Forward-Looking Statements

This report on Form 10–Q contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created by those laws. We have based our forward-looking statements on our current expectations and projections about future events. Our forward-looking statements include information about possible or assumed future results of our operations. All statements, other than statements of historical facts, included or incorporated by reference in this report that address activities, events or developments that we expect or anticipate may occur in the future, including such things as the growth of our business and operations, our business strategy, competitive strengths, goals, plans, future capital expenditures and references to future successes may be considered forward-looking statements. Also, when we use words such as "anticipate," "believe," "estimate," "expect," "intend," "plan," "probably" or similar expressions, we are making forward-looking statements.

Numerous risks and uncertainties may impact the matters addressed by our forward-looking statements, any of which could negatively and materially affect our future financial results and performance. We describe some of these risks and uncertainties in greater detail in Item 1A, <u>Risk Factors</u>, of IHC's annual report on Form 10-K as filed with Securities and Exchange Commission.

Although we believe that the assumptions underlying our forward-looking statements are reasonable, any of these assumptions, and, therefore, also the forward-looking statements based on these assumptions, could themselves prove to be inaccurate. In light of the significant uncertainties inherent in the forward-looking statements that are included in this report, our inclusion of this information is not a representation by us or any other person that our objectives and plans will be achieved. Our forward-looking statements speak only as of the date made, and we will not update these forward-looking statements unless the securities laws require us to do so. In light of these risks, uncertainties and assumptions, any forward-looking event discussed in this report may not occur.

INDEPENDENCE HOLDING COMPANY AND SUBSIDIARIES Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1. Organization, Consolidation, Basis of Presentation and Accounting Policies

(A) Business and Organization

Independence Holding Company, a Delaware corporation ("IHC"), is a holding company principally engaged in the life and health insurance business through: (i) its insurance companies, Standard Security Life Insurance Company of New York ("Standard Security Life"), Madison National Life Insurance Company, Inc. ("Madison National Life"), and Independence American Insurance Company ("Independence American"); and (ii) its marketing and administrative companies, including IHC Specialty Benefits Inc., IHC Carrier Solutions, Inc. and a majority interest in PetPartners, Inc. IHC also owns a significant equity interest in Ebix Health Exchange Holdings, LLC ("Ebix Health Exchange"), an administration exchange for health insurance. Standard Security Life, Madison National Life and Independence American are sometimes collectively referred to as the "Insurance Group". IHC and its subsidiaries (including the Insurance Group) are sometimes collectively referred to as the "Company", or "IHC", or are implicit in the terms "we", "us" and "our".

Geneve Corporation, a diversified financial holding company, and its affiliated entities, held approximately 61% of IHC's outstanding common stock at September 30, 2017.

(B) Consolidation

On August 31, 2016, IHC took AMIC Holdings, Inc. ("AMIC") private by way of a statutory "short-form" merger. The company paid \$18,141,000 for the remaining shares of AMIC common stock owned by noncontrolling interests and as a result, the Company now owns all of the outstanding common stock of AMIC. In connection with the transaction, \$2,230,000 was charged to paid-in capital representing: (i) the difference between the fair value of the consideration paid for the shares and the carrying amount of noncontrolling interests; plus (ii) specific, direct costs of the transaction.

(C) Basis of Presentation

The unaudited Condensed Consolidated Financial Statements have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") for interim financial statements and with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The unaudited Condensed Consolidated Financial Statements include the accounts of IHC and its consolidated subsidiaries. All significant intercompany transactions have been eliminated in consolidation. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect: (i) the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements; and (ii) the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. IHC's annual report on Form 10-K as filed with the Securities and Exchange Commission should be read in conjunction with the accompanying unaudited Condensed Consolidated Financial Statements.

In the opinion of management, all adjustments (consisting only of normal recurring accruals) that are necessary for a fair presentation of the consolidated financial position and results of operations for the interim periods have been included. The condensed consolidated results of operations for the three months and nine months ended September 30, 2017 are not necessarily indicative of the results to be anticipated for the entire year.

(D) Recent Accounting Pronouncements

Recently Adopted Accounting Standards

In October 2016, the Financial Accounting Standards Board ("FASB") issued guidance that amends the consolidation analysis for a reporting entity that is the single decision maker of a variable interest entity. The amendments in this guidance require the decision maker's evaluation of its interests held through related parties that are under common control on a proportionate basis rather than in their entirety when determining whether it is the primary beneficiary of that variable interest entity. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

In March 2016, the FASB issued guidance that simplify several aspects of accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification in the statement of cash flows. New guidance related to the classifications in the statement of cash flows were applied on a prospective transition basis. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

In March 2016, the FASB issued guidance that eliminates the requirement for retroactive adjustments on the date that a previously held investment qualifies for the equity method of accounting as a result of an increase in ownership interest or degree of influence. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

Recently Issued Accounting Standards Not Yet Adopted

In May 2017, the FASB issued guidance to provide clarity and reduce both (i) diversity in practice; and (ii) cost and complexity when accounting for a change in the terms or conditions of a share-based payment award. The amendments in this guidance should be applied prospectively in annual periods beginning after December 15, 2017, including interim periods within those periods, with early adoption permitted. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In March 2017, the FASB issued guidance requiring premium amortization on callable debt securities to be amortized to the earliest call date to more closely align the amortization period with expectations incorporated in market pricing of the underlying securities. The amendments in this guidance should be applied using a modified retrospective approach for annual periods beginning after December 15, 2018, including interim periods within those periods. Additional disclosures are required in the period of adoption. Early adoption is permitted. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In February 2017, the FASB issued guidance to simplify the accounting for sales of nonfinancial assets by clarifying the definition of nonfinancial assets and adding guidance pertaining to partial sales of nonfinancial assets. The amendments in this guidance can be applied using either a retrospective approach or a modified retrospective approach in annual periods beginning after December 15, 2017, including interim periods within those periods. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In January 2017, the FASB issued guidance to simplify the test for goodwill impairment by eliminating Step 2 in the goodwill impairment test. Instead, under the amendments in this Update, an entity should perform its annual or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. Additionally, an entity should consider income tax effects from any tax-deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable. The amendments in this guidance are effective for public business entities for annual, or any interim, goodwill impairment tests in fiscal years beginning after December 15, 2019. The adoption of this

guidance is not expected to have a material effect on the Company's consolidated financial statements.

In January 2017, the FASB issued guidance that clarifies the definition of a business to assist entities with evaluating when a set of transferred assets and activities is a business. The amendments in this guidance should be applied prospectively in annual periods beginning after December 15, 2017, including interim periods within those periods, with early adoption permitted. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In November 2016, the FASB issued guidance requiring entities to show the changes in the total cash, cash equivalents, restricted cash and restricted cash equivalent in the statement of cash flows. The amendments in this guidance should be applied retrospectively and is effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In October 2016, the FASB issued guidance requiring an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. The amendments in this guidance should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption and are effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In August 2016, the FASB issued guidance that changes how certain cash receipts and cash payments are presented and classified in the cash flows statement. The amendments in this Update are effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In June 2016, the FASB issued guidance requiring financial assets measured at amortized cost basis to be presented at the net amount expected to be collected. An allowance for credit losses will be deducted from the amortized cost basis to present the net carrying value at the amount expected to be collected with changes in the allowance recorded in earnings. Credit losses relating to available-for-sale debt securities will also be recorded through an allowance for credit losses rather than the currently applied U.S. GAAP method of taking a permanent impairment of the security, which would be limited to the amount by which fair value is below the amortized cost. Certain existing requirements used to evaluate credit losses have been removed. For public entities that are SEC filers, the amendments in this Update are effective for fiscal years beginning after December 15, 2019, including interim periods within those years. Early adoption is permitted for fiscal years beginning after December 15, 2018. The amendments in this guidance should be applied through a cumulative effect adjustment to retained earnings upon adoption as of the beginning of the first reporting period in which the guidance is effective. Management is evaluating the requirements and potential impact that the adoption of this guidance will have on the Company's consolidated financial statements.

In February 2016, the FASB issued guidance that requires lessees to recognize the assets and liabilities that arise from leases, including operating leases, on the statement of financial position. The amendments in this guidance are effective for fiscal years beginning after December 31, 2018, including interim periods within those fiscal years, using a modified retrospective approach. The adoption of this guidance is not expected to have a material effect on the Company's consolidated financial statements.

In January 2016, the FASB issued guidance that eliminates the requirement to classify equity securities with readily determinable fair values as trading or available-for-sale. The guidance requires equity securities, other than those that result in consolidation or are accounted for under the equity method, (including other ownership interests, such as partnerships, unincorporated joint ventures, and limited liability companies) to be measured at fair value with changes in the fair value recognized through net income, simplifies the impairment

assessment of equity securities without readily determinable fair values and requires changes in disclosure requirements. For public entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted in certain circumstances. The amendments in this Update should be applied by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. The amendments related to equity securities without readily determinable fair values (including disclosure requirements) should be applied prospectively to equity investments that exist as of the date of adoption of the guidance. The adoption of this guidance is not expected to have a material effect on the Company's Consolidated Balance Sheet or IHC's stockholders' equity.

In May 2014, the FASB issued revenue recognition guidance for entities that either enter into contracts with customers to transfer goods or services or enter into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards such as insurance contracts or lease contracts. The amendment provides specific steps that an entity should apply in order to achieve its main objective which is recognizing revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In 2016, additional guidance and technical corrections were issued to clarify certain aspects of the implementation guidance and to clarify the identification of performance obligations. In August 2015, the effective date of this guidance has been deferred. For public entities, this guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, and requires one of two specified retrospective methods of application. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company anticipates that any impact will only relate to contracts with customers outside the scope of Accounting Standards Codification Topic 944, Financial Services - Insurance. Our administrative and other service contracts that will be subject to the amendments in this Update are recorded in the Fee Income line item of the Condensed Consolidated Statement of Income and represent approximately 5% of our consolidated revenues for the nine months ended September 30, 2017. The guidance will be applied retrospectively with a cumulative effect adjustment on the date of initial application. Management is still in the process of evaluating the impact that the adoption of this guidance will have on the Company's consolidated financial statements and does not anticipate any significant changes in internal controls over financial reporting as a result of its implementation.

