NOTE 1. PRESENTATION

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America ("GAAP") for interim financial information, instructions to the Quarterly Report on Form 10-Q, and Rule 10-01 of Regulation S-X. In the opinion of management, these unaudited financial statements include all adjustments considered necessary for a fair statement of the results of operations and financial condition for interim periods for Ford Motor Credit Company LLC, its consolidated subsidiaries, and consolidated VIEs in which Ford Motor Credit Company LLC is the primary beneficiary (collectively referred to herein as "Ford Credit," "we," "our," or "us"). Results for interim periods should not be considered indicative of results for any other interim period or for the full year. Reference should be made to the financial statements contained in our Current Report on Form 8-K dated April 27, 2017 ("April 27, 2017 Form 8-K Report"). We are an indirect, wholly owned subsidiary of Ford Motor Company ("Ford").

We reclassified certain prior period amounts in our consolidated financial statements to conform to current year presentation.

NOTE 2. ACCOUNTING POLICIES

Provision for Income Taxes

For interim tax reporting we estimate one single effective tax rate, which is applied to the year-to-date ordinary income/(loss). Tax effects of significant unusual or infrequently occurring items are excluded from the estimated annual effective tax rate calculation and recognized in the interim period in which they occur.

Adoption of New Accounting Standards

Accounting Standard Update ("ASU") 2014-09, Revenue - Revenue from Contracts with Customers. We have adopted the new accounting standard, ASC 606 Revenue from Contracts with Customers and all the related amendments as of January 1, 2017 using the modified retrospective method. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. Adoption of the new revenue standard resulted in changes to the timing of revenue recognition and in the reclassification between financial statement line items. Under the new standard, we recognize insurance commissions at the time of sale of the product or service to our customer; previously, such income was recognized over the life of the insurance contract. The new standard also provided additional clarity that resulted in reclassifications from *Other income*, *net* to a new financial statement line entitled *Fee based revenue and other*.

We recognized the cumulative effect of initially applying the new standard as a \$9 million increase to the opening balance of *Retained earnings* with the offset primarily reflected in *Other assets*. When compared to the previous standard, the impact of adopting the new standard was immaterial to *Other assets* and *Retained earnings* at June 30, 2017 and *Net income* for the periods ended June 30, 2017. Under the previous standard, amounts reported in *Fee based revenue and other* for the period ended June 30, 2017 would have been included in *Other income*, *net*.

NOTE 2. ACCOUNTING POLICIES (Continued)

We also adopted the following standards during 2017, none of which had a material impact to our financial statements or financial statement disclosures:

| Standard | | Effective Date |
|----------|---|-----------------|
| 2017-05 | Gains and Losses from the Derecognition of Nonfinancial Assets - Clarifying the Scope of Asset Derecognition Guidance | January 1, 2017 |
| 2017-04 | Goodwill and Other - Simplifying the Test for Goodwill Impairment | January 1, 2017 |
| 2017-03 | Accounting Changes and Error Corrections and Investments - Equity Method and Joint Ventures | January 1, 2017 |
| 2017-01 | Business Combinations - Clarifying the Definition of a Business | January 1, 2017 |
| 2016-17 | Consolidation - Interests Held through Related Parties That Are Under Common Control | January 1, 2017 |
| 2016-09 | Stock Compensation - Improvements to Employee Share-Based Payment Accounting | January 1, 2017 |
| 2016-07 | Equity Method and Joint Ventures - Simplifying the Transition to the Equity Method of Accounting | January 1, 2017 |
| 2016-06 | Derivatives and Hedging - Contingent Put and Call Options in Debt Instruments | January 1, 2017 |
| 2016-05 | Derivatives and Hedging - Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships | January 1, 2017 |
| 2016-04 | Extinguishments of Liabilities - Recognition of Breakage for Certain Prepaid Stored-Value Products | January 1, 2017 |
| 2017-09 | Stock Compensation - Scope of Modification Accounting | April 1, 2017 |

Accounting Standards Issued But Not Yet Adopted

The following represent the standards that will, or are expected to, result in a significant change in practice and/or have a significant financial impact to Ford Credit.

ASU 2016-13, Credit Losses - Measurement of Credit Losses on Financial Instruments. In June 2016, the Financial Accounting Standards Board ("FASB") issued a new accounting standard which replaces the current incurred loss impairment method with a method that reflects expected credit losses. The new standard is effective as of January 1, 2020, and early adoption is permitted as of January 1, 2019. We will adopt the new credit loss guidance by recognizing the cumulative effect of initially applying the new standard as an adjustment to the opening balance of Retained earnings. We are assessing the potential impact to our financial statements and disclosures.

ASU 2016-02, Leases. In February 2016, the FASB issued a new accounting standard which provides guidance on the recognition, measurement, presentation, and disclosure of leases. The new standard supersedes the present U.S. GAAP standard on leases and requires substantially all leases to be reported on the balance sheet as right-of-use assets and lease liabilities, as well as additional disclosures. We plan to adopt the standard at its effective date of January 1, 2019. We anticipate adoption of the standard will add about \$100 million in right-of-use assets and lease obligations to our balance sheet and will not significantly impact pre-tax profit. We are in the early stages of implementation.

NOTE 3. CASH, CASH EQUIVALENTS, AND MARKETABLE SECURITIES

The following table categorizes the fair values of cash, cash equivalents, and marketable securities measured at fair value on a recurring basis on our balance sheet (in millions):

| | Fair Value Level | December 31, 2016 | | June 30, 2017 | |
|--|---------------------|----------------------|-------|------------------|-------|
| Cash and cash equivalents | | | | | |
| U.S. government | 1 | \$ | 924 | \$ | 182 |
| U.S. government agencies | 2 | | _ | | 100 |
| Non-U.S. government and agencies | 2 | | 142 | | 342 |
| Corporate debt | 2 | | _ | | 75 |
| Total marketable securities classified as cash equivalents | | | 1,066 | | 699 |
| Cash, time deposits and money market funds | | | 7,011 | | 6,667 |
| Total cash and cash equivalents | | \$ | 8,077 | \$ | 7,366 |
| Marketable securities | | | | | |
| U.S. government | 1 | \$ | 1,634 | \$ | 977 |
| U.S. government agencies | 2 | | 505 | | 663 |
| Non-U.S. government and agencies | 2 | | 632 | | 790 |
| Corporate debt | 2 | | 475 | | 854 |
| Other marketable securities | 2 | | 34 | | 27 |
| Total marketable securities | | \$ | 3,280 | \$ | 3,311 |

NOTE 4. FINANCE RECEIVABLES

We manage finance receivables as "consumer" and "non-consumer" portfolios. The receivables are generally secured by the vehicles, inventory, or other property being financed.

Finance receivables, net were as follows (in millions):

| | Dec | ember 31, 2016 | June 30, 2017 |
|--|-----|-------------------|------------------|
| Consumer | | | |
| Retail financing, gross | \$ | 68,121 | \$ 71,213 |
| Unearned interest supplements from Ford and affiliated companies | | (2,783) | (2,926) |
| Consumer finance receivables | | 65,338 | 68,287 |
| Non-Consumer | | | |
| Dealer financing | | 36,951 | 38,750 |
| Other financing | | 1,176 | 1,785 |
| Non-Consumer finance receivables | | 38,127 | 40,535 |
| Total recorded investment | \$ | 103,465 | \$ 108,822 |
| Recorded investment in finance receivables | \$ | 103,465 | \$ 108,822 |
| Allowance for credit losses | | (484) | (522) |
| Finance receivables, net | \$ | 102,981 | \$ 108,300 |
| Net finance receivables subject to fair value (a) | \$ | 100,857 | \$ 105,778 |
| Fair value | | 101,576 | 105,734 |

⁽a) At December 31, 2016 and June 30, 2017, *Finance receivables, net* includes \$2.1 billion and \$2.5 billion, respectively, of direct financing leases that are not subject to fair value disclosure requirements. The fair value of finance receivables is categorized within Level 3 of the fair value hierarchy.

Excluded from finance receivables at December 31, 2016 and June 30, 2017 was \$224 million and \$225 million, respectively, of accrued uncollected interest, which we report in *Other assets* on our balance sheet.

Included in recorded investment in finance receivables at December 31, 2016 and June 30, 2017 were consumer receivables of \$32.5 billion and \$33.1 billion, respectively, and non-consumer receivables of \$26.0 billion and \$26.1 billion, respectively, that have been sold for legal purposes in securitization transactions but continue to be reported in our consolidated financial statements. The receivables are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay the other obligations or the claims of Ford Credit's other creditors. Ford Credit holds the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions (see Note 7 for additional information).

NOTE 4. FINANCE RECEIVABLES (Continued)

Aging

For all finance receivables, we define "past due" as any payment, including principal and interest, that is at least 31 days past the contractual due date. The recorded investment of consumer receivables greater than 90 days past due and still accruing interest was \$21 million and \$23 million at December 31, 2016 and June 30, 2017, respectively. The recorded investment of non-consumer receivables greater than 90 days past due and still accruing interest was de minimis and \$1 million at December 31, 2016 and June 30, 2017, respectively.

The aging analysis of finance receivables balances was as follows (in millions):

| | December 31, 2016 | June 30, 2017 |
|----------------------------------|----------------------|------------------|
| Consumer | | |
| 31-60 days past due | \$ 760 | \$ 643 |
| 61-90 days past due | 114 | 106 |
| 91-120 days past due | 34 | 36 |
| Greater than 120 days past due | 39 | 36 |
| Total past due | 947 | 821 |
| Current | 64,391 | 67,466 |
| Consumer finance receivables | 65,338 | 68,287 |
| Non-Consumer | | |
| Total past due | 107 | 133 |
| Current | 38,020 | 40,402 |
| Non-Consumer finance receivables | 38,127 | 40,535 |
| Total recorded investment | \$ 103,465 | \$ 108,822 |

Credit Quality

Consumer Portfolio

Credit quality ratings for consumer receivables are based on our aging analysis. Refer to the aging table above.

