NOTE 1. ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information, and instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, these unaudited financial statements include all adjustments considered necessary for a fair statement of the results of operations and financial condition for interim periods for Ford Motor Credit Company LLC, its consolidated subsidiaries and consolidated VIEs in which Ford Motor Credit Company LLC is the primary beneficiary (collectively referred to herein as "Ford Credit," "we," "our," or "us"). Results for interim periods should not be considered indicative of results for any other interim period or for the full year. Reference should be made to the financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2015 ("2015 Form 10-K Report"). We are an indirect, wholly owned subsidiary of Ford Motor Company ("Ford").

Provision for Income Taxes

For interim tax reporting we estimate one single effective tax rate, which is applied to the year-to-date ordinary income/(loss). Tax effects of significant unusual or infrequently occurring items are excluded from the estimated annual effective tax rate calculation and recognized in the interim period in which they occur.

Adoption of New Accounting Standards

We adopted the following standards during 2016, none of which have a material impact to our financial statements or financial statement disclosures:

Standard		Effective Date
2015-16	Business Combinations - Simplifying the Accounting for Measurement-Period Adjustments	January 1, 2016
2015-09	Insurance - Disclosures about Short-Duration Contracts	January 1, 2016
2015-05	Internal-Use Software - Customer's Accounting for Fees Paid in a Cloud Computing Arrangement	January 1, 2016
2015-02	Consolidation - Amendments to the Consolidation Analysis	January 1, 2016
2015-01	Extraordinary and Unusual Items - Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items	January 1, 2016
2014-12	Stock Compensation - Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period	January 1, 2016

Accounting Standards Issued But Not Yet Adopted

Accounting Standard Update ("ASU") 2016-13, Credit Losses - Measurement of Credit Losses on Financial Instruments. In June 2016, the Financial Accounting Standards Board ("FASB") issued a new accounting standard which replaces the current incurred loss impairment method with a method that reflects expected credit losses. The new standard is effective as of January 1, 2020, and early adoption is permitted as of January 1, 2019. We are assessing the potential impact to our financial statements and disclosures.

ASU 2016-02, Leases. In February 2016, the FASB issued a new accounting standard which provides guidance on the recognition, measurement, presentation, and disclosure of leases. The new standard supersedes present U.S. GAAP guidance on leases and requires substantially all leases to be reported on the balance sheet as right-of-use assets and lease liabilities, as well as additional disclosures. The new standard is effective as of January 1, 2019, and early adoption is permitted. We are assessing the potential impact to our financial statements and disclosures.

NOTE 1. ACCOUNTING POLICIES (Continued)

ASU 2014-09, Revenue - Revenue from Contracts with Customers. In May 2014, the FASB issued a new accounting standard that requires recognition of revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. The FASB has also issued several updates to ASU 2014-09. The new standard supersedes U.S. GAAP guidance on revenue recognition and requires the use of more estimates and judgments than the present standards. It also requires additional disclosures. We plan to adopt the new revenue guidance effective January 1, 2017 by recognizing the cumulative effect of initially applying the new standard as an adjustment to the opening balance of equity. We do not expect a material impact to our financial statements or disclosures.

NOTE 2. CASH, CASH EQUIVALENTS, AND MARKETABLE SECURITIES

The following table categorizes the fair values of cash, cash equivalents, and marketable securities measured at fair value on a recurring basis on our balance sheet (in millions):

	Fair Value Level	September 30, 2016		De	ecember 31, 2015
Cash and cash equivalents					
U.S. government	1	\$	_	\$	_
U.S. government agencies	2		4		_
Non-U.S. government and agencies	2		280		266
Corporate debt	2		50		_
Total marketable securities classified as cash equivalents			334		266
Cash, time deposits and money market funds			5,341		8,620
Total cash and cash equivalents		\$	5,675	\$	8,886
Marketable securities					
U.S. government	1	\$	1,724	\$	298
U.S. government agencies	2		1,354		1,169
Non-U.S. government and agencies	2		520		832
Corporate debt	2		540		384
Other marketable securities	2		42		40
Total marketable securities		\$	4,180	\$	2,723

NOTE 3. FINANCE RECEIVABLES

We segment finance receivables into "consumer" and "non-consumer" receivables. The receivables are generally secured by the vehicles, inventory, or other property being financed.

Finance receivables, net were as follows (in millions):

	Sep	September 30, 2016		December 31, 2015	
Consumer					
Retail financing, gross	\$	67,894	\$	62,068	
Unearned interest supplements from Ford and affiliated companies		(2,785)		(2,119)	
Consumer finance receivables		65,109		59,949	
Non-Consumer					
Dealer financing		35,226		36,037	
Other financing		1,034		1,210	
Non-Consumer finance receivables		36,260		37,247	
Total recorded investment	\$	101,369	\$	97,196	
Recorded investment in finance receivables	\$	101,369	\$	97,196	
Allowance for credit losses		(478)		(373)	
Finance receivables, net	\$	100,891	\$	96,823	
Net finance receivables subject to fair value (a)	\$	98,760	\$	95,008	
Fair value		100,054		96,180	

⁽a) At September 30, 2016 and December 31, 2015, excludes \$2.1 billion and \$1.8 billion, respectively, of certain receivables (primarily direct financing leases) that are not subject to fair value disclosure requirements. The fair value of finance receivables is categorized within Level 3 of the fair value hierarchy.

Excluded from finance receivables at September 30, 2016 and December 31, 2015 was \$207 million and \$209 million, respectively, of accrued uncollected interest, which we report in *Other assets* on our balance sheet.

Included in recorded investment in finance receivables at September 30, 2016 and December 31, 2015 were consumer receivables of \$29.9 billion and \$27.6 billion, respectively, and non-consumer receivables of \$23.3 billion and \$26.1 billion, respectively, that have been sold for legal purposes in securitization transactions but continue to be reported in our consolidated financial statements. The receivables are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay the other obligations or the claims of Ford Credit's other creditors. Ford Credit holds the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions (see Note 6 for additional information).

NOTE 3. FINANCE RECEIVABLES (Continued)

Aging

For all finance receivables, we define "past due" as any payment, including principal and interest, that is at least 31 days past the contractual due date. The recorded investment of consumer receivables greater than 90 days past due and still accruing interest was \$24 million and \$16 million at September 30, 2016 and December 31, 2015, respectively. The recorded investment of non-consumer receivables greater than 90 days past due and still accruing interest was de minimis and \$1 million at September 30, 2016 and December 31, 2015, respectively.

The aging analysis of finance receivables balances was as follows (in millions):

	September 30, 2016	December 31, 2015
Consumer	·	
31-60 days past due	\$ 652	\$ 708
61-90 days past due	112	108
91-120 days past due	36	27
Greater than 120 days past due	39	38
Total past due	839	881
Current	64,270	59,068
Consumer finance receivables	65,109	59,949
Non-Consumer		
Total past due	71	116
Current	36,189	37,131
Non-Consumer finance receivables	36,260	37,247
Total recorded investment	\$ 101,369	\$ 97,196

Credit Quality

Consumer Segment

Credit quality ratings for consumer receivables are based on our aging analysis. Refer to the aging table above.

Consumer receivables credit quality ratings are as follows:

- Pass current to 60 days past due
- Special Mention 61 to 120 days past due and in intensified collection status
- Substandard greater than 120 days past due and for which the uncollectible portion of the receivables has already been charged off, as measured using the fair value of collateral less costs to sell

Non-Consumer Segment

Dealers are assigned to one of four groups according to risk ratings as follows:

- Group I strong to superior financial metrics
- Group II fair to favorable financial metrics
- Group III marginal to weak financial metrics
- Group IV poor financial metrics, including dealers classified as uncollectible

NOTE 3. FINANCE RECEIVABLES (Continued)

The credit quality analysis of our dealer financing receivables was as follows (in millions):

	September 30, 2016		December 31, 2015		
Dealer financing					
Group I	\$	27,851	\$	27,054	
Group II		5,847		7,185	
Group III		1,403		1,687	
Group IV		125		111	
Total recorded investment	\$	35,226	\$	36,037	

Impaired Receivables

Impaired consumer receivables include accounts that have been rewritten or modified in reorganization proceedings pursuant to the U.S. Bankruptcy Code that are considered to be Troubled Debt Restructurings ("TDRs"), as well as all accounts greater than 120 days past due. Impaired non-consumer receivables represent accounts with dealers that have weak or poor financial metrics or dealer financing that has been modified in TDRs. The recorded investment of consumer receivables that were impaired at September 30, 2016 and December 31, 2015 was \$366 million, or 0.6% of consumer receivables, and \$375 million, or 0.6% of consumer receivables, respectively. The recorded investment of non-consumer receivables that were impaired at September 30, 2016 and December 31, 2015 was \$140 million, or 0.4% of non-consumer receivables, and \$134 million, or 0.4% of non-consumer receivables, respectively. Impaired finance receivables are evaluated both collectively and specifically.

The accrual of revenue is discontinued at the time a receivable is determined to be uncollectible. Accounts may be restored to accrual status only when a customer settles all past-due deficiency balances and future payments are reasonably assured. For receivables in non-accrual status, subsequent financing revenue is recognized only to the extent a payment is received. Payments are generally applied first to outstanding interest and then to the unpaid principal balance.

