## 1. Description of Business and Basis of Presentation

## Description of Business

L Brands, Inc. ("the Company") operates in the highly competitive specialty retail business. The Company is a specialty retailer of women's intimate and other apparel, beauty and personal care products and accessories. The Company sells its merchandise through company-owned specialty retail stores in the United States ("U.S."), Canada and the United Kingdom ("U.K."), which are primarily mall-based, and through its websites and other channels. The Company's other international operations are primarily through franchise, license and wholesale partners. The Company currently operates the following retail brands:

- Victoria's Secret
- Victoria's Secret PINK
- Bath \& Body Works
- La Senza
- Henri Bendel

## Fiscal Year

The Company's fiscal year ends on the Saturday nearest to January 31. As used herein, "third quarter of 2015" and "third quarter of 2014" refer to the thirteen week periods ending October 31, 2015 and November 1, 2014, respectively. "Year-to-date 2015" and "year-to-date 2014" refer to the thirty-nine week periods ending October 31, 2015 and November 1, 2014.

## Basis of Consolidation

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company accounts for investments in unconsolidated entities where it exercises significant influence, but does not have control, using the equity method. Under the equity method of accounting, the Company recognizes its share of the investee net income or loss. Losses are only recognized to the extent the Company has positive carrying value related to the investee. Carrying values are only reduced below zero if the Company has an obligation to provide funding to the investee. The Company's share of net income or loss of unconsolidated entities from which the Company purchases merchandise or merchandise components is included in Costs of Goods Sold, Buying and Occupancy on the Consolidated Statements of Income. The Company's share of net income or loss of all other unconsolidated entities is included in Other Income (Loss) on the Consolidated Statements of Income. The Company's equity-method investments are required to be tested for impairment when it is determined there may be an other-than-temporary loss in value.

## Interim Financial Statements

The Consolidated Financial Statements as of and for the periods ended October 31, 2015 and November 1, 2014 are unaudited and are presented pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto contained in the Company's 2014 Annual Report on Form 10-K.
In the opinion of management, the accompanying Consolidated Financial Statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of the results for the interim periods.

## Seasonality of Business

Due to seasonal variations in the retail industry, the results of operations for any interim period are not necessarily indicative of the results expected for the full fiscal year.

## Concentration of Credit Risk and Investments

The Company maintains cash and cash equivalents and derivative contracts with various major financial institutions. The Company monitors the relative credit standing of financial institutions with whom the Company transacts and limits the amount of credit exposure with any one entity. Currently, the Company's investment portfolio is primarily comprised of U.S. government obligations, U.S. Treasury and AAA-rated money market funds, highly rated commercial paper and bank deposits.
In the third quarter of 2015, the Company invested $\$ 10$ million in marketable equity securities which are classified as available-for-sale. These securities are recorded at fair value in other current assets on the October 31, 2015 Consolidated Balance Sheet,
and unrealized holding gains and losses are recorded, net of tax, as a component of accumulated other comprehensive income. Unrealized holding gains were $\$ 3$ million as of October 31, 2015.

The Company also periodically reviews the relative credit standing of franchise, license and wholesale partners and other entities to which the Company grants credit terms in the normal course of business.

## Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates, and the Company revises its estimates and assumptions as new information becomes available.

## 2. New Accounting Pronouncements

## Revenue Recognition from Contracts with Customers

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers. This guidance requires companies to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This guidance will be effective beginning in fiscal 2018, with early adoption as of fiscal 2017 permitted. The standard allows for either a full retrospective or a modified retrospective transition method. The Company is currently evaluating this standard, including the transition method and timing of adoption, and the related impact on its Consolidated Statements of Income and Comprehensive Income, Balance Sheets and Statements of Cash Flows.

## Simplifying the Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs. This guidance requires companies to recognize debt issuance costs related to recognized debt liabilities in the balance sheet as a direct deduction from the carrying amount of those debt liabilities, consistent with debt discounts. This guidance will be effective beginning in fiscal 2016, and early adoption is permitted. This standard requires retrospective adoption. The Company is finalizing its evaluation of this ASU, including timing of adoption, but expects to record a decrease to Other Assets and Long-term Debt of approximately $\$ 47$ million upon adoption.

## Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU No. 2015-17, Balance Sheet Classification of Deferred Taxes. This guidance requires companies to present all deferred tax assets and liabilities as noncurrent in the balance sheet. This guidance will be effective beginning in fiscal 2017, and early adoption is permitted. This standard may be adopted either on a retrospective or prospective basis. The Company is currently evaluating this standard, including the transition method and timing of adoption, and the related impact on its Consolidated Balance Sheets.

## 3. Earnings Per Share and Shareholders' Equity (Deficit)

## Earnings Per Share

Earnings per basic share are computed based on the weighted-average number of outstanding common shares. Earnings per diluted share include the weighted-average effect of dilutive options and restricted stock on the weighted-average shares outstanding.

The following table provides shares utilized for the calculation of basic and diluted earnings per share for the third quarter and year-to-date 2015 and 2014:

|  | Third Quarter |  | Year-to-Date |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2015 | 2014 | 2015 | 2014 |
|  | (in millions) |  |  |  |
| Weighted-average Common Shares: |  |  |  |  |
| Issued Shares | 313 | 309 | 312 | 309 |
| Treasury Shares | (22) | (17) | (20) | (17) |
| Basic Shares | 291 | 292 | 292 | 292 |
| Effect of Dilutive Options and Restricted Stock | 5 | 6 | 5 | 6 |
| Diluted Shares | 296 | 298 | 297 | 298 |
| Anti-dilutive Options and Awards (a) | 1 | - | 1 | 1 |

(a) These options and awards were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive.

## Shareholders' Equity (Deficit)

## Common Stock Repurchases

Under the authority of the Company's Board of Directors, the Company repurchased shares of its common stock under the following repurchase programs during year-to-date 2015 and 2014:

There were no share repurchases reflected in Accounts Payable on the October 31, 2015, January 31, 2015 or November 1, 2014 Consolidated Balance Sheets.

Depreciation expense was $\$ 111$ million and $\$ 108$ million for the third quarter of 2015 and 2014, respectively. Depreciation expense was $\$ 335$ million and $\$ 327$ million for year-to-date 2015 and 2014, respectively.
In the second and third quarters of 2015, the Company completed sale and leaseback transactions under noncancellable operating leases of certain assets with a carrying value of $\$ 177$ million. The proceeds of $\$ 178$ million from the sale of these assets are included in Proceeds from Sale of Assets within the Investing Activities section of the 2015 Consolidated Statement of Cash Flows. For additional information, see Note 12, "Commitments and Contingencies."

