \$12.2 million in commitments associated with outstanding standby and commercial letters of credit. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the total outstanding may not necessarily reflect the actual future cash funding requirements.

As of June 30, 2015, we had no exposure to future cash requirements associated with known uncertainties or capital expenditures of a material nature.

As of June 30, 2015, we had cash and cash equivalents of \$168.4 million, an increase of \$99.5 million compared with \$68.9 million as of December 31, 2014.

### Contractual Obligations

The following table summarizes our contractual obligations and other commitments to make future payments as of June 30, 2015 (other than securities sold under repurchase agreements), which consist of our future cash payments associated with our contractual obligations pursuant to our certificates and other time deposits and noncancelable future operating leases. Payments related to leases are based on actual payments specified in underlying contracts.

	June 30, 2015				Total
	1 year or less	More than 1 year but less than 3 years	3 years or more but less than 5 years	5 years or more	
(Dollars in thousands)					
Certificates and other time deposits	\$ 399,210	\$ 215,900	\$ 47,225	\$ -	\$ 662,335
Federal Home Loan Bank advances	63,745	1,156	2,069	544	67,514
Operating leases	1,261	2,312	1,378	1,921	6,872
Total	<u>\$ 464,216</u>	<u>\$ 219,368</u>	<u>\$ 50,672</u>	<u>\$ 2,465</u>	<u>\$ 736,721</u>

### Off Balance Sheet Items

In the normal course of business, we enter into various transactions, which, in accordance with GAAP, are not included in our consolidated balance sheets. We enter into these transactions to meet the financing needs of our customers. These transactions include

commitments to extend credit and standby and commercial letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized in the consolidated balance sheets.

Our commitments associated with outstanding standby and commercial letters of credit and commitments to extend credit expiring by period as of June 30, 2015 are summarized below. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the amounts shown do not necessarily reflect the actual future cash funding requirements:

	June 30, 2015				Total
	1 year or less	More than 1 year but less than 3 years	3 years or more but less than 5 years	5 years or more	
	(Dollars in thousands)				
Commitments to extend credit	\$ 153,871	\$ 187,226	\$ 78,588	\$ 94,191	\$ 513,876
Standby and commercial letters of credit	11,833	377	-	-	12,210
Total	\$ 165,704	\$ 187,603	\$ 78,588	\$ 94,191	\$ 526,086

#### Capital Resources

Total shareholders' equity was \$298.7 million at June 30, 2015, an increase of \$10.2 million or 3.6% compared with \$288.4 million at December 31, 2014. The increase was the result of retained earnings of \$8.8 million for the six month period, proceeds from the exercise of stock options and an increase in the value of available for sale securities recognized in other accumulated comprehensive earnings.

In July 2013, the Federal Reserve published final rules for the adoption of the Basel III regulatory capital framework (the "Basel III Capital Rules"). The Basel III Capital Rules, among other things, (i) introduce a new capital measure called "Common Equity Tier 1" ("CET1"), (ii) specify that Tier 1 capital consist of Common Equity Tier 1 and "Additional Tier 1 Capital" instruments meeting specified requirements, (iii) define Common Equity Tier 1 narrowly by requiring that most deductions/adjustments to regulatory capital measures be made to Common Equity Tier 1 and not to the other components of capital and (iv) expand the scope of the deductions/adjustments as compared to existing regulations. The Basel III Capital Rules became effective for us on January 1, 2015 with certain transition provisions fully phased in on January 1, 2019. Prior to January 1, 2015 the Basel I Capital Rules applied to us.