A restructuring of debt constitutes a TDR if we grant a concession to a debtor for economic or legal reasons related to the debtor's financial difficulties that we otherwise would not consider. Consumer and non-consumer receivables that have a modified interest rate below market rate or that were modified in reorganization proceedings pursuant to the U.S. Bankruptcy Code, except non-consumer receivables that are current with minimal risk of loss, are considered to be TDRs. We do not grant concessions on the principal balance of our receivables. If a receivable is modified in a reorganization proceeding, all payment requirements of the reorganization plan need to be met before remaining balances are forgiven. Finance receivables involved in TDRs are specifically assessed for impairment.

NOTE 4. NET INVESTMENT IN OPERATING LEASES

Net investment in operating leases consist primarily of lease contracts for vehicles with retail customers, daily rental companies, government entities, and fleet customers with terms of 60 months or less.

Net investment in operating leases were as follows (in millions):

	nber 30, 016	ember 31, 2015
Vehicles, at cost (a)	\$ 32,278	\$ 29,673
Accumulated depreciation	(5,254)	(4,545)
Net investment in operating leases before allowance for credit losses	27,024	25,128
Allowance for credit losses	(63)	(49)
Net investment in operating leases	\$ 26,961	\$ 25,079

⁽a) Includes interest supplements and residual support payments we receive on certain leasing transactions under agreements with Ford and affiliated companies, and other vehicle acquisition costs.

At September 30, 2016 and December 31, 2015, net investment in operating leases before allowance for credit losses includes \$10.0 billion and \$13.3 billion of net investment in operating leases that have been included in securitization transactions but continue to be reported in our consolidated financial statements. These net investment in operating leases are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions (see Note 6 for additional information).

NOTE 5. ALLOWANCE FOR CREDIT LOSSES

An analysis of the allowance for credit losses related to finance receivables and net investment in operating leases for the periods ended September 30 was as follows (in millions):

	Third Quarter 2016										
			Fina	nce Receivables			Net	t Investment in			
		Consumer	Non-Consumer			Total		Operating Leases		al Allowance	
Allowance for credit losses

NOTE 6. TRANSFERS OF RECEIVABLES

We securitize finance receivables and net investment in operating leases through a variety of programs using amortizing, variable funding, and revolving structures. We also sell finance receivables in structured financing transactions. Due to the similarities between securitization and structured financing, we refer to structured financings as securitization transactions. Our securitization programs are targeted to institutional investors in both public and private transactions in capital markets including the United States, Canada, several European countries, Mexico, and China.

We engage in securitization transactions to fund operations and to maintain liquidity. Our securitization transactions are recorded as asset-backed debt and the associated assets are not derecognized and continue to be included in our financial statements.

The finance receivables sold for legal purposes and net investment in operating leases included in securitization transactions are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. They are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. The debt is the obligation of our consolidated securitization entities and not the obligation of Ford Credit or our other subsidiaries.

Most of these securitization transactions utilize VIEs. See Note 7 for additional information concerning VIEs. The following tables show the assets and debt related to our securitization transactions that were included in our financial statements (in billions):

				5	Septemb	er 30, 201	6

NOTE 7. VARIABLE INTEREST ENTITIES

VIEs of Which We Are the Primary Beneficiary

We use special purpose entities to issue asset-backed securities in transactions to public and private investors. We have deemed most of these special purpose entities to be VIEs. The asset-backed securities are backed by finance receivables and interests in net investments in operating leases. The assets continue to be consolidated by us. We retain interests in our securitization VIEs, including subordinated securities issued by the VIEs, rights to cash held for the benefit of the securitization investors, and rights to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions.

We have no obligation to repurchase or replace any securitized asset that subsequently becomes delinquent in payment or otherwise is in default, except when representations and warranties about the eligibility of the securitized assets are breached, or when certain changes are made to the underlying asset contracts. Securitization investors have no recourse to us or our other assets and have no right to require us to repurchase the investments. We generally have no obligation to provide liquidity or contribute cash or additional assets to the VIEs and do not guarantee any asset-backed securities. We may be required to support the performance of certain securitization transactions, however, by increasing cash reserves.

See Note 6 for additional information on the financial position and financial performance of our VIEs.

⁽b) Includes assets to be used to settle the liabilities of the consolidated VIEs.

⁽c) Includes unamortized discount and debt issuance costs.

NOTE 7. VARIABLE INTEREST ENTITIES (Continued)

VIEs of Which We Are Not the Primary Beneficiary

We have an investment in Forso Nordic AB, a joint venture determined to be a VIE of which we are not the primary beneficiary. The joint venture provides retail and dealer financing in its local markets and is financed by external debt and additional subordinated debt provided by the joint venture partner. The operating agreement indicates that the power to direct economically significant activities is shared with the joint venture partner, and the obligation to absorb losses or right to receive benefits resides primarily with the joint venture partner. Our investment in the joint venture is accounted for as an equity method investment and is included in *Other assets*. Our maximum exposure to any potential losses associated with this VIE is limited to our equity investment and amounted to \$70 million and \$66 million at September 30, 2016 and December 31, 2015, respectively.

NOTE 8. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, our operations are exposed to global market risks, including the effect of changes in interest rates and foreign currency exchange rates. To manage these risks, we enter into highly effective derivative contracts. We have elected to apply hedge accounting to certain derivatives. Derivatives that are designated in hedging relationships are evaluated for effectiveness using regression analysis at the time they are designated and throughout the hedge period. Some derivatives do not qualify for hedge accounting; for others, we elect not to apply hedge accounting.

Income Effect of Derivative Financial Instruments

The gains/(losses), by hedge designation, recorded in income for the periods ended September 30 were as follows (in millions):

	Third Quarter					First Nine Months			
		2016		2015		2016		2015	
Fair value hedges									
Interest rate contracts									
Net interest settlements and accruals excluded from the assessment of hedge effectiveness	\$	95	\$	94	\$	292	\$	271	
Ineffectiveness (a)		(1)		10		21		6	
Derivatives not designated as hedging instruments									
Interest rate contracts		21		(22)		(70)		(83)	
Foreign currency exchange contracts		37		40		129		40	
Cross-currency interest rate swap contracts		128		63		463		75	
Total	\$	280	\$	185	\$	835	\$	309	

⁽a) For the third quarter and first nine months of 2016, hedge ineffectiveness reflects the net change in fair value on derivatives of \$228 million loss and \$655 million gain, respectively, and change in value on hedged debt attributable to the change in benchmark interest rates of \$227 million gain and \$634 million loss, respectively. For the third quarter and first nine months of 2015, hedge ineffectiveness reflects the net change in fair value on derivatives of \$373 million gain and \$345 million gain, respectively, and change in value on hedged debt attributable to the change in benchmark interest rates of \$363 million loss and \$339 million loss, respectively.

NOTE 8. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES (Continued)

Balance Sheet Effect of Derivative Financial Instruments

Derivative assets and liabilities are recorded on the balance sheet at fair value and are presented on a gross basis. The notional amounts of the derivative instruments do not necessarily represent amounts exchanged by the parties and are not a direct measure of our financial exposure. We also enter into master agreements with counterparties that may allow for netting of exposure in the event of default or breach of the counterparty agreement.

The fair value of our derivative instruments and the associated notional amounts, presented gross, were as follows (in millions):

	Sep	tember 30, 2	016	December 31, 2015					
	Notional	Fair Value of Assets	Fair Value of Liabilities	Notional	Fair Value of Assets	Fair Value of Liabilities			
Fair value hedges									
Interest rate contracts	\$ 36,215	\$ 1,217	\$ —	\$ 28,964	\$ 670	\$ 16			
Derivatives not designated as hedging instruments									
Interest rate contracts	61,650	142	122	62,638	159	112			
Foreign currency exchange contracts (a)	1,474	115	1	1,713	22	4			
Cross-currency interest rate swap contracts	3,765	383	_	3,137	73	111			
Total derivative financial instruments, gross (b) (c)	\$ 103,104	1,857	123	\$ 96,452	924	243			

⁽a) Includes forward contracts between Ford Credit and an affiliated company.

⁽b) At September 30, 2016 and December 31, 2015, the net obligation to return cash collateral was \$10 million and \$0, respectively.

⁽c) At September 30, 2016 and December 31, 2015, the fair value of assets and liabilities available for counterparty netting was \$87 million and \$167 million, respectively. All derivatives are categorized within Level 2 of the fair value hierarchy.

NOTE 9. OTHER ASSETS AND OTHER LIABILITIES AND DEFERRED INCOME

Other assets and other liabilities and deferred income consist of various balance sheet items that are combined for financial statement presentation due to their respective materiality compared with other individual asset and liability items.

Other assets were as follows (in millions):

	ember 30, 2016	nber 31, 115
Accrued interest and other non-finance receivables	\$ 856	\$ 763
Prepaid reinsurance premiums and other reinsurance receivables	531	472
Collateral held for resale, at net realizable value	477	498
Property and equipment, net of accumulated depreciation (a)	152	142
Investment in non-consolidated affiliates	151	133
Deferred charges – income taxes	141	135
Restricted cash (b)	116	56
Deferred charges	67	63
Other	24	24
Total other assets	\$ 2,515	\$ 2,286

⁽a) Accumulated depreciation was \$347 million and \$335 million at September 30, 2016 and December 31, 2015, respectively.