Consumer receivables credit quality ratings are as follows:

- Pass current to 60 days past due
- Special Mention 61 to 120 days past due and in intensified collection status
- Substandard greater than 120 days past due and for which the uncollectible portion of the receivables has already been charged off, as measured using the fair value of collateral less costs to sell

Non-Consumer Portfolio

Dealers are assigned to one of four groups according to risk ratings as follows:

- Group I strong to superior financial metrics
- Group II fair to favorable financial metrics
- Group III marginal to weak financial metrics
- Group IV poor financial metrics, including dealers classified as uncollectible

NOTE 4. FINANCE RECEIVABLES (Continued)

The credit quality analysis of our dealer financing receivables was as follows (in millions):

| | ember 31, 2016 | June 30, 2017 |
|---------------------------|-------------------|------------------|
| Dealer financing | | |
| Group I | \$ 29,926 | \$ 31,626 |
| Group II | 5,552 | 5,589 |
| Group III | 1,380 | 1,368 |
| Group IV | 93 | 167 |
| Total recorded investment | \$ 36,951 | \$ 38,750 |

Impaired Receivables

Impaired consumer receivables include accounts that have been rewritten or modified in reorganization proceedings pursuant to the U.S. Bankruptcy Code that are considered to be Troubled Debt Restructurings ("TDRs"), as well as all accounts greater than 120 days past due. Impaired non-consumer receivables represent accounts with dealers that have weak or poor financial metrics or dealer financing that has been modified in TDRs. The recorded investment of consumer receivables that were impaired at December 31, 2016 and June 30, 2017 was \$367 million, or 0.6% of consumer receivables, and \$381 million, or 0.6% of consumer receivables, respectively. The recorded investment of non-consumer receivables that were impaired at December 31, 2016 and June 30, 2017 was \$107 million, or 0.3% of non-consumer receivables, and \$181 million, or 0.4% of non-consumer receivables, respectively. Impaired finance receivables are evaluated both collectively and specifically.

The accrual of revenue is discontinued at the time a receivable is determined to be uncollectible. Accounts may be restored to accrual status only when a customer settles all past-due deficiency balances and future payments are reasonably assured. For receivables in non-accrual status, subsequent financing revenue is recognized only to the extent a payment is received. Payments are generally applied first to outstanding interest and then to the unpaid principal balance.

A restructuring of debt constitutes a TDR if we grant a concession to a debtor for economic or legal reasons related to the debtor's financial difficulties that we otherwise would not consider. Consumer and non-consumer receivables that have a modified interest rate below market rate or that were modified in reorganization proceedings pursuant to the U.S. Bankruptcy Code, except non-consumer receivables that are current with minimal risk of loss, are considered to be TDRs. We do not grant concessions on the principal balance of our receivables. If a receivable is modified in a reorganization proceeding, all payment requirements of the reorganization plan need to be met before remaining balances are forgiven. Finance receivables involved in TDRs are specifically assessed for impairment.

NOTE 5. NET INVESTMENT IN OPERATING LEASES

Net investment in operating leases consist primarily of lease contracts for vehicles with retail customers, daily rental companies, and fleet customers with terms of 60 months or less.

Net investment in operating leases were as follows (in millions):

| | mber 31, 2016 | • | June 30, 2017 |
|---|------------------|----|------------------|
| Vehicles, at cost (a) | \$ 32,823 | \$ | 32,339 |
| Accumulated depreciation | (5,550) | | (5,580) |
| Net investment in operating leases before allowance for credit losses | 27,273 | | 26,759 |
| Allowance for credit losses | (64) | | (66) |
| Net investment in operating leases | \$ 27,209 | \$ | 26,693 |

⁽a) Includes interest supplements and residual support payments we receive on certain leasing transactions under agreements with Ford and affiliated companies, and other vehicle acquisition costs.

At December 31, 2016 and June 30, 2017, net investment in operating leases before allowance for credit losses includes \$11.8 billion and \$11.0 billion, respectively, of net investment in operating leases that have been included in securitization transactions but continue to be reported in our consolidated financial statements. These net investment in operating leases are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions (see Note 7 for additional information).

We have a sale-leaseback agreement with Ford primarily for vehicles that Ford leases to employees of Ford and its subsidiaries. Effective January 1, 2017, the financing we provide under this agreement is reflected on our balance sheet in *Finance receivables, net.* Previously, these amounts were reflected in *Net investment in operating leases*. The amount included in *Net investment in operating leases* at December 31, 2016 was \$907 million. The revenue related to these agreements is now reflected in *Other financing revenue*. Previously, this activity was reflected on our income statement in *Operating leases revenue* and *Depreciation on vehicles subject to operating leases* which was \$81 million and \$73 million for the second quarter of 2016, respectively, and \$148 million and \$134 million for the first half of 2016, respectively.

NOTE 6. ALLOWANCE FOR CREDIT LOSSES

An analysis of the allowance for credit losses related to finance receivables and net investment in operating leases for the periods ended June 30 (in millions) was as follows:

NOTE 7. TRANSFERS OF RECEIVABLES

We securitize finance receivables and net investment in operating leases through a variety of programs using amortizing, variable funding, and revolving structures. We also sell finance receivables in structured financing transactions. Due to the similarities between securitization and structured financing, we refer to structured financings as securitization transactions. Our securitization programs are targeted to institutional investors in both public and private transactions in capital markets including the United States, Canada, several European countries, Mexico, and China.

We engage in securitization transactions to fund operations and to maintain liquidity. Our securitization transactions are recorded as asset-backed debt and the associated assets are not derecognized and continue to be included in our financial statements.

The finance receivables sold for legal purposes and net investment in operating leases included in securitization transactions are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. They are not available to pay our other obligations or the claims of our other creditors. We hold the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. The debt is the obligation of our consolidated securitization entities and not the obligation of Ford Credit or our other subsidiaries.

Most of these securitization transactions utilize VIEs. See Note 8 for additional information concerning VIEs. The following tables show the assets and debt related to our securitization transactions that were included in our financial statements (in billions):

| | | | ı | Decembe | er 31, 2016 | 6 | | | |

NOTE 8. VARIABLE INTEREST ENTITIES

Total securitization transactions

VIEs of Which We Are the Primary Beneficiary

We use special purpose entities to issue asset-backed securities in transactions to public and private investors. We have deemed most of these special purpose entities to be VIEs. The asset-backed securities are backed by finance receivables and interests in net investments in operating leases. The assets continue to be consolidated by us. We retain interests in our securitization VIEs, including subordinated securities issued by the VIEs, rights to cash held for the benefit of the securitization investors, and rights to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions.

2.9

\$

70.2

0.2

70.0

48 1

We have no obligation to repurchase or replace any securitized asset that subsequently becomes delinquent in payment or otherwise is in default, except when representations and warranties about the eligibility of the securitized assets are breached, or when certain changes are made to the underlying asset contracts. Securitization investors have no recourse to us or our other assets and have no right to require us to repurchase the investments. We generally have no obligation to provide liquidity or contribute cash or additional assets to the VIEs and do not guarantee any asset-backed securities. We may be required to support the performance of certain securitization transactions, however, by increasing cash reserves.

See Note 7 for additional information on the financial position and financial performance of our VIEs.

⁽b) Includes assets to be used to settle the liabilities of the consolidated VIEs.

⁽c) Includes unamortized discount and debt issuance costs.

NOTE 8. VARIABLE INTEREST ENTITIES (Continued)

VIEs of Which We Are Not the Primary Beneficiary

We have an investment in Forso Nordic AB, a joint venture determined to be a VIE of which we are not the primary beneficiary. The joint venture provides retail and dealer financing in its local markets and is financed by external debt and additional subordinated debt provided by the joint venture partner. The operating agreement indicates that the power to direct economically significant activities is shared with the joint venture partner, and the obligation to absorb losses or right to receive benefits resides primarily with the joint venture partner. Our investment in the joint venture is accounted for as an equity method investment and is included in *Other assets*. Our maximum exposure to any potential losses associated with this VIE is limited to our equity investment and amounted to \$68 million and \$77 million at December 31, 2016 and June 30, 2017, respectively.

NOTE 9. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, our operations are exposed to global market risks, including the effect of changes in interest rates and foreign currency exchange rates. To manage these risks, we enter into highly effective derivative contracts. We have elected to apply hedge accounting to certain derivatives. Derivatives that are designated in hedging relationships are evaluated for effectiveness using regression analysis at the time they are designated and throughout the hedge period. Some derivatives do not qualify for hedge accounting; for others, we elect not to apply hedge accounting.

Income Effect of Derivative Financial Instruments

The gains/(losses), by hedge designation, recorded in income for the periods ended June 30 were as follows (in millions):

| | Second Quarter | | | | | First Half | | | |
|---|----------------|------|----|------|----|------------|----|------|--|
| | | 2016 | | 2017 | | 2016 | | 2017 | |
| Fair value hedges | | | | | | | | | |
| Interest rate contracts | | | | | | | | | |
| Net interest settlements and accruals excluded from the assessment of hedge effectiveness | \$ | 98 | \$ | 62 | \$ | 197 | \$ | 132 | |
| Ineffectiveness (a) | | 5 | | 4 | | 22 | | _ | |
| Derivatives not designated as hedging instruments | | | | | | | | | |
| Interest rate contracts | | (43) | | 30 | | (91) | | 37 | |
| Foreign currency exchange contracts | | 59 | | (61) | | 92 | | (90) | |
| Cross-currency interest rate swap contracts | | 140 | | 16 | | 335 | | 74 | |
| Total | \$ | 259 | \$ | 51 | \$ | 555 | \$ | 153 | |

⁽a) For the second quarter and first half of 2016, hedge ineffectiveness reflects the net change in fair value on derivatives of \$273 million gain and \$883 million gain, respectively, and change in value on hedged debt attributable to the change in benchmark interest rates of \$268 million loss and \$861 million loss, respectively. For the second quarter and first half of 2017, hedge ineffectiveness reflects the net change in fair value on derivatives of \$34 million gain and \$55 million loss, respectively, and change in value on hedged debt attributable to the change in benchmark interest rates of \$30 million loss and \$55 million gain, respectively.

NOTE 9. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES (Continued)

Balance Sheet Effect of Derivative Financial Instruments

Derivative assets and liabilities are recorded on the balance sheet at fair value and are presented on a gross basis. The notional amounts of the derivative instruments do not necessarily represent amounts exchanged by the parties and are not a direct measure of our financial exposure. We also enter into master agreements with counterparties that may allow for netting of exposures in the event of default or breach of the counterparty agreement. Collateral represents cash received or paid under reciprocal arrangements that we have entered into with our derivative counterparties which we do not use to offset our derivative assets and liabilities.

The fair value of our derivative instruments and the associated notional amounts, presented gross, were as follows (in millions):

| | D | ece | mber 31, 201 | 16 | | _ | | Ju | ne 30, 2017 | | |

⁽a) Includes forward contracts between Ford Credit and an affiliated company.

⁽b) At December 31, 2016 and June 30, 2017, we held collateral of \$15 million and \$10 million, respectively, and we posted collateral of \$12 million and \$16 million, respectively.

⁽c) At December 31, 2016 and June 30, 2017, the fair value of assets and liabilities available for counterparty netting was \$113 million and \$138 million, respectively. All derivatives are categorized within Level 2 of the fair value hierarchy.