The following table provides a comparison of the Company's and the Bank's leverage and risk weighted capital ratios as of June 30, 2015 and December 31, 2014 to the minimum and well capitalized regulatory standards:

	June 30, 2015					
	Actual		For Capital Adequacy Purposes		To be Categorized as Well Capitalized under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
(Dollars in thousands)						
<b>The Company<sup>(1)</sup>:</b>						
Total capital (to risk weighted assets)	\$ 284,167	13.4 %	\$ 170,083	8.0 %	N/A	N/A
Tier 1 capital (to risk weighted assets)	265,681	12.5	127,563	6.0	N/A	N/A
Common equity tier 1 capital <sup>(3)</sup>	265,681	12.5	95,672	4.5	N/A	N/A
Tier I capital (to average assets)	265,681	11.9	89,660	4.0	N/A	N/A
<b>The Bank<sup>(2)</sup>:</b>						
Total capital (to risk weighted assets)	\$ 275,055	13.0 %	\$ 169,863	8.0 %	\$ 212,328	10.0 %
Tier 1 capital (to risk weighted assets)	256,568	12.1	127,397	6.0	169,863	8.0
Common equity tier 1 capital <sup>(3)</sup>	256,568	12.1	95,548	4.5	138,013	6.5
Tier I capital (to average assets)	256,568	11.5	89,337	4.0	111,672	5.0

**December 31, 2014**

	<u>Actual</u>		<u>For Capital Adequacy Purposes</u>		<u>To be Categorized as Well Capitalized under Prompt Corrective Action Provisions</u>	
	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>	<u>Amount</u>	<u>Ratio</u>
	(Dollars in thousands)					
<b>The Company<sup>(1)</sup>:</b>						
Total capital (to risk weighted assets)	\$ 268,770	14.0 %	\$ 154,052	8.0 %	N/A	N/A
Tier 1 capital (to risk weighted assets)	252,963	13.1	77,026	4.0	N/A	N/A
Tier I capital (to average assets)	252,963	12.1	84,003	4.0	N/A	N/A
<b>The Bank<sup>(2)</sup>:</b>						
Total capital (to risk weighted assets)	\$ 259,313	13.5 %	\$ 153,867	8.0 %	\$ 192,334	10.0 %
Tier 1 capital (to risk weighted assets)	243,506	12.7	76,934	4.0	115,400	6.0
Tier I capital (to average assets)	243,506	11.6	83,738	4.0	104,673	5.0

(1) The Federal Reserve may require the Company to maintain capital ratios above the required minimums.

(2) The FDIC or the OCC may require the Bank to maintain capital ratios above the required minimums.

(3) Common equity tier 1 capital is a new ratio required under Basel III Capital Rules effective January 1 2015.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

The Company manages market risk, which for the Company is primarily interest rate risk, through its Asset Liability Committee, which is composed of certain members of its board of directors in accordance with asset liability and funds management policies approved by the Company's board of directors.

The Company uses an interest rate risk simulation model and shock analysis to test the interest rate sensitivity of net income and the balance sheet, respectively. See the Company's Annual Report on Form 10-K for year ended December 31, 2014 "Management Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Interest Rate Sensitivity and Market Risk".

### **Item 4. Controls and Procedures.**

*Evaluation of disclosure controls and procedures* — As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) were effective as of the end of the period covered by this report.

*Changes in internal control over financial reporting* — There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(e) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **PART II—OTHER INFORMATION**

### **Item 1. Legal Proceedings.**

The Company and the Bank are from time to time subject to claims and litigation arising in the ordinary course of business. At this time, in the opinion of management, the likelihood is remote that the impact of such proceedings, either individually or in the aggregate, would have a material adverse effect on our consolidated results of operations, financial condition or cash flows. However, one or more unfavorable outcomes in any claim or litigation against us could have a material adverse effect for the period in which they are resolved.

In addition, regardless of their merits or their ultimate outcomes, such matters are costly, divert management's attention and may materially adversely affect our reputation, even if resolved in our favor.

**Item 1A. Risk Factors.**

There have no material changes in the Company's risk factors from those disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 and those described in the definitive joint proxy statement/prospectus on Form S-4 (Registration No. 333-205495) filed by the Company on August 12, 2015.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

- (a) None.
- (b) None.
- (c) None.

**Item 3. Defaults Upon Senior Securities.**

None.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information.**

None.

**Item 6. Exhibits.**