Other liabilities and deferred income were as follows (in millions):

	September 30, 2016		mber 31, 2015
Unearned insurance premiums	\$ 543	\$	484
Interest payable	530		553
Tax related payables to Ford and affiliated companies	89		105
Unrecognized tax benefits	85		75
Other	440		448
Total other liabilities and deferred income	\$ 1,687	\$	1,665

⁽b) Restricted cash primarily includes cash held to meet certain local governmental and regulatory reserve requirements and cash held under the terms of certain contractual agreements. Restricted cash does not include required minimum balances or cash securing debt issued through securitization transactions.

NOTE 10. DEBT

Debt outstanding and interest rates were as follows (in millions):

		De	ebt		Average Cor	ntractual	Average Et	fective
	Sep	tember 30, 2016	December 20°		2016	2015	2016	2015
Short-term debt								
Unsecured debt								
Floating rate demand notes	\$	6,016	\$	5,926				
Commercial paper		4,507		1,722				
Other short-term debt		2,068		2,708				
Asset-backed debt		407		1,855				
Total short-term debt		12,998		12,211	1.9%	1.6%	1.9%	1.6%
Long-term debt								
Unsecured debt								
Notes payable within one year		12,599		10,254				
Notes payable after one year		53,381		48,672				
Asset-backed debt (a)								
Notes payable within one year		19,263		18,855				
Notes payable after one year		24,477		29,390				
Unamortized discount		(5)		(25)				
Unamortized issuance costs		(231)		(214)				
Fair value adjustments (b)		1,055		458				
Total long-term debt		110,539	1	07,390	2.5%	2.3%	2.5%	2.4%
Total debt	\$	123,537	\$ 1	19,601	2.4%	2.2%	2.5%	2.3%
Fair value of debt (c)	\$	125,409	\$ 1	20,546				

⁽a) Asset-backed debt issued in securitizations is the obligation of the consolidated securitization entity that issued the debt and is payable only out of collections on the underlying securitized assets and related enhancements. This asset-backed debt is not the obligation of Ford Credit or our other subsidiaries.

NOTE 11. ACCUMULATED OTHER COMPREHENSIVE INCOME/(LOSS)

The changes in the balance of Accumulated Other Comprehensive Income/(Loss) ("AOCI") attributable to Ford Credit for the periods ended September 30 were as follows (in millions):

	Third Quarter				First Nine Months			
	 2016		2015		2016		2015	
Foreign currency translation	 							
Beginning balance	\$ (576)	\$	(127)	\$	(607)	\$	160	
Net gain/(loss) on foreign currency translation	(72)		(275)		(41)		(562)	
Other comprehensive income/(loss), net of tax	(72)		(275)		(41)		(562)	
Ending balance	\$ (648)	\$	(402)	\$	(648)	\$	(402)	
Total AOCI ending balance at September 30	\$ (648)	\$	(402)	\$	(648)	\$	(402)	

⁽b) Adjustments related to designated fair value hedges of unsecured debt.

⁽c) The fair value of debt includes \$12.6 billion and \$10.4 billion of short-term debt at September 30, 2016 and December 31, 2015, respectively, carried at cost, which approximates fair value. All other debt is categorized within Level 2 of the fair value hierarchy.

NOTE 12. OTHER INCOME, NET

Other income consists of various line items that are combined on the income statement due to their respective materiality compared with other individual income and expense items.

The amounts included in *Other income*, net were as follows for the periods ended September 30 (in millions):

	Third C	luarter		First Nine Months			
	2016	2015		2016		2015	
Gains/(Losses) on derivatives	\$ 186	\$ 9	2 \$	545	\$	37	
Currency revaluation gains/(losses)	(157)	(10	6)	(585)		(117)	
Interest and investment income	19	3	0	71		75	
Insurance fee income	21	2	5	68		63	
Other	40	3	7	125		121	
Total other income, net	\$ 109	\$ 7	8 \$	224	\$	179	

NOTE 13. SEGMENT INFORMATION

We divide our business segments based on geographic regions: North America ("North America Segment") and International ("International Segment"). The North America Segment includes our operations in the United States and Canada. The International Segment includes our operations in all other countries in which we do business directly and indirectly.

Key operating data for our business segments for the periods ended or at September 30 were as follows (in millions):

					_	Una	lloca	ted/Eliminat	ions

⁽a) Includes unearned interest supplements and residual support, allowances for credit losses, and other (primarily accumulated supplemental depreciation).

⁽b) Represents Total financing revenue, Insurance premiums earned, and Other income, net.

NOTE 14. COMMITMENTS AND CONTINGENCIES

Commitments and contingencies primarily consist of lease commitments, guarantees and indemnifications, and litigation and claims.

Guarantees and Indemnifications

Guarantees and indemnifications are recorded at fair value at their inception. We regularly review our performance risk under these arrangements, and in the event it becomes probable we will be required to perform under a guarantee or indemnity, the amount of probable payment is recorded.

In some cases, we have guaranteed debt and other financial obligations of outside third parties and unconsolidated affiliates, including Ford. Expiration dates vary, and guarantees will terminate on payment and/or cancellation of the underlying obligation. A payment by us would be triggered by failure of the guaranteed party to fulfill its obligation covered by the guarantee. In some circumstances, we are entitled to recover from Ford, an affiliate of Ford, or a third party amounts paid by us under the guarantee. However, our ability to enforce these rights is sometimes stayed until the guaranteed party is paid in full, and may be limited in the event of insolvency of the third party or other circumstances.

In the ordinary course of business, we execute contracts involving indemnifications standard in the industry and indemnifications specific to a transaction. These indemnifications might include and are not limited to claims relating to any of the following: environmental, tax, and shareholder matters; intellectual property rights; governmental regulations and employment-related matters; dealer and other commercial contractual relationships; and financial matters, such as securitizations. Performance under these indemnities generally would be triggered by a breach of terms of the contract or by a third-party claim. While some of these indemnifications are limited in nature, many of them do not limit potential payment. Therefore, we are unable to estimate a maximum amount of future payments that could result from claims made under these unlimited indemnities.

The maximum potential payments under these guarantees and limited indemnities totaled \$41 million and \$80 million at September 30, 2016 and December 31, 2015, respectively. Of these values, \$37 million and \$74 million at September 30, 2016 and December 31, 2015, respectively, were counter-guaranteed by Ford to us. There were no recorded liabilities related to guarantees and limited indemnities at September 30, 2016 and December 31, 2015.

Litigation and Claims

Various legal actions, proceedings, and claims (generally, "matters") are pending or may be instituted or asserted against us. These include but are not limited to matters arising out of governmental regulations; tax matters; alleged illegal acts resulting in fines or penalties; financial services; employment-related matters; dealer and other contractual relationships; personal injury matters; investor matters; and financial reporting matters. Certain of the pending legal actions are, or purport to be, class actions. Some of the matters involve or may involve claims for compensatory, punitive, or antitrust or other treble damages in very large amounts, sanctions, assessments, or other relief, which, if granted, would require very large expenditures.

The extent of our financial exposure to these matters is difficult to estimate. Many matters do not specify a dollar amount for damages, and many others specify only a jurisdictional minimum. To the extent an amount is asserted, our historical experience suggests that in most instances the amount asserted is not a reliable indicator of the ultimate outcome.

We accrue for matters when losses are deemed probable and reasonably estimable. In evaluating matters for accrual and disclosure purposes, we take into consideration factors such as our historical experience with matters of a similar nature, the specific facts and circumstances asserted, the likelihood that we will prevail, and the severity of any potential loss. We reevaluate and update our accruals as matters progress over time.

NOTE 14. COMMITMENTS AND CONTINGENCIES (Continued)

For nearly all of our matters, where our historical experience with similar matters is of limited value (i.e., "non-pattern matters"), we evaluate the matters primarily based on the individual facts and circumstances. For non-pattern matters, we evaluate whether there is a reasonable possibility of a material loss in excess of any accrual that can be estimated. It is reasonably possible that some of the matters for which accruals have not been established could be decided unfavorably to us and could require us to pay damages or make other expenditures. We do not reasonably expect, based on our analysis, that such matters would have a material effect on future financial statements for a particular year, although such an outcome is possible.