## 6. Equity Investments and Other

## Third-party Apparel Sourcing Business

In the first quarter of 2015, the Company divested its remaining ownership interest in its third-party apparel sourcing business to Sycamore Partners. The Company received cash proceeds of $\$ 85$ million and recognized a pre-tax gain of $\$ 78$ million (aftertax gain of $\$ 69$ million). The gain is included in Other Income (Loss) in the year-to-date 2015 Consolidated Statement of Income and the cash proceeds are included in Proceeds from Divestiture of the Third-party Apparel Sourcing Business within the Investing Activities section of the 2015 Consolidated Statement of Cash Flows.

The Company's carrying value for this equity method investment was $\$ 8$ million as of January 31, 2015 and $\$ 7$ million as of November 1, 2014 and is included in Other Assets on the January 31, 2015 and November 1, 2014 Consolidated Balance Sheets. The Company's share of net income (loss) from this investment was included in Other Income on the third quarter and year-to-date 2014 Consolidated Statements of Income.

## Easton Investments

The Company has land and other investments in Easton, a 1,300-acre planned community in Columbus, Ohio, that integrates office, hotel, retail, residential and recreational space. These investments totaled $\$ 96$ million as of October 31, 2015, $\$ 101$ million as of January 31, 2015 and $\$ 100$ million as of November 1, 2014 and are recorded in Other Assets on the Consolidated Balance Sheets.

Included in the Company's Easton investments is an equity interest in Easton Town Center, LLC ("ETC"), an entity that owns and has developed a commercial entertainment and shopping center. The Company's investment in ETC is accounted for using the equity method of accounting. The Company has a majority financial interest in ETC, but another unaffiliated member manages ETC. Certain significant decisions regarding ETC require the consent of unaffiliated members in addition to the Company.

In the second quarter of 2015, ETC entered into an interest rate swap with cash settlement due in February 2017. The Company provided a guarantee of payment to the counterparty for amounts owed by ETC, if any, upon settlement if ETC is unable to pay. The Company's estimated maximum potential loss from this guarantee is $\$ 77$ million, which was determined primarily based upon estimated fluctuations in future interest rates, developed using historical fluctuations in interest rates. The estimated fair value of this guarantee obligation is primarily impacted by the Company's assessment of ETC's ability to pay in addition to estimated fluctuations in future interest rates. The estimated fair value of this guarantee obligation is not significant as of October 31, 2015.

Also included in the Company's Easton investments is an equity interest in Easton Gateway, LLC ("EG"), an entity that owns and is developing a commercial shopping center in the Easton community. The Company has a majority financial interest in EG, but another unaffiliated member manages the activities that most significantly impact the economic performance of EG including leasing, tenant relationships and maintenance of the center. Certain significant decisions regarding EG require the consent of the unaffiliated member in addition to the Company. In the first quarter of 2014, EG entered into a construction loan for financing related to the development of the commercial shopping center that matures in April 2017. In conjunction with the EG loan, the Company, along with the unaffiliated member, provided a guarantee of interest, certain expenses and a completion guarantee on the construction of the commercial shopping center.
The Company has concluded EG is a variable interest entity; however, the Company is not the primary beneficiary as defined in Accounting Standards Codification ("ASC") Topic 810, Consolidation, and, therefore, accounts for its investment in EG using the equity method of accounting. The Company's investment in EG totaled $\$ 30$ million as of October 31, 2015, $\$ 34$ million as of January 31, 2015 and $\$ 35$ million as of November 1, 2014. The Company's estimated maximum potential loss from its involvement with EG totaled $\$ 40$ million as of October 31, 2015. This includes the Company's equity investment of $\$ 30$ million and the Company's estimated maximum potential loss from its guarantees related to EG's construction loan of \$10 million. The estimated fair value of these guarantee obligations is not significant as of October 31, 2015.

## 7. Income Taxes

The provision for income taxes is based on the current estimate of the annual effective tax rate and is adjusted as necessary for quarterly events. The Company's quarterly effective tax rate does not reflect a benefit associated with losses related to certain foreign subsidiaries.
For the third quarter of 2015, the Company's effective tax rate was $36.8 \%$ compared to $35.5 \%$ in the third quarter of 2014. The third quarter 2015 rate was lower than the Company's combined estimated federal and state statutory rate primarily due to foreign earnings taxed at a rate lower than our combined estimated federal and state rate. The third quarter 2014 rate was lower than the Company's combined estimated federal and state statutory rate primarily due to the resolution of certain tax matters.

For year-to-date 2015, the Company's effective tax rate was $35.2 \%$ compared to $36.9 \%$ year-to-date of 2014 . The year-to-date 2015 rate was lower than the Company's combined estimated federal and state statutory rate primarily due to the foreign portion of the divestiture of our third-party apparel sourcing business. The year-to-date 2014 rate was lower than the Company's combined estimated federal and state statutory rate primarily due to the resolution of certain tax matters.
As of October 31, 2015, any unrecognized deferred income tax liability resulting from the Company's undistributed foreign earnings from non-U.S. subsidiaries is not expected to reverse in the foreseeable future; furthermore, the undistributed foreign earnings are permanently reinvested. If the Company elects to distribute these foreign earnings in the future, they could be subject to additional income taxes. Determination of the amount of any unrecognized deferred income tax liability on these
undistributed foreign earnings is not practicable because such liability, if any, is dependent on circumstances existing if and when remittance occurs.

Income taxes paid were approximately $\$ 106$ million and $\$ 112$ million for the third quarter of 2015 and 2014, respectively. Income taxes paid were approximately $\$ 476$ million and $\$ 481$ million for year-to-date 2015 and 2014, respectively.

(a) The balances include a fair value interest rate hedge adjustment which increased the debt balance by $\$ 7$ million as of October 31, 2015, $\$ 8$ million as of January 31, 2015 and $\$ 3$ million as of November 1, 2014.
(b) The balances include a fair value interest rate hedge adjustment which increased the debt balance by $\$ 11$ million as of October 31, 2015 and \$15 million as of January 31, 2015 and November 1, 2014.

## Issuance of Notes

In October 2015, the Company issued $\$ 1$ billion of $6.875 \%$ notes due in November 2035. The obligation to pay principal and interest on these notes is jointly and severally guaranteed on a full and unconditional basis by certain of the Company's $100 \%$ owned subsidiaries (the "Guarantors"). The net proceeds from the issuance were $\$ 988$ million, which were net of issuance costs of $\$ 12$ million. These issuance costs are being amortized through the maturity date of November 2035 and are included within Other Assets on the October 31, 2015 Consolidated Balance Sheet.

## Repayment of Notes

In November 2014, the Company repaid the remaining \$213 million of its 5.25\% Senior Unsecured Notes due November 2014 with cash on hand.