Note 2. Income Per Common Share

Diluted income per share was computed using the treasury stock method and includes incremental common shares, primarily from the dilutive effect of share-based payment awards, amounting to 309,000 and 288,000 shares for the three months and nine months ended September 30, 2017, respectively, and 220,000 and 213,000 shares for the three months and nine months ended September 30, 2016, respectively.

The following is a reconciliation of income available to common shareholders used to calculate income per share for the periods indicated (in thousands):

	_	Three M Sept	Ionth:		_	Nine Mo Septe		
	_	2017		2016		2017		2016
Income from continuing operations, net of tax	\$	5,213	\$	4,366	\$	24,529	\$	14,757

Note 3. Discontinued Operations

On March 31, 2016, IHC and a subsidiary of AMIC, sold the stock of IHC Risk Solutions, LLC ("Risk Solutions") to Swiss Re Corporate Solutions, a division of Swiss Re ("Swiss Re"). In addition, under the purchase and sale agreement, all of the in-force stop-loss business of Standard Security Life and Independence American produced by Risk Solutions is co-insured by Westport Insurance Corporation ("Westport"), Swiss Re's largest US carrier, as of January 1, 2016. The aggregate purchase price, prior to closing adjustments, was \$152,500,000 in cash. Approximately 89% of the purchase price was allocated to AMIC, with the balance being paid to Standard Security Life and other IHC subsidiaries. The Company recorded a gain of \$99,934,000, net of taxes and amounts attributable to noncontrolling interests, as a result of the transaction. The aforementioned transaction, which includes the sale of Risk Solutions and the corresponding coinsurance agreement, is collectively referred to as the "Risk Solutions Sale and Coinsurance Transaction". IHC's block of Medical Stop-Loss business is in run-off. The sale of Risk Solutions and exit from the medical stop-loss business represented a strategic shift that has had a major effect on the Company's operations and financial results. The disposal transaction qualified for reporting as a discontinued operation in the first quarter of 2016 as a result of the Board of Directors commitment to a plan for its disposal in January 2016. Aside from reinsurance and marketing of Westport small group stop-loss, there has been no further involvement with the discontinued operation.

The following is a reconciliation of the major line items constituting the pretax profit of discontinued operations included in the Condensed Consolidated Statement of Income for the periods indicated (in thousands):

	Three Months Ended		Nine Months Ended				
	September 30,	September 30,					
	2016		2016				
Revenue	\$ =	\$	6,406				
Selling, general and administrative expenses	-		5,689				
Pretax profit of discontinued operations	-		717				
Gain on disposal of discontinued operations, pretax	-		116,919				
Income from discontinued operations, before income taxes	-		117,636				
Income taxes (benefits) on discontinued operations	-		7,724				
•							
Income from discontinued operations	\$ -	\$	109,912				

Liabilities attributable to discontinued operations at September 30, 2017 and December 31, 2016 consist of \$0 and \$68,000, respectively, of accounts payable and accrued liabilities.

Total operating cash flows from discontinued operations for the three months and nine months ended September 30, 2016 were \$0 and \$339,000, respectively. The Company elected to classify the proceeds received from the sale of discontinued operations in the investing activities section of Condensed Consolidated Statement of Cash Flows for the nine months ended September 30, 2016.

In connection with the Risk Solutions Sale and Coinsurance Transaction in March 2016, AMIC utilized a significant amount of its Federal NOL carryforwards and made a corresponding adjustment to its valuation allowance. On a consolidated basis, the Company recorded income taxes on discontinued operations of \$7,724,000 for the nine months ended September 30, 2016, consisting of \$5,777,000 of state taxes and \$1,947,000 of Federal taxes, net of a \$38,419,000 decrease in AMIC's valuation allowance.

Note 4. Investment Securities

The cost (amortized cost with respect to certain fixed maturities), gross unrealized gains, gross unrealized losses and fair value of investment securities are as follows for the periods indicated (in thousands):

Substantially all of the unrealized losses on fixed maturities available-for-sale at September 30, 2017 and December 31, 2016 relate to investment grade securities and are attributable to changes in market interest rates. Because the Company does not intend to sell, nor is it more likely than not that the Company will have to sell such investments before recovery of their amortized cost bases, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired at September 30, 2017.

Net realized investment gains are as follows for periods indicated (in thousands):

	Three M			Nine M Sent	onths embe		
	2017 2016			_	2017	2016

Net realized investment gains	\$ 715	\$	2,367	\$	987	\$	3,945

For the three months and nine months ended September 30, 2017, proceeds from sales of available-for-sale securities, excluding paydowns and maturities, were \$29,564,000 and \$157,541,000, respectively, and the Company realized gross gains of \$747,000 and \$2,052,000, respectively, and gross losses of \$0 and \$844,000, respectively, on those sales. For the three months and nine months ended September 30, 2016, proceeds from sales of available-for-sale securities, excluding paydowns and maturities, were \$179,735,000

and \$339,171,000, respectively, and the Company realized gross gains of \$2,668,000 and \$4,521,000, respectively, and gross losses of \$94,000 and \$275,000, respectively, on those sales.

Other-Than-Temporary Impairment Evaluations

We recognize other-than-temporary impairment losses in earnings in the period that we determine: 1) we intend to sell the security; 2) it is more likely than not that we will be required to sell the security before recovery of its amortized cost basis; or 3) the security has a credit loss. Any non-credit portion of the other-than-temporary impairment loss is recognized in other comprehensive income (loss). See Note 1G(iv) to the Consolidated Financial Statements in the 2016 Annual Report for further discussion of the factors considered by management in its regular review to identify and recognize other-than-temporary impairments on available-for-sale securities. The Company did not recognize any other-than-temporary impairments on available-for-sale securities in the first nine months of 2017. In the three months and nine months ended September 30, 2016, the Company recognized an other-than-temporary impairment loss of \$1,475,000 on certain fixed maturities available-for-sale due to credit losses. The Company determined it was more likely than not that the securities would be sold before the recovery of their amortized cost basis.

Credit losses were recognized on certain fixed maturities for which each security also had an impairment loss recognized in other comprehensive income (loss). The rollforward of these credit losses were as follows for the periods indicated (in thousands):

		Three Mo Septe		Nine M Sept		
	_	2017	 2016	 2017	_	2016
Balance at beginning of year	\$	-	\$ -	\$ -	\$	473
Securities sold	_	-	 -	 -		(473)
Balance at end of period	\$	-	\$ -	\$ -	\$	-

Note 5. Fair Value Disclosures

For all financial and non-financial assets and liabilities accounted for at fair value on a recurring basis, the Company utilizes valuation techniques based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market expectations. These two types of inputs create the following fair value hierarchy:

- Level 1 Quoted prices for identical instruments in active markets.
- **Level 2** Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- **Level 3** Instruments where significant value drivers are unobservable.

The following section describes the valuation methodologies we use to measure different assets at fair value.

Investments in fixed maturities and equity securities:

Available-for-sale securities included in Level 1 are equities with quoted market prices. Level 2 is primarily comprised of our portfolio of government securities, agency mortgage-backed securities, corporate fixed income securities, foreign government obligations, collateralized mortgage obligations, municipals and GSEs that were priced with observable market inputs. Level 3 securities consist of municipal tax credit strips.

The valuation method used to determine the fair value of municipal tax credit strips is the present value of the remaining future tax credits (at the original issue discount rate) as presented in the redemption tables in the Municipal Prospectuses. This original issue discount is accreted into income on a constant yield basis over the term of the debt instrument. Further we retain independent pricing vendors to assist in valuing certain instruments.

Trading securities:

Trading securities included in Level 1 are equity securities with quoted market prices.

The following tables present our financial assets measured at fair value on a recurring basis for the periods indicated (in thousands):

			Septen	nber 3	30, 2017

It is the Company's policy to recognize transfers of assets and liabilities between levels of the fair value hierarchy at the end of a reporting period. The Company does not transfer out of Level 3 and into Level 2 until such time as observable inputs become available and reliable or the range of available independent prices narrow. The Company did not transfer any securities between Level 1, Level 2 or Level 3 in either 2017 or 2016.

The following table presents the changes in fair value of our Level 3 financial assets for the periods indicated (in thousands):

	Three Months Ended September 30,

During 2016, the Company had contingent liabilities classified in Level 3 of the fair value hierarchy. These liabilities were paid out by December 31, 2016; there were no comparable amounts in 2017. The following table presents the changes in fair value of our Level 3 financial liabilities for the periods indicated (in thousands):

		Three Mo Septemb			Nine Mo Septem	s Ended 30, 2016		
	_	Contingent Liabilities		Total Level 3 Liabilities		Contingent Liabilities		Total Level 3 Liabilities

The following table provides carrying values, fair values and classification in the fair value hierarchy of the Company's financial instruments, for the periods indicated, that are not carried at fair value but are subject to fair value disclosure requirements, for the periods indicated (in thousands):

		Sept	ember 30, 2	2017	December 31, 2016					
	 Level 1		Level 2			 Level 1		Level 2		
	Fair		Fair		Carrying	Fair		Fair		Carrying
	Value		Value		Value	Value		Value	_	Value
FINANCIAL ASSETS:										
Short-term investments	\$ 50	\$	-	\$	50	\$ 6,912	\$	-	\$	6,912
FINANCIAL LIABILITIES:										
Funds on deposit	\$ -	\$	143,911	\$	143,637	\$ -	\$	146,098	\$	145,749

The following methods and assumptions were used to estimate the fair value of the financial instruments that are not carried at fair value in the Condensed Consolidated Financial Statements:

Short-term Investments

Investments with original maturities of 91 days to one year are considered short-term investments and are carried at cost, which approximates fair value.