As noted, the litigation process is subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. Our assessments are based on our knowledge and experience, but the ultimate outcome of any matter could require payment substantially in excess of the amount that we have accrued and/or disclosed.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholder of Ford Motor Credit Company LLC:

We have reviewed the accompanying consolidated balance sheet of Ford Motor Credit Company LLC and its subsidiaries (the "Company") as of September 30, 2016, and the related consolidated statements of income and comprehensive income for the three-month and nine-month periods ended September 30, 2016 and 2015 and the consolidated statements of shareholder's interest and cash flows for the nine-month periods ended September 30, 2016 and 2015. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2015, and the related consolidated statements of income, comprehensive income, shareholder's interest, and cash flows for the year then ended (not presented herein), and in our report dated February 11, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2015, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

/s/ PricewaterhouseCoopers LLP

PricewaterhouseCoopers LLP Detroit, Michigan October 27, 2016

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

Overview

In general, we measure period-to-period changes in pre-tax results using the causal factors listed below:

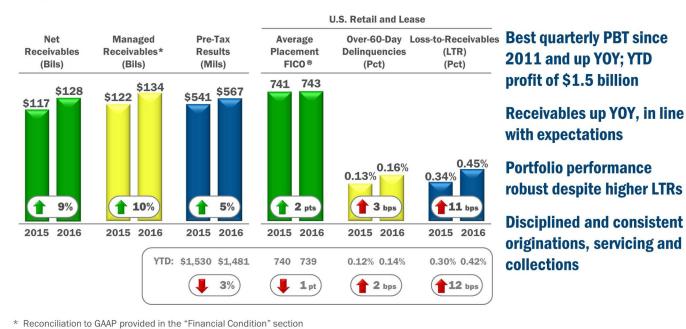

- Volume and Mix Volume and Mix are primarily reflected within Net financing margin on the income statement.
 - Volume primarily measures changes in net financing margin driven by changes in average managed receivables at prior period financing margin yield (defined below in financing margin) at prior period exchange rates. Volume changes are primarily driven by the volume of new and used vehicle sales and leases, the extent to which we purchase retail installment sale and lease contracts, the extent to which we provide wholesale financing, the sales price of the vehicles financed, the level of dealer inventories, Ford-sponsored special financing programs available exclusively through us, and the availability of cost-effective funding for the purchase of retail installment sale and lease contracts and to provide wholesale financing.
 - Mix primarily measures changes in net financing margin driven by period over period changes in the composition of our average managed receivables by product and by country or region.
- Financing Margin Financing Margin is reflected within Net financing margin on the income statement.
 - Financing margin variance is the period-to-period change in financing margin yield multiplied by the present period average managed receivables at prior period exchange rates. This calculation is performed at the product and country level and then aggregated. Financing margin yield equals revenue, less interest expense and scheduled depreciation for the period, divided by average managed receivables for the same period.
 - Financing margin changes are driven by changes in revenue and interest expense. Changes in revenue are
 primarily driven by the level of market interest rates, cost assumptions in pricing, mix of business, and
 competitive environment. Changes in interest expense are primarily driven by the level of market interest rates,
 borrowing spreads, and asset-liability management.
- Credit Loss Credit Loss is reflected within the Provision for credit losses on the income statement.
 - Credit loss is the change in the provision for credit losses at prior period exchange rates. For analysis purposes, management splits the provision for credit losses into net charge-offs and the change in the allowance for credit losses.
 - Net charge-off changes are primarily driven by the number of repossessions, severity per repossession, and recoveries. Changes in the allowance for credit losses are primarily driven by changes in historical trends in credit losses and recoveries, changes in the composition and size of our present portfolio, changes in trends in historical used vehicle values, and changes in economic conditions. For additional information on the allowance for credit losses, refer to the "Critical Accounting Estimates Allowance for Credit Losses" section of Item 7 of Part II of our 2015 Form 10-K Report.
- Lease Residual Lease Residual is reflected within Depreciation on vehicles subject to operating leases on the income statement.
 - Lease residual measures changes to residual performance at prior period exchange rates. For analysis purposes, management splits residual performance primarily into residual gains and losses, and the change in accumulated supplemental depreciation.
 - Residual gain and loss changes are primarily driven by the number of vehicles returned to us and sold, and the difference between the auction value and the depreciated value (which includes both base and accumulated supplemental depreciation) of the vehicles sold. Changes in accumulated supplemental depreciation are primarily driven by changes in our estimate of the expected auction value at the end of the lease term, and changes in our estimate of the number of vehicles that will be returned to us and sold. For additional information on accumulated supplemental depreciation, refer to the "Critical Accounting Estimates Accumulated Depreciation on Vehicles Subject to Operating Leases" section of Item 7 of Part II of our 2015 Form 10-K Report.
- Exchange Reflects changes in pre-tax results driven by the effects of converting functional currency income to U.S. dollars and is reflected in all lines on the income statement.

- Other Primarily includes Operating expenses, Other revenue, and Insurance expenses on the income statement at prior period exchange rates.
 - Changes in operating expenses are primarily driven by salaried personnel costs, facilities costs, and costs associated with the origination and servicing of customer contracts.
 - In general, other revenue changes are primarily driven by changes in earnings related to market valuation adjustments to derivatives (primarily related to movements in interest rates), which are included in unallocated risk management, and other miscellaneous items.

Third Quarter 2016 Compared with Third Quarter 2015

The following chart shows our key metrics:

3Q 2016 KEY METRICS

In the third quarter of 2016, pre-tax profit was strong - the best quarterly profit since 2011 -- and receivables were higher than a year ago, in line with expectations.

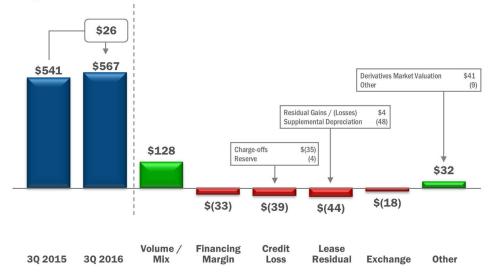

Our portfolio performance remained robust, despite higher LTRs.

Our originations, servicing, and collections practices remained disciplined and consistent.

As shown below the chart, year-to-date key metrics were unfavorable compared with a year ago.

On a pre-tax basis, we earned \$567 million in the third quarter of 2016, compared with \$541 million a year ago. The following chart shows the factors that contributed to the strong third quarter pre-tax profit:

3Q 2016 PRE-TAX RESULTS (MILS)

Higher profit driven by receivables growth -- volume and mix

Credit losses normalizing with higher charge-offs

Outlook for lower auction values drove unfavorable lease residual performance

Ford Credit's pre-tax profit improvement is explained primarily by favorable volume, mix, and market valuation adjustments to derivatives. Partial offsets include unfavorable lease residual performance and higher credit losses.

The favorable volume and mix was driven by growth in all products globally.

Lease residual performance reflects higher depreciation in North America related to expected lower auction values in the lease portfolio.

Credit loss performance primarily reflects higher charge-offs as a result of higher defaults and severities in North America.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Results of operations by business segment and unallocated risk management for the periods ended September 30 are shown below (in millions). For additional information, see Note 13 of our Notes to the Financial Statements.

	Third Quarter						First Nine Months						
	2016 Over/(Under) 2015 2016 2015				2015		2016	Ov	2016 er/(Under) 2015				
Income before income taxes													
North America Segment	\$ 415	\$	398	\$	(17)	\$	1,200	\$	1,089	\$	(111)		
International Segment	123		124		1		365		382		17		
Unallocated risk management	3		45		42		(35)		10		45		
Income before income taxes	\$ 541	\$	567	\$	26	\$	1,530	\$	1,481	\$	(49)		

North America Segment

The North America Segment's lower pre-tax profit for the third quarter and first nine months of 2016 is primarily explained by unfavorable lease residual performance and higher credit losses, partially offset by favorable volume and mix. The unfavorable lease residual performance reflects higher depreciation related to expected lower auction values in the lease portfolio and credit loss performance reflects higher charge-offs as a result of higher defaults and severities. The favorable volume and mix was driven by growth in all products.

International Segment

The International Segment's pre-tax profit for the third quarter and first nine months of 2016 is largely unchanged. The result is explained by favorable volume and mix driven by growth in all products, offset by the adverse effect of the stronger U.S. dollar and lower margin driven by lower portfolio yield.

Unallocated Risk Management

The improvement in unallocated risk management for the third quarter and first nine months of 2016 primarily reflects higher net gains related to market valuation adjustments to derivatives. For additional information, see Notes 8 and 13 of our Notes to the Financial Statements.

Financing Shares and Contract Placement Volume

Our focus is on supporting Ford and Lincoln dealers and customers. This includes going to market with Ford and our dealers to support vehicle sales with financing products and marketing programs. Ford's marketing programs may encourage or require Ford Credit financing and influence the financing choices customers make. As a result, our financing share, volume, and contract characteristics vary from quarter to quarter as Ford's marketing programs change.

The following chart shows our North America Segment's retail installment and lease share of new Ford- and Lincoln-brand vehicles sold by dealers and wholesale financing share of new Ford- and Lincoln-brand vehicles acquired by dealers. Also shown is our North America Segment's consumer financing contract placement volume for new and used vehicles. All data is for the periods ended September 30:

NORTH AMERICA FINANCING SHARES AND CONTRACT PLACEMENT VOLUME

	Third Quarter				Year-to-Date			
	2015		2016	-	2015		2016	_
Financing Shares (excl. Fleet)		_		-		_		_
Retail installment and lease share of Ford retail sales								
United States	72	%	61	%	67	%	59	%
Canada	68		72		73		74	
Wholesale share								
United States	75	%	76	%	76	%	76	%
Canada	64		61		65		61	
Contract Placement Volume New and used retail / lease (000)								
United States	411		330		1,040		908	
Canada	46		54		121		138	
Total North America Segment	457	_	384	=	1,161	_	1,046	_

The decrease in total contract volume for the third quarter and first nine months of 2016 reflects lower retail installment and lease financing share in the United States.

The following chart shows our International Segment's retail installment and lease share of new Ford-brand vehicles sold by dealers and wholesale financing share of new Ford-brand vehicles acquired by dealers. Also shown is our International Segment's consumer financing contract placement volume for new and used vehicles. All data is for the periods ended September 30:

INTERNATIONAL FINANCING SHARES AND CONTRACT PLACEMENT VOLUME

	Third Quarter				Year-to-Date			
	2015		2016		2015		2016	_
Financing Shares (incl. Fleet)								_
Retail installment and lease share of total Ford sales								
Europe	37	%	37	%	37	%	36	%
China	12		19		11		16	
Wholesale share								
Europe	99	%	97	%	98	%	98	%
China	58		57		55		57	
Contract Placement Volume New and used retail / lease (000)								
Europe	124		127		386		400)
China	23		46		70		111	
All Other International	7		15		17		35	j
Total International Segment	154		188	=	473		546	j =

Total contract volume in the third quarter and first nine months of 2016 increased from a year ago, primarily reflecting growth in China and Mexico.