## Revolving Facility

The Company maintains a secured revolving credit facility ("Revolving Facility"). The Revolving Facility has aggregate availability of $\$ 1$ billion and expires July 18,2019 . The fees related to committed and unutilized amounts are $0.30 \%$ per annum, and the fees related to outstanding letters of credit are $1.50 \%$ per annum. In addition, the interest rate on outstanding
U.S. dollar borrowings or British pound borrowings is London Interbank Offered Rate ("LIBOR") plus $1.50 \%$ per annum. The interest rate on outstanding Canadian dollar borrowings is Canadian Dollar Offered Rate ("CDOR") plus $1.50 \%$ per annum.
The Revolving Facility contains fixed charge coverage and debt to EBITDA financial covenants. The Company is required to maintain a fixed charge coverage ratio of not less than 1.75 to 1.00 and a consolidated debt to consolidated EBITDA ratio not exceeding 4.00 to 1.00 for the most recent four-quarter period. In addition, the Revolving Facility provides that investments and restricted payments may be made, without limitation on amount, if (a) at the time of and after giving effect to such investment or restricted payment, the ratio of consolidated debt to consolidated EBITDA for the most recent four-quarter period is less than 3.00 to 1.00 and (b) no default or event of default exists. As of October 31, 2015, the Company was in compliance with both of its financial covenants, and the ratio of consolidated debt to consolidated EBITDA was less than 3.00 to 1.00 .

As of October 31, 2015, there were no borrowings outstanding under the Revolving Facility.

## Letters of Credit

The Revolving Facility supports the Company's letter of credit program. The Company had $\$ 19$ million of outstanding letters of credit as of October 31, 2015 that reduce its remaining availability under the Revolving Facility.

## Fair Value Interest Rate Swap Arrangements

For information related to the Company's fair value interest rate swap arrangements, see Note 9, "Derivative Instruments."

## 9. Derivative Instruments

## Foreign Exchange Risk

The Company has entered into cross-currency swaps related to approximately CAD $\$ 270$ million of intercompany loans. These swaps mature in January 2016 and January 2018 at the same time as the related loans and are designated as cash flow hedges of foreign currency exchange risk. The swaps mitigate the exposure to fluctuations in the U.S. dollar-Canadian dollar exchange rate related to the Company's Canadian operations. The swaps require the periodic exchange of fixed-rate Canadian dollar interest payments for fixed-rate U.S. dollar interest payments as well as exchange of Canadian dollar and U.S. dollar principal payments upon maturity. Changes in the U.S. dollar-Canadian dollar exchange rate and the related swap settlements result in reclassification of amounts from accumulated other comprehensive income to earnings to completely offset foreign currency transaction gains and losses recognized on the intercompany loans.

The following table provides a summary of the fair value and balance sheet classification of the derivative financial instruments designated as foreign exchange cash flow hedges as of October 31, 2015, January 31, 2015 and November 1, 2014:

|  | $\underset{2015}{\text { October } 31,}$ |  | $\underset{2015}{\text { January }} 31,$ |  | November 1, 2014 |  |

## Interest Rate Risk

## Interest Rate Designated Fair Value Hedges

In 2014, the Company entered into interest rate swap arrangements related to $\$ 100$ million of the outstanding 2017 Notes and $\$ 100$ million of the outstanding 2019 Notes. In 2013, the Company entered into interest rate swap arrangements related to $\$ 200$ million of the outstanding 2017 Notes and $\$ 200$ million of the outstanding 2019 Notes. The interest rate swap arrangements effectively convert the fixed interest rate on the related debt to a variable interest rate based on LIBOR plus a fixed percentage.
The swap arrangements are designated as fair value hedges. The changes in the fair value of the interest rate swaps have an equal and offsetting impact to the carrying value of the debt on the balance sheet. The differential to be paid or received on the interest rate swap arrangements is accrued and recognized as an adjustment to interest expense.

In the past, the Company had entered into interest rate swap arrangements on the 2017 Notes. In 2012, the Company terminated these interest rate designated fair value hedges. The carrying value of the 2017 Notes include unamortized hedge settlements which are amortized as a reduction to interest expense through the maturity date of the Notes.

The following table provides a summary of the fair value and balance sheet classification of the derivative financial instruments designated as interest rate fair value hedges as of October 31, 2015, January 31, 2015 and November 1, 2014 :

## 10. Fair Value Measurements

The following table provides a summary of the carrying value and estimated fair value of long-term debt as of October 31, 2015, January 31, 2015 and November 1, 2014:

|  | October 31, <br> $\mathbf{2 0 1 5}$ |  |  | January 31, <br> 2015 | November 1, <br> $\mathbf{2 0 1 4}$ |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  | (in millions) |  |  |  |
| Carrying Value | $\$$ | 5,762 | $\$$ | 4,765 | $\$$ | 4,972 |
| Estimated Fair Value (a) | 6,322 | 5,305 | 5,476 |  |  |  |

(a) The estimated fair value of the Company's publicly traded debt is based on reported transaction prices which are considered Level 2 inputs in accordance with ASC Topic 820, Fair Value Measurements and Disclosure. The estimates presented are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

The authoritative guidance included in ASC Topic 820, establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 - Quoted market prices in active markets for identical assets or liabilities.
- Level 2 - Observable inputs other than quoted market prices included in Level 1, such as quoted prices of similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The following table provides a summary of assets and liabilities measured in the consolidated financial statements at fair value on a recurring basis as of October 31, 2015, January 31, 2015 and November 1, 2014 :

| Assets: |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Cash and Cash Equivalents | \$ | 1,681 | \$ | - | \$ | - | \$ | 1,681 |
| Interest Rate Designated Fair Value Hedges |  | - |  | 12 |  | - |  | 12 |
| Cross-currency Cash Flow Hedges |  | - |  | 21 |  | - |  | 21 |
| Liabilities: |  |  |  |  |  |  |  |  |
| Lease Guarantees |  | - |  | - |  | 1 |  | 1 |
| As of November 1, 2014 |  |  |  |  |  |  |  |  |
| Assets: |  |  |  |  |  |  |  |  |
| Cash and Cash Equivalents | \$ | 745 | \$ | - | \$ | - | \$ | 745 |
| Interest Rate Designated Fair Value Hedges |  | - |  | 5 |  | - |  | 5 |
| Liabilities: |  |  |  |  |  |  |  |  |
| Cross-currency Cash Flow Hedges |  | - |  | 10 |  | - |  | 10 |
| Lease Guarantees |  | - |  | - |  | 1 |  | 1 |

The Company's Level 1 fair value measurements use unadjusted quoted prices in active markets for identical assets. In the third quarter of 2015, the Company invested in marketable equity securities. These securities are classified as Level 1 fair value measurements as they are traded with sufficient frequency and volume to enable the Company to obtain pricing information on an ongoing basis.

The Company's Level 2 fair value measurements use market approach valuation techniques. The primary inputs to these techniques include benchmark interest rates and foreign currency exchange rates, as applicable to the underlying instruments.

The Company's Level 3 fair value measurements use income approach valuation techniques. The primary inputs to these techniques include the guaranteed lease payments, residual values, discount rates, as well as the Company's assessment of the risk of default on guaranteed leases and the assessment of the risk of decline in residual value on the residual value guarantees.

Management believes that the carrying values of accounts receivable, accounts payable, accrued expenses and current debt approximate fair value because of their short maturity.