NOTE 10. OTHER ASSETS AND OTHER LIABILITIES AND DEFERRED INCOME

Other assets and other liabilities and deferred income consist of various balance sheet items that are combined for financial statement presentation due to their respective materiality compared with other individual asset and liability items.

Other assets were as follows (in millions):

| | mber 31, 016 | • | June 30, 2017 |
|---|-----------------|----|------------------|
| Accrued interest and other non-finance receivables | \$ 889 | \$ | 934 |
| Prepaid reinsurance premiums and other reinsurance recoverables | 546 | | 577 |
| Collateral held for resale, at net realizable value | 621 | | 524 |
| Deferred charges – income taxes | 205 | | 218 |
| Investment in non-consolidated affiliates | 153 | | 180 |
| Property and equipment, net of accumulated depreciation (a) | 156 | | 166 |
| Deferred charges | 122 | | 126 |
| Restricted cash (b) | 108 | | 102 |
| Other | 22 | | 32 |
| Total other assets | \$ 2,822 | \$ | 2,859 |

⁽a) Accumulated depreciation was \$347 million and \$361 million at December 31, 2016 and June 30, 2017, respectively.

Other liabilities and deferred income were as follows (in millions):

| | nber 31,)16 | • | June 30, 2017 |
|---|-----------------|----|------------------|
| Interest payable | \$ 661 | \$ | 687 |
| Unearned insurance premiums and fees | 650 | | 686 |
| Income tax and related interest | 294 | | 258 |
| Deferred revenue | 143 | | 151 |
| Payroll and employee benefits | 51 | | 58 |
| Other | 198 | | 226 |
| Total other liabilities and deferred income | \$ 1,997 | \$ | 2,066 |

Deferred revenue balances presented above include amounts from contracts with customers primarily related to admission fee revenue on group financing products available in Argentina and were \$120 million, \$120 million, and \$128 million at December 31, 2016, January 1, 2017, and June 30, 2017, respectively. The January 1, 2017 balance reflects adoption of the new revenue recognition standard. See Note 2 for additional information.

Admission fee revenue on group financing products is generally recognized evenly over the term of the agreement, which is up to 84 months. Increases in the admission fee deferred revenue balance are the result of payments due during the current period in advance of satisfying our performance under the contract and decreases are a result of revenue recognized during the current period that was previously deferred. The total amount of admission fee revenue recognized for the first half of 2017 that was included in the beginning balance of deferred revenue at January 1, 2017 was \$14 million.

⁽b) Restricted cash primarily includes cash held to meet certain local governmental and regulatory reserve requirements and cash held under the terms of certain contractual agreements. Restricted cash does not include required minimum balances or cash securing debt issued through securitization transactions.

NOTE 11. DEBT

Debt outstanding and interest rates were as follows (in millions):

| | | | | | | Interest R | ates | |
|-------------------------------|-----|-------------------|-----|------------------|-------------|------------|------------|---------|
| | | De | ebt | _ | Average Con | tractual | Average Ef | fective |
| | Dec | ember 31, 2016 | | June 30, 2017 | 2016 | 2017 | 2016 | 2017 |
| Short-term debt | | | | | | | | _ |
| Unsecured debt | | | | | | | | |
| Floating rate demand notes | \$ | 5,986 | \$ | 5,899 | | | | |
| Commercial paper | | 4,507 | | 5,230 | | | | |
| Other short-term debt | | 3,803 | | 3,603 | | | | |
| Asset-backed debt | | 1,063 | | 743 | | | | |
| Total short-term debt | | 15,359 | | 15,475 | 2.3% | 2.5% | 2.3% | 2.5% |
| Long-term debt | | | | | | | | |
| Unsecured debt | | | | | | | | |
| Notes payable within one year | | 12,369 | | 14,409 | | | | |
| Notes payable after one year | | 49,308 | | 51,974 | | | | |
| Asset-backed debt (a) | | | | | | | | |
| Notes payable within one year | | 19,286 | | 18,018 | | | | |
| Notes payable after one year | | 30,112 | | 29,409 | | | | |
| Unamortized discount | | (8) | | (5) | | | | |
| Unamortized issuance costs | | (212) | | (221) | | | | |
| Fair value adjustments (b) | | 278 | | 209 | | | | |
| Total long-term debt | | 111,133 | | 113,793 | 2.4% | 2.5% | 2.5% | 2.5% |
| Total debt | \$ | 126,492 | \$ | 129,268 | 2.4% | 2.5% | 2.4% | 2.5% |
| | | | | | | | | |
| Fair value of debt (c) | \$ | 128,001 | \$ | 131,151 | | | | |

⁽a) Asset-backed debt issued in securitizations is the obligation of the consolidated securitization entity that issued the debt and is payable only out of collections on the underlying securitized assets and related enhancements. This asset-backed debt is not the obligation of Ford Credit or our other subsidiaries.

NOTE 12. ACCUMULATED OTHER COMPREHENSIVE INCOME/(LOSS)

The changes in the balance of *Accumulated other comprehensive income/(loss)* ("AOCI") attributable to Ford Credit for the periods ended June 30 were as follows (in millions):

| | | Second | Qua | rter | First Half | | | |
|---|------|--------|-----|-------|-------------|----|-------|--|
| | 2016 | | | 2017 | 2016 | | 2017 | |
| Foreign currency translation | | | | | | | | |
| Beginning balance | \$ | (435) | \$ | (800) | \$ (607) | \$ | (890) | |
| Net gain/(loss) on foreign currency translation | | (141) | | 191 | 31 | | 281 | |
| Other comprehensive income/(loss), net of tax | | (141) | | 191 | 31 | | 281 | |
| Ending balance | \$ | (576) | \$ | (609) | \$ (576) | \$ | (609) | |
| | | | | | | | | |
| Total AOCI ending balance at June 30 | \$ | (576) | \$ | (609) | \$ (576) | \$ | (609) | |

⁽b) Adjustments related to designated fair value hedges of unsecured debt.

⁽c) The fair value of debt includes \$14.3 billion and \$14.7 billion of short-term debt at December 31, 2016 and June 30, 2017, respectively, carried at cost, which approximates fair value. All other debt is categorized within Level 2 of the fair value hierarchy.

NOTE 13. OTHER INCOME, NET

Other income consists of various line items that are combined on the income statement due to their respective materiality compared with other individual income and expense items.

The amounts included in *Other income*, net for the periods ended June 30 were as follows (in millions):

| | Second Quarter | | | | First Half | | | |
|-------------------------------------|----------------|-------|----|------|------------|-------|----|------|
| | | 2016 | | 2017 | | 2016 | | 2017 |
| Gains/(Losses) on derivatives | \$ | 160 | \$ | (10) | \$ | 359 | \$ | 22 |
| Currency revaluation gains/(losses) | | (209) | | 56 | | (428) | | 22 |
| Interest and investment income | | 24 | | 24 | | 52 | | 47 |
| Insurance fee income | | 26 | | _ | | 47 | | _ |
| Other | | 51 | | 16 | | 85 | | 25 |
| Total other income, net | \$ | 52 | \$ | 86 | \$ | 115 | \$ | 116 |

NOTE 14. SEGMENT INFORMATION

We have three reportable segments in our consolidated financial statements that align with our management reporting structure and reflect the manner in which our Chief Operating Decision Maker manages our business, including resource allocation and performance assessment. These segments are: Americas, Europe, and Asia Pacific. Items excluded in assessing segment performance because they are managed at the corporate level, including market valuation adjustments to derivatives and exchange-rate fluctuations on foreign currency-denominated transactions, are reflected in Unallocated Other. The following is a brief description of our segments:

- · Americas Segment -- United States, Canada, Mexico, Brazil, and Argentina
- Europe Segment -- European region and South Africa
- Asia Pacific Segment -- China and India

We conduct our financing operations directly and indirectly through our subsidiaries and affiliates.

NOTE 14. SEGMENT INFORMATION (Continued)

Key operating data for our business segments for the periods ended or at June 30 were as follows (in millions):

| | Aı | mericas | Europe | A | Asia Pacific | ; | Total Segments | U | nallocated Other (a) | Total |
|--|----|---------|-----------|----|--------------|----|-------------------|----|-------------------------|-------------|
| Second Quarter 2016 | | | | | | | | | | |

| Income before income taxes | | 745 | 178 | | 26 | | 949 | | (35) | 914 |
| Other disclosures: | | | | | | | | | | |
| Depreciation on vehicles subject to operating leases | | 2,076 | 13 | | _ | | 2,089 | | _ | 2,089 |
| Interest expense | | 1,101 | 144 | | 88 | | 1,333 | | _ | 1,333 |
| Provision for credit losses | | 241 | 15 | | 9 | | 265 | | _ | 265 |
| Net finance receivables and net investment in operating leases | | 109,823 | 20,654 | | 3,727 | | 134,204 | | (6,107) | 128,097 |
| Total assets | | 117,966 | 23,503 | | 4,098 | | 145,567 | | _ | 145,567 |
| First Half 2017 | | | | | | | | | | |
| Total revenue (b) | \$ | 4,866 | \$ 461 | \$ | 206 | \$ | 5,533 | \$ | _ | \$ 5,533 |
| Income before income taxes | | 823 | 151 | | 46 | | 1,020 | | 80 | 1,100 |
| Other disclosures: | | | | | | | | | | |
| Depreciation on vehicles subject to operating leases | | 2,080 | 21 | | _ | | 2,101 | | _ | 2,101 |
| Interest expense | | 1,260 | 123 | | 115 | | 1,498 | | _ | 1,498 |
| Provision for credit losses | | 230 | 14 | | 7 | | 251 | | _ | 251 |
| Net finance receivables and net investment in operating leases | | 115,033 | 21,740 | | 5,427 | | 142,200 | | (7,207) | 134,993 |
| Total assets | | 120,704 | 23,819 | | 5,971 | | 150,494 | | _ | 150,494 |
| | | | | | | | | | | |

⁽a) Net finance receivables and Net investment in operating leases include unearned interest supplements and residual support, allowance for credit losses, and other (primarily accumulated supplemental depreciation).

⁽b) Total revenue for 2016 includes *Total financing revenue, Insurance premiums earned,* and *Other income, net.* For 2017, Total revenue includes *Total financing revenue, Insurance premiums earned,* and *Fee based revenue and other.* The change in the definition of Total revenue is the result of our adoption of the new revenue recognition accounting standard as of January 1, 2017 (see Note 2 for additional information).

NOTE 15. COMMITMENTS AND CONTINGENCIES

Commitments and contingencies primarily consist of lease commitments, guarantees and indemnifications, and litigation and claims.

Guarantees and Indemnifications

Guarantees and indemnifications are recorded at fair value at their inception. We regularly review our performance risk under these arrangements, and in the event it becomes probable we will be required to perform under a guarantee or indemnity, the amount of probable payment is recorded.