Our operations in China achieved record contract volume in the third quarter, as more consumers are choosing to finance the purchase of vehicles.

Financial Condition

Finance Receivables and Operating Leases

Our receivables, including finance receivables and operating leases, were as follows:

		~	11	/ /	D		ES
П	\Box		ΙV	H	D	L	LO

Other, primarily accumulated supplemental depreciation	0.1	0.3	0.4	0.7
Total managed receivables (Non-GAAP)	\$112.8	\$122.4	\$127.2	\$134.4

At December 31, 2014, September 30, 2015, December 31, 2015, and September 30, 2016, includes consumer receivables before allowance for credit losses of \$24.4 billion, \$27.7 billion, \$27.6 billion, and \$29.9 billion, respectively, and non-consumer receivables before allowance for credit losses of \$21.8 billion, \$23.1 billion, \$26.1 billion, and \$23.3 billion, respectively, that have been sold for legal purposes in securitization transactions but continue to be reported in our consolidated financial statements. In addition, at December 31, 2014, September 30, 2015, December 31, 2015, and September 30, 2016, includes net investment in operating leases before allowance for credit losses of \$9.6 billion, \$11.3 billion, and \$10.0 billion, respectively, that have been included in securitization transactions but continue to be reported in our consolidated financial statements. The receivables and net investment in operating leases are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay the other obligations or the claims of Ford Credit's other creditors. Ford Credit holds the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. For additional information on our securitization transactions, refer to the "Securitization Transactions" and "On-Balance Sheet Arrangements" sections of Item 7 of Part II of our 2015 Form 10-K Report and Note 6 of our Notes to the Financial Statements for the period ended September 30, 2016.

Receivables at September 30, 2016 increased from year-end 2015, driven by growth in consumer finance receivables and operating leases globally.

^{**} Dealer financing primarily includes wholesale loans to dealers to finance the purchase of vehicle inventory.

Credit Risk

Credit risk is the possibility of loss from a customer's or dealer's failure to make payments according to contract terms. Credit losses are a normal part of a lending business, and credit risk has a significant impact on our business. We actively manage the credit risk of our consumer (retail financing and operating lease) and non-consumer (dealer financing) receivables to balance our level of risk and return using our consistent underwriting standards, effective proprietary scoring system (discussed below), and world-class servicing. The allowance for credit losses (also referred to as the credit loss reserve) represents our estimate of the probable credit losses inherent in our finance receivables and operating leases as of the balance sheet date. The allowance for credit losses is estimated using a combination of models and management judgment, and is based on such factors as historical loss performance, portfolio quality, and receivable levels. The adequacy of our allowance for credit losses is assessed quarterly and the assumptions and models used in establishing the allowance are evaluated regularly. A description of our allowance setting process is provided in the "Critical Accounting Estimates - Allowance for Credit Losses" section of Item 7 of Part II of our 2015 Form 10-K Report.

Most of our charge-offs are related to retail finance and operating lease contracts. Charge-offs are affected by the number of vehicle repossessions, the unpaid balance outstanding at the time of repossession, the auction price of repossessed vehicles, and other charge-offs. We also incur credit losses on our dealer financing, but default rates for these receivables historically have been substantially lower than those for retail finance and operating lease contracts. For additional information on severity, refer to the "Critical Accounting Estimates - Allowance for Credit Losses" section of Item 7 of Part II of our 2015 Form 10-K Report.

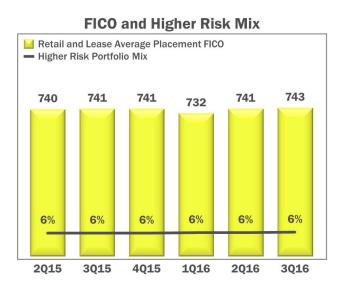

In purchasing retail finance and operating lease contracts, we use a proprietary scoring system that measures credit quality using several factors, such as credit bureau information, consumer credit risk scores (e.g., FICO score), contract characteristics, and customer characteristics, including employment history, financial stability, and capacity to pay. While FICO is a part of our scoring system, our models enable us to more effectively determine the probability that a customer will pay than using credit scores alone. When we originate business, our models project expected losses and we price accordingly. We ensure the business fits our risk appetite. For additional information on the quality of our receivables, see Note 3 of our Notes to the Financial Statements.

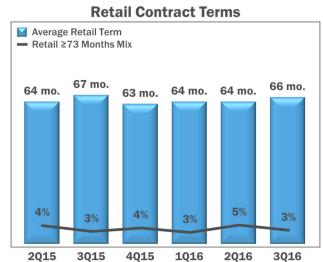

U.S. Origination Metrics

We support customers across the credit spectrum. Our higher risk business, as classified at contract inception, consistently represents 5%-6% of our portfolio and has been stable for over 10 years.

The following charts show quarterly trends for FICO and higher risk mix and retail contract terms:

U.S. ORIGINATION METRICS

The average placement FICO score remained consistent with the second quarter of 2016 and the same period last year.

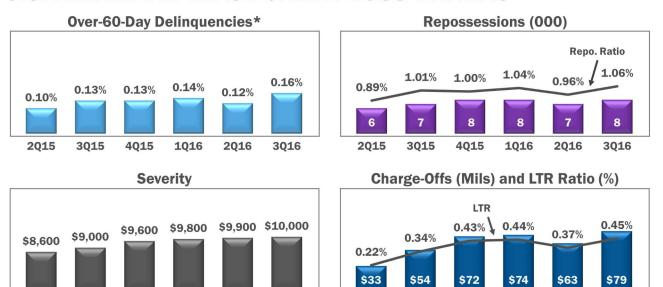

Our average retail term remains largely unchanged from last year, and retail contracts of 73 months and longer continued to be a relatively small part of our business. We remain focused on managing the trade cycle – building customer relationships and loyalty while offering financing products and terms customers want.

Our origination and risk management processes deliver robust portfolio performance.

U.S. Credit Losses

The following charts show the primary drivers of credit losses in the U.S. retail and lease business, which comprised 73% of our worldwide consumer portfolio at September 30, 2016. Loss-to-Receivables ("LTR") ratios are charge-offs on an annualized basis divided by average managed receivables.

U.S. RETAIL AND LEASE CREDIT LOSS DRIVERS

2015

3Q15

4015

1016

3Q16

2016

Excluding bankruptcies

3Q15

4015

1016

2015

Credit losses have been at historically low levels for quite some time, and we continue to see credit losses increase toward more normal levels.

3Q16

Delinguencies and the repossession ratio were up from the same period last year.

2016

Severities have increased over the last number of quarters. These increases include factors such as higher average amount financed, longer-term financing, shorter average time to repossession, lower auction values, and higher principal outstanding at repossession.

Lower auction values accounted for about half of the severity increase in the third quarter from the prior year, with the other half explained by the other factors.

Charge-offs and the LTR ratio were up year-over-year, primarily reflecting higher defaults and higher severities. The higher defaults reflect an increased default frequency as well as growth in receivables.

Worldwide Credit Losses

The following charts show quarterly trends of charge-offs (credit losses, net of recoveries), LTR ratios, credit loss reserve, and our credit loss reserve as a percentage of end-of-period ("EOP") managed receivables:

WORLDWIDE CREDIT LOSS METRICS

Charge-Offs (Mils) and LTR Ratio (%)

Credit Loss Reserve (Mils) and Reserve as a Pct. of EOP Managed Receivables

Our worldwide credit loss metrics remain strong. The worldwide LTR ratio for the third quarter of 2016 is higher than last year, primarily reflecting the U.S. retail and lease business covered above.

Our credit loss reserve is based on such factors as historical loss performance, portfolio quality, and receivable levels.

The credit loss reserve was higher at September 30, 2016, compared to June 30, 2016, reflecting credit loss performance trends and growth in retail receivables.

The reserve as a percent of managed receivables was up from the third guarter of 2015.

Residual Risk

Leasing is an important product that many customers want and value, and lease customers also are more likely to buy or lease another Ford or Lincoln vehicle. We manage our lease share with an enterprise view to support sales, protect residual values, and manage the trade cycle. Ford Credit and Ford work together under a One Ford lease strategy that considers share, term, model mix, geography, and other factors.

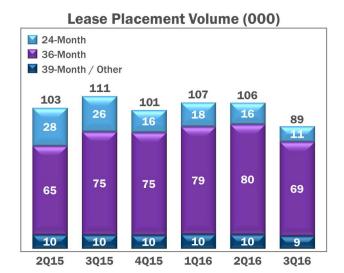

We are exposed to residual risk on operating leases and similar balloon payment products where the customer may return the financed vehicle to us. Residual risk is the possibility that the amount we obtain from returned vehicles will be less than our estimate of the expected residual value for the vehicle. We estimate the expected residual value by evaluating recent auction values, return volumes for our leased vehicles, industrywide used vehicle prices, marketing incentive plans, and vehicle quality data. Changes in expected residual values impact the depreciation expense, which is recognized on a straight-line basis over the life of the lease.