The following table provides a reconciliation of the Company's lease guarantees measured at fair value on a recurring basis using unobservable inputs (Level 3) for the third quarter and year-to-date 2015 and 2014:

|  | Third Quarter |  |  |  | Year-to-Date |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2015 |  | 2014 |  | 2015 |  | 2014 |  |

| Beginning Balance | \$ | - | \$ | 1 | \$ | 1 | \$ | 1 |
| Change in Estimated Fair Value Reported in Earnings |  | - |  | - |  | (1) |  | - |
| Ending Balance | \$ | - | \$ | 1 | \$ | - | \$ | 1 |

The Company's lease guarantees include minimum rent and additional payments covering taxes, common area costs and certain other expenses and relate to leases that commenced prior to the disposition of certain businesses. The fair value of these lease
guarantees is impacted by economic conditions, probability of rent obligation payments, period of obligation and the discount rate utilized. For additional information, see Note 12, "Commitments and Contingencies."

## 12. Commitments and Contingencies

The Company is subject to various claims and contingencies related to lawsuits, taxes, insurance, regulatory and other matters arising out of the normal course of business. Actions filed against the Company from time to time include commercial, tort, intellectual property, customer, employment, data privacy, securities and other claims, including purported class action lawsuits. Management believes that the ultimate liability arising from such claims and contingencies, if any, is not likely to have a material adverse effect on the Company's results of operations, financial condition or cash flows.

## Guarantees

In connection with the disposition of certain businesses, the Company has remaining guarantees of approximately $\$ 16$ million related to lease payments of Express, Limited Stores, Dick's Sporting Goods and New York \& Company under the current terms of noncancelable leases expiring at various dates through 2018. These guarantees include minimum rent and additional payments covering taxes, common area costs and certain other expenses and relate to leases that commenced prior to the disposition of the businesses. In certain instances, the Company's guarantee may remain in effect if the term of a lease is extended.

The Company's guarantees related to Express, Limited Stores and New York \& Company require fair value accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") in effect at the time of these divestitures. The guaranteed lease payments related to Express, Limited Stores and New York \& Company totaled \$6 million as of October 31, 2015, \$11 million as of January 31, 2015 and $\$ 14$ million as of November 1, 2014. The estimated fair value of these guarantee obligations was $\$ 100$ thousand as of October 31, 2015 and $\$ 1$ million as of January 31, 2015 and November 1, 2014, and is included in Other Long-term Liabilities on the Consolidated Balance Sheets.

The Company's guarantees related to Dick's Sporting Goods are not subject to fair value accounting, but require that a loss be accrued when probable and reasonably estimable based on GAAP in effect at the time of these divestitures. The Company had no liability recorded with respect to any of the guarantee obligations as it concluded that payments under these guarantees were not probable as of October 31, 2015, January 31, 2015 and November 1, 2014.
In connection with the Company's investment in ETC, the Company provided a guarantee of payment to an interest rate swap counterparty for amounts owed by ETC, if any, upon settlement in February 2017. The estimated fair value of this guarantee obligation is not significant as of October 31, 2015. For additional information, see Note 6, "Equity Investments and Other."

In connection with the Company's investment in EG, the Company, along with an unaffiliated member, provided a guarantee of interest, certain expenses and a completion guarantee on the construction of the commercial shopping center. The estimated fair value of these guarantee obligations is not significant as of October 31, 2015. For additional information, see Note 6, "Equity Investments and Other."
In the second and third quarters of 2015, in connection with the sale and leaseback under noncancellable operating leases of certain assets, the Company provided residual value guarantees to the lessor if the leased assets cannot be sold for an amount in excess of a specified minimum value at the conclusion of the lease term. The leases expire in 2020, and the total amount of the guarantees is approximately $\$ 105$ million. The estimated fair value of these guarantee obligations is not significant as of October 31, 2015.

## 13. Retirement Benefits

The Company sponsors a tax-qualified defined contribution retirement plan and a non-qualified supplemental retirement plan for substantially all of its associates within the U.S. Participation in the tax-qualified plan is available to associates who meet certain age and service requirements. Participation in the non-qualified plan is available to associates who meet certain age, service, job level and compensation requirements.
The qualified plan permits participating associates to elect contributions up to the maximum limits allowable under the Internal Revenue Code. The Company matches associate contributions according to a predetermined formula and contributes additional amounts based on a percentage of the associates' eligible annual compensation and years of service. Associate contributions and Company matching contributions vest immediately. Additional Company contributions and the related investment earnings are subject to vesting based on years of service. Total expense recognized related to the qualified plan was $\$ 15$ million for the third quarter of 2015 and 2014. Total expense recognized related to the qualified plan was $\$ 46$ million for year-to-date 2015 and $\$ 45$ million for year-to-date 2014.
The non-qualified plan is an unfunded plan which provides benefits beyond the Internal Revenue Code limits for qualified defined contribution plans. The plan permits participating associates to elect contributions up to a maximum percentage of eligible compensation. The Company matches associate contributions according to a predetermined formula and contributes additional amounts based on a percentage of the associates' eligible compensation and years of service. The plan also permits participating associates to defer additional compensation up to a maximum amount which the Company does not match. Associates' accounts are credited with interest using a rate determined by the Company. Associate contributions and the related interest vest immediately. Company contributions, along with related interest, are subject to vesting based on years of service. Associates may elect in-service distributions for the unmatched additional deferred compensation component only. The remaining vested portion of associates' accounts in the plan will be distributed upon termination of employment in either a lump sum or in annual installments over a specified period of up to 10 years. Total expense recognized related to the nonqualified plan was $\$ 9$ million for the third quarter of 2015 and $\$ 7$ million for the third quarter of 2014. Total expense recognized related to the non-qualified plan was $\$ 22$ million for year-to-date 2015 and $\$ 19$ million for year-to-date 2014.

## 15. Code of Conduct, Related Person Transaction Policy and Associated Matters

The Company has a code of conduct that is applicable to all employees of the Company, including the CEO and Chief Financial Officer, and to members of the Board of Directors. Any amendments to the code or any waivers from any provisions of the code granted to executive officers or directors will be promptly disclosed to stockholders through posting on the Company's website at $w w w . l b . c o m$.