In some cases, we have guaranteed debt and other financial obligations of outside third parties and unconsolidated affiliates, including Ford. Expiration dates vary, and guarantees will terminate on payment and/or cancellation of the underlying obligation. A payment by us would be triggered by failure of the guaranteed party to fulfill its obligation covered by the guarantee. In some circumstances, we are entitled to recover from Ford, an affiliate of Ford, or a third party amounts paid by us under the guarantee. However, our ability to enforce these rights is sometimes stayed until the guaranteed party is paid in full, and may be limited in the event of insolvency of the third party or other circumstances.

In the ordinary course of business, we execute contracts involving indemnifications standard in the industry and indemnifications specific to a transaction. These indemnifications might include and are not limited to claims relating to any of the following: environmental, tax, and shareholder matters; intellectual property rights; governmental regulations and employment-related matters; dealer and other commercial contractual relationships; and financial matters, such as securitizations. Performance under these indemnities generally would be triggered by a breach of terms of the contract or by a third-party claim. While some of these indemnifications are limited in nature, many of them do not limit potential payment. Therefore, we are unable to estimate a maximum amount of future payments that could result from claims made under these unlimited indemnities.

The maximum potential payments under these guarantees and limited indemnities totaled \$35 million and \$36 million at December 31, 2016 and June 30, 2017, respectively. Of these values, \$31 million and \$32 million at December 31, 2016 and June 30, 2017, respectively, were counter-guaranteed by Ford to us. There were no recorded liabilities related to guarantees and limited indemnities at December 31, 2016 and June 30, 2017.

Litigation and Claims

Various legal actions, proceedings, and claims (generally, "matters") are pending or may be instituted or asserted against us. These include but are not limited to matters arising out of governmental regulations; tax matters; alleged illegal acts resulting in fines or penalties; financial services; employment-related matters; dealer and other contractual relationships; personal injury matters; investor matters; and financial reporting matters. Certain of the pending legal actions are, or purport to be, class actions. Some of the matters involve or may involve claims for compensatory, punitive, or antitrust or other treble damages in very large amounts, sanctions, assessments, or other relief, which, if granted, would require very large expenditures.

The extent of our financial exposure to these matters is difficult to estimate. Many matters do not specify a dollar amount for damages, and many others specify only a jurisdictional minimum. To the extent an amount is asserted, our historical experience suggests that in most instances the amount asserted is not a reliable indicator of the ultimate outcome.

We accrue for matters when losses are deemed probable and reasonably estimable. In evaluating matters for accrual and disclosure purposes, we take into consideration factors such as our historical experience with matters of a similar nature, the specific facts and circumstances asserted, the likelihood that we will prevail, and the severity of any potential loss. We reevaluate and update our accruals as matters progress over time.

NOTE 15. COMMITMENTS AND CONTINGENCIES (Continued)

For nearly all of our matters, where our historical experience with similar matters is of limited value (i.e., "non-pattern matters"), we evaluate the matters primarily based on the individual facts and circumstances. For non-pattern matters, we evaluate whether there is a reasonable possibility of a material loss in excess of any accrual that can be estimated. It is reasonably possible that some of the matters for which accruals have not been established could be decided unfavorably to us and could require us to pay damages or make other expenditures. We do not reasonably expect, based on our analysis, that such matters would have a material effect on future financial statements for a particular year, although such an outcome is possible.

As noted, the litigation process is subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. Our assessments are based on our knowledge and experience, but the ultimate outcome of any matter could require payment substantially in excess of the amount that we have accrued and/or disclosed.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholder of Ford Motor Credit Company LLC:

We have reviewed the accompanying consolidated balance sheet of Ford Motor Credit Company LLC and its subsidiaries as of June 30, 2017 and the related consolidated statements of income and comprehensive income for the three-month and six-month periods ended June 30, 2017 and 2016 and the consolidated statement of shareholder's interest and condensed consolidated statement of cash flows for the six-month periods ended June 30, 2017 and 2016. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2016, and the related consolidated statements of income, comprehensive income, shareholder's interest, and of cash flows for the year then ended (not presented herein), and in our report dated February 9, 2017, except with respect to our opinion on the consolidated financial statements insofar as it relates to the change in composition of reportable segments discussed in Note 17, as to which the date is April 27, 2017, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2016, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

PricewaterhouseCoopers LLP Detroit, Michigan July 26, 2017

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

Overview

In general, we measure period-to-period changes in pre-tax results using the causal factors listed below:

- Volume and Mix Volume and Mix are primarily reflected within Net financing margin on the income statement.
 - Volume primarily measures changes in net financing margin driven by changes in average managed receivables at prior period financing margin yield (defined below in financing margin) at prior period exchange rates. Volume changes are primarily driven by the volume of new and used vehicle sales and leases, the extent to which we purchase retail installment sale and lease contracts, the extent to which we provide wholesale financing, the sales price of the vehicles financed, the level of dealer inventories, Ford-sponsored special financing programs available exclusively through us, and the availability of cost-effective funding for the purchase of retail installment sale and lease contracts and to provide wholesale financing.
 - Mix primarily measures changes in net financing margin driven by period over period changes in the composition of our average managed receivables by product and by country or region.
- Financing Margin Financing Margin is reflected within Net financing margin on the income statement.
 - Financing margin variance is the period-to-period change in financing margin yield multiplied by the present period average managed receivables at prior period exchange rates. This calculation is performed at the product and country level and then aggregated. Financing margin yield equals revenue, less interest expense and scheduled depreciation for the period, divided by average managed receivables for the same period.
 - Financing margin changes are driven by changes in revenue and interest expense. Changes in revenue are primarily driven by the level of market interest rates, cost assumptions in pricing, mix of business, and competitive environment. Changes in interest expense are primarily driven by the level of market interest rates, borrowing spreads, and asset-liability management.
- Credit Loss Credit Loss is reflected within the Provision for credit losses on the income statement.
 - Credit loss is the change in the provision for credit losses at prior period exchange rates. For analysis purposes, management splits the provision for credit losses into net charge-offs and the change in the allowance for credit losses.
 - Net charge-off changes are primarily driven by the number of repossessions, severity per repossession, and recoveries. Changes in the allowance for credit losses are primarily driven by changes in historical trends in credit losses and recoveries, changes in the composition and size of our present portfolio, changes in trends in historical used vehicle values, and changes in economic conditions. For additional information, refer to the "Critical Accounting Estimates Allowance for Credit Losses" section of Item 7 of Exhibit 99 to our Current Report on Form 8-K dated April 27, 2017 ("April 27, 2017 Form 8-K Report").
- Lease Residual Lease Residual is reflected within Depreciation on vehicles subject to operating leases on the income statement.
 - Lease residual measures changes to residual performance at prior period exchange rates. For analysis purposes, management splits residual performance primarily into residual gains and losses, and the change in accumulated supplemental depreciation.
 - Residual gain and loss changes are primarily driven by the number of vehicles returned to us and sold, and the difference between the auction value and the depreciated value (which includes both base and accumulated supplemental depreciation) of the vehicles sold. Changes in accumulated supplemental depreciation are primarily driven by changes in our estimate of the expected auction value at the end of the lease term, and changes in our estimate of the number of vehicles that will be returned to us and sold. For additional information, refer to the "Critical Accounting Estimates" section of Item 7 of Exhibit 99 to our April 27, 2017 Form 8-K Report.
- Exchange Reflects changes in pre-tax results driven by the effects of converting functional currency income to U.S. dollars and is reflected in all lines on the income statement.

- Other Primarily includes Operating expenses, Other revenue, Insurance expenses, and Other income, net on the income statement at prior period exchange rates.
 - Changes in operating expenses are primarily driven by salaried personnel costs, facilities costs, and costs associated with the origination and servicing of customer contracts.
 - In general, Other income, net changes are primarily driven by changes in earnings related to market valuation adjustments to derivatives (primarily related to movements in interest rates), which are included in Unallocated Other, and other miscellaneous items.

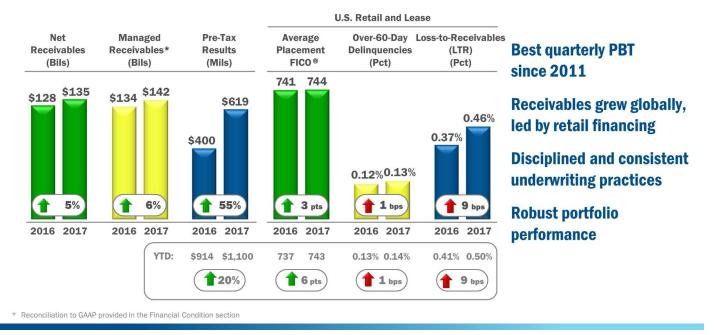

In addition, the following definitions and calculations apply to the charts contained in Item 2 of this report:

- Cash (as shown on the Funding Structure, Liquidity Sources, and Leverage charts) Cash and cash equivalents
 and Marketable securities reported on Ford Credit's balance sheet, excluding amounts related to insurance
 activities
- Securitizations (as shown on the Public Term Funding Plan chart) Public securitization transactions, Rule 144A offerings sponsored by Ford Motor Credit, and widely distributed offerings by Ford Credit Canada
- *Term Asset-Backed Securities* (as shown on the Funding Structure chart) Obligations issued in securitization transactions that are payable only out of collections on the underlying securitized assets and related enhancements
- Total Debt (as shown on the Leverage chart) Debt on Ford Credit's balance sheet. Includes debt issued in
 securitizations and payable only out of collections on the underlying securitized assets and related enhancements.
 Ford Credit holds the right to receive the excess cash flows not needed to pay the debt issued by, and other
 obligations of, the securitization entities that are parties to those securitization transactions
- Unallocated Other (as shown on the Pre-Tax Results by Segment chart) Items excluded in assessing segment performance because they are managed at the corporate level, including market valuation adjustments to derivatives and exchange-rate fluctuations on foreign currency-denominated transactions

Second Quarter 2017 Compared with Second Quarter 2016

The following chart shows our key metrics:

2Q 2017 KEY METRICS

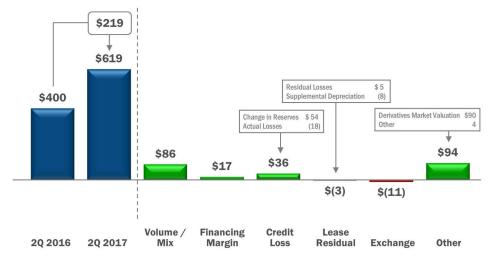

In the second quarter of 2017, our pre-tax profit of \$619 million improved from last year, our best quarterly pre-tax profit since 2011. Receivables were higher than a year ago with growth globally led by retail receivables.