For additional information on our residual risk on operating leases, refer to the "Critical Accounting Estimates - Accumulated Depreciation on Vehicles Subject to Operating Leases" section of Item 7 of Part II of our 2015 Form 10-K Report.

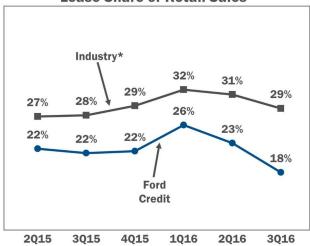

U.S. Ford- and Lincoln-Brand Operating Lease Experience

The following charts show lease placement volume and lease share of Ford- and Lincoln-brand retail sales for vehicles in the respective periods. The U.S. operating lease portfolio accounted for about 88% of our total net investment in operating leases at September 30, 2016.

U.S. LEASE ORIGINATION METRICS

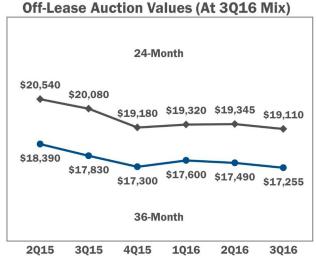

* Source: JD Power PIN

Given significant industry growth in leasing and higher new vehicle incentives, we lowered our projection on residual values which makes the relative cost of leasing higher. As a result, lease share and lease placement volume in the third quarter were lower compared to a year ago. We continue to expect full-year lease share to be lower than the first quarter of 2016, reflecting the parameters of our lease strategy.

The following charts show lease return volumes and auction values at constant third quarter 2016 vehicle mix for vehicles returned in the respective periods:

U.S. LEASE RESIDUAL PERFORMANCE

Lease return volume in the third quarter of 2016 was up from the prior year, reflecting higher lease placements in recent years and an increased return rate. The higher mix of 36-month leases returning in 2016 reflects the shift toward longer term leasing made in 2013.

Our off-lease vehicle auction values in the third quarter of 2016 were lower than a year ago and slightly lower than the prior quarter, with 36-month off-lease auction values about \$600 lower year-over-year. Our auction performance has been consistent with the industry when comparing similar vehicle age and segment.

Over the last several years, we have seen industry lease share grow with rising industry volumes. As a result, the supply of off-lease vehicles is higher and will continue to grow for the next several years. The increased supply of used vehicles, along with higher new vehicle incentives, is resulting in lower auction values, particularly in smaller, more fuel efficient vehicles given low fuel prices. We expect this trend to continue, and we are planning for lower auction values going forward.

Credit Ratings

Our short-term and long-term debt is rated by four credit rating agencies designated as nationally recognized statistical rating organizations ("NRSROs") by the U.S. Securities and Exchange Commission:

- DBRS Limited ("DBRS");
- Fitch, Inc. ("Fitch");
- Moody's Investors Service, Inc. ("Moody's"); and
- Standard & Poor's Ratings Services, a division of McGraw Hill Financial ("S&P").

In several markets, locally recognized rating agencies also rate us. A credit rating reflects an assessment by the rating agency of the credit risk associated with a corporate entity or particular securities issued by that entity. Rating agencies' ratings of us are based on information provided by us and other sources. Credit ratings assigned to us from all of the NRSROs are closely associated with their opinions on Ford. Credit ratings are not recommendations to buy, sell, or hold securities and are subject to revision or withdrawal at any time by the assigning rating agency. Each rating agency may have different criteria for evaluating company risk and, therefore, ratings should be evaluated independently for each rating agency.

There have been no rating actions taken by these NRSROs since the filing of our Quarterly Report on Form 10-Q for the quarter ended June 30, 2016.

The following chart summarizes certain of the credit ratings and outlook presently assigned by these four NRSROs:

		NRSRO RATINGS		
		Ford Credit		NRSROs
	Long-Term Senior Unsecured	Short -Term Unsecured	Outlook / Trend	Minimum Long-Term Investment Grade Rating
DBRS	BBB	R-2M	Stable	BBB (low)
Fitch	BBB	F2	Stable	BBB-
Moody's	Baa2	P-2	Stable	Baa3
S&P	BBB	A-2	Stable	BBB-

Funding and Liquidity

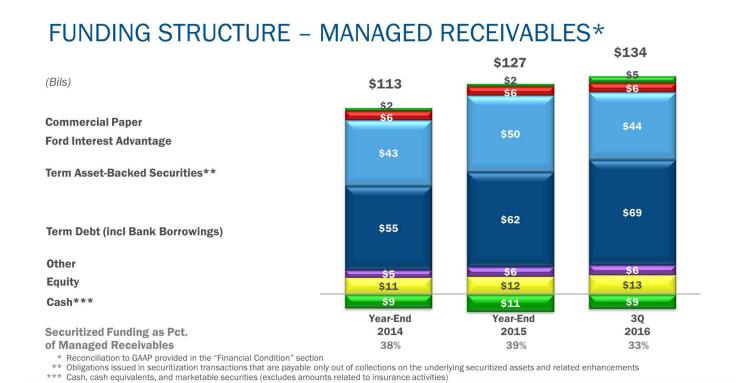

Our primary funding and liquidity objective is to maintain a strong investment grade balance sheet with ample liquidity to support our financing activities and growth under a variety of market conditions, including short-term and long-term market disruptions.

Our funding strategy remains focused on diversification, and we plan to continue accessing a variety of markets, channels, and investors.

Our liquidity profile continues to be diverse, robust, and focused on maintaining liquidity levels that meet our business and funding requirements. We regularly stress test our balance sheet and liquidity to ensure that we continue to meet our financial obligations through economic cycles.

Funding Portfolio

The following chart shows the trends in funding for our managed receivables:

Managed receivables of \$134 billion at the end of the third quarter of 2016 were funded primarily with term debt and term asset-backed securities. Securitized funding as a percent of managed receivables was 33%.

We expect the mix of securitized funding to trend lower over time. The calendarization of the funding plan may result in quarterly fluctuations of the securitized funding percentage. We expect this mix to be higher in the fourth quarter.

Public Term Funding Plan

The following chart shows our issuances for full-year 2014 and 2015, planned issuances for full-year 2016, and our global public term funding issuances through October 26, 2016, excluding short-term funding programs:

PUBLIC TERM FUNDING PLAN

			20	16	
	2014	2015		Through	
(Bils)	Actual	Actual	Forecast	October 26	
					Public term issuance
Unsecured					nearly complete
- Ford Motor Credit	\$8	\$11	\$9 - 10	\$9	VTD in an an analytical
- Ford Credit Canada	2	1	1-2	1	YTD issuance weighted
- FCE Bank	3	4	3 - 4	3	toward unsecured
- Rest of World*	0	0	1	0	Remain diversified
Total Unsecured**	\$13	\$17	\$14 - 16	\$14	across platforms and
Securitizations***	15	13	12 - 13	12	markets
Total Public**	\$28	\$30	\$26 - 29	\$26	

^{*} Includes issuance from Ford Automotive Finance (China), Ford Credit Mexico, Banco Ford (Brazil) and Ford Credit India

For 2016, we now project full-year public term funding in the range of \$26 billion to \$29 billion. Through October 26, 2016, we have completed \$26 billion of public term issuance.

^{**} Numbers may not sum due to rounding

^{***} Includes public securitization transactions and Rule 144A offerings sponsored by Ford Motor Credit, Ford Credit Canada, FCE Bank and Ford Automotive Finance (China)

Liquidity Sources

We define gross liquidity as cash, cash equivalents, and marketable securities (excluding amounts related to insurance activities) and committed capacity (which includes our credit and asset-backed facilities and bank lines), less utilization of liquidity. Utilization of liquidity is the amount funded under our liquidity sources and also includes the cash and cash equivalents required to support securitization transactions. Securitization cash is cash held for the benefit of the securitization investors (for example, a reserve fund). Net liquidity available for use is defined as gross liquidity less certain adjustments for asset-backed capacity in excess of eligible receivables and cash related to the Ford Credit Revolving Extended Variable-utilization program ("FordREV"), which can be accessed through future sales of receivables. While not included in available liquidity, these adjustments represent additional funding sources for future originations.

The following chart shows our liquidity sources and utilization:

LIQUIDITY SOURCES

	Dec. 31,	Jun. 30,	Sep. 30,	
(Bils)	2015	2016	2016	
Liquidity Sources				
Cash*	\$11.2	\$11.6	\$9.2	
Committed ABS facilities**	33.2	36.0	35.6	Committed
Other unsecured credit facilities	2.3	2.7	2.4	Capacity
Ford corporate credit facility allocation	3.0	3.0	3.0	\$41.0 billion
Total liquidity sources	\$49.7	\$53.3	\$50.2	
<u>Utilization of Liquidity</u>				
Securitization cash***	\$(4.3)	\$(2.7)	\$(2.6)	
Committed ABS facilities	(20.6)	(16.2)	(14.3)	
Other unsecured credit facilities	(0.8)	(0.7)	(0.1)	
Ford corporate credit facility allocation	-	-	-	
Total utilization of liquidity	\$(25.7)	\$(19.6)	\$(17.0)	
Gross liquidity	\$24.0	\$33.7	\$33.2	
Adjustments***	(0.5)	0.1	0.1	
Net liquidity available for use	\$23.5	\$33.8	\$33.3	

Our liquidity available for use will fluctuate quarterly based on factors including near-term debt maturities, receivable growth, and timing of funding transactions. We have a target of at least \$25 billion. As of September 30, 2016, liquidity available for use was up \$9.8 billion from year-end 2015 and down \$500 million from second quarter 2016.