Funds on Deposit

The Company has two types of funds on deposit. The first type is credited with a current market interest rate, resulting in a fair value which approximates the carrying amount. The second type carries fixed interest rates which are higher than current market interest rates. The fair value of these deposits was estimated by discounting the payments using current market interest rates. The Company's universal life policies are also credited with current market interest rates, resulting in a fair value which approximates the carrying amount. Both types of funds on deposit are included in Level 2 of the fair value hierarchy.

Note 6. Variable Interest Entities

The Company has a minority interest in certain limited partnerships that we have determined to be Variable Interest Entities ("VIEs"). The aforementioned VIEs are not required to be consolidated in the Company's condensed consolidated financial statements as we are not the primary beneficiary since we do not have the power to direct the activities that most significantly impact the VIEs' economic performance.

The Company will periodically reassess whether we are the primary beneficiary in any of these investments. The reassessment process will consider whether we have acquired the power to direct the most significant activities of the VIEs through changes in governing documents or other circumstances. Our maximum loss exposure is limited to our combined \$4,141,000 carrying value in these equity investments that are included in other investments in the Condensed Consolidated Balance Sheet as of September 30, 2017.

Note 7. Acquisition of PetPartners, Inc.

On March 24, 2017 (the "Acquisition Date"), the Company acquired 85% of the stock of PetPartners, Inc. ("PetPartners"), a pet insurance marketing and administration company, for a purchase price of \$12,713,000, subject to certain post-closing adjustments. The Company acquired PetPartners for the purpose of owning additional distribution and administration sources for its pet insurance. Any time after March 24, 2019, shares owned by the noncontrolling interest are putable to the Company at fair value and are therefore presented on the balance sheet as a redeemable noncontrolling interest.

Upon the acquisition, the Company consolidated the assets and liabilities of PetPartners. The following table presents the identifiable assets acquired and liabilities assumed in the acquisition of PetPartners on the Acquisition Date based on their respective fair values (in thousands):

Cash	\$ 390
Intangible assets	5,880
Other assets	567
	 _
Total identifiable assets	 6,837
Other liabilities	174
Deferred tax liability	 1,069
Total liabilities	 1,243
Net identifiable assets acquired	\$ 5,594
Redeemable noncontrolling interest	\$ 2,005

In connection with the acquisition, the Company recorded \$9,124,000 of goodwill and \$5,880,000 of intangible assets (see Note 8). Goodwill reflects the synergies between PetPartners and Independence American as PetPartners will provide Independence American with increased distribution sources for its pet insurance business through its marketing relationship with the American Kennel Club. Goodwill was calculated as the excess of the sum of: (i) the acquisition date fair value of total cash consideration transferred of \$12,713,000; and (ii) the fair value of the redeemable noncontrolling interest in PetPartners of \$2,005,000 on the acquisition date; over (iii) the net identifiable assets of \$5,594,000 that were acquired. The enterprise value of PetPartners was determined by an independent appraisal using a discounted cash flow model based upon the projected future earnings of PetPartners including a control premium. The fair value of the redeemable noncontrolling interest was determined based upon their percentage of the PetPartners enterprise value discounted for a lack of control. The fair value of the acquired identifiable intangible assets and deferred taxes are provisional pending receipt of the final valuations for those assets and liabilities. The Company

expects to finalize the preliminary estimates of the fair value of the intangible assets and deferred taxes by the end of this year. Acquisition-related costs, primarily legal and consulting fees, were expensed and are included in selling, general and administrative expenses in the Condensed Consolidated Statement of Income.

For the period from the Acquisition Date to September 30, 2017, the Company's Condensed Consolidated Statement of Income includes revenues of \$1,416,000 and \$2,869,000, respectively, for the three months and nine months ended September 30, 2017, and net income of \$112,000 and \$199,000, respectively, for the three months and nine months ended September 30, 2017 from PetPartners.

Pro forma adjustments to present the Company's consolidated revenues and net income as if the acquisition date was January 1, 2016 are not material and accordingly are omitted.

Note 8. Goodwill and Other Intangible Assets

The carrying amount of goodwill was \$50,697,000 and \$41,573,000 at September 30, 2017 and December 31, 2016, respectively. Goodwill is reviewed for impairment annually at December 31, and evaluated for triggering events that may indicate a potential impairment quarterly. As of September 30, 2017, no impairment indicators were identified.

The Company has net other intangible assets of \$15,062,000 and \$10,122,000 at September 30, 2017 and December 31, 2016, respectively, which are included in other assets in the Condensed Consolidated Balance Sheets. These intangible assets consist of: (i) finite-lived intangible assets, principally the fair value of acquired agent and broker relationships, which are subject to amortization; and (ii) indefinite-lived intangible assets which consist of the estimated fair value of insurance licenses that are not subject to amortization.

The gross carrying amounts of these other intangible assets are as follows for the periods indicated (in thousands):

		Septer	nber	30, 2017		Decen	31, 2016	
		Gross				Gross		
		Carrying		Accumulated		Carrying		Accumulated
		Amount		Amortization		Amount		Amortization
	<u>-</u>				_			
Finite-lived Intangible Assets:

Domain		1,000		100		1,000		25
Software systems		780		51		-		-
Total finite-lived	\$	19,033	\$	11,948	\$	14,052	\$	11,907

		September 30, 2017	December 31, 2016
Indefinite-lived Intangible Assets:	•		
Insurance licenses	\$	7,977	\$ 7,977
Total indefinite-lived	\$	7,977	\$ 7,977

In connection with the acquisition of PetPartners in the first quarter of 2017 discussed in Note 7, the Company recorded \$9,124,000 of goodwill and \$5,880,000 of intangible assets associated with the Specialty Health segment. None of the goodwill is deductible for income tax purposes. The intangible assets primarily represent the fair value of customer relationships and are being amortized over a weighted average period of 9.6 years.

Amortization expense was \$393,000 and \$941,000 for the three months and nine months ended September 30, 2017, respectively, and was \$366,000 and \$1,057,000 for the three months and nine months

ended September 30, 2016, respectively.

Note 9. Income Taxes

The provisions for income taxes shown in the Condensed Consolidated Statements of Income were computed based on the Company's actual results, which approximate the effective tax rate expected to be applicable for the balance of the current fiscal year in accordance with consolidated life/non-life group income tax regulations. Such regulations adopt a subgroup method in determining consolidated taxable income, whereby taxable income is determined separately for the life insurance company group and the non-life insurance company group.

As a result of the winding down of operations and dissolution of IHC Administrative Services, Inc. ("IHC AS"), a subsidiary of IHC, in the quarter ended June 30, 2017, the Company recognized an estimated \$11,589,000 income tax benefit on a worthless stock deduction of \$33,110,000 representing the Company's tax basis related to its unrecovered investment in IHC AS. Management believes that it is more likely than not that the Company will realize the income tax benefit of this worthless stock deduction. Excluding this tax benefit, the differences between the Federal statutory income tax rate of 35% and the Company's effective income tax rate resulted principally from the dividends received deduction and tax exempt interest income, state and local income taxes, and health insurer specific tax provisions.

Note 10. Policy Benefits and Claims

Policy benefits and claims is the liability for unpaid loss and loss adjustment expenses. It is comprised of unpaid claims and estimated incurred but not reported ("IBNR") reserves. Summarized below are the changes in the total liability for policy benefits and claims for the periods indicated (in thousands).

	Nine Months Ended							
	Septe	mber	30,					
_	2017		2016					
			_					
\$	219,113	\$	245,443					
	88,853		65,362

			_					
	105,559		104,478					
			_					
	52,822		46,997					
	56,452		109,819					
	109,274		156,816					
	126,545		127,743					
	43,002		115,076					
\$	169,547	\$	242,819					
	- - - - -	\$ 219,113 88,853 130,260 114,795 (9,236) 105,559 52,822 56,452 109,274 126,545 43,002	\$ 219,113 \$ 88,853 130,260 114,795 (9,236) 105,559 52,822 56,452 109,274 126,545 43,002					

Since unpaid loss and loss adjustment expenses are estimates, actual losses incurred may be more or less than the Company's previously developed estimates and is referred to as either unfavorable or favorable development, respectively. The overall net favorable development of \$9,236,000 in 2017 related to prior years consists of favorable developments of \$2,420,000 in the Medical Stop-Loss reserves, \$5,406,000 in the group

disability reserves and \$2,714,000 in the other individual life, annuities and other reserves, partially offset by an unfavorable development of \$1,304,000 in Specialty Health reserves. The overall net favorable development of \$7,048,000 in 2016 related to prior years primarily consists of favorable developments of \$2,916,000 in the group disability reserves, \$494,000 in Medical Stop-Loss reserves, and \$3,769,000 in Specialty health reserves.

Included in the preceding rollforward of the Company's liability for policy benefits and claims are the policy benefits and claims activity associated with the Company's health insurance lines. These are embedded within the Specialty Health segment. The table below summarizes the components of the change in the liability for policy benefits and claims that are specific to health insurance claims for the periods indicated (in thousands).

		Specialty Health Segment						
	_	Health Inst	uran	ce Claims

Plus: reinsurance recoverable		814		848				
Balance at end of period	\$	31,473	\$	28,018				

The liability for the IBNR plus expected development on reported claims associated with the Company's health insurance claims was \$30,659,000 at September 30, 2017.

Note 11. Stockholders' Equity

Treasury Stock

In 2017, the Company repurchased 2,211,629 shares of its common stock for an aggregate cost of \$44,442,000. Of that amount, 703,000 shares were repurchased in private transactions for an aggregate cost of \$13,975,000; 1,385,118 shares were repurchased for an aggregate cost of \$27,702,000 pursuant to the terms of a tender offer; and the remaining shares were repurchased in the open market.

In 2017, the Company reissued 12,671 shares previously held in treasury to satisfy the net-share settlement of option exercises during the period.

Accumulated Other Comprehensive Income (Loss)

Other comprehensive income (loss) includes the after-tax net unrealized gains and losses on investment securities available-for-sale, including the subsequent increases and decreases in fair value of available-for-sale securities previously impaired and the non-credit related component of other-than-temporary impairments of fixed maturities.