FICO scores remain strong, and our origination, servicing, and collection practices continue to be disciplined and consistent. Portfolio performance was robust. The loss-to-receivables ratio of 46 basis points was up 9 basis points and within expectations.

On a pre-tax basis, we earned \$619 million in the second quarter of 2017, compared with \$400 million a year ago. The following chart shows the factors that contributed to the strong second quarter pre-tax profit:

2Q 2017 PRE-TAX RESULTS (MILS)

YoY PBT gain driven by most factors

Volume and mix up due to global receivables growth

Lease residual reflects stronger-than-expected auction values and latest ALG valuation

Derivatives market valuation reflects higher interest rate movements

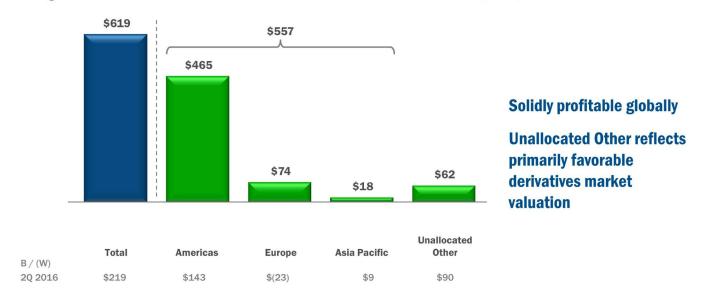

As shown above, Ford Credit's second quarter pre-tax profit improvement of \$219 million compared to the prior year was driven by most factors. The favorable volume and mix reflects primarily growth in retail receivables globally. Improved credit loss performance reflects a smaller increase in reserves, offset partially by higher losses.

Recent auction value performance has been better than expected. As a result, our year-over-year lease residual performance was flat. For the remainder of 2017, we continue to plan for lower auction values; however, our outlook for full year supplemental depreciation has improved, reflecting latest third party valuations.

Derivatives market valuation was favorable, reflecting primarily higher interest rates in Canada and the UK in the second quarter of 2017 versus the Brexit effect of lower interest rates globally a year ago.

We have three reportable segments in our consolidated financial statements that align with our management reporting structure and reflect the manner in which our Chief Operating Decision Maker manages our business, including resource allocation and performance assessment. These segments are: Americas, Europe, and Asia Pacific. Items excluded in assessing segment performance because they are managed at the corporate level are reflected in Unallocated Other. Results of operations by segment and Unallocated Other for the period ended June 30 are shown below (in millions). For additional information, see Note 14 of our Notes to the Financial Statements.

2Q 2017 PRE-TAX RESULTS BY SEGMENT (MILS)

Americas Segment

The Americas Segment second quarter pre-tax profit is higher compared with 2016, explained primarily by favorable volume and mix driven by growth in all products, higher financing margin driven by higher portfolio yield, and lower credit losses driven by a smaller increase in reserves.

The Americas Segment first half pre-tax profit of \$823 million is \$78 million higher compared with 2016, more than explained by favorable volume and mix.

Europe Segment

The Europe Segment second quarter pre-tax profit is lower compared with 2016, driven primarily by lower financing margin due to lower yields, and exchange rate changes in European currencies.

The Europe Segment first half pre-tax profit of \$151 million is \$27 million lower compared with 2016, explained primarily by lower financing margin due to lower yields and exchange rate changes in European currencies.

Asia Pacific Segment

The Asia Pacific Segment second quarter pre-tax profit is higher compared with 2016, explained primarily by favorable volume and mix, partially offset by higher borrowing cost.

The Asia Pacific Segment first half pre-tax profit of \$46 million is \$20 million higher compared with 2016, explained primarily by favorable volume and mix, partially offset by higher borrowing cost.

Unallocated Other

The improvement in Unallocated Other in the second quarter of 2017 compared with 2016 reflects favorable performance in market valuation adjustments to derivatives. For additional information, see Notes 9 and 14 of our Notes to the Financial Statements.

Unallocated Other first half pre-tax profit of \$80 million is \$115 million higher compared with 2016, reflecting primarily favorable performance in market valuation adjustments to derivatives.

Financing Shares and Contract Placement Volume

Our focus is on supporting Ford and Lincoln dealers and customers. This includes going to market with Ford and our dealers to support vehicle sales with financing products and marketing programs. Ford's marketing programs may encourage or require Ford Credit financing and influence the financing choices customers make. As a result, our financing share, volume, and contract characteristics vary from quarter to quarter as Ford's marketing programs change.

The following chart shows our United States and Canada retail installment and lease share of new Ford- and Lincoln-brand vehicle retail sales and wholesale financing share of new Ford- and Lincoln-brand vehicles acquired by dealers. Also shown is Americas' consumer financing contract placement volume for new and used vehicles. All data is for the periods ended June 30:

AMERICAS FINANCING SHARES AND CONTRACT PLACEMENT VOLUME

| | 20 | | YTD | | |

| India | 1 | 2 | 1 | 4 | | |
| Total Asia Pacific Segment | 33 | 60 | 66 | 107 | | |

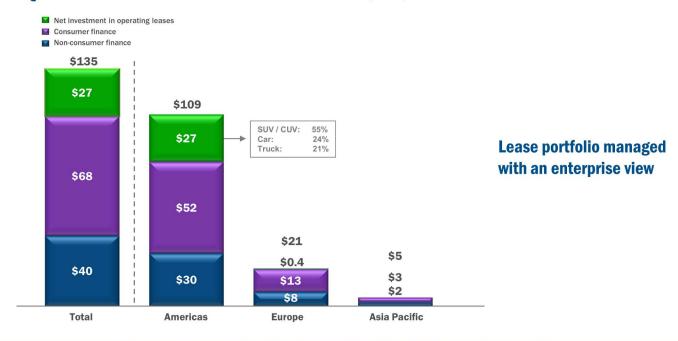

In the second quarter of 2017, Asia Pacific Segment total contract volume was up compared to the prior year, reflecting changes in Ford's marketing programs.

Financial Condition

Finance Receivables and Operating Leases

Our receivables, including finance receivables and operating leases, were as follows:

Ford Credit's operating lease portfolio is managed with an enterprise view. Ford Credit's operating lease portfolio is about 20% of total net receivables. Leasing is an important product and our leasing strategy balances sales, share, residuals, and long-term profitability. Our operating leases in the U.S. and Canada represent 99% of our total operating lease portfolio.

The following chart shows our reconciliation for our Non-GAAP financial measure, managed receivables:

TOTAL NET RECEIVABLES RECONCILIATION TO MANAGED RECEIVABLES

| (Bils) | 2015 | 2016 | 2016 | 2017 |
|--|----------|----------|----------|----------|
| | Dec 31 | Jun 30 | Dec 31 | Jun 30 |
| Finance receivables, net (GAAP) | \$ 96.8 | \$ 101.3 | \$ 103.0 | \$ 108.3 |
| Net investment in operating leases (GAAP) | 25.1 | 26.8 | 27.2 | 26.7 |
| Total net receivables* | \$ 121.9 | \$ 128.1 | \$ 130.2 | \$ 135.0 |
| Unearned interest supplements and residual support | 4.5 | 5.0 | 5.3 | 5.6 |
| Allowance for credit losses | 0.4 | 0.5 | 0.5 | 0.6 |
| Other, primarily accumulated supplemental depreciation | 0.4 | 0.6 | 0.9 | 1.0 |
| Total managed receivables (Non-GAAP) | \$ 127.2 | \$ 134.2 | \$ 136.9 | \$ 142.2 |
| | | | | |

^{*} At December 31, 2015, June 30, 2016, December 31, 2016, and June 30, 2017, includes consumer receivables before allowance for credit losses of \$27.6 billion, \$30.8 billion, \$32.5 billion, and \$33.1 billion, respectively, and non-consumer receivables before allowance for credit losses of \$26.1 billion, \$25.7 billion, \$26.0 billion, and \$26.1 billion, respectively, that have been sold for legal purposes in securitization transactions but continue to be reported in our consolidated financial statements. In addition, at December 31, 2015, June 30, 2016, December 31, 2016, and June 30, 2017, includes net investment in operating leases before allowance for credit losses of \$13.3 billion, \$11.7 billion, \$11.8 billion, and \$11.0 billion, respectively, that have been included in securitization transactions but continue to be reported in our consolidated financial statements. The receivables and net investment in operating leases are available only for payment of the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions; they are not available to pay the other obligations or the claims of Ford Credit's other creditors. Ford Credit holds the right to receive the excess cash flows not needed to pay the debt issued by, and other obligations of, the securitization entities that are parties to those securitization transactions. For additional information on our securitization transactions, refer to the "Securitization Transactions" and "On-Balance Sheet Arrangements" sections of Item 7 of Exhibit 99 to our April 27, 2017 Form 8-K Report and Note 7 of our Notes to the Financial Statements for the period ended June 30, 2017.

Credit Risk

Credit risk is the possibility of loss from a customer's or dealer's failure to make payments according to contract terms. Credit losses are a normal part of a financing business, and credit risk has a significant impact on our business. We actively manage the credit risk of our consumer (retail financing and operating lease) and non-consumer (dealer financing) receivables to balance our level of risk and return using our consistent underwriting standards, effective proprietary scoring system (discussed below), and world-class servicing. The allowance for credit losses (also referred to as the credit loss reserve) represents our estimate of the probable credit losses inherent in our finance receivables and operating leases as of the balance sheet date. The allowance for credit losses is estimated using a combination of models and management judgment, and is based on such factors as historical loss performance, portfolio quality, and receivable levels. The adequacy of our allowance for credit losses is assessed quarterly and the assumptions and models used in establishing the allowance are evaluated regularly. A description of our allowance setting process is provided in the "Critical Accounting Estimates - Allowance for Credit Losses" section of Item 7 of Exhibit 99 to our April 27, 2017 Form 8-K Report.

Most of our charge-offs are related to retail finance and operating lease contracts. Charge-offs are affected by the number of vehicle repossessions, the unpaid balance outstanding at the time of repossession, the auction price of repossessed vehicles, and other charge-offs. We also incur credit losses on our dealer financing, but default rates for these receivables historically have been substantially lower than those for retail finance and operating lease contracts. For additional information on severity, refer to the "Critical Accounting Estimates - Allowance for Credit Losses" section of Item 7 of Exhibit 99 to our April 27, 2017 Form 8-K Report.