As of September 30, 2016, our liquidity remained strong at \$33.3 billion. Our sources of liquidity include cash, committed asset-backed facilities, unsecured credit facilities, and the Ford corporate credit facility allocation. As of September 30, 2016 our liquidity sources including cash totaled \$50.2 billion, up \$500 million from year-end.

Cash, Cash Equivalents, and Marketable Securities. At September 30, 2016, our cash, cash equivalents, and marketable securities (excluding amounts related to insurance activities) totaled \$9.2 billion, compared with \$11.2 billion at year-end 2015. In the normal course of our funding activities, we may generate more proceeds than are required for our immediate funding needs. These excess amounts held primarily in highly liquid investments, which provide liquidity for our anticipated and unanticipated cash needs and give us flexibility in the use of our other funding programs. Our cash, cash equivalents, and marketable securities (excluding amounts related to insurance activities) primarily include U.S. Treasury obligations, federal agency securities, bank time deposits with investment-grade institutions and non-U.S. central banks, A-1/P-1 (or higher) rated commercial paper, debt obligations of a select group of non-U.S. governments, non-U.S. government agencies, supranational institutions, and money market funds that carry the highest possible ratings.

Cash, cash equivalents, and marketable securities (excludes amounts related to insurance activities)

Committed asset-backed security ("ABS") facilities are subject to availability of sufficient assets, ability to obtain derivatives to manage interest rate risk, and exclude FCE access to the Bank of England's Discount Window Facility

Used only to support on-balance sheet securitization transactions

Adjustments include other committed ABS facilities in excess of eligible receivables and certain cash within FordREV available through future sales of receivables

The maturity of these investments ranges from about 90 days to up to about one year and is adjusted based on market conditions and liquidity needs. We monitor our cash levels and average maturity on a daily basis. Cash, cash equivalents, and marketable securities included amounts to be used only to support our securitization transactions of \$2.6 billion and \$4.3 billion at September 30, 2016 and December 31, 2015, respectively.

Committed Capacity. At September 30, 2016, our committed capacity totaled \$41.0 billion, up \$2.5 billion from December 31, 2015. Our committed capacity is primarily comprised of committed ABS facilities from bank-sponsored commercial paper conduits and other financial institutions, unsecured credit facilities with financial institutions, and allocated commitments under the Ford corporate credit facility.

Committed Asset-Backed Facilities. We and our subsidiaries have entered into agreements with a number of bank-sponsored asset-backed commercial paper conduits and other financial institutions. Such counterparties are contractually committed, at our option, to purchase from us eligible retail receivables or to purchase or make advances under asset-backed securities backed by retail or wholesale finance receivables or operating leases for proceeds of up to \$35.6 billion (\$19.2 billion of retail financing, \$6.1 billion of wholesale financing, and \$10.3 billion of operating leases) at September 30, 2016. These committed facilities have varying maturity dates, with \$18.0 billion having maturities within the next twelve months and the remaining balance having maturities through 2018. We plan capacity renewals to protect our global funding needs, optimize capacity utilization, and maintain sufficient liquidity.

Our ability to obtain funding under these facilities is subject to having a sufficient amount of eligible assets as well as our ability to obtain interest rate hedging arrangements for certain facilities. At September 30, 2016, \$14.3 billion of these commitments were in use. These programs are free of material adverse change clauses, restrictive financial covenants (for example, debt-to-equity limitations and minimum net worth requirements), and generally, credit rating triggers that could limit our ability to obtain funding. However, the unused portion of these commitments may be terminated if the performance of the underlying assets deteriorates beyond specified levels. Based on our experience and knowledge as servicer of the related assets, we do not expect any of these programs to be terminated due to such events.

FCE has pre-positioned retail receivables with the Bank of England which supports access to the Discount Window Facility. Pre-positioned assets are neither pledged to nor held as collateral by the Bank of England unless the Discount Window Facility is accessed. FCE's eligibility to access the Discount Window Facility is not reflected in the Liquidity Sources table above.

Unsecured Credit Facilities. At September 30, 2016, we and our majority-owned subsidiaries had \$5.4 billion of contractually committed unsecured credit facilities with financial institutions, including the FCE Credit Agreement (as defined below) and the allocation under Ford's corporate credit facility. At September 30, 2016, \$5.3 billion was available for use.

FCE's £990 million (equivalent to \$1.3 billion at September 30, 2016) syndicated credit facility (the "FCE Credit Agreement") matures in 2019. At September 30, 2016, £990 million (equivalent to \$1.3 billion) was available for use. The FCE Credit Agreement contains certain covenants, including an obligation for FCE to maintain its ratio of regulatory capital to risk-weighted assets at no less than the applicable regulatory minimum, and for the support agreement between FCE and Ford Credit to remain in full force and effect (and enforced by FCE to ensure that its net worth is maintained at no less than \$500 million). In addition to customary payment, representation, bankruptcy, and judgment defaults, the FCE Credit Agreement contains cross-payment and cross-acceleration defaults with respect to other FCE debt.

Lenders under the Ford corporate credit facility have commitments totaling \$13.4 billion, with 75% of the commitments maturing on April 30, 2021 and 25% of the commitments maturing on April 30, 2019. Ford has allocated \$3.0 billion of commitments, including commitments under a Chinese renminbi sub-facility, to us on an irrevocable and exclusive basis to support our growth and liquidity. During the third quarter of 2016, the Chinese renminbi sub-facility was utilized for the first time, with approximately \$60 million drawn and repaid during the quarter. At September 30, 2016, all \$3.0 billion was available for use.

Funding and Liquidity Risks

Refer to the "Funding and Liquidity" section of Item 7 of Part II of our 2015 Form 10-K Report for a list of factors that could affect our liquidity and information on our stress testing.

Leverage

We use leverage, or the debt-to-equity ratio, to make various business decisions, including evaluating and establishing pricing for finance receivable and operating lease financing, and assessing our capital structure. We refer to our shareholder's interest as equity.

The following chart shows the calculation of our financial statement leverage and managed leverage (in billions, except for ratios):

LEVERAGE

(Bils)	Dec. 31, 2015	Jun. 30, 2016	Sep. 30, 2016
Leverage Calculation Total debt* Adjustments for cash**	\$ 119.6 (11.2)	\$ 126.3 (11.6)	\$ 123.5 (9.2)
Adjustments for derivative accounting*** Total adjusted debt	(0.5) \$ 107.9	(1.3) \$ 113.4	\$ 113.3
Equity****	\$ 11.7	\$ 12.4	\$ 12.7
Adjustments for derivative accounting*** Total adjusted equity	(0.3) \$ 11.4	\$ 12.0	\$ 12.4
Financial statement leverage (to 1) (GAAP) Managed leverage (to 1) (Non-GAAP)	10.2 9.5	10.2 9.4	9.7 9.2

^{*} Includes debt issued in securitization transactions and payable only out of collections on the underlying securitized assets and related enhancements. Ford Credit holds the right to receive the excess cash flows not needed to pay the debt issued by and other obligations of the securitization entities that are parties to those securitization transactions.

We plan our managed leverage by considering prevailing market conditions and the risk characteristics of our business. At September 30, 2016, financial statement leverage was 9.7:1, and managed leverage was 9.2:1. We target managed leverage in the range of 8:1 to 9:1. Managed leverage is above the targeted range reflecting growth in receivables and the continued impact of a strong U.S. dollar, but continues to trend toward our target range. For information on our planned distributions, refer to the "Outlook" section.

excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions

** Cash, cash equivalents, and marketable securities (excludes amounts related to insurance activities)

^{***} Primarily related to market valuation adjustments to derivatives due to movements in interest rates. Adjustments to debt are related to designated fair value hedges and adjustments to equity

^{****} Shareholder's interest reported on Ford Credit's balance sheet

Outlook

2016 GUIDANCE

	2015 FY	2016 FY		Memo:
	Results	Plan	Outlook	2016 YTD Results
Pre-Tax Profit	\$2,086M	≥ 2015	Lower	\$1,481M
Distributions	\$250M	\$0	On Track	\$0

We continue to expect our full-year 2016 pre-tax profit to be about \$1.8 billion.

In the fourth quarter, we expect higher supplemental depreciation in our lease portfolio, reflecting expected lower auction values.

Additionally, FCE Bank expects a one-time charge of approximately \$80 million related to the settlement of a deficit in a Ford-sponsored retirement plan. The offset will be reflected in Ford of Europe's results.