Under the Company's Related Person Transaction Policy (the "Policy"), subject to certain exceptions, directors and executive officers of the Company are required to notify the Company of the existence or potential existence of any financial or commercial transaction, agreement or relationship involving the Company in which a director or executive officer or his or her immediate family members has a direct or indirect material interest. Each such transaction must be approved by the Board or a committee consisting solely of independent directors after consideration of all material facts and circumstances.
The Company is engaged in several projects designed to increase its speed and agility in producing products that satisfy its customers. In the case of its beauty, personal care and home fragrance businesses, the development of supplier facilities in close proximity to its headquarters and distribution facilities in central Ohio has been an integral part of capturing the many business benefits of speed and agility. The New Albany Company ("NACO"), a business beneficially owned by Mr. and Mrs. Wexner, is in the business of developing real estate, including industrial parks, and has sold land (and may in the future sell land) to certain vendors or third party developers in connection with the continuing development of an industrial park focused on the foregoing business categories (the "Beauty Park") in New Albany, Ohio. The Audit Committee monitors such vendor and third party transactions on an ongoing basis to assure that they are in the best interests of the Company and its stockholders generally.
In light of the Company's highly favorable experience with vendors at the Beauty Park and its growth plans for the beauty, personal care and home fragrance businesses, the Company believes that certain new facilities required to achieve such projected growth should be located as close as possible to the Beauty Park. The Company identified certain land owned by NACO that, together with certain other adjacent parcels owned by a number of third parties in immediate proximity to the Beauty Park, would be desirable for the Company to acquire for future growth. Because of the Wexners' interest in NACO, the matter was referred to, and evaluated and negotiated by, the Audit Committee in accordance with the Policy. In 2014, the Audit Committee negotiated the purchase of certain NACO land for approximately $\$ 21$ million, and the assumption from NACO of contracts to purchase certain adjacent parcels directly from third parties for approximately $\$ 7$ million, and determined that these transactions were fair to and in the best interests of the Company and its stockholders generally. In 2015, certain additional property immediately adjacent to the foregoing parcels became available, and the Company believed that it would be desirable to acquire such property for future growth. This potential transaction was also referred to the Audit Committee for evaluation and, if appropriate, negotiation. The Audit Committee subsequently negotiated with NACO the purchase of such property for approximately $\$ 5.3$ million, and an existing building located in New Albany that was historically associated with the Bath \& Body Works brand for approximately $\$ 250,000$, and determined that these transactions were fair to and in the best interests of the Company and its stockholders generally. The determinations made by the Audit Committee in 2014 and 2015 under the Policy with respect to these transactions between the Company and NACO were made in reliance on, among other things, advice from independent counsel and real estate appraisers and advisors, including opinions received from an independent financial advisor with specialized expertise in commercial real estate that such transactions were fair to the Company from a financial point of view.

## Review Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of L Brands, Inc.:

We have reviewed the consolidated balance sheets of L Brands, Inc. and subsidiaries as of October 31, 2015 and November 1, 2014, and the related consolidated statements of income and comprehensive income for the thirteen and thirty-nine week periods ended October 31, 2015 and November 1, 2014, and cash flows for the thirty-nine week periods ended October 31, 2015 and November 1, 2014. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated interim financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of L Brands, Inc. and subsidiaries as of January 31, 2015, and the related consolidated statements of income, comprehensive income, total equity (deficit), and cash flows for the year then ended (not presented herein) and we expressed an unqualified audit opinion on those consolidated financial statements in our report dated March 20, 2015. In our opinion, the accompanying consolidated balance sheet of L Brands, Inc. and subsidiaries as of January 31, 2015, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

At the same time, we are aggressively focusing on bringing compelling merchandise assortments, marketing and store and digital experiences to our customers. We will look for, and capitalize on, those opportunities available to us in this environment. We believe that our brands, which lead their categories and offer high emotional content to customers at accessible prices, are well-positioned.

## Adjusted Financial Information

In addition to our results provided in accordance with GAAP above and throughout this Form 10-Q, provided below are nonGAAP measurements which present net income and earnings per share in 2015 on an adjusted basis, which removes certain special items. We believe that these special items are not indicative of our ongoing operations due to their size and nature. We use adjusted financial information as key performance measures of results of operations for the purpose of evaluating performance internally. These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Instead, we believe that the presentation of adjusted financial information provides additional information to investors to facilitate the comparison of past and present operations. Further, our definition of adjusted financial information may differ from similarly titled measures used by other companies. The table below reconciles the GAAP financial measures to the non-GAAP financial measures.

## FINANCIAL CONDITION

## Liquidity and Capital Resources

Liquidity, or access to cash, is an important factor in determining our financial stability. We are committed to maintaining adequate liquidity. Cash generated from our operating activities provides the primary resources to support current operations, growth initiatives, seasonal funding requirements and capital expenditures. Our cash provided from operations is impacted by our net income and working capital changes. Our net income is impacted by, among other things, sales volume, seasonal sales patterns, success of new product introductions and profit margins. Historically, sales are higher during the fourth quarter of the fiscal year due to seasonal and holiday-related sales patterns. Generally, our need for working capital peaks during the summer and fall months as inventory builds in anticipation of the holiday period.

We believe in returning value to our shareholders through a combination of dividends and share repurchase programs. During year-to-date 2015, we have paid $\$ 1.026$ billion in regular and special dividends and repurchased $\$ 363$ million of our common stock. We use cash flow generated from operating activities and financing activities to fund our dividends and share repurchase programs.

Our total cash and cash equivalents held by foreign subsidiaries were $\$ 224$ million as of October 31, 2015. Under current tax laws and regulations, if cash and cash equivalents held outside the U.S. are repatriated to the U.S., in certain circumstances we may be subject to additional income taxes.

(a) The balances include a fair value interest rate hedge adjustment which increased the debt balance by $\$ 7$ million as of October 31, 2015, $\$ 8$ million as of January 31, 2015 and $\$ 3$ million as of November 1, 2014.
(b) The balances include a fair value interest rate hedge adjustment which increased the debt balance by $\$ 11$ million as of October 31, 2015 and $\$ 15$ million as of January 31, 2015 and November 1, 2014.

## Issuance of Notes

In October 2015, we issued $\$ 1$ billion of $6.875 \%$ notes due in November 2035. The obligation to pay principal and interest on these notes is jointly and severally guaranteed on a full and unconditional basis by our Guarantors. The net proceeds from the issuance were $\$ 988$ million, which were net of issuance costs of $\$ 12$ million. These issuance costs are being amortized through the maturity date of November 2035 and are included within Other Assets on the October 31, 2015 Consolidated Balance Sheet.

## Repayment of Notes

In November 2014, we repaid the remaining $\$ 213$ million of our $5.25 \%$ Senior Unsecured Notes due November 2014 with cash on hand.

## Revolving Facility

We maintain a secured revolving credit facility ("Revolving Facility"). The Revolving Facility has aggregate availability of \$1 billion and expires July 18, 2019. The fees related to committed and unutilized amounts are $0.30 \%$ per annum, and the fees related to outstanding letters of credit are $1.50 \%$ per annum. In addition, the interest rate on outstanding U.S. dollar borrowings or British pound borrowings is LIBOR plus $1.50 \%$ per annum. The interest rate on outstanding Canadian dollar borrowings is CDOR plus $1.50 \%$ per annum.
The Revolving Facility contains fixed charge coverage and debt to EBITDA financial covenants. We are required to maintain a fixed charge coverage ratio of not less than 1.75 to 1.00 and a consolidated debt to consolidated EBITDA ratio not exceeding 4.00 to 1.00 for the most recent four-quarter period. In addition, the Revolving Facility provides that investments and restricted
payments may be made, without limitation on amount, if (a) at the time of and after giving effect to such investment or restricted payment, the ratio of consolidated debt to consolidated EBITDA for the most recent four-quarter period is less than 3.00 to 1.00 and (b) no default or event of default exists. As of October 31, 2015, we were in compliance with both of our financial covenants, and the ratio of consolidated debt to consolidated EBITDA was less than 3.00 to 1.00.