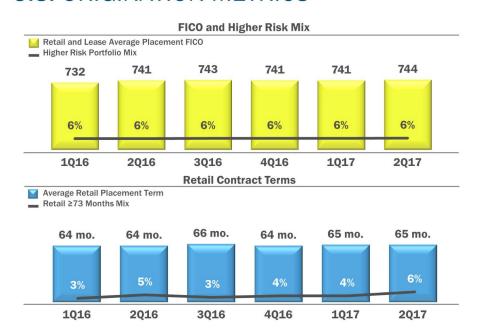

In purchasing retail finance and operating lease contracts, we use a proprietary scoring system that measures credit quality using information in the credit application, proposed contract terms, credit bureau data, and other information we obtain. After a proprietary risk score is generated, we decide whether to purchase a contract using a decision process based on a judgmental evaluation of the applicant, the credit application, the proposed contract terms, credit bureau information (e.g., FICO score), proprietary risk score, and other information. Our evaluation emphasizes the applicant's ability to pay and creditworthiness focusing on payment, affordability, applicant credit history, and stability as key considerations. While FICO is a part of our scoring system, our models enable us to more effectively determine the probability that a customer will pay than using credit scores alone. When we originate business, our models project expected losses and we price accordingly. We ensure the business fits our risk appetite. For additional information on the quality of our receivables, see Note 4 of our Notes to the Financial Statements.

U.S. Origination Metrics

We support customers across the credit spectrum. Our higher risk business, as classified at contract inception, consistently represents 5%-6% of our portfolio and has been stable for over 10 years.

The following charts show quarterly trends for FICO and higher risk mix and retail contract terms:

U.S. ORIGINATION METRICS

Disciplined and consistent underwriting practices for many years

Portfolio quality evidenced by FICO scores and steady risk mix

Extended-term contracts relatively small part of our business

The second guarter average placement FICO score remained consistent.

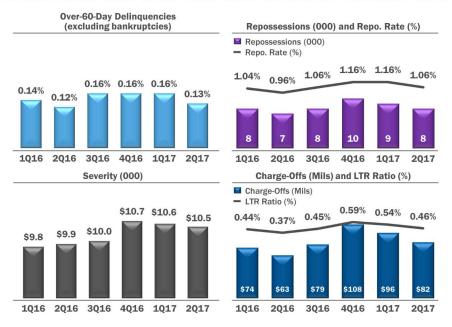

Our average retail term remains largely unchanged from the prior year, and retail contracts of 73 months and longer continued to be a relatively small part of our business. Ford Credit remains focused on managing the trade cycle – building customer relationships and loyalty while offering financing products and terms customers want.

Ford Credit's origination and risk management processes deliver robust portfolio performance.

U.S. Credit Losses

The following charts show the primary drivers of credit losses in the U.S. retail and lease business, which comprised 70% of our worldwide consumer portfolio at June 30, 2017. Loss-to-Receivables ("LTR") ratios are charge-offs on an annualized basis divided by average managed receivables.

U.S. RETAIL AND LEASE CREDIT LOSS DRIVERS

Delinquencies and repossessions remain low

Lower severity vs 1Q reflecting improved auction market

Charge-offs and LTR continue to be within our placement expectations

Credit losses have been at historically low levels for quite some time. We continue to see credit losses increase, but within our placement expectations.

Delinquencies and the repossession ratio were higher than the prior year but lower seasonally from first quarter and remain within our expectations.

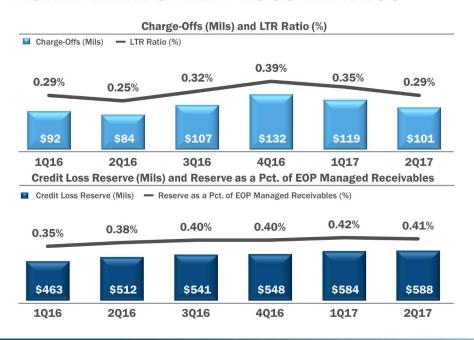

Severity has increased over the last number of years. This increase includes factors such as lower auction values, shorter average time to repossession, higher average amount financed, longer-term financing, and higher principal outstanding at repossession.

Charge-offs and the LTR ratio were higher than the prior year but seasonally lower than first quarter. Credit quality remains strong, reflecting a strong business environment and healthy consumer credit conditions.

Worldwide Credit Losses

The following charts show quarterly trends of charge-offs (credit losses, net of recoveries), LTR ratios, credit loss reserve, and our credit loss reserve as a percentage of end-of-period ("EOP") managed receivables:

WORLDWIDE CREDIT LOSS METRICS

Worldwide credit loss metrics remain strong

Credit loss reserve based on historical losses, portfolio quality and receivables level

YoY reserve growth reflects credit loss trends and growth in receivables

Our worldwide credit loss metrics remain strong. The worldwide LTR ratio is higher than the prior year, reflecting primarily the U.S. retail and lease business as covered above.

Our credit loss reserve is based on such factors as historical loss performance, portfolio quality, and receivable levels. The credit loss reserve was higher at June 30, 2017, compared to June 30, 2016, reflecting credit loss performance trends and growth in receivables.

The reserve as a percent of managed receivables was up from the second quarter of 2016.

Residual Risk

Leasing is an important product that many customers want and value. Lease customers also are more likely to buy or lease another Ford or Lincoln vehicle. Ford and Ford Credit manage lease share with an enterprise view to support sales, protect residual values, and manage the trade cycle. Our leasing strategy considers share, term, model mix, geography and other factors.

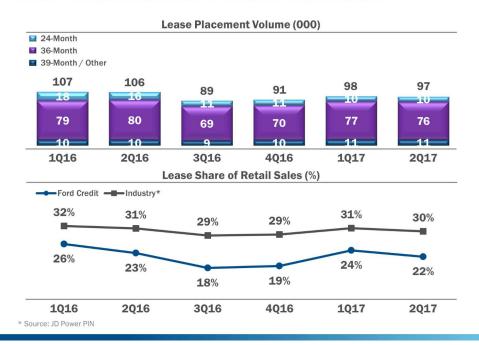

We are exposed to residual risk on operating leases and similar balloon payment products where the customer may return the financed vehicle to us. Residual risk is the possibility that the amount we obtain from returned vehicles will be less than our estimate of the expected residual value for the vehicle. We estimate the expected residual value by evaluating recent auction values, return volumes for our leased vehicles, industry-wide used vehicle prices, marketing incentive plans, and vehicle quality data. For operating leases, changes in expected residual values impact the depreciation expense, which is recognized on a straight-line basis over the life of the lease.

For additional information on our residual risk on operating leases, refer to the "Critical Accounting Estimates - Accumulated Depreciation on Vehicles Subject to Operating Leases" section of Item 7 of Exhibit 99 to our April 27, 2017 Form 8-K Report.

U.S. Ford- and Lincoln-Brand Operating Lease Experience

The following charts show lease placement volume and lease share of Ford- and Lincoln-brand retail sales for vehicles in the respective periods. The U.S. operating lease portfolio accounted for about 87% of our total net investment in operating leases at June 30, 2017.

U.S. LEASE ORIGINATION METRICS

Lease placement volume and share lower YoY

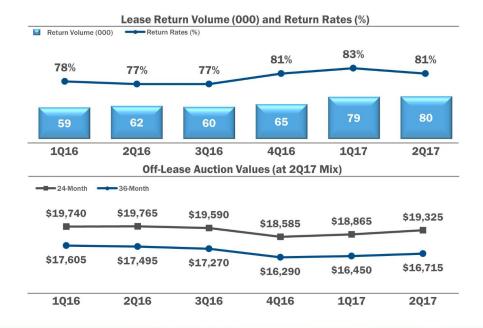

Lease share continues to be below industry reflecting Ford sales mix

Second quarter 2017 lease placement volume was down compared to the prior year, reflecting Ford's lower lease mix.

Industry lease share is down compared to a year ago. Ford Credit's second quarter 2017 lease share was lower compared to the prior year and remains below the industry, reflecting the Ford sales mix.

The following charts show lease return volumes, return rates, and off-lease auction values at constant second quarter 2017 vehicle mix in the respective periods:

U.S. LEASE RESIDUAL PERFORMANCE

Return rates higher YoY reflecting lower used vehicle values

Return volumes higher reflecting growth in leasing and higher return rates

2Q auction values were higher than 1Q17 and lower YoY; better than expectations

Lease return volume in the second quarter was up from the prior year, reflecting higher lease placements in recent years and an increased return rate. We are encouraged by the relative strength of the used vehicle market given the increase in off-lease volume; however, we continue to plan for three-year full year auction values to be down about 6% at constant mix.

Our off-lease auction values in the second quarter of 2017 were lower than a year ago, consistent with the industry and higher than the prior quarter.

Credit Ratings

Our short-term and long-term debt is rated by four credit rating agencies designated as nationally recognized statistical rating organizations ("NRSROs") by the U.S. Securities and Exchange Commission:

- DBRS Limited ("DBRS");
- Fitch, Inc. ("Fitch");
- Moody's Investors Service, Inc. ("Moody's"); and
- Standard & Poor's Ratings Services, a division of McGraw Hill Financial ("S&P").

In several markets, locally recognized rating agencies also rate us. A credit rating reflects an assessment by the rating agency of the credit risk associated with a corporate entity or particular securities issued by that entity. Rating agencies' ratings of us are based on information provided by us and other sources. Credit ratings assigned to us from all of the NRSROs are closely associated with their opinions on Ford. Credit ratings are not recommendations to buy, sell, or hold securities and are subject to revision or withdrawal at any time by the assigning rating agency. Each rating agency may have different criteria for evaluating company risk and, therefore, ratings should be evaluated independently for each rating agency.

There have been no rating actions taken by these NRSROs since the filing of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017.

The following chart summarizes certain of the credit ratings and outlook presently assigned by these four NRSROs:

| | | NRSRO RATINGS | | | | | |
|---------|----------------------------------|--------------------------|-----------------|--|--|--|--|
| | | Ford Credit | | | | | |
| | Long-Term Senior Unsecured | Short -Term Unsecured | Outlook / Trend | Minimum Long-Term Investment Grade Rating | | | |
| DBRS | BBB | R-2M | Stable | BBB (low) | | | |
| Fitch | BBB | F2 | Stable | BBB- | | | |
| Moody's | Baa2 | P-2 | Stable | Baa3 | | | |
| S&P | BBB | A-2 | Stable | BBB- | | | |

Funding and Liquidity

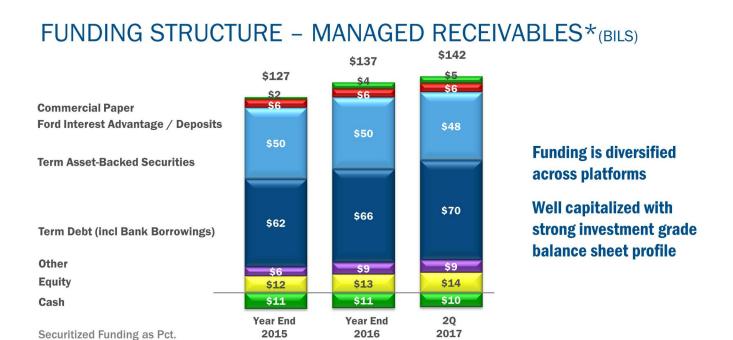

Our primary funding and liquidity objective is to be well capitalized with a strong investment grade balance sheet and ample liquidity to support our financing activities and growth under a variety of market conditions, including short-term and long-term market disruptions.