Changes in the balances of accumulated other comprehensive income, shown net of taxes, for the periods indicated were as follows (in thousands):

		Three M	ont	hs Ended		Nine M	s Ended

Note 12. Share-Based Compensation

IHC has a share-based compensation plan. AMIC had a plan, which has now been terminated. The following is a summary of the activity pertaining to each of these plans.

A) IHC Share-Based Compensation Plans

Under the terms of IHC's share-based compensation plans: (i) the exercise price of an option may not be less than the fair market value of an IHC share on the grant date and the terms of an option may not exceed 10 years from the grant date; and (ii) the exercise price of a SAR may not be less than the fair market value of an IHC share on the grant date and SAR terms may not exceed 10 years from the date of grant.

The fair value of an option award is estimated on the date of grant using the Black-Scholes option valuation model. In general, the vesting period for an option grant is 3years. Restricted share units are valued at the quoted market price of the shares at the date of grant and generally vest over 3years. Compensation costs for options and restricted share units are recognized over the stated vesting periods on a straight-line basis. The fair value of a SAR is calculated using the Black-Scholes valuation model at the grant date and each subsequent reporting period until settlement. Compensation cost is based on the proportionate amount of the requisite service that has been rendered to date. Once fully vested, changes in the fair value of a SAR continue to be recognized as compensation expense in the period of the change until settlement. The Company accounts for forfeitures of share-based compensation awards in the period that they occur.

At September 30, 2017, there were 1,099,100 shares available for future stock-based compensation grants under IHC's stock incentive plan. The following table summarizes share-based compensation expense, which is included in selling, general and administrative expenses on the Condensed Consolidated Statements of Income, applicable to the IHC plans, by award type for each of the periods indicated (in thousands):

		Three Months Ended September 30,						ths Ended ber 30,

							_		
Share-based compensation expense, net	\$	219	\$	(25)	\$	328	\$	385	

Stock Options

The IHC's stock option activity during 2017 was as follows:

	Shares Under Option	 d- Average se Price
December 31, 2016	697,180	\$ 11.75
Granted	34,000	22.20
Exercised	(38,800)	9.09
September 30, 2017	692,380	\$ 12.41

The weighted average grant date fair value of options granted during the period ended September 30, 2017 was \$7.01. No options were granted in the comparable period of 2016. The assumptions set forth in the table below were used to value the stock options granted during the period indicated:

	2017
Weighted-average risk-free interest rate	1.71%
Expected annual dividend rate per share	0.79%
Expected volatility factor of the Company's common stock	37.57%
Weighted-average expected term of options	4.5 years

In 2017, IHC received no cash from the exercise of stock options, as option exercises were net settled

in IHC shares. As part of the net-share settlements in 2017, cash outflows to satisfy employees' income tax withholding obligations amounted to \$303,000. Stock options exercised in 2017 had an aggregate intrinsic value of \$621,000 and IHC realized \$180,000 of tax benefits. In 2016, option agreements affecting 13 employees were modified to extend the expirations of their terms from 2017 to 2019 and, as a result, the Company recorded incremental compensation costs of \$170,000. In 2016, IHC received \$84,000 in cash from the exercise of stock options with an aggregate intrinsic value of \$67,000 and realized \$15,000 of tax benefits.

The following table summarizes information regarding IHC's outstanding and exercisable options:

	Septembe	r 30	, 2017			
	Outstanding Exercisab					
Number of options	692,380		501,380			
Weighted average exercise price per share	\$ 12.41	\$	9.39			
Aggregate intrinsic value for all options (in thousands)	\$ 8,889	\$	7,953			
Weighted average contractual term remaining	1.9 years		1.0 years			

At September 30, 2017, the total unrecognized compensation cost related to IHC's non-vested stock options was \$537,000 and it is expected to be recognized as compensation expense over a weighted average period of 2.3 years.

Restricted Stock

The following table summarizes restricted stock activity for the nine months ended September 30, 2017:

	No. of Non-vested Shares	(ghted-Average Grant-Date Fair Value
December 31, 2016	17,325	\$	16.20
Vested	(4,950)		12.53
September 30, 2017	12,375	\$	17.68

The total fair value of restricted stock units that vested during the first nine months of 2017 and 2016 was \$94,000 and \$120,000, respectively. IHC granted no restricted stock awards during the nine months ended September 30, 2017 and 2016.

At September 30, 2017, the total unrecognized compensation cost related to non-vested restricted stock unit awards was \$153,000 which is expected to be recognized as compensation expense over a weighted average period of 1.8 years.

SARs

IHC had 30,800 and 71,500 of SAR awards outstanding at September 30, 2017 and December 31, 2016, respectively. In the first nine months of 2017, 40,700 SARs were exercised with an aggregate intrinsic value of \$676,000. Included in Other Liabilities in the Company's Condensed Consolidated Balance Sheets at September 30, 2017 and December 31, 2016 are liabilities of \$559,000 and \$876,000, respectively, pertaining to SARs.

B) AMIC Share-Based Compensation Plan

AMIC's share-based compensation plan was terminated in 2016. AMIC recorded \$7,000 and \$14,000 of share-based compensation expense net of tax benefits of \$4,000, and \$7,000, respectively, for the three months and nine months ended September 30, 2016. Additionally, AMIC received \$262,000 in cash from the exercise of stock options with an intrinsic value of \$212,000.

Note 13. Supplemental Disclosures of Cash Flow Information

Net cash payments for income taxes were \$292,000 and \$11,312,000 during the nine months ended September 30, 2017 and 2016.

Cash payments for interest were \$0 and \$1,422,000 during the nine months ended September 30, 2017 and 2016, respectively.

Note 14. Contingencies

A third party administrator with whom we formerly did business ("Plaintiff") filed a Complaint dated May 17, 2017 in the United States District Court, Northern District of Texas, Dallas Division, naming IHC, Madison National Life, Standard Security Life, and IHC Carrier Solutions, Inc. (collectively referred to as "Defendants"). The Complaint concerns agreements entered into by Standard Security Life and Madison National Life with Plaintiff, as well as other allegations made by Plaintiff against the Defendants. The Complaint seeks injunctive relief and damages in an amount exceeding \$50,000,000, profit share payments allegedly owed to Plaintiff under the agreements totaling at least \$3,082,000 through 2014, plus additional amounts for 2015 and 2016, and exemplary and punitive damages as allowed by law and fees and costs. The Defendants moved to Compel Arbitration and Dismiss or Stay the original Complaint. The Plaintiff filed an Amended Complaint on August 18, 2017. The Defendants filed a Motion to Compel Arbitration or Stay the Amended Complaint, which is still pending. In the fourth quarter of 2017, Madison National Life agreed to pay fines in the state of Texas primarily related to the claims payment practices of the Plaintiff.

Note 15. Segment Reporting

The Insurance Group principally engages in the life and health insurance business. Interest expense, taxes, and general expenses associated with parent company activities are included in Corporate. Identifiable assets by segment are those assets that are utilized in each segment and are allocated based upon the mean reserves and liabilities of each such segment. Corporate assets are composed principally of cash equivalents, resale agreements, fixed maturities, equity securities, partnership interests and certain other investments.

Information by business segment is presented below for the periods indicated (in thousands):

		Three M	Ionth	s Ended	Nine Months Ended

- (A) Substantially all of the business in the segment is coinsured. Activity in this segment primarily reflects income or expenses related to the coinsurance and the run-off of any remaining blocks that were not coinsured.
- The Specialty Health segment includes amortization of intangible assets. Total amortization expense was \$393,000 and \$366,000 for the three months ended September 30, 2017 and 2016, respectively, and was \$941,000 and \$1,057,000, respectively, for the nine months ended September 30, 2017 and 2016.
- (C) The Individual life, annuities and other segment includes amortization of deferred charges in connection with the assumptions of certain ceded life and annuity policies amounting to \$368,000 and \$296,000 for the three months ended September 30, 2017 and 2016, respectively, and \$937,000 and \$1,949,000 for the nine months ended September 30, 2017 and 2016, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of the financial condition and results of operations of Independence Holding Company ("IHC") and its subsidiaries (collectively, the "Company") should be read in conjunction with, and is qualified in its entirety by reference to, the Consolidated Financial Statements of the Company and the related Notes thereto appearing in our annual report on Form 10-K for the fiscal year ended December 31, 2016, as filed with the Securities and Exchange Commission, and our unaudited Condensed Consolidated Financial Statements and related Notes thereto appearing elsewhere in this quarterly report.

Overview

Independence Holding Company, a Delaware corporation ("IHC"), is a holding company principally engaged in the life and health insurance business through: (i) its insurance companies, Standard Security Life Insurance Company of New York ("Standard Security Life"), Madison National Life Insurance Company, Inc. ("Madison National Life"), and Independence American Insurance Company ("Independence American"); and (ii) its marketing and administrative companies, including IHC Specialty Benefits Inc., IHC Carrier Solutions, Inc. and a majority interest in PetPartners, Inc. IHC also owns a significant equity interest in Ebix Health Exchange Holdings, LLC ("Ebix Health Exchange"), an administration exchange for health insurance. Standard Security Life, Madison National Life and Independence American are sometimes collectively referred to as the "Insurance Group". IHC and its subsidiaries (including the Insurance Group) are sometimes collectively referred to as the "Company", or "IHC", or are implicit in the terms "we", "us" and "our".

While management considers a wide range of factors in its strategic planning and decision-making, underwriting profit is consistently emphasized as the primary goal in all decisions as to whether or not to increase our retention in a core line, expand into new products, acquire an entity or a block of business, or otherwise change our business model. Management's assessment of trends in healthcare and morbidity, with respect to specialty medical, disability and New York short-term disability ("DBL"); mortality rates with respect to life insurance; and changes in market conditions in general play a significant role in determining the rates charged, deductibles and attachment points quoted, and the percentage of business retained. Management has always focused on managing the costs of its operations.