As of October 31, 2015, there were no borrowings outstanding under the Revolving Facility.

## Letters of Credit

The Revolving Facility supports our letter of credit program. We had $\$ 19$ million of outstanding letters of credit as of October 31, 2015 that reduce our remaining availability under our Revolving Facility.

## Fair Value Interest Rate Swap Arrangements

In 2014, we entered into interest rate swap arrangements related to $\$ 100$ million of the outstanding 2017 Notes and $\$ 100$ million of the outstanding 2019 Notes. In 2013, we entered into interest rate swap arrangements related to $\$ 200$ million of the outstanding 2017 Notes and $\$ 200$ million of the outstanding 2019 Notes. The interest rate swap arrangements effectively convert the fixed interest rate on the related debt to a variable interest rate based on LIBOR plus a fixed percentage.
The swap arrangements are designated as fair value hedges. The changes in the fair value of the interest rate swaps have an equal and offsetting impact to the carrying value of the debt on the balance sheet. The differential to be paid or received on the interest rate swap arrangements is accrued and recognized as an adjustment to interest expense.

In the past, we entered into interest rate swap arrangements on the 2017 Notes. In 2012, we terminated these interest rate designated fair value hedges. The carrying value of the 2017 Notes include unamortized hedge settlements which are amortized as a reduction to interest expense through the maturity date of the Notes.

## Working Capital and Capitalization

We believe that our available short-term and long-term capital resources are sufficient to fund foreseeable requirements.
The following table provides a summary of our working capital position and capitalization as of October 31, 2015, January 31, 2015 and November 1, 2014:

(a) The January 31, 2015 amounts represent a twelve-month period, and the October 31, 2015 and November 1, 2014 amounts represent nine-month periods.
(b) Letters of credit issued reduce our remaining availability under the Revolving Facility. We have outstanding letters of credit that reduce our remaining availability under the Revolving Facility of $\$ 19$ million as of October 31, 2015 and January 31, 2015 and $\$ 8$ million as of November 1, 2014.

## Credit Ratings

The following table provides our credit ratings as of October 31, 2015:

|  | Moody's |  | s\&P | Fitch |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  | Corporate | Ba 1 |  | $\mathrm{BB}+$ | $\mathrm{BB}+$ |
| Senior Unsecured Debt with Subsidiary Guarantee | Ba 1 |  | $\mathrm{BB}+$ | $\mathrm{BB}+$ |  |
| Senior Unsecured Debt | Ba 2 |  | $\mathrm{BB}-$ | BB |  |
| Outlook | Stable | Stable | Stable |  |  |

Our borrowing costs under our Revolving Facility are linked to our credit ratings at Moody's, S\&P and Fitch. If we receive an upgrade or downgrade to our corporate credit ratings by Moody's, S\&P or Fitch, the borrowing costs could decrease or increase, respectively. The guarantees of our obligations under the Revolving Facility by the Guarantors and the security
interests granted in our and the Guarantors' collateral securing such obligations are released if our credit ratings are higher than a certain level. Additionally, the restrictions imposed under the Revolving Facility on our ability to make investments and to make restricted payments cease to apply if our credit ratings are higher than certain levels. Credit rating downgrades by any of the agencies do not accelerate the repayment of any of our debt.

## Common Stock Share Repurchases

Under the authority of our Board of Directors, we repurchased shares of our common stock under the following repurchase programs for year-to-date 2015 and 2014:

| Repurchase Program | Amount Authorized |  | Shares Repurchased |  | Amount Repurchased |  |  |  | Average Stock Price of Shares Repurchased within Program |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| November 2012 | \$ | 250 | NA | 826 |  | NA | \$ | 45 | \$ | 48.52 |

In June 2015, our Board of Directors approved a new $\$ 250$ million share repurchase program, which included the $\$ 0.6$ million remaining under the February 2015 repurchase program.

In February 2015, our Board of Directors approved a $\$ 250$ million share repurchase program, which included the $\$ 91$ million remaining under the November 2012 repurchase program.

The June 2015 repurchase program had $\$ 137$ million remaining as of October 31, 2015. Subsequent to October 31, 2015, we repurchased an additional 1.2 million shares of common stock for $\$ 109$ million under this program.
There were no share repurchases reflected in Accounts Payable on the October 31, 2015, January 31, 2015 and November 1, 2014 Consolidated Balance Sheets.

We use cash flow generated from operating and financing activities to fund our share repurchase programs. The timing and amount of any repurchases will be made at our discretion taking into account a number of factors including market conditions.

## Dividend Policy and Procedures

Under the authority and declaration of our Board of Directors, we paid the following dividends during year-to-date 2015 and 2014:

|  | Ordinary Dividends |  | Special Dividends |  | Total Dividends |  | Total Paid |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| 2014 Total | \$ | 1.02 | \$ | 1.00 | \$ | 2.02 | \$ | 591 |

Our Board of Directors will determine future dividends and share repurchase authorizations after giving consideration to the Company's levels of profit and cash flow, capital requirements, current and forecasted liquidity, the restrictions placed upon us by our borrowing arrangements as well as financial and other conditions existing at the time. We use cash flow generated from operating activities to fund our ordinary dividends and a combination of cash flow generated from operating activities and financing activities to fund our special dividends and share repurchases.

## Cash Flow

The following table provides a summary of our cash flow activity for year-to-date 2015 and 2014:

|  | Year-to-Date |  |  |  |

## Operating Activities

Net cash provided by operating activities in 2015 was $\$ 262$ million, including net income of $\$ 617$ million. Net income included depreciation and amortization of $\$ 335$ million, gain on divestiture of the third-party apparel sourcing business of $\$ 78$ million, share-based compensation expense of $\$ 73$ million and excess tax benefits from share-based compensation of $\$ 65$ million. Other changes in assets and liabilities represent items that had a current period cash flow impact, such as changes in working capital. The most significant items in working capital were the seasonal increases in Inventories (and related increases in Accounts Payable) as we build our inventory levels in anticipation of the holiday season, which generates a substantial portion of our operating cash flow for the year. In addition, our Income Taxes Payable decrease was due to seasonal tax payments.

Net cash provided by operating activities in 2014 was $\$ 370$ million, including net income of $\$ 477$ million. Net income included depreciation and amortization of $\$ 327$ million, share-based compensation expense of $\$ 67$ million and excess tax benefits from share-based compensation of $\$ 41$ million. Other changes in assets and liabilities represent items that had a current period cash flow impact, such as changes in working capital. The most significant items in working capital were the seasonal increases in Inventories (and related increases in Accounts Payable) as we build our inventory levels in anticipation of the holiday season, which generates a substantial portion of our operating cash flow for the year. In addition, our Income Taxes Payable decrease was due to seasonal tax payments.