Our funding strategy remains focused on diversification, and we plan to continue accessing a variety of markets, channels, and investors.

Our liquidity profile continues to be diverse, robust, and focused on maintaining liquidity levels that meet our business and funding requirements. We annually stress test our balance sheet and liquidity to ensure that we continue to meet our financial obligations through economic cycles.

Funding Portfolio

The following chart shows the trends in funding for our managed receivables:

* Reconciliation to GAAP provided in the Financial Condition section

of Managed Receivables

Managed receivables of \$142 billion as of June 30, 2017, were funded primarily with term debt and term asset-backed securities. Securitized funding as a percent of managed receivables was 34%.

37%

34%

39%

We expect the mix of securitized funding to remain around 35%. The calendarization of the funding plan will result in quarterly fluctuations of the securitized funding percentage.

In April 2017, FCE launched retail deposits in the UK backed by the UK Financial Service Compensation Scheme (FSCS), which further diversify its funding. As of June 30, 2017, retail deposits represented about \$100 million of funding.

Public Term Funding Plan

The following chart shows our issuances for full year 2015 and 2016, planned issuances for full year 2017, and our global public term funding issuances through July 25, 2017, excluding short-term funding programs:

PUBLIC TERM FUNDING PLAN* (BILS)

| | | | | | | | | |
| Total Public | \$ | 30 | \$ | 28 | \$ | 26 - 31 | \$ | 17 |
| | | | | | | | | |

Issuance plans consistent with prior years

Issuance remains diversified across platforms and markets

For 2017, our full year forecast for public term funding is in the range of \$26 billion to \$31 billion. Through July 25, 2017, we have completed over \$17 billion of public term issuance.

^{*} Numbers may not sum due to rounding

Liquidity Sources

We define gross liquidity as cash, cash equivalents, and marketable securities (excluding amounts related to insurance activities) and committed capacity (which includes our credit and asset-backed facilities and bank lines), less utilization of liquidity. Utilization of liquidity is the amount funded under our liquidity sources and also includes the cash and cash equivalents required to support securitization transactions. Securitization cash is cash held for the benefit of the securitization investors (for example, a reserve fund). Net liquidity available for use is defined as gross liquidity less certain adjustments for asset-backed capacity in excess of eligible receivables and cash related to the Ford Credit Revolving Extended Variable-utilization program ("FordREV"), which can be accessed through future sales of receivables. While not included in available liquidity, these adjustments represent additional funding sources for future originations.

The following chart shows our liquidity sources and utilization:

LIQUIDITY SOURCES

| | 2 | 2016 | 2 | 2016 | 2 | 2017 | 2 | 2017 | |
|---|----|--------|----|--------|----|--------|----|--------|----------------|

| Committed ABS facilities | | 36.0 | | 34.6 | | 34.8 | | 32.3 | Committed |
| Other unsecured credit facilities | | 2.7 | | 2.5 | | 2.6 | | 2.7 | Capacity |
| Ford corporate credit facility allocation | | 3.0 | | 3.0 | | 3.0 | | 3.0 | \$38.0 Billion |
| Total Liquidity Sources | \$ | 53.3 | \$ | 50.9 | \$ | 51.7 | \$ | 48.1 | |
| Utilization of Liquidity | | | | | | | | | |
| Securitization cash | \$ | (2.7) | \$ | (3.4) | \$ | (3.0) | \$ | (2.9) | |
| Committed ABS facilities | | (16.2) | | (19.9) | | (18.4) | | (16.4) | |
| Other unsecured credit facilities | | (0.7) | | (0.7) | | (1.3) | | (0.5) | |
| Ford corporate credit facility allocation | | - | | - | | - | | - | |
| Total Utilization of Liquidity | \$ | (19.6) | \$ | (24.0) | \$ | (22.7) | \$ | (19.8) | |
| Gross liquidity | \$ | 33.7 | \$ | 26.9 | \$ | 29.0 | \$ | 28.3 | |
| Adjustments | | 0.1 | | 0.1 | | 0.3 | | 0.2 | |
| Net Liquidity Available For Use | \$ | 33.8 | \$ | 27.0 | \$ | 29.3 | \$ | 28.5 | |

Our liquidity available for use will fluctuate quarterly based on factors including near-term debt maturities, receivable growth, and timing of funding transactions. We target liquidity of at least \$25 billion. At June 30, 2017, Ford Credit's liquidity available for use was up \$1.5 billion higher than at year-end 2016 and \$0.8 billion lower than at March 31, 2017.

As of June 30, 2017, our liquidity remained strong at \$28.5 billion. Our sources of liquidity include cash, committed asset-backed facilities, unsecured credit facilities, and the Ford corporate credit facility allocation. As of June 30, 2017 our liquidity sources including cash totaled \$48.1 billion, down \$2.8 billion from year-end 2016.

Cash, Cash Equivalents, and Marketable Securities. At June 30, 2017, our cash, cash equivalents, and marketable securities (excluding amounts related to insurance activities) totaled \$10.1 billion, compared with \$10.8 billion at year-end 2016. In the normal course of our funding activities, we may generate more proceeds than are required for our immediate funding needs. These excess amounts are held primarily in highly liquid investments, which provide liquidity for our anticipated and unanticipated cash needs and give us flexibility in the use of our other funding programs. Our cash, cash equivalents, and marketable securities (excluding amounts related to insurance activities) primarily include U.S. Department of Treasury obligations, federal agency securities, bank time deposits with investment-grade institutions, commercial paper rated A-1/P-1 or higher, debt obligations of a select group of non-U.S. governments, non-U.S. governments, non-U.S. governmental agencies, supranational institutions, non-U.S. central banks, and money market funds that carry the highest possible ratings.

The average maturity of these investments ranges from approximately three to six months and is adjusted based on market conditions and liquidity needs. We monitor our cash levels and average maturity on a daily basis. Cash, cash equivalents, and marketable securities included amounts to be used only to support our securitization transactions of \$2.9 billion and \$3.4 billion at June 30, 2017 and December 31, 2016, respectively.

Committed Capacity. At June 30, 2017, our committed capacity totaled \$38.0 billion, down \$2.1 billion from December 31, 2016. Our committed capacity is primarily comprised of committed asset-backed security ("ABS") facilities from bank-sponsored commercial paper conduits and other financial institutions, unsecured credit facilities with financial institutions, and allocated commitments under the Ford corporate credit facility.

Committed Asset-Backed Facilities. We and our subsidiaries have entered into agreements with a number of bank-sponsored asset-backed commercial paper conduits and other financial institutions. Such counterparties are contractually committed, at our option, to purchase from us eligible retail receivables or to purchase or make advances under asset-backed securities backed by retail or wholesale finance receivables or operating leases for proceeds of up to \$32.3 billion (\$15.9 billion of retail financing, \$6.2 billion of wholesale financing, and \$10.2 billion of operating leases) at June 30, 2017. These committed facilities have varying maturity dates, with \$20.9 billion having maturities within the next twelve months and the remaining balance having maturities through 2019. We plan capacity renewals to protect our global funding needs, optimize capacity utilization, and maintain sufficient liquidity.

Our ability to obtain funding under these facilities is subject to having a sufficient amount of eligible assets as well as our ability to obtain interest rate hedging arrangements for certain facilities. At June 30, 2017, \$16.4 billion of these commitments were in use. These programs are free of material adverse change clauses, restrictive financial covenants (for example, debt-to-equity limitations and minimum net worth requirements), and generally, credit rating triggers that could limit our ability to obtain funding. However, the unused portion of these commitments may be terminated if the performance of the underlying assets deteriorates beyond specified levels. Based on our experience and knowledge as servicer of the related assets, we do not expect any of these programs to be terminated due to such events.

FCE has pre-positioned retail receivables with the Bank of England which supports access to the Discount Window Facility. Pre-positioned assets are neither pledged to nor held as collateral by the Bank of England unless the Discount Window Facility is accessed. FCE's eligibility to access the Discount Window Facility is not reflected in the Liquidity Sources table above.

Unsecured Credit Facilities. At June 30, 2017, we and our majority-owned subsidiaries had \$5.7 billion of contractually committed unsecured credit facilities with financial institutions, including the FCE Credit Agreement (as defined below) and the allocation under Ford's corporate credit facility. At June 30, 2017, \$5.2 billion was available for use.

Effective June 23, 2017, FCE amended its syndicated credit facility (the "FCE Credit Agreement") and extended the maturity date from October 25, 2019 to October 23, 2020 with total commitments of £945 million (equivalent to \$1.2 billion at June 30, 2017). The FCE Credit Agreement contains certain covenants, including an obligation for FCE to maintain its ratio of regulatory capital to risk-weighted assets at no less than the applicable regulatory minimum, and for the support agreement between FCE and Ford Credit to remain in full force and effect (and enforced by FCE to ensure that its net worth is maintained at no less than \$500 million).

Lenders under the Ford corporate credit facility have commitments totaling \$13.4 billion, with 75% of the commitments maturing on April 30, 2022 and 25% of the commitments maturing on April 30, 2020. Ford has allocated \$3.0 billion of commitments, including commitments under a Chinese renminbi sub-facility, to us on an irrevocable and exclusive basis to support our growth and liquidity. At June 30, 2017, all \$3.0 billion was available for use.

Funding and Liquidity Risks

Refer to the "Funding and Liquidity" section of Item 7 of Exhibit 99 to our April 27, 2017 Form 8-K Report for a list of factors that could affect our liquidity and information on our stress testing.

Leverage

We use leverage, or the debt-to-equity ratio, to make various business decisions, including evaluating and establishing pricing for finance receivable and operating lease financing, and assessing our capital structure. We refer to our shareholder's interest as equity.