The following is a summary of key performance information and events:

Results of operations are summarized as follows for the periods indicated (in thousands):

		Three M	onth	s Ended		Nine Mo	onth	s Ended
		September 30,				Septe	mb	er 30,
		2017 2016				2017	2016

			_					_
Net income attributable to IHC	\$_	5,229	\$	4,323	\$	24,496	\$	114,769

- Income from continuing operations of \$.34 per share, diluted, for the three months ended September 30, 2017 compared to \$.25 per share, diluted, for the same period in 2016. Income from continuing operations of \$1.50 per share, diluted, for the nine months ended September 30, 2017 compared to \$.83 per share, diluted, for the same period in 2016.
- Income taxes for the nine months ended September 30, 2017, include an income tax benefit of \$11.6 million on the tax basis in an unrecovered investment in a subsidiary.
- Consolidated investment yields (on an annualized basis) of 3.6% and 3.2% for the three months and nine months ended September 30, 2017, respectively, compared to 2.5% and 2.7% for the comparable three and nine month periods in 2016, respectively;
- Book value of \$28.19 per common share at September 30, 2017 compared to \$25.53 at December 31, 2016.

The following is a summary of key performance information by segment:

- The Specialty Health segment reported \$5.2 million of income before taxes for the three months ended September 30, 2017 as compared to \$1.4 million for the comparable period in 2016; and reported \$9.4 million of income before taxes for the nine months ended September 30, 2017 compared to \$3.8 million for the same period in 2016.
 - Premiums earned increased \$11.1 million and \$23.5 million for the three and nine months ended September 30, 2017, respectively, over the comparable periods in 2016. For the three months and nine months ended September 30, 2017, short term medical premiums increased \$3.6 million and \$11.3 million, respectively, and fixed indemnity limited benefit premiums increased \$14.3 million and \$23.1 million, respectively, as a result of the growing demand for these products and new significant distribution relationships. Premium increases in these lines were partially offset by reduced premium volume in occupational accident business following

- the sale of Accident Insurance Services, Inc., our primary producer of occupational accident business, in 2016, other lines in run-off, and dental business.
- o Underwriting experience, as indicated by its U.S. GAAP Combined Ratios, for the Specialty Health segment are as follows for the periods indicated (in thousands):

		Three Mo					 s Ended er 30,
	_	2017	2017 2016			2017	 2016
Premiums Earned	\$	51,390	\$	40,275	\$	136,539	\$ 112,981
Insurance Benefits, Claims & Reserves		22,162		21,849		64,935	60,497
Expenses		25,354		17,629		67,134	50,159
_							
Loss Ratio (A)		43.1%		54.2%		47.6%	53.5%
Expense Ratio (B)		49.3%		43.8%		49.2%	44.4%
Combined Ratio (C)	_	92.4%		98.0%	_	96.8%	 97.9%

- (A) Loss ratio represents insurance benefits, claims and reserves divided by premiums earned.
- (B) Expense ratio represents commissions, administrative fees, premium taxes and other underwriting expenses divided by premiums earned.
- (C) The combined ratio is equal to the sum of the loss ratio and the expense ratio.
- O Although the loss ratios for the three months and nine months in 2017 are lower than in the comparable periods in 2016, the expense ratios are higher in 2017 because of changes in the mix of products within the Specialty Health segment and as a result of the reallocation of certain fixed costs from the Medical Stop-Loss segment to the Specialty Health segment as the premium volume of one segment shrinks and the other one grows. In addition, the Company continues to experience poor performance on the runout business underwritten by its occupational accident agency sold in the third quarter of 2016. Excluding this business, the Company would have reported a Combined Ratio of 91.6% and 95.3% for the three months and nine months ended September 30, 2017, respectively.
- Specialty Health earned premiums increased 27.6% and 20.9% for the three months and nine months in 2017, respectively, as compared with the same periods in 2016.
- Income before taxes from the Group disability, life, annuities and DBL segment decreased \$0.2 million for the three months ended September 30, 2017 and \$0.7 million for the nine months ended September 30, 2017 compared to the same periods in 2016. The decrease in the in the three and nine-month results primarily reflects a decrease in the group term life lines due to higher claims in 2017 and lower income from the international line due to run-off of that line of business.
- The Individual life, annuities and other segment reported losses before income taxes of \$0.4 million for the three months and nine months ended September 30, 2017, respectively, compared with losses of \$0.4 million and \$1.9 million for the comparable periods ended September 30, 2016. The losses in 2016 were related to the accelerated amortization of deferred costs in connection with the assumption of certain ceded life and annuity policies for which there are no comparable amounts in 2017.
- The Medical Stop-Loss segment reported a loss before taxes of \$0.5 million for the three months ended and income of \$2.8 million for the nine months ended September 30, 2017 as compared to income of \$2.2 million and \$13.9 million for the comparable periods in 2016. The reduction in income in 2017

in the Medical Stop-loss segment is principally due to the sale of Risk Solutions and exit from the medical stop-loss business. Premiums earned and amounts recorded for benefits, claims and reserves in the Medical Stop-Loss segment represent the activity of the remaining blocks of medical stop-loss business in run-off.

- Losses before tax from the Corporate segment increased \$0.4 million in the three months and decreased \$1.1 million in the nine months ended September 30, 2017 over the comparable periods of 2016 primarily due to changes in share-based compensation, consulting, legal and accounting expenses; and
- Premiums by principal product for the periods indicated are as follows (in thousands):

CRITICAL ACCOUNTING POLICIES

The accounting and reporting policies of the Company conform to U.S. generally accepted accounting principles ("GAAP"). The preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. A summary of the Company's significant accounting policies and practices is provided in Note 1 of the Notes to the Consolidated Financial Statements included in Item 8 of the Annual Report on Form 10-K for the fiscal year ended December 31, 2016. Management has identified the accounting policies related to *Insurance Premium Revenue Recognition and Policy Charges, Insurance Liabilities, Investments, Goodwill and Other Intangible Assets, and Deferred Income Taxes* as those that, due to the judgments, estimates and assumptions inherent in those policies, are critical to an understanding of the Company's Consolidated Financial Statements and this Management's Discussion and Analysis. A full discussion of these policies is included under the heading, "Critical Accounting Policies" in Item 7 of the Annual Report on Form 10-K for the fiscal year ended December 31, 2016. During the nine months ended September 30, 2017, there were no additions to or changes in the critical accounting policies disclosed in the 2016 Form 10-K except for the recently adopted accounting

standards discussed in Note 1(E) of the Notes to Condensed Consolidated Financial Statements.

Premiums Earned

In the third quarter of 2017, premiums earned increased \$8.3 million over the comparable period of 2016. The increase is primarily due to: (i) an increase of \$11.1 million in the Specialty Health segment principally as a result of a \$14.3 million increase in the fixed indemnity limited benefit, a \$3.6 million increase in premiums from the short-term medical line of business, partially offset by a \$3.2 million decrease in occupational accident premiums due to the run-off of this line following the sale of our primary producer of this business in the third quarter of 2016, a decrease of \$1.3 million in the dental line of business and \$2.1 million in lower international premiums; partially offset by (ii) a \$2.7 million decrease in the Medical Stop-Loss segment as a result of the sale of Risk Solutions and exit from the medical stop-loss business, as further described in Note 3.

Net Investment Income

Total net investment income increased \$0.4 million over the comparable period in 2016. The overall annualized investment yields were 3.6% and 2.5% in the third quarter of 2017 and 2016, respectively. The increase in 2017 is primarily due to higher returns on partnership investment partially offset by a decrease in

net investment income from bonds, equities and short-term investments as a result of lower average invested assets in 2017 largely due to the retirement of debt in the fourth quarter of 2016.

The annualized investment yields on bonds, equities and short-term investments were 3.2% and 2.7% in the third quarter of 2017 and 2016, respectively. IHC has approximately \$152.3 million in highly rated shorter duration securities earning on average 1.7%. A portfolio that is shorter in duration enables us, if we deem prudent, the flexibility to reinvest in much higher yielding longer-term securities, which would significantly increase investment income.

Net Realized Investment Gains and Net Impairment Losses

The Company had net realized investment gains of \$0.7 million in 2017 compared to \$2.4 million in 2016. These amounts include gains and losses from sales of fixed maturities and equity securities available-for-sale and other investments. Decisions to sell securities are based on management's ongoing evaluation of investment opportunities and economic and market conditions, thus creating fluctuations in gains and losses from period to period.

The Company recognized \$1.5 million of other-than-temporary impairment losses on certain fixed maturities available-for-sale during the nine months ended September 30, 2016 due to credit losses. The Company determined that it was more likely than not that the securities would be sold before the recovery of their amortized cost basis.

Fee Income and Other Income

Fee income decreased \$1.4 million for the three-month period ended September 30, 2017 compared to the three-month period ended September 30, 2016 primarily due to the lack of agency fees in 2017 from Accident Insurance Services, Inc., our primary producer of the Occupational Accident line of business, which was sold in the third quarter of 2016; partially offset by fee income earned by PetPartners, our recently acquired subsidiary, with no comparable amounts in 2016, and increased fee income as a result of higher premium volume in certain lines of the specialty health business.

Other income in the third quarter of 2017 decreased \$1.9 million from the same period in 2016 primarily due to the run-off of fees received in conjunction with the diminished administration of the Medical Stop-Loss segment.

Insurance Benefits, Claims and Reserves

In the third quarter of 2017, insurance benefits, claims and reserves decreased \$4.8 million over the comparable period in 2016. The decrease is primarily attributable to: (i) a decrease of \$3.2 million in the Medical Stop-Loss segment primarily as a result of the sale of Risk Solutions and exit from the medical stoploss business, further described in Note 3; and (ii) decreased benefits, claims and reserves of \$1.5 million in the Group disability, life, annuities and DBL segment, primarily due to lower loss ratios on group term life and LTD lines, and (iii) a decrease of \$0.4 million in the Individual life, annuity and other segment; partially offset by (iv) an increase of \$.3 million in the Specialty Health segment, primarily due to increases of \$3.9 million and \$2.0 million in claims from the fixed indemnity limited benefit and short term medical products as a result of increased volume, partially offset by decreases of \$2.6 million in dental on reduced premium volume, \$1.4 million in Occupational Accident lines sold in the third quarter of 2016, \$1.3 million in international and \$.3 million in small group major medical business.

Selling, General and Administrative Expenses

Total selling, general and administrative expenses increased \$9.5 million over the comparable period in 2016. The increase is primarily attributable to: (i) a \$6.6 million increase in the Specialty Health segment primarily due to administrative and commission expenses associated with the increased premium volume in

the short term medical and fixed indemnity limited benefit lines, and agency expenses from PetPartners with no comparable expenses in the prior year; (ii) an increase of \$1.1 million in the Medical Stop-Loss segment primarily due to a credit in premium taxes in 2016 with no comparable amount for 2017; (iii) an increase of \$1.5 million in the Group disability, life, annuities and DBL segment and (iii) an increase of \$0.2 million in Corporate due to an increase in audit, legal, share-based compensation and consulting fees.

Income Taxes

The effective tax rate for the three months ended September 30, 2017 was 33.8% compared to 37.6% for the three months ended 2016. The lower tax rate is primarily due to: (i) an increase in benefits from tax-advantaged securities as a percentage of income in 2017; (ii) a decrease in state taxes as a percentage of income; and (iii) a decrease in non-deductible expenses.

Premiums Earned

In the first nine months of 2017, premiums earned increased \$15.0 million over the comparable period of 2016. The increase is primarily due to: (i) an increase of \$23.5 million in the Specialty Health segment principally as a result of a \$23.1 million increase in the fixed indemnity limited benefit line, a \$11.3 million

increase in premiums from the short term medical line of business, and a \$1.5 million increase in the pet line of business, partially offset by a decrease of \$6.1 million in occupational accident business premiums due to the run-off of this line following the sale of our primary producer of this business, in the third quarter of 2016, a decrease of \$3.5 million in the dental line of business and a \$2.9 million decline in international premiums; and (ii) a \$1.9 million increase in earned premiums from the Group disability, life, annuities and DBL segment primarily due to increased volume in the LTD, DBL and group term life lines, partially offset by (iii) a decrease of \$10.4 million in the Medical Stop-Loss segment as a result of the sale of Risk Solutions and exit from the medical stop-loss business, further described in Note 3.

Net Investment Income

Total net investment income decreased \$0.3 million over the comparable period in 2016. The overall annualized investment yields were 3.2% and 2.7% in the first nine months of 2017 and 2016, respectively. The overall decrease was primarily the result of lower average invested assets in 2017 largely due to the retirement of debt in the fourth quarter of 2016 partially offset by higher returns on partnership investment.

The annualized investment yields on bonds, equities and short-term investments were 3.1% and 2.8% in the first nine months of 2017 and 2016, respectively. IHC has approximately \$152.3 million in highly rated shorter duration securities earning on average 1.7%. A portfolio that is shorter in duration enables us, if we deem prudent, the flexibility to reinvest in much higher yielding longer-term securities, which would significantly increase investment income.

Net Realized Investment Gains and Net Impairment Losses

The Company had net realized investment gains of \$1.0 million in the first nine months of 2017 compared to \$3.9 million in 2016. These amounts include gains and losses from sales of fixed maturities and equity securities available-for-sale and other investments. Decisions to sell securities are based on management's ongoing evaluation of investment opportunities and economic and market conditions, thus creating fluctuations in gains and losses from period to period.

The Company recognized \$1.5 million of other-than-temporary impairment losses on certain fixed maturities available-for-sale during the nine months ended September 30, 2016 due to credit losses. The Company determined that it was more likely than that the securities would be sold before the recovery of their amortized cost basis.

Fee Income and Other Income

Fee income decreased \$1.0 million for the nine-month period ended September 30, 2017 compared to the nine-month period ended September 30, 2016 primarily due to the lack of agency fees in 2017 from Accident Insurance Services, Inc., our primary producer of the Occupational Accident line of business, which was sold in the third quarter of 2016; partially offset by fee income earned by PetPartners, our recently acquired subsidiary, with no comparable amounts in 2016, and increased fee income as a result of higher premium volume in certain lines of the specialty health business.

Other income in the first nine months of 2017 decreased \$6.5 million from the same period in 2016 primarily due to the run-off of fees received in conjunction with the diminished administration of the Medical Stop-Loss segment.

Insurance Benefits, Claims and Reserves

In the first nine months of 2017, insurance benefits, claims and reserves decreased \$6.4 million over the comparable period in 2016. The decrease is primarily attributable to: (i) a decrease of \$12.0 million in the Medical Stop-Loss segment primarily as a result of the sale of Risk Solutions and exit from the medical stop-loss business, further described in Note 3; (ii) a decrease of \$0.7 million in the Individual life, annuity and

other segment; partially offset by (iii) an increase of \$4.4 million in the Specialty Health segment, primarily due to an increase of \$3.3 million in the small group major medical line of business due to favorable development of this line in 2016 with no comparable amount in 2017, and increases of \$6.2 million, \$4.6 million and \$1.3 million in the benefits and claims of short term medical, fixed indemnity limited benefit and pet lines of business, respectively, due to increases in volume, partially offset by a \$6.3 million decrease in benefits, claims and reserves related to the run-off of the occupational accident line of business and decreases of \$3.5 million and \$0.9 million in the dental and international lines, respectively, due to lower premiums; and (iv) an increase of \$1.9 million in benefits, claims and reserves in the Group disability, life, annuities and DBL segment, primarily due to growth in this line and increased loss ratios on group term life and LTD lines of business.

Selling, General and Administrative Expenses

Total selling, general and administrative expenses increased \$17.5 million over the comparable period in 2016. The increase is primarily attributable to: (i) a \$15.7 million increase in the Specialty Health segment primarily due to administrative and commission expenses associated with the increased premium volume in the short term medical and fixed indemnity limited benefit lines, and agency expenses from PetPartners with no comparable expenses in the prior year, partially offset by a decrease in administrative expenses in 2017 from Accident Insurance Services, Inc., our primary producer of Occupational Accident line of business, which was sold in the third quarter of 2016; (ii) an increase of \$4.4 million in the Medical Stop-Loss segment primarily due to a credit in premium taxes in 2016 with no comparable amount for 2017; partially offset by (iii) a decrease of \$1.2 million in the Individual life, annuity and other segment largely due to lower amortization of deferred costs and general expenses from business in run-off; and (v) a decrease of \$1.8 million in Corporate due to a decrease in audit and consulting fees.

Income Taxes

In 2017, the Company wound down the operations and dissolved a subsidiary recognizing an estimated \$11.6 million income tax benefit on a worthless stock deduction of \$33.1 million, representing the Company's tax basis related to its unrecovered investment in that subsidiary. Excluding these tax benefits, the effective tax rate for the nine months ended September 30, 2017 was 33.1% compared to 36.7% for the nine months ended 2016. The lower tax rate is primarily due to: (i) an increase in benefits from tax-advantaged securities as a percentage of income in 2017; (ii) a decrease in state taxes as a percentage of income; and (iii) a decrease in non-deductible expenses.

LIQUIDITY

Insurance Group

The Insurance Group normally provides cash flow from: (i) operations; (ii) the receipt of scheduled principal payments on its portfolio of fixed maturities; and (iii) earnings on investments. Such cash flow is partially used to fund liabilities for insurance policy benefits. These liabilities represent long-term and short-term obligations.

Corporate

Corporate derives its funds principally from: (i) dividends from the Insurance Group; (ii) management fees from its subsidiaries; and (iii) investment income from Corporate liquidity. Regulatory constraints historically have not affected the Company's consolidated liquidity, although state insurance laws have provisions relating to the ability of the parent company to use cash generated by the Insurance Group. The Insurance Group declared and paid \$7.0 million and \$17.8 million of dividends during the nine months ended September 30, 2017 and 2016, respectively.

Cash Flows

The Company had \$26.6 million and \$22.0 million of cash and cash equivalents as of September 30, 2017 and December 31, 2016, respectively.

For the nine months ended September 30, 2017, investment activities provided \$36.4 million of cash, primarily the result of sales of investment securities, partially offset by \$12.3 million net cash outflow to acquire PetPartners. Financing activities utilized \$47.9 million of cash, of which \$44.3 million was utilized for treasury share purchases.

On May 26, 2017, IHC commenced a tender offer to purchase up to 2,000,000 shares of its common stock at a price per share of \$20.00, net, to the seller in cash. On June 26, 2017, at the close of business, the offer expired and the Company accepted for purchase 1,385,118 shares of its common stock at \$20.00 per share, for an aggregate purchase price of \$27.7 million. The tender offer was fully funded through corporate liquidity.

The Company has \$387.0 million of liabilities for future policy benefits and policy benefits and claims that it expects to ultimately pay out of current assets and cash flows from future business. If necessary, the Company could utilize the cash received from maturities and repayments of its fixed maturity investments if the timing of claim payments associated with the Company's insurance resources does not coincide with future cash flows. For the nine months ended September 30, 2017, cash received from the maturities and other repayments of fixed maturities was \$16.8 million.

The Company believes it has sufficient cash to meet its currently anticipated business requirements over the next twelve months including working capital requirements and capital investments.

BALANCE SHEET

The Company had receivables due from reinsurers of \$383.2 million at September 30, 2017 compared to \$440.3 million at December 31, 2016. The decrease is primarily attributable to the decrease in medical stoploss reserves that are 100% coinsured. All of such reinsurance receivables are from highly rated companies or are adequately secured. No allowance for doubtful accounts was necessary at September 30, 2017.

The Company's liability for policy benefits and claims by segment are as follows (in thousands):

	Policy Benefits and Claims						
		September 30,	December 31,				
	_	2017		2016			
Specialty Health	\$	52,157	\$	50,237			
Group Disability		103,933		104,428			
Individual A&H and Other		8,527		9,688			
Medical Stop-Loss		4,930		54,760			
	_						
	\$_	169,547	\$	219,113			

The primary assumption in the determination of Specialty Health reserves is that historical claim development patterns are representative of future claim development patterns. Factors that may affect this assumption include changes in claim payment processing times and procedures, changes in time delay in submission of claims, and the incidence of unusually large claims. Liabilities for policy benefits and claims for specialty health and disability coverage are computed using completion factors and expected Net Loss Ratios derived from actual historical premium and claim data. The reserving analysis includes a review of claim processing statistical measures and large claim early notifications; the potential impacts of any changes in these factors are not material. The Company has business that is serviced by third-party administrators.

From time to time, there are changes in the timing of claims processing due to any number of factors including, but not limited to, system conversions and staffing changes during the year. These changes are monitored by the Company and the effects of these changes are taken into consideration during the claim reserving process. Since our analysis considered a variety of outcomes related to these factors, the Company does not believe that any reasonably likely change in these factors will have a material effect on the Company's financial condition, results of operations, or liquidity.

The Company's disability business is comprised of group disability and DBL. The two "primary" assumptions on which disability policy benefits and claims are based are: (i) morbidity levels; and (ii) recovery rates. If morbidity levels increase, for example due to an epidemic or a recessionary environment, the Company would increase reserves because there would be more new claims than expected. In regard to the assumed recovery rate, if disabled lives recover more quickly than anticipated, then the existing claims reserves would be reduced; if less quickly, the existing claims reserves would be increased. Advancements in medical treatments could affect future recovery, termination, and mortality rates. The Company does not believe that reasonably likely changes in its "primary" assumptions would have a material effect on the Company's financial condition, results of operations, or liquidity.

The \$16.4 million decrease in IHC's stockholders' equity in the first nine months of 2017 is primarily due to \$44.4 million of treasury stock purchases and \$0.9 in common stock dividends, partially offset by \$24.5 million of net income attributable to IHC and \$4.6 million of other comprehensive income attributable to IHC.

Asset Quality and Investment Impairments

The nature and quality of insurance company investments must comply with all applicable statutes and regulations, which have been promulgated primarily for the protection of policyholders. Although the Company's gross unrealized losses on available-for-sale securities totaled \$6.1 million at September 30, 2017, 100% of the Company's fixed maturities were investment grade and continue to be rated on average AA. The Company marks all of its available-for-sale securities to fair value through accumulated other comprehensive income or loss. These investments tend to carry less default risk and, therefore, lower interest rates than other types of fixed maturity investments. The Company does not have any non-performing fixed maturities at September 30, 2017.

The Company reviews its investments regularly and monitors its investments continually for impairments. The Company did not record any other-than-temporary impairment losses in the nine months ended September 30, 2017. The Company recognized \$1.5 million of other-than-temporary impairment losses on certain fixed maturities available-for-sale during the nine months ended September 30, 2016 due to credit losses. The Company determined that it is more likely than not that we would sell the securities before the recovery of their amortized cost basis.

The following table summarizes the carrying value of securities with fair values less than 80% of their amortized cost at September 30, 2017 by the length of time the fair values of those securities were below 80% of their amortized cost (in thousands):

		Greater than 3 months,	Greater than 6 months,		
	Less than	less than	less than	Greater than	
	3 months	6 months	12 months	12 months	Total
Fixed maturities	\$ 4,345	\$ -	\$ -	\$ -	\$ 4,345

The unrealized losses on all available-for-sale securities have been evaluated in accordance with the Company's impairment policy and were determined to be temporary in nature at September 30, 2017. In 2017, the Company recorded \$8.3 million of net unrealized gains on available-for sale securities, pre-tax, in other

comprehensive income (loss) prior to reclassification adjustments. From time to time, as warranted, the Company may employ investment strategies to mitigate interest rate and other market exposures. Further deterioration in credit quality of the companies backing the securities, further deterioration in the condition of the financial services industry, a continuation of the current imbalances in liquidity that exist in the marketplace, a continuation or worsening of the current economic recession, or additional declines in real estate values may further affect the fair value of these securities and increase the potential that certain unrealized losses be designated as other-than-temporary in future periods and the Company may incur additional write-downs.

CAPITAL RESOURCES

Due to its strong capital ratios, broad licensing and excellent asset quality and credit-worthiness, the Insurance Group remains well positioned to increase or diversify its current activities. It is anticipated that future acquisitions or other expansion of operations will be funded internally from existing capital and surplus and parent company liquidity. In the event additional funds are required, it is expected that they would be borrowed or raised in the public or private capital markets to the extent determined to be necessary or desirable.

IHC enters into a variety of contractual obligations with third parties in the ordinary course of its operations, including liabilities for insurance reserves, funds on deposit, debt and operating lease obligations. However, IHC does not believe that its cash flow requirements can be fully assessed based solely upon an analysis of these obligations. Future cash outflows, whether they are contractual obligations or not, also will vary based upon IHC's future needs. Although some outflows are fixed, others depend on future events. The maturity distribution of the Company's obligations, as of September 30, 2017, is not materially different from that reported in the schedule of such obligations at December 31, 2016 which was included in Item 7 of the Company's Annual Report on Form 10-K.

OUTLOOK

For the balance of 2017 and 2018, the Company anticipates that we will:

- Continue to show significant increases in specialty health premiums (including hospital indemnity, group limited medical and group gap and other supplemental health products, such as accident medical, gap and critical illness products). IHC has begun to package its hospital indemnity, accident and critical illness plans in order to provide affordable ways for insureds to finance high deductibles and co-pays. These packages are largely purchased in conjunction with STM for qualified purchasers who do not receive subsidies for ACA plans, and purchased together with Bronze plans for those who receive subsidies but cannot afford to finance the high Bronze deductibles through savings. We are also very well positioned for the expected increase in the duration of short-term medical plans as a result of the Trump Administration's executive order directing federal agencies to extend the duration of these products to 364 days, subject to state law. In anticipation of this growth we have begun to make material enhancements to our systems and infrastructure and will contribute additional capital to the insurance companies if needed. For all the preceding reasons, we believe that we will continue the solid sales growth we have been experiencing for the balance of 2017, and will report significantly higher earned premiums and income in this segment in 2018.
- Continue to increase IHC's emphasis on lead generation for its direct-to-consumer and career advisor
 distribution initiatives, as well as expanding our controlled sales through our call center, career model and
 transactional websites as a result of the acquisition of PetPlace.com, IHC's ownership of
 HealtheDeals.com, and AspiraAmas and its investment in HealthInsurance.org.
- Expand sales of our specialty health products as a result of private-label and white-label distribution arrangements with large national partners and our equity investments last year in two call center agencies

and a worksite marketing company. We recently announced at partnership with eHealth to sell packages of specialty health products.

- Diversify the distribution and administration of our pet insurance as a result of the acquisition of Pet Partners Inc.
- Experience increases in short-term disability premiums in 2018 generated from a relatively new distribution partnership, which will expand long-term disability opportunities for growth.
- Continue to evaluate strategic transactions. We plan to continue to deploy some of our cash to make additional investments and acquisitions that will continue to bolster existing or new lines of business.
- Continue to focus on administrative efficiencies.
- Sell a new rider ("Paid Family Leave" or "PFL") as part of our New York DBL policies in 2018. Effective January 1, 2018, New York State will require employers to provide PFL, which would cover job-protected paid leave to care for a new child or sick family member or to assist when someone is called to active military service. Standard Security Life anticipates that the implementation of this coverage is expected to more than double our current \$30 million DBL block. The rates for PFL are set by New York State and as this is a new product the underwriting profitability is unclear at this point.

On March 31, 2016, IHC and a subsidiary of AMIC sold the stock of Risk Solutions. In addition, under the purchase and sale agreement, all of the in-force stop-loss business of Standard Security Life and Independence American produced by Risk Solutions was co-insured by Westport as of January 1, 2016. The aggregate purchase price was \$152.5 million in cash, subject to adjustments and settlements. This transaction resulted in a gain of \$100.8 million for the year ended December 31, 2016, net of taxes and amounts attributable to noncontrolling interests.

As a result of the sale of Risk Solutions, IHC remains highly liquid with excess capital; however, we have used some of this capital to make equity investments, retire debt and purchase IHC stock. If the Specialty Health business were to grow exponentially as a result of the turmoil in the major medical markets, IHC may need to contribute additional capital to one or more of its carriers. While the run-off of the Medical Stop-Loss line of business has had a negative impact on future earnings, the growth in our other lines of business are expected to offset this reduction in earnings.

Subject to making additional repurchases, acquisitions, investments and capital contributions to support growth, the Company will remain highly liquid in 2017 as a result of the continuing shorter duration of the portfolio. IHC has approximately \$152.3 million in highly rated shorter duration securities earning on average 1.7%; our portfolio as a whole is rated, on average, AA. The low duration of our portfolio enables us, if we deem prudent, the flexibility to reinvest in much higher yielding longer-term securities, which would significantly increase investment income in the future. A low duration portfolio such as ours also mitigates the adverse impact of potential inflation. IHC will continue to monitor the financial markets and invest accordingly.

On June 26, 2017, IHC purchased 1,385,118 shares pursuant to a tender offer to purchase up to 2,000,000 shares of its common stock at a price per share of \$20.00, net, to the seller in cash. The number of shares purchased in the tender offer represented approximately 8.5% of the 16,377,756 shares of IHC common stock outstanding prior to the commencement of the tender offer and a gross aggregate purchase price of \$27.7 million. The tender offer was fully funded out of corporate liquidity.

Our results depend on the adequacy of our product pricing, our underwriting, the accuracy of our reserving methodology, returns on our invested assets, and our ability to manage expenses. We will also need to be diligent with increased rate review scrutiny to effect timely rate changes and will need to stay focused

on the management of medical cost drivers as medical trend levels cause margin pressures. Factors affecting these items, as well as unemployment and global financial markets, may have a material adverse effect on our results of operations and financial condition.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company manages interest rate risk by seeking to maintain an investment portfolio with a duration and average life that falls within the band of the duration and average life of the applicable liabilities. Options and other derivatives may be utilized to modify the duration and average life of such assets.

The Company monitors its investment portfolio on a continuous basis and believes that the liquidity of the Insurance Group will not be adversely affected by its current investments. This monitoring includes the maintenance of an asset-liability model that matches current insurance liability cash flows with current investment cash flows. This is accomplished by first creating an insurance model of the Company's in-force policies using current assumptions on mortality, lapses and expenses. Then, current investments are assigned to specific insurance blocks in the model using appropriate prepayment schedules and future reinvestment patterns.

The results of the model specify whether the investments and their related cash flows can support the related current insurance cash flows. Additionally, various scenarios are developed changing interest rates and other related assumptions. These scenarios help evaluate the market risk due to changing interest rates in relation to the business of the Insurance Group.

The expected change in fair value as a percentage of the Company's fixed income portfolio at September 30, 2017 given a 100 to 200 basis point rise or decline in interest rates is not materially different than the expected change at December 31, 2016 included in Item 7A of the Company's Annual Report on Form 10-K.

In the Company's analysis of the asset-liability model, a 100 to 200 basis point change in interest rates on the Insurance Group's liabilities would not be expected to have a material adverse effect on the Company. With respect to its liabilities, if interest rates were to increase, the risk to the Company is that policies would be surrendered and assets would need to be sold. This is not a material exposure to the Company since a large portion of the Insurance Group's interest sensitive policies are burial policies that are not subject to the typical surrender patterns of other interest sensitive policies, and many of the Insurance Group's universal life and annuity policies were acquired from liquidated companies which tend to exhibit lower surrender rates than such policies of continuing companies. Additionally, there are charges to help offset the benefits being surrendered. If interest rates were to decrease substantially, the risk to the Company is that some of its investment assets would be subject to early redemption. This is not a material exposure because the Company would have additional unrealized gains in its investment portfolio to help offset the future reduction of investment income. With respect to its investments, the Company employs (from time to time as warranted) investment strategies to mitigate interest rate and other market exposures.

ITEM 4. <u>CONTROLS AND PROCEDURES</u>

Evaluation of Disclosure Controls and procedures

IHC's Chief Executive Officer and Chief Financial Officer supervised and participated in IHC's evaluation of its disclosure controls and procedures as of the end of the period covered by this report. Disclosure controls and procedures are controls and procedures designed to ensure that information required to be disclosed in IHC's periodic reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

As previously disclosed in Item 9A of our Form 10-K for the year ended December 31, 2016, management concluded that there were material weaknesses in internal control over financial reporting for income taxes. Management determined that we did not maintain effective controls over the accounting for and disclosures of technical accounting matters as they relate to income taxes.

A material weakness is a deficiency or combination of deficiencies in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

Remediation of Material Weakness

The Company has made significant progress in remediating its material weaknesses in internal control over financial reporting for income taxes, specifically (i) strengthening existing tax staff with consulting tax accounting resources. Additionally, financial reporting staff attended training related to the design and operation of tax related financial reporting and corresponding internal controls; (ii) implementing enhanced risk assessment processes over accounting for income taxes, with a focus on tax accounting and disclosure for unusual and complex transactions; and (iii) improving existing or establishing new processes and controls to measure and record transactions related to tax accounting to enhance the effectiveness of the design and operation of those controls.

While the Company has made significant progress in implementing the remediation efforts described above; until those actions are fully implemented and the operational effectiveness of related internal controls validated through testing, the material weaknesses described above will continue to exist. Management anticipates that all remediation efforts will be fully implemented and validated by the fourth quarter of 2017.

Changes in Internal Control Over Financial Reporting

Except as noted above, our Management, including the CEO and CFO, identified no change in our internal control over financial reporting that occurred during our fiscal quarter ended September 30, 2017, that has materially affected or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. <u>LEGAL PROCEEDINGS</u>

We are involved in legal proceedings and claims that arise in the ordinary course of our businesses. We have established reserves that we believe are sufficient given information presently available related to our outstanding legal proceedings and claims. We do not anticipate that the result of any pending legal proceeding or claim will have a material adverse effect on our financial condition or cash flows, although there could be such an effect on our results of operations for any particular period.

A third party administrator with whom we formerly did business ("Plaintiff") filed a Complaint dated May 17, 2017 in the United States District Court, Northern District of Texas, Dallas Division, naming IHC, Madison National Life, Standard Security Life, and IHC Carrier Solutions, Inc. (collectively referred to as "Defendants"). The Complaint concerns agreements entered into by Standard Security Life and Madison National Life with Plaintiff, as well as other allegations made by Plaintiff against the Defendants. The Complaint seeks injunctive relief and damages in an amount exceeding \$50.0 million, profit share payments allegedly owed to Plaintiff under the agreements totaling at least \$3.1 million through 2014, plus additional amounts for 2015 and 2016, and exemplary and punitive damages as allowed by law and fees and costs. The Defendants moved to Compel Arbitration and Dismiss or Stay the original Complaint. The Plaintiff filed an Amended Complaint on August 18, 2017. The Defendants filed a Motion to Compel Arbitration or Stay the Amended Complaint, which is still pending. In the fourth quarter of 2017, Madison National Life agreed to pay fines in the state of Texas primarily related to the claims payment practices of the Plaintiff.

ITEM 1A. RISK FACTORS

There were no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 in Item 1A to Part 1 of Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Tender Offer

On May 26, 2017, IHC commenced a tender offer to purchase up to 2,000,000 shares of its common stock at a price per share of \$20.00, net, to the seller in cash. On June 26, 2017, at the close of business, the offer expired and the Company accepted for purchase 1,385,118 shares of its common stock at \$20.00 per share, for an aggregate purchase price of \$27.7 million.

Share Repurchase Program

IHC has a program, initiated in 1991, under which it repurchases shares of its common stock. In August 2016, the Board of Directors increased the number of shares that can be repurchased to 3,000,000 shares of IHC common stock, excluding the shares under the aforementioned tender offer. As of September 30, 2017, 2,068,931 shares were still authorized to be repurchased.

Share repurchases during the third quarter of 2017 are summarized as follows:

		2017	
			Maximum Number
		Average Price	of Shares which
Month of	Shares	of Repurchased	can be
Repurchase	Repurchased	Shares	Repurchased
July	16,327	\$ 21.42	2,154,346
August	27,704	\$ 21.61	2,126,642
September	57,711	\$ 24.06	2,068,931

ITEM 3. <u>DEFAULTS UPON SENIOR SECURITIES</u>

Not applicable.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. <u>OTHER INFORMATION</u>

Not applicable.

ITEM 6. EXHIBITS

- 3.1 Restated Certificate of Incorporation of Independence Holding Company (Filed as Exhibit 3(i) to our Quarterly Report on Form 10-Q for the quarter ended June 30, 1996 and incorporated herein by reference).
- 3.2 Certificate of Amendment of Restated Certificate of Incorporation of Independence Holding Company (Filed as Exhibit 3.1 to our Current Report on Form 8-K filed with the SEC on July 29, 2004 and incorporated herein by reference).
- 3.3 By-Laws of Independence Holding Company (Filed as Exhibit 3.3 to our Annual Report on Form 10-K for the year ended December 31, 2006 and incorporated herein by reference), as amended by Amendment to By-Laws of Independence Holding Company (Filed as Exhibit 3.2 to our Quarterly Report on Form 10-Q for the quarter ended September 30, 2013 and incorporated herein by reference).
- 10.1 Officer Employment Agreement, made as of April 18, 2011, by and among Independence Holding Company, Standard Security Life Insurance Company of New York and Mr. David T. Kettig (Filed as Exhibit 10.1 to our Current Report on Form 8-K filed with the SEC on April 22, 2011 and incorporated herein by reference).
- 10.2 Officer Employment Agreement, made as of April 18, 2011, by and among Independence Holding Company, Madison National Life Insurance Company, Inc. and Mr. Larry R. Graber (Filed as Exhibit 10.2 to our Current Report on Form 8-K filed with the SEC on April 22, 2011 and incorporated herein by reference).
- 10.3 Officer Employment Agreement, made as of April 18, 2011, by and between Independence Holding Company and Ms. Teresa A. Herbert (Filed as Exhibit 10.5 to our Current Report on Form 8-K filed with the SEC on April 22, 2011 and incorporated herein by reference).
- 10.4 Officer Employment Agreement, made as of May 11, 2011, by and between Independence Holding Company and Mr. Roy T.K. Thung (Filed as Exhibit 10.1 to our Quarterly Report on Form 10-Q for the period ended March 31, 2011 that was filed with the SEC on May 12, 2011, and incorporated herein by reference).
- 10.5 Officer Employment Agreement, by and among Independence Holding Company, IHC Risk Solutions, LLC and Mr. Michael A. Kemp, dated as of May 22, 2012 (Filed as Exhibit 10.3 to our Current Report on Form 8-K filed with the SEC on May 29, 2012, and incorporated herein by reference).
- 10.6 Retirement Benefit Agreement, dated as of September 30, 1991, between Independence Holding Company and Mr. Roy T.K. Thung, as amended. (Filed as an Exhibit to our Annual Report on Form 10-K for the year ended December 31, 1993 and incorporated herein by reference; Amendment No. 1 filed as Exhibit 10(iii)(A)(4a) to our Annual Report on Form 10-K for the year ended December 31, 2003 and incorporated herein by reference; Amendment No. 2 filed as Exhibit 10(iii)(4)(b) to our Current Report on Form 8-K filed with the SEC on June 22, 2005 and incorporated herein by reference; Amendment No. 3 filed as Exhibit 10.1 to our Current Report on Form 8-K filed with the SEC on January 7, 2009 and incorporated herein by reference.)
- 10.7 Purchase Agreement, made and entered into on June 15, 2015, by and among Madison National Life Insurance Company, Inc., Standard Security Life Insurance Company of New York and National Guardian Life Insurance Company (Filed as Exhibit 10.1 to our Current Report on Form 8-K filed with the SEC on June 16, 2015, and incorporated herein by reference).

- 10.8 Sale Bonus Agreement, dated November 7, 2016, by and between Independence American Holdings Corp. and David T. Kettig (Filed as Exhibit 10.8 to our Quarterly Report on Form 10-Q for the quarter ended September 30, 2016 and incorporated herein by reference).
- 10.9 Officer Employment Agreement, made as of May 25, 2011, by and among Independence Holding Company, Standard Security Life and Mr. Gary J. Balzofiore.