Risk Factors

Statements included or incorporated by reference herein may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on expectations, forecasts, and assumptions by our management and involve a number of risks, uncertainties, and other factors that could cause actual results to differ materially from those stated, including, without limitation:

- Decline in industry sales volume, particularly in the United States, Europe, or China, due to financial crisis, recession, geopolitical events, or other factors;
- · Decline in Ford's market share or failure to achieve growth;
- · Lower-than-anticipated market acceptance of Ford's new or existing products or services;
- Market shift away from sales of larger, more profitable vehicles beyond Ford's current planning assumption, particularly in the United States;
- An increase in or continued volatility of fuel prices, or reduced availability of fuel;
- Continued or increased price competition resulting from industry excess capacity, currency fluctuations, or other factors;
- Fluctuations in foreign currency exchange rates, commodity prices, and interest rates;
- · Adverse effects resulting from economic, geopolitical, or other events;
- Economic distress of suppliers that may require Ford to provide substantial financial support or take other measures to
 ensure supplies of components or materials and could increase costs, affect liquidity, or cause production constraints
 or disruptions;
- Work stoppages at Ford or supplier facilities or other limitations on production (whether as a result of labor disputes, natural or man-made disasters, tight credit markets or other financial distress, production constraints or difficulties, or other factors);
- · Single-source supply of components or materials;
- · Labor or other constraints on Ford's ability to maintain competitive cost structure;
- Substantial pension and postretirement health care and life insurance liabilities impairing liquidity or financial condition;
- Worse-than-assumed economic and demographic experience for postretirement benefit plans (e.g., discount rates or investment returns);
- · Restriction on use of tax attributes from tax law "ownership change;"
- The discovery of defects in vehicles resulting in delays in new model launches, recall campaigns, or increased warranty costs;
- Increased safety, emissions, fuel economy, or other regulations resulting in higher costs, cash expenditures, and/or sales restrictions;
- Unusual or significant litigation, governmental investigations, or adverse publicity arising out of alleged defects in products, perceived environmental impacts, or otherwise;
- A change in requirements under long term supply arrangements committing Ford to purchase minimum or fixed quantities of certain parts, or to pay a minimum amount to the seller ("take-or-pay" contracts):
- Adverse effects on results from a decrease in or cessation or clawback of government incentives related to investments;
- Inherent limitations of internal controls impacting financial statements and safeguarding of assets;
- Cybersecurity risks to operational systems, security systems, or infrastructure owned by Ford, Ford Credit, or a third-party vendor or supplier;
- · Failure of financial institutions to fulfill commitments under committed credit and liquidity facilities;
- Inability of Ford Credit to access debt, securitization, or derivative markets around the world at competitive rates or in sufficient amounts, due to credit rating downgrades, market volatility, market disruption, regulatory requirements, or other factors;
- Higher-than-expected credit losses, lower-than-anticipated residual values, or higher-than-expected return volumes for leased vehicles;
- Increased competition from banks, financial institutions, or other third parties seeking to increase their share of financing Ford vehicles; and
- New or increased credit regulations, consumer or data protection regulations, or other regulations resulting in higher costs and/or additional financing restrictions.

We cannot be certain that any expectation, forecast, or assumption made in preparing forward-looking statements will prove accurate, or that any projection will be realized. It is to be expected that there may be differences between projected and actual results. Our forward-looking statements speak only as of the date of their initial issuance, and we do not undertake any obligation to update or revise publicly any forward-looking statement, whether as a result of new information, future events, or otherwise. For additional discussion, see "Item 1A. Risk Factors" in our 2015 Form 10-K Report, as updated by our subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Accounting Standards Issued But Not Yet Adopted

The Financial Accounting Standards Board ("FASB") has issued the following standards, which are not expected to have a material impact (with the exception of standards 2016-02 and 2016-13) to our financial statements or financial statement disclosures:

Standard		Effective Date (a)
2014-15	Going Concern - Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern	December 31, 2016
2016-09	Stock Compensation - Improvements to Employee Share-Based Payment Accounting	January 1, 2017
2016-07	Equity Method and Joint Ventures - Simplifying the Transition to the Equity Method of Accounting	January 1, 2017
2016-06	Derivatives and Hedging - Contingent Put and Call Options in Debt Instruments	January 1, 2017
2016-05	Derivatives and Hedging - Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships	January 1, 2017
2016-16	Income Taxes - Intra-Entity Transfers of Assets Other Than Inventory	January 1, 2018
2016-15	Statement of Cash Flows - Classification of Certain Cash Receipts and Cash Payments	January 1, 2018
2016-04	Extinguishments of Liabilities - Recognition of Breakage for Certain Prepaid Stored-Value Products	January 1, 2018
2016-01	Financial Instruments - Recognition and Measurement of Financial Assets and Financial Liabilities	January 1, 2018
2014-09	Revenue - Revenue from Contracts with Customers	January 1, 2018 (b) (c)
2016-02	Leases	January 1, 2019 (b)
2016-13	Credit Losses - Measurement of Credit Losses on Financial Instruments	January 1, 2020 (b)

⁽a) Early adoption for each of the standards, except standard 2016-01, is permitted.

Other Financial Information

The interim financial information included in this Quarterly Report on Form 10-Q for the periods ended September 30, 2016 and 2015 has not been audited by PricewaterhouseCoopers LLP ("PwC"). In reviewing such information, PwC has applied limited procedures in accordance with professional standards for reviews of interim financial information. Readers should restrict reliance on PwC's reports on such information accordingly. PwC is not subject to the liability provisions of Section 11 of the Securities Act of 1933 for its reports on interim financial information, because such reports do not constitute "reports" or "parts" of registration statements prepared or certified by PwC within the meaning of Sections 7 and 11 of the Securities Act of 1933.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk.

In our 2015 Form 10-K Report, we discuss in greater detail our market risk, counterparty risk, credit risk, residual risk, liquidity risk, and operating risk.

To provide a quantitative measure of the sensitivity of our pre-tax cash flow to changes in interest rates, we use interest rate scenarios that assume a hypothetical, instantaneous increase or decrease of one percentage point in all interest rates across all maturities (a "parallel shift"), as well as a base case that assumes that all interest rates remain constant at existing levels. The differences in pre-tax cash flow between these scenarios and the base case over a twelve-month period represent an estimate of the sensitivity of our pre-tax cash flow. Under this model, we estimate that at September 30, 2016, all else constant, such an increase in interest rates would increase our pre-tax cash flow by \$5 million over the next 12 months, compared with an increase of \$7 million at December 31, 2015. In reality, interest rate changes are rarely instantaneous or parallel and rates could move more or less than the one percentage point assumed in our analysis. As a result, the actual impact to pre-tax cash flow could be higher or lower than the results detailed above.

⁽b) For additional information, see Note 1 of our Notes to the Financial Statements.

⁽c) The FASB has issued the following updates to the Revenue from Contracts with Customers standard: Accounting Standard Update ("ASU") 2015-14 (Deferral of the Effective Date), ASU 2016-08 (Principal versus Agent Considerations (Reporting Revenue Gross versus Net)), ASU 2016-10 (Identifying Performance Obligations and Licensing), and ASU 2016-12 (Narrow-Scope Improvements and Practical Expedients). We plan to adopt the new revenue guidance effective January 1, 2017.

ITEM 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures. N. Joy Falotico, our Chairman of the Board and Chief Executive Officer ("CEO"), and Marion B. Harris, our Chief Financial Officer ("CFO") and Treasurer, have performed an evaluation of the Company's disclosure controls and procedures, as that term is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended ("Exchange Act"), as of September 30, 2016, and each has concluded that such disclosure controls and procedures are effective to ensure that information required to be disclosed in our periodic reports filed under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by SEC rules and forms, and that such information is accumulated and communicated to the CEO and CFO to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting. There were no changes in internal control over financial reporting during the quarter ended September 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings.

Ford Motor Credit Company v. Sudesh Agrawal. On January 18, 2011, a state trial court judge in Cuyahoga County, Ohio certified a nationwide class action with an Ohio subclass in a counterclaim arising out of a collection action. Class claimants allege breach of contract, fraud, and statutory violations for Ford Credit's lease-end wear and use charges. Class claimants allege that the standard applied by Ford Credit in determining the condition of vehicles at lease-end is different than the standard set forth in claimants' leases. The Court of Appeals of Ohio, Eighth Appellate District, affirmed nationwide class certification and certification of an Ohio subclass. We appealed, and on December 17, 2013, the Supreme Court of Ohio reversed the Court of Appeals and remanded the case for further proceedings. On March 13, 2014, the Court of Appeals reversed the trial court order certifying the classes and remanded the case for further proceedings. On September 28, 2015, the trial court re-certified a nationwide class action with an Ohio subclass. We appealed, and on September 22, 2016, the Court of Appeals reversed the trial court order certifying the classes and remanded the case for further proceedings.

ITEM 5. Other Information.

None.

ITEM 6. Exhibits.

Exhibits: please refer to the Exhibit Index on page 50.

Instruments defining the rights of holders of certain issues of long-term debt of Ford Credit have not been filed as exhibits to this Report because the authorized principal amount of any one of such issues does not exceed 10% of the total assets of Ford Credit. Ford Credit will furnish a copy of each such instrument to the SEC upon request.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, Ford Motor Credit Company LLC has duly caused this Report to be signed on its behalf by the undersigned thereunto duly authorized.

Re: Ford Motor Credit Company LLC Registration Statement Nos. 333-202789 and 333-207323 on Form S-3

Commissioners:

We are aware that our report dated October 27, 2016 on our review of interim financial information of Ford Motor Credit Company LLC (the "Company") for the three-month and nine-month periods ended September 30, 2016 and 2015 and included in the Company's quarterly report on Form 10-Q for the quarter ended September 30, 2016 is incorporated by reference in the aforementioned Registration Statements.

Very truly yours,

/s/ PricewaterhouseCoopers LLP

PricewaterhouseCoopers LLP Detroit, Michigan

CERTIFICATION

I, N. Joy Falotico, certify that:

- I have reviewed this Quarterly Report on Form 10-Q for the quarter ended September 30, 2016 of Ford Motor Credit Company LLC;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