The following chart shows the calculation of our financial statement leverage and managed leverage (in billions, except for ratios):

LEVERAGE

| (Bils) | 2016 | 2016 | 2017 | 2017 |
|--|----------|----------|----------|----------|
| | Jun 30 | Dec 31 | Mar 31 | Jun 30 |
| Leverage Calculation | | | | |
| Total debt | \$ 126.3 | \$ 126.5 | \$ 129.2 | \$ 129.3 |
| Adjustments for cash | (11.6) | (10.8) | (11.3) | (10.1) |
| Adjustments for derivative accounting | (1.3) | (0.3) | (0.2) | (0.2) |
| Total adjusted debt | \$ 113.4 | \$ 115.4 | \$ 117.7 | \$ 119.0 |
| | | | | |
| Equity | \$ 12.4 | \$ 12.8 | \$ 13.2 | \$ 13.8 |
| Adjustments for derivative accounting | (0.4) | (0.3) | (0.3) | (0.2) |
| Total adjusted equity | \$ 12.0 | \$ 12.5 | \$ 12.9 | \$ 13.6 |
| | | | | |
| Financial statement leverage (to 1) (GAAP) | 10.2 | 9.9 | 9.8 | 9.3 |
| Managed leverage (to 1) (Non-GAAP) | 9.4 | 9.2 | 9.1 | 8.8 |

We plan our managed leverage by considering prevailing market conditions and the risk characteristics of our business. At June 30, 2017, financial statement leverage was 9.3:1, and managed leverage was 8.8:1. We target managed leverage in the range of 8:1 to 9:1. For information on our planned distributions, refer to the "Outlook" section.

Outlook

2017 GUIDANCE (MILS)

| | 2016 FY | 2017 | Memo: | | |
|----------------|---------|---|----------|-----|---------------|
| | Results | Plan | Outlook | | 7 1H sults |
| Pre-Tax Profit | \$1,879 | About \$1,500 | Higher | \$1 | ,100 |
| Distributions | \$ - | Resuming with leverage in target range | On track | \$ | 28 |

For the remainder of 2017, we continue to plan for lower auction values; however, our outlook for full year supplemental depreciation has improved, reflecting the latest third party valuations. Our full year pre-tax profit is now expected to be higher than \$1.5 billion, reflecting an improved lease residual outlook, along with higher volume, financing margin, and a strong cost focus. Our pre-tax profit in the second half of 2017 is expected to be lower than in the first half of the year due to seasonally higher credit losses and operating costs, along with adverse lease residual performance.

In addition, we are reassessing 2018 guidance and we will provide more information at a future date.

Distributions to our parent are resuming in 2017, as managed leverage returns to the target range.

Risk Factors

Statements included or incorporated by reference herein may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on expectations, forecasts, and assumptions by our management and involve a number of risks, uncertainties, and other factors that could cause actual results to differ materially from those stated, including, without limitation:

- Decline in industry sales volume, particularly in the United States, Europe, or China, due to financial crisis, recession, geopolitical events, or other factors;
- Lower-than-anticipated market acceptance of Ford's new or existing products or services, or failure to achieve expected growth;
- Market shift away from sales of larger, more profitable vehicles beyond Ford's current planning assumption, particularly in the United States;
- Continued or increased price competition resulting from industry excess capacity, currency fluctuations, or other factors;
- Fluctuations in foreign currency exchange rates, commodity prices, and interest rates;
- Adverse effects resulting from economic, geopolitical, protectionist trade policies, or other events;
- Work stoppages at Ford or supplier facilities or other limitations on production (whether as a result of labor disputes, natural or man-made disasters, tight credit markets or other financial distress, production constraints or difficulties, or other factors);
- · Single-source supply of components or materials;
- · Labor or other constraints on Ford's ability to maintain competitive cost structure;
- Substantial pension and other postretirement liabilities impairing liquidity or financial condition;
- Worse-than-assumed economic and demographic experience for pension and other postretirement benefit plans (e.g., discount rates or investment returns);
- Restriction on use of tax attributes from tax law "ownership change;"
- The discovery of defects in vehicles resulting in delays in new model launches, recall campaigns, or increased warranty costs;
- Increased safety, emissions, fuel economy, or other regulations resulting in higher costs, cash expenditures, and/or sales restrictions;
- Unusual or significant litigation, governmental investigations, or adverse publicity arising out of alleged defects in products, perceived environmental impacts, or otherwise;
- Adverse effects on results from a decrease in or cessation or clawback of government incentives related to investments;
- Cybersecurity risks to operational systems, security systems, or infrastructure owned by Ford, Ford Credit, or a thirdparty vendor or supplier;
- · Failure of financial institutions to fulfill commitments under committed credit and liquidity facilities;
- Inability of Ford Credit to access debt, securitization, or derivative markets around the world at competitive rates or in sufficient amounts, due to credit rating downgrades, market volatility, market disruption, regulatory requirements, or other factors;
- Higher-than-expected credit losses, lower-than-anticipated residual values, or higher-than-expected return volumes for leased vehicles;
- Increased competition from banks, financial institutions, or other third parties seeking to increase their share of financing Ford vehicles; and
- New or increased credit regulations, consumer or data protection regulations, or other regulations resulting in higher costs and/or additional financing restrictions.

We cannot be certain that any expectation, forecast, or assumption made in preparing forward-looking statements will prove accurate, or that any projection will be realized. It is to be expected that there may be differences between projected and actual results. Our forward-looking statements speak only as of the date of their initial issuance, and we do not undertake any obligation to update or revise publicly any forward-looking statement, whether as a result of new information, future events, or otherwise. For additional discussion, see "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 ("2016 Form 10-K Report"), as updated by our subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Accounting Standards Issued But Not Yet Adopted

The Financial Accounting Standards Board ("FASB") has issued the following standards, which are not expected to have a material impact (with the exception of standards 2016-02 and 2016-13) to our financial statements or financial statement disclosures:

| Standard | | Effective Date (a) |
|----------|---|---------------------|
| 2016-18 | Statement of Cash Flows - Restricted Cash | January 1, 2018 |
| 2016-16 | Income Taxes - Intra-Entity Transfers of Assets Other Than Inventory | January 1, 2018 |
| 2016-15 | Statement of Cash Flows - Classification of Certain Cash Receipts and Cash Payments | January 1, 2018 |
| 2016-01 | Financial Instruments - Recognition and Measurement of Financial Assets and Financial Liabilities | January 1, 2018 |
| 2017-08 | Nonrefundable Fees and Other Costs - Premium Amortization on Purchased Callable Debt Securities | January 1, 2019 |
| 2016-02 | Leases | January 1, 2019 (b) |
| 2016-13 | Credit Losses - Measurement of Credit Losses on Financial Instruments | January 1, 2020 (b) |
| | | |

⁽a) Early adoption for each of the standards, except standard 2016-01, is permitted.

Other Financial Information

The interim financial information included in this Quarterly Report on Form 10-Q for the periods ended June 30, 2017 and 2016 has not been audited by PricewaterhouseCoopers LLP ("PwC"). In reviewing such information, PwC has applied limited procedures in accordance with professional standards for reviews of interim financial information. Readers should restrict reliance on PwC's reports on such information accordingly. PwC is not subject to the liability provisions of Section 11 of the Securities Act of 1933 for its reports on interim financial information, because such reports do not constitute "reports" or "parts" of registration statements prepared or certified by PwC within the meaning of Sections 7 and 11 of the Securities Act of 1933.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk.

In our 2016 Form 10-K Report, we discuss in greater detail our market risk, counterparty risk, credit risk, residual risk, liquidity risk, and operating risk.

To provide a quantitative measure of the sensitivity of our pre-tax cash flow to changes in interest rates, we use interest rate scenarios that assume a hypothetical, instantaneous increase or decrease of one percentage point in all interest rates across all maturities (a "parallel shift"), as well as a base case that assumes that all interest rates remain constant at existing levels. The differences in pre-tax cash flow between these scenarios and the base case over a twelve-month period represent an estimate of the sensitivity of our pre-tax cash flow. Under this model, we estimate that at June 30, 2017, all else constant, such an increase in interest rates would increase our pre-tax cash flow by \$5 million over the next 12 months, compared with an increase of \$21 million at December 31, 2016. In reality, interest rate changes are rarely instantaneous or parallel and rates could move more or less than the one percentage point assumed in our analysis. As a result, the actual impact to pre-tax cash flow could be higher or lower than the results detailed above.

⁽b) For additional information, see Note 2 of our Notes to the Financial Statements.

ITEM 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures. N. Joy Falotico, our Chairman of the Board and Chief Executive Officer ("CEO"), and Marion B. Harris, our Chief Financial Officer ("CFO") and Treasurer, have performed an evaluation of the Company's disclosure controls and procedures, as that term is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended ("Exchange Act"), as of June 30, 2017, and each has concluded that such disclosure controls and procedures are effective to ensure that information required to be disclosed in our periodic reports filed under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by SEC rules and forms, and that such information is accumulated and communicated to the CEO and CFO to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting. There were no changes in internal control over financial reporting during the quarter ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings.

Ford Motor Credit Company v. Sudesh Agrawal. On January 18, 2011, a state trial court judge in Cuyahoga County, Ohio certified a nationwide class action with an Ohio subclass in a counterclaim arising out of a collection action. Class claimants allege breach of contract, fraud, and statutory violations for Ford Credit's lease-end wear and use charges. Class claimants allege that the standard applied by Ford Credit in determining the condition of vehicles at lease-end is different than the standard set forth in claimants' leases. The Court of Appeals of Ohio, Eighth Appellate District, affirmed nationwide class certification and certification of an Ohio subclass. We appealed, and on December 17, 2013, the Supreme Court of Ohio reversed the Court of Appeals and remanded the case for further proceedings. On March 13, 2014, the Court of Appeals reversed the trial court order certifying the classes and remanded the case for further proceedings. On September 28, 2015, the trial court re-certified a nationwide class action with an Ohio subclass. We appealed, and on September 22, 2016, the Court of Appeals reversed the trial court order certifying the classes and remanded the case for further proceedings. On April 24, 2017, the claimant filed an appeal to the Supreme Court of Ohio. On May 23, 2017, we filed a response.

ITEM 5. Other Information.

None.

ITEM 6. Exhibits.

Exhibits: please refer to the Exhibit Index on page 54.

Instruments defining the rights of holders of certain issues of long-term debt of Ford Credit have not been filed as exhibits to this Report because the authorized principal amount of any one of such issues does not exceed 10% of the total assets of Ford Credit. Ford Credit will furnish a copy of each such instrument to the SEC upon request.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, Ford Motor Credit Company LLC has duly caused this Report to be signed on its behalf by the undersigned thereunto duly authorized.

Re: Ford Motor Credit Company LLC Registration Statement Nos. 333-202789 and 333-217690 on Form S-3

Commissioners:

We are aware that our report dated July 26, 2017 on our review of interim financial information of Ford Motor Credit Company LLC (the "Company") for the three-month and six-month periods ended June 30, 2017 and 2016 and included in the Company's quarterly report on Form 10-Q for the quarter ended June 30, 2017 is incorporated by reference in the aforementioned Registration Statements.

Very truly yours,

/s/ PricewaterhouseCoopers LLP

PricewaterhouseCoopers LLP Detroit, Michigan

CERTIFICATION

I, N. Joy Falotico, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended June 30, 2017 of Ford Motor Credit Company LLC;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
