## Update on Geographic Diversification

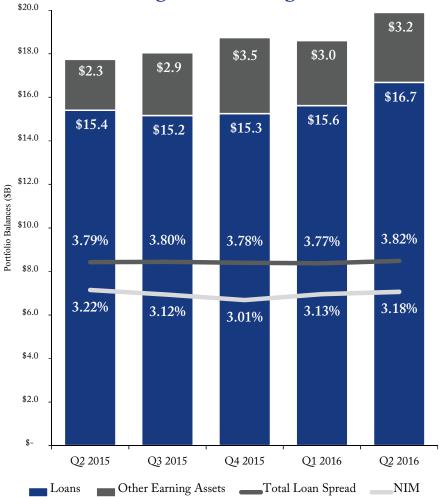

| Major Texas Metro Areas | Unemployment<br>Rate <sup>(2)</sup> |
|-------------------------|-------------------------------------|
| Austin-Round Rock       | 2.9%                                |
| DFW-Arlington           | 3.5%                                |
| Houston metro           | 4.8%                                |
| San Antonio             | 3.4%                                |

- While cities directly involved in the oil/gas industry are more exposed to the energy downturn, Texas as a whole and TCB markets are more resilient, due to improvement in its economic diversification, corporate relocations and strong population growth
- All of our national lines of business have been operating for many years, increasing our geographic diversification as each gained additional market share
- National Business balances include Mortgage Finance, Builder Finance, Lender Finance, BDCF and national depository businesses
- Our national LOBs include Texas clients, but Texas clients represent less than 20% of their total business
