NEW YORK, NEW YORK, July 19, 2016 - Pzena Investment Management, Inc. (NYSE: PZN) reported the following U.S. Generally Accepted Accounting Principles (GAAP) and non-GAAP basic and diluted net income and earnings per share for the three and six months ended June 30, 2016 and 2015 (in thousands, except per-share amounts):

Diluted Earnings Per Share	\$ 0.19	\$ 0.24	\$ 0.19	\$ 0.26

The GAAP results for the three and six months ended June 30, 2016 and 2015 include adjustments related to the Company's deferred tax asset, valuation allowance and the associated liability to its selling and converting shareholders. GAAP results for 2015 also include adjustments related to certain non-recurring charges recognized in operating expenses associated with our former corporate headquarters. Management believes that these accounting adjustments add a measure of non-operational complexity which obscures the underlying performance of the business. In evaluating the results of operations, management also reviews non-GAAP measures of earnings, which exclude these items. Excluding these adjustments, non-GAAP diluted net income and non-GAAP diluted earnings per share were \$6.6 million and \$0.10, respectively, for the three months ended June 30, 2016, and \$9.3 million and \$0.14, respectively, for the three months ended June 30, 2015. Non-GAAP diluted net income and non-GAAP diluted earnings per share were \$12.9 million and \$0.19, respectively, for the six months ended June 30, 2016, and \$17.4 million and \$0.26, respectively, for the six months ended June 30, 2015. GAAP and non-GAAP net income for diluted earnings per share generally assume all operating company membership units are converted into Company stock at the beginning of the reporting period, and the resulting change to Company GAAP and non-GAAP net income associated with its increased interest in the operating company is taxed at the Company's effective tax rate, exclusive of the adjustments noted above and other adjustments. When this conversion results in an increase in earnings per share or a decrease in loss per share, diluted net income and diluted earnings per share are assumed to be equal to basic net income and basic earnings per share for the reporting period.

Management uses the non-GAAP measures to assess the strength of the underlying operations of the business. It believes the non-GAAP measures provide information to better analyze the Company's operations between periods and over time. Investors should consider the non-GAAP measures in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP.

Revenue was \$26.4 million for the second quarter of 2016, an increase of 2.3% from \$25.8 million for the first quarter of 2016, and a decrease of 10.4% from \$29.5 million for the second quarter of 2015.

Included in these amounts for the first quarter of 2016 and second quarter of 2015, were performance fees recognized of \$0.1 million and \$0.3 million, respectively. No performance fees were recognized during the second quarter of 2016. In general, performance fees are calculated on an annualized basis over the contract's measurement period, which, for the majority of our performance fee arrangements, extends to three years.

Average assets under management for the second quarter of 2016 were \$26.1 billion, an increase of 4.0% from \$25.1 billion for the first quarter of 2016, and a decrease of 7.8% from \$28.3 billion for the second quarter of 2015. The increase from the first quarter of 2016 primarily reflects market appreciation over the period partially offset by net outflows. Assets under management ended the second quarter at \$25.4 billion with market depreciation occurring primarily toward the end of the quarter resulting in higher average assets under management for the quarter. The decrease from the second quarter of 2015 primarily reflects market depreciation.

The weighted average fee rate was 0.405% for the second quarter of 2016, decreasing from 0.411% for the first quarter of 2016, and from 0.418% for the second quarter of 2015.

The weighted average fee rate for institutional accounts was 0.526% for the second quarter of 2016, decreasing from 0.539% for the first quarter of 2016, and from 0.535% for the second quarter of 2015. The decrease from last quarter and the second quarter of last year primarily reflects a shift in the mix of assets toward our expanded value strategies which generally carry lower fee rates, partially offset by the addition of assets in certain non-U.S. strategies that generally carry higher fee rates.

The weighted average fee rate for retail accounts was 0.253% for the second quarter of 2016, increasing from 0.247% for the first quarter of 2016, and decreasing from 0.263% for the second quarter of 2015. The increase from the first quarter of 2016 is driven by an increase in assets in certain strategies that generally carry higher fee rates, while the decrease from the second quarter of 2015 primarily reflects a decrease in retail performance fees.

Total operating expenses on a GAAP basis were \$15.2 million for the second quarter of 2016, decreasing from \$15.5 million for the first quarter of 2016 and from \$16.3 million for the second quarter of 2015. The decrease in operating expenses on a GAAP basis from the first quarter of 2016 primarily reflects a decrease in compensation and benefits expense partially offset by an increase in general and administrative costs during the second quarter of 2016. General and administrative expense in the second quarter of 2015 included \$1.5 million in losses and expenses we do not expect to recur, associated with the exit from, and retirement of certain assets at our former headquarters. These expenses are included in general and administrative expenses on a GAAP basis and excluded on a non-GAAP basis. Excluding the impact of these non-recurring expenses, the increase in operating expenses on a non-GAAP basis from the second quarter of 2015 is primarily driven by the increase in general and administrative expenses. Details of operating expenses and a reconciliation of GAAP to non-GAAP operating expenses are shown below:

As of June 30, 2016, employee headcount was 93, up from 90 at March 31, 2016 and from 89 at June 30, 2015.

The operating margin was 42.6% on a GAAP basis for the second quarter of 2016, compared to 39.8% for the first quarter of 2016, and 44.8% for the second quarter of 2015. The operating margin was 49.8% on a non-GAAP basis for the second quarter of 2015.

Other income/ (expense) was income of approximately \$0.3 million for the second quarter of 2016, an expense of \$0.7 million for the first quarter of 2016, and income of \$0.2 million for the second quarter of 2015. Other income/ (expense) includes the (losses)/ gains and other investment income recognized by the Company on its direct investments, as well as those recognized by external investors on their investments in investment partnerships that the Company consolidates. A portion of (losses)/ gains and other investment income associated with the investments of outside interests are offset in net income attributable to non-controlling interests. For the second quarter of 2016, other income/ (expense) also includes income of \$0.7 million reflecting a decrease in the Company's liability to its selling and converting shareholders resulting from a decrease in expected future tax benefits described in income tax expense below. Changes in the liability to selling and converting shareholders associated with changes in the realizability of the deferred tax asset generated expenses of \$0.9 million and \$0.7 million in the first quarter of 2016 and the second quarter of 2015, respectively. Details of other income/ (expense), as well as a reconciliation of the related GAAP and non-GAAP measures, are shown below:

1 Reflects the change in the liability to the Company's selling and converting shareholders associated with the deferred tax asset generated by the Company's initial public offering and subsequent unit conversions.

2 Represents the non-controlling interest allocation of the loss/ (income) of the Company's consolidated investment partnerships to its external investors.

The Company recognized income tax expenses of \$2.2 million for the second quarter of 2016, \$0.2 million for the first quarter of 2016, and \$0.6 million for the second quarter of 2015. Income taxes for the second quarter of 2016 included a \$0.8 million income tax expense associated with an increase in the valuation allowance recorded against the Company's deferred tax asset related to the basis step ups created by operating company unit exchanges. This adjustment generated \$1.1 million and \$0.8 million in income tax benefits in the first quarter of 2016 and second quarter of 2015, respectively.