## Investing Activities

Net cash used for investing activities in 2015 was $\$ 332$ million consisting primarily of capital expenditures of $\$ 603$ million and purchases of marketable securities of $\$ 60$ million, partially offset by proceeds from the sale of assets of $\$ 196$ million, the divestiture of the third-party apparel sourcing business for $\$ 85$ million and proceeds from the sale of marketable securities of $\$ 50$ million. The capital expenditures included $\$ 476$ million for opening new stores and remodeling and improving existing stores. Remaining capital expenditures were primarily related to spending on technology and infrastructure to support growth.
Net cash used for investing activities in 2014 was $\$ 570$ million consisting primarily of capital expenditures of $\$ 585$ million. The capital expenditures included $\$ 468$ million for opening new stores and remodeling and improving existing stores.
Remaining capital expenditures were primarily related to spending on technology and infrastructure to support growth.

## Financing Activities

Net cash used for financing activities in 2015 was $\$ 302$ million consisting primarily of quarterly and special dividend payments aggregating to $\$ 3.50$ per share, or $\$ 1.026$ billion, and repurchases of common stock of $\$ 363$ million, partially offset by the net proceeds from the 2035 Notes issuance of $\$ 988$ million, excess tax benefits from share-based compensation of $\$ 65$ million and proceeds from the exercise of stock options of $\$ 31$ million.

Net cash used for financing activities in 2014 was $\$ 575$ million consisting primarily of quarterly and special dividend payments aggregating to $\$ 2.02$ per share, or $\$ 591$ million, and repurchases of common stock of $\$ 48$ million, partially offset by excess tax benefits from share-based compensation of $\$ 41$ million and proceeds from the exercise of stock options of $\$ 28$ million.

## Contingent Liabilities and Contractual Obligations

In connection with the disposition of certain businesses, we have remaining guarantees of approximately $\$ 16$ million related to lease payments of Express, Limited Stores, Dick's Sporting Goods and New York \& Company under the current terms of noncancelable leases expiring at various dates through 2018. These guarantees include minimum rent and additional payments covering taxes, common area costs and certain other expenses and relate to leases that commenced prior to the disposition of the businesses. In certain instances, our guarantee may remain in effect if the term of a lease is extended.

Our guarantees related to Express, Limited Stores and New York \& Company require fair value accounting in accordance with GAAP in effect at the time of these divestitures. The guaranteed lease payments related to Express, Limited Stores and New York \& Company totaled $\$ 6$ million as of October 31, 2015, $\$ 11$ million as of January 31, 2015 and $\$ 14$ million as of November 1, 2014. The estimated fair value of these guarantee obligations was $\$ 100$ thousand as of October 31, 2015 and $\$ 1$ million as of January 31, 2015 and November 1, 2014, and is included in Other Long-term Liabilities on the Consolidated Balance Sheets.

Our guarantees related to Dick's Sporting Goods are not subject to fair value accounting, but require that a loss be accrued when probable and reasonably estimable based on GAAP in effect at the time of these divestitures. We have no liability recorded with respect to any of the guarantee obligations as we concluded that payments under these guarantees were not probable as of October 31, 2015, January 31, 2015 and November 1, 2014.
In connection with our investment in ETC, in the second quarter of 2015, we provided a guarantee of payment to an interest rate swap counterparty for amounts owed by ETC, if any, upon settlement if ETC is unable to pay. Our estimated maximum potential loss from this guarantee is $\$ 77$ million. The estimated fair value of this guarantee obligation is not significant as of October 31, 2015. For additional information, see Note 6, "Equity Investments and Other" and Note 12, "Commitments and Contingencies" included in Item 1. Financial Statements.

In connection with our investment in EG, we, along with an unaffiliated member, provided a guarantee of interest, certain expenses and a completion guarantee on the construction of the commercial shopping center. Our estimated maximum potential loss from our involvement with EG totaled $\$ 40$ million as of October 31, 2015, which includes our equity investment of $\$ 30$ million and our estimated maximum potential loss from our guarantees related to EG's construction loan of $\$ 10$ million. The estimated fair value of these guarantee obligations is not significant. We expect EG to obtain permanent financing prior to maturity of the construction loan, following completion of construction of the commercial shopping center. For additional information, see Note 6, "Equity Investments and Other" and Note 12, "Commitments and Contingencies" included in Item 1. Financial Statements.

In 2015, in connection with the sale and leaseback under noncancellable operating leases of certain assets, we provided residual value guarantees to the lessor if the leased assets cannot be sold for an amount in excess of a specified minimum value at the conclusion of the lease term. The leases expire in 2020, and the total amount of the guarantees is approximately $\$ 105$ million. The estimated fair value of these guarantee obligations is not significant as of October 31, 2015.
Our contractual obligations primarily consist of long-term debt and the related interest payments, operating leases, purchase orders for merchandise inventory and other long-term obligations. These contractual obligations impact our short-term and long-term liquidity and capital resource needs. There have been no material changes in our contractual obligations since January 31,2015 , other than the additional payments due under the operating lease agreements related to the sale and leaseback of certain assets described above and the issuance of the 2035 Notes. Additionally, certain of our contractual obligations may fluctuate during the normal course of business (primarily changes in our merchandise inventory-related purchase obligations which fluctuate throughout the year as a result of the seasonal nature of our operations).

## RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

## Revenue from Contracts with Customers

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. This guidance requires companies to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This guidance will be effective beginning in fiscal 2018, with early adoption as of fiscal 2017 permitted. The standard allows for either a full retrospective or a modified retrospective transition method. We are currently evaluating this standard, including the transition method and timing of adoption, and the related impact on our Consolidated Statements of Income and Comprehensive Income, Balance Sheets and Statements of Cash Flows.

## Simplifying the Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs. This guidance requires companies to recognize debt issuance costs related to recognized debt liabilities in the balance sheet as a direct deduction from the carrying amount of those debt liabilities, consistent with debt discounts. This guidance will be effective beginning in fiscal 2016, and early adoption is permitted. This standard requires retrospective adoption. We are finalizing our evaluation of this ASU, including timing of adoption, but expect to record a decrease to Other Assets and Long-term Debt of approximately $\$ 47$ million upon adoption.

## Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued ASU No. 2015-17, Balance Sheet Classification of Deferred Taxes. This guidance requires companies to present all deferred tax assets and liabilities as noncurrent in the balance sheet. This guidance will be effective beginning in fiscal 2017, and early adoption is permitted. This standard may be adopted either on a retrospective or prospective basis. We are currently evaluating this standard, including the transition method and timing of adoption, and the related impact on our Consolidated Balance Sheets.

## IMPACT OF INFLATION

While it is difficult to accurately measure the impact of inflation due to the imprecise nature of the estimates required, we believe the effects of inflation, if any, on the results of operations and financial condition have been minor.

## CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to adopt accounting policies related to estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. On an ongoing basis, management evaluates its accounting policies, estimates and judgments, including those related to inventories, long-lived assets, claims and contingencies, income taxes and revenue recognition. Management bases our estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

There have been no material changes to the critical accounting policies and estimates disclosed in our 2014 Annual Report on Form 10-K.

## Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

## Market Risk

The market risk inherent in our financial instruments represents the potential loss in fair value, earnings or cash flows arising from adverse changes in foreign currency exchange rates or interest rates. We use derivative financial instruments like crosscurrency swaps, forward contracts and interest rate swap arrangements to manage exposure to market risks. We do not use derivative financial instruments for trading purposes.

## Foreign Exchange Rate Risk

We have operations in foreign countries which expose us to market risk associated with foreign currency exchange rate fluctuations. To mitigate the translation risk to our earnings and the fair value of our Canadian operations associated with fluctuations in the U.S. dollar-Canadian dollar exchange rate, we entered into a series of cross-currency swaps related to Canadian dollar denominated intercompany loans. These cross-currency swaps require the periodic exchange of fixed rate Canadian dollar interest payments for fixed rate U.S. dollar interest payments as well as exchange of Canadian dollar and U.S. dollar principal payments upon maturity. The remaining swap arrangements mature in January 2016 and January 2018 at the same time as the related loans. As a result of the Canadian dollar denominated intercompany loans and the related crosscurrency swaps, we do not believe there is any material translation risk to our Canadian net earnings associated with fluctuations in the U.S. dollar-Canadian dollar exchange rate. For additional information, see Note 9, "Derivative Instruments" included in Item 1. Financial Statements.

In addition, our Canadian dollar and British pound denominated earnings are subject to exchange rate risk as substantially all of our merchandise sold in Canada and the U.K. is sourced through U.S. dollar transactions. Although we utilize foreign currency forward contracts to partially offset these risks, these measures may not succeed in offsetting all of the short-term impact of foreign currency rate movements and generally may not be effective in offsetting the long-term impact of sustained shifts in foreign currency rates.
Further, although our royalty arrangements with our international partners are denominated in U.S. dollars, the royalties we receive in U.S. dollars are calculated based on sales in the local currency. As a result, our royalties in these arrangements are exposed to foreign currency exchange rate fluctuations.

## Interest Rate Risk

Our investment portfolio primarily consists of interest-bearing instruments that are classified as cash and cash equivalents based on their original maturities. Our investment portfolio is maintained in accordance with our investment policy, which specifies permitted types of investments, specifies credit quality standards and maturity profiles and limits credit exposure to
any single issuer. The primary objective of our investment activities are the preservation of principal, the maintenance of liquidity and the maximization of interest income while minimizing risk. Currently, our investment portfolio is primarily comprised of U.S. government obligations, U.S. Treasury and AAA-rated money market funds, highly rated commercial paper and bank deposits. Given the short-term nature and quality of investments in our portfolio, we do not believe there is any material risk to principal associated with increases or decreases in interest rates.

The majority of our long-term debt as of October 31, 2015, has fixed interest rates. We will from time to time adjust our exposure to interest rate risk by entering into interest rate swap arrangements. As of October 31, 2015, we have interest rate swap arrangements with notional amounts of $\$ 300$ million related to a portion of our 2017 Notes and $\$ 300$ million related to a portion of our 2019 Notes.
The effect of the interest rate swap arrangements is to convert the respective amount of debt from a fixed interest rate to a variable interest rate. The variable interest rate associated with these swap arrangements fluctuates based on changes in threemonth LIBOR.

For the balance of our long-term debt that is not subject to interest rate swap arrangements, our exposure to interest rate changes is limited to the fair value of the debt issued, which would not have a material impact on our earnings or cash flows.

## Fair Value of Financial Instruments

As of October 31, 2015, management believes that the carrying values of cash and cash equivalents, accounts receivables, accounts payables, accrued expenses and current debt approximate fair value because of the short maturity of these financial instruments.

The following table provides a summary of the carrying value and fair value of long-term debt and swap arrangements as of October 31, 2015, January 31, 2015 and November 1, 2014 :

|  | $\underset{2015}{\text { October } 31, ~}$ |  | $\underset{2015}{\text { January }} 31,$ |  | $\begin{gathered} \text { November 1, } \\ 2014 \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | (in millions) |  |  |  |  |  |
| Long-term Debt: |  |  |  |  |  |  |
| Carrying Value | \$ | 5,762 | \$ | 4,765 | \$ | 4,972 |
| Fair Value, Estimated (a) |  | 6,322 |  | 5,305 |  | 5,476 |
| Cross-currency Swap Arrangements (b) |  | (27) |  | (21) |  | 10 |
| Fixed-to-Floating Interest Rate Swap Arrangements (b) |  | (10) |  | (12) |  | (5) |

(a) The estimated fair value is based on reported transaction prices. The estimates presented are not necessarily indicative of the amounts that we could realize in a current market exchange.
(b) Swap arrangements are in an (asset) liability position.

## Concentration of Credit Risk

We maintain cash and cash equivalents and derivative contracts with various major financial institutions. We monitor the relative credit standing of financial institutions with whom we transact and limit the amount of credit exposure with any one entity. Currently, our investment portfolio is primarily comprised of U.S. government obligations, U.S. Treasury and AAArated money market funds, highly rated commercial paper and bank deposits. We also periodically review the relative credit standing of franchise, license and wholesale partners and other entities to which we grant credit terms in the normal course of business.

## Item 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective and designed to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting. In March 2015, we implemented new real estate and store design systems (including financial systems). Various processes and controls continue to be modified due to the new systems. Additionally,
we implemented additional compensating controls over financial reporting to ensure the accuracy and integrity of our financial statements during the post-implementation phase. We believe the system and process changes will enhance internal control over financial reporting in future periods. There were no additional changes in our internal control over financial reporting that occurred in the third quarter 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II-OTHER INFORMATION

## Item 1. LEGAL PROCEEDINGS

We are a defendant in a variety of lawsuits arising in the ordinary course of business. Actions filed against our Company from time to time include commercial, tort, intellectual property, customer, employment, data privacy, securities and other claims, including purported class action lawsuits. Although it is not possible to predict with certainty the eventual outcome of any litigation, in the opinion of management, our current legal proceedings are not expected to have a material adverse effect on our financial position or results of operations.

## Item 1A. RISK FACTORS

The risk factors that affect our business and financial results are discussed in "Item 1A: Risk Factors" in the 2014 Annual Report on Form 10-K. We wish to caution the reader that the risk factors discussed in "Item 1A: Risk Factors" in our 2014 Annual Report on Form 10-K and those described elsewhere in this report or other SEC filings, could cause actual results to differ materially from those stated in any forward-looking statements.

## Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides our repurchases of our common stock during the third quarter of 2015:
