PART I. FINANCIAL INFORMATION

Item 1. Financial Statements, continued

THE JONES FINANCIAL COMPANIES, L.L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(Dollars in millions)

NOTE 1 – INTRODUCTION AND BASIS OF PRESENTATION

The accompanying Consolidated Financial Statements include the accounts of The Jones Financial Companies, L.L.P. and all wholly-owned subsidiaries (collectively, the "Partnership" or "JFC"). The financial position of the Partnership's subsidiaries in Canada as of May 31, 2020 and November 30, 2019 are included in the Partnership's Consolidated Statements of Financial Condition and the results for the three and six month periods ended May 31, 2020 and 2019 are included in the Partnership's Consolidated Statements of Income, Consolidated Statements of Changes in Partnership Capital Subject to Mandatory Redemption, and Consolidated Statements of Cash Flows because of the timing of the Partnership's financial reporting process.

The Partnership's principal operating subsidiary, Edward D. Jones & Co., L.P. ("Edward Jones"), is a registered broker-dealer and investment adviser in the United States ("U.S."), and one of Edward Jones' subsidiaries is a registered broker-dealer in Canada. Through these entities, the Partnership primarily serves individual investors in the U.S. and Canada. Edward Jones is a retail brokerage business and primarily derives revenues from fees for providing investment advisory and other account services to its clients, fees for assets held by clients, the distribution of mutual fund shares, and commissions for the purchase or sale of securities and the purchase of insurance products. The Partnership conducts business throughout the U.S. and Canada with its clients, various brokers, dealers, clearing organizations, depositories and banks. Trust services are offered to Edward Jones' U.S. clients through Edward Jones Trust Company ("Trust Co."), a wholly-owned subsidiary of the Partnership. Olive Street Investment Advisers, LLC, a wholly-owned subsidiary of the Partnership, provides investment advisory services to the eight sub-advised mutual funds comprising the Bridge Builder® Trust ("BB Trust"). Passport Research, Ltd., a wholly-owned subsidiary of the Partnership, provides investment advisory services to the sub-advised Edward Jones Money Market Fund (the "Money Market Fund").

The Consolidated Financial Statements have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("GAAP"), which require the use of certain estimates by management in determining the Partnership's assets, liabilities, revenues and expenses. Actual results could differ from these estimates. The current coronavirus (COVID-19) pandemic and the ongoing response of the U.S. government and various state, local and foreign governments have adversely affected global business activities and have resulted in significant uncertainty in the global economy and volatility in financial markets. Given the significant global health, market, employment and economic impacts of COVID-19 and the uncertainty of its duration, the Partnership may experience negative impacts to its business operations and financial results in fiscal 2020. However, the Partnership cannot reliably predict their impact on future periods. The recent financial impacts of COVID-19 were included in the Partnership's estimates for assets, liabilities, revenues and expenses as of June 26, 2020. The Partnership has evaluated subsequent events for recognition and disclosure through the date these Consolidated Financial Statements were issued and identified no matters requiring disclosure.

The interim financial information included herein is unaudited. However, in the opinion of management, such information includes all adjustments, consisting primarily of normal recurring accruals, which are necessary for a fair statement of the results of interim operations.

There have been no material changes to the Partnership's significant accounting policies or disclosures of recently issued accounting standards as described in Part II, Item 8 – Financial Statements and Supplementary Data – Note 1 of the Partnership's Annual Report on Form 10-K for the year ended December 31, 2019 (the "Annual Report"), except as disclosed in Note 2 herein. The results of operations for the three and six month periods ended June 26, 2020 are not necessarily indicative of the results to be expected for the year ending December 31, 2020. These unaudited Consolidated Financial Statements should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and notes thereto included in the Annual Report.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements, continued

NOTE 2 – RECENTLY ADOPTED ACCOUNTING STANDARDS

In June 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-13, *Financial Instruments – Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments* ("ASU 2016-13"). ASU 2016-13 replaces the "incurred loss" credit losses framework with a new accounting standard that requires management's measurement of the allowance for credit losses to be based on a broader range of reasonable and supportable information for lifetime credit loss estimates. Effective January 1, 2020, the Partnership adopted the standard with an immaterial expected credit loss and no adjustment to the opening balance of Partnership capital. See Note 3 for additional information.

In August 2018, the FASB issued ASU 2018-15, *Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract* ("ASU 2018-15"). ASU 2018-15 aligns the capitalization requirements for implementation costs for cloud computing arrangement service contracts (including those without a software license) with the current guidance for internal-use software licenses. Companies could elect to adopt the standard either prospectively or retrospectively. The Partnership adopted the standard on January 1, 2020 on a prospective basis without a material impact to the Consolidated Financial Statements.

NOTE 3 – CURRENT EXPECTED CREDIT LOSSES

The Partnership individually assessed the current expected credit loss for assets in scope of ASU 2016-13 below.

Receivables from Clients

Receivables from clients is primarily composed of margin loan balances. The value of securities owned by clients and held as collateral for these receivables is not reflected in the Consolidated Financial Statements. Collateral held as of June 26, 2020 and January 1, 2020 was \$3,808 and \$3,915, respectively, and was not replighted or sold. The Partnership considers these financing receivables to be of good credit quality due to the fact that these receivables are primarily collateralized by the related client investments.

To estimate expected credit losses on margin loans, the Partnership applied the collateral maintenance practical expedient by comparing the amortized cost basis of the margin loans with the fair value of collateral at the reporting date. Margin loans are limited to a fraction of the total value of the securities held in the client's account against those loans. In accordance with Financial Industry Regulatory Authority ("FINRA") rules, the Partnership requires, in the event of a decline in the market value of the securities in a margin account, the client to deposit additional securities or cash so that, at all times, the loan to the client is no greater than 75% of the value of the securities in the account (or to sell a sufficient amount of securities in order to maintain this percentage). The Partnership, however, generally imposes a more stringent maintenance requirement, which requires that the loan to the client be no greater than 65% of the value of the securities in the account. As such, the Partnership reasonably expects that the borrower will be able to continually replenish collateral securing the financial asset and does not expect the fair value of collateral to fall below the value of margin loans and, as a result, the Partnership considers credit risk related to these receivables to be minimal. The fair value of collateral was higher than the amortized cost basis for virtually all margin loans as of June 26, 2020 and January 1, 2020, and the expected credit loss for those loans was zero for each period. In limited circumstances, a margin loan may become undercollateralized. When this occurs, the Partnership records a reserve for the undercollateralized portion of the loan, which was an immaterial amount as of June 26, 2020 and January 1, 2020.

Securities Purchased under Agreements to Resell

The Partnership participates in short-term resale agreements collateralized by government and agency securities. These transactions are reported as collateralized financing and are carried at cost with accrued interest in receivable from mutual funds, insurance companies and other within the Consolidated Statements of Financial Condition. The fair value of the underlying collateral, plus accrued interest, must equal or exceed 102% of the carrying amount of the transaction in U.S. agreements and must equal or exceed 100% of the carrying amount of the transaction in Canada agreements. It is the Partnership's policy to have such underlying resale agreement collateral delivered to the Partnership or deposited in its accounts at its custodian banks.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements, continued

To estimate expected credit losses on the resale agreements, the Partnership applied the collateral maintenance practical expedient by comparing the amortized cost basis of the resale agreements with the fair value of collateral at the reporting date. The counterparties are all financial institutions that the Partnership considers to be reputable and reliable, and the Partnership reasonably expects the counterparties will be able to continually replenish collateral securing the financial asset and does not expect the fair value of collateral to fall below the value of the resale agreements. The fair value of collateral, plus accrued interest, was 102% of the related assets in U.S. agreements and 100% in Canada agreements as of June 26, 2020 and January 1, 2020, and the expected credit loss was zero for each period.

Partnership Loans

The Partnership makes loans available to those general partners and, in limited circumstances, subordinated limited partners who require financing for some or all of their Partnership capital contributions as discussed in more detail in Note 7. General partners and subordinated limited partners must repay any amount of principal and interest outstanding on their Partnership loans prior to receiving a return of their Partnership capital. The loan value never exceeds the value of capital allocated to the partner, and there has been no historical loss on Partnership loans. As such, the risk of loss is remote, and the expected credit loss was zero as of June 26, 2020 and January 1, 2020.

Receivables from Revenue Contracts with Customers

The majority of the Partnership's receivables are collateralized financial assets, including advisory program fees, retirement fees, mutual fund and insurance service fees, and fund advisor fees, because the fees are paid out of client accounts or third-party products consisting of cash and securities. Due to the size of the fees in relation to the value of the cash and securities in accounts or funds, the collateral value always exceeds the amortized cost basis of the receivables, resulting in a remote risk of loss. In addition, the receivables have a short duration, generally due within 30 to 90 days, and there is no historical evidence of market declines that would cause the fair value of the underlying collateral to decline below the amortized cost of the receivables. The Partnership considered current conditions, and there is not a foreseeable expectation of an event or change which would result in the receivables being undercollateralized or unpaid. The expected credit loss for receivables from revenue contracts with customers was zero as of June 26, 2020 and January 1, 2020.

NOTE 4 – LEASES

For the three and six month periods ended June 26, 2020 and June 28, 2019, cash paid for amounts included in the measurement of operating lease liabilities was \$76 and \$151 and \$70 and \$137, respectively, and lease right-of-use assets obtained in exchange for new operating lease liabilities were \$75 and \$161 and \$110 and \$177, respectively. The weighted-average remaining lease term was four years as of both June 26, 2020 and December 31, 2019, and the weighted-average discount rate was 2.9% and 3.2%, respectively.

For the three and six month periods ended June 26, 2020 and June 28, 2019, operating lease costs were \$75 and \$149 and \$70 and \$136, respectively, and variable lease costs not included in the lease liability were \$15 and \$30 and \$13 and \$27, respectively. Total lease costs for the three and six month periods ended June 26, 2020 and June 28, 2019 were \$90 and \$179 and \$83 and \$163, respectively. The Partnership's future undiscounted cash outflows for operating leases are summarized below as of:

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements, continued

	June 26, 2020	December 31, 2019
2020	\$ 152	\$ 283
2021	269	239
2022	214	183
2023	158	128
2024	95	65
Thereafter	86	63
Total lease payments	974	961
Less: Interest	67	63
Total present value of lease liabilities	<u>\$ 907</u>	<u>\$ 898</u>

While the rights and obligations for leases that have not yet commenced are not significant, the Partnership typically enters into branch office leases for new locations regularly. Given the current state of the global economy in response to the COVID-19 pandemic, the Partnership has temporarily paused entering into new branch lease arrangements.

NOTE 5 – REVENUE

As of June 26, 2020 and December 31, 2019, \$479 and \$470, respectively, of the receivable from clients balance and \$267 and \$291, respectively, of the receivable from mutual funds, insurance companies and other balance related to revenue contracts with customers.

The Partnership derived 13% and 14% of its total revenue for the three and six month periods ended June 26, 2020, respectively, and 14% of its total revenue for both of the three and six month periods ended June 28, 2019 from one mutual fund company. The revenue generated from this company relates to business conducted with the Partnership's U.S. segment.

The following table shows the Partnership's disaggregated revenue information. See Note 10 for segment information.

NOTE 6 – FAIR VALUE

The Partnership's valuation methodologies for financial assets and financial liabilities measured at fair value and the fair value hierarchy are described in Part II, Item 8 – Financial Statements and Supplementary Data – Note 1 of the Partnership's Annual Report. There have been no material changes to the Partnership's valuation methodologies since December 31, 2019.

The Partnership did not have any assets or liabilities categorized as Level III during the six and twelve month periods ended June 26, 2020 and December 31, 2019, respectively.

The following tables show the Partnership's financial assets measured at fair value:

	Financial Assets at Fair Value as of June 26, 2020			
	Level I	Level II	Level III	Total
Cash equivalents:				
Certificates of deposit	\$ —	\$ 201	\$ —	\$ 201

Mutual funds	2	—	—	2
Total inventory securities	\$ 20	\$ 30	\$ —	\$ 50

- ⁽¹⁾ The mutual funds balance consists primarily of securities held to economically hedge future liabilities related to the non-qualified deferred compensation plan. The balance also includes securities held in relation to profit sharing contributions on behalf of service partners and a security held for regulatory purposes at the Trust Co.

NOTE 7 – PARTNERSHIP CAPITAL SUBJECT TO MANDATORY REDEMPTION

The Partnership makes loans available to those general partners and, in limited circumstances, subordinated limited partners (in each case, other than members of the Executive Committee, as defined in the Partnership's Twentieth Amended and Restated Agreement of Registered Limited Liability Limited Partnership, dated August 6, 2018 (the "Partnership Agreement")), who require financing for some or all of their Partnership capital contributions. In limited circumstances a general partner may withdraw from the Partnership and become a subordinated limited partner while he or she still has an outstanding Partnership loan. It is anticipated that, of the future general and subordinated limited partnership capital contributions (in each case, other than for Executive Committee members) requiring financing, the majority will be financed through Partnership loans. Loans made by the Partnership to such partners are generally for a period of one year but are expected to be renewed and bear interest at the interest rate defined in the loan documents. The Partnership recognizes interest income for the interest earned related to these loans. The outstanding amount of Partnership loans is reflected as a reduction to total Partnership capital. As of June 26, 2020 and December 31, 2019, the outstanding amount of Partnership loans was \$388 and \$360, respectively. Interest income earned from these loans, which is included in interest and dividends in the Consolidated Statements of Income, was \$3 and \$8 for the three and six month periods ended June 26, 2020, respectively, and \$5 and \$11 for the three and six month periods ended June 28, 2019, respectively.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements, continued

The following table shows the roll forward of outstanding Partnership loans for:

	Six Months Ended	
	June 26, 2020	June 28, 2019
Partnership loans outstanding at beginning of period	\$ 360	\$ 332
Partnership loans issued during the period	163	164
Repayment of Partnership loans during the period	(135)	(97)
Total Partnership loans outstanding	<u>\$ 388</u>	<u>\$ 399</u>

The minimum 7.5% annual return on the face amount of limited partnership capital was \$24 and \$47 for the three and six month periods ended June 26, 2020, respectively, and \$23 and \$47 for the three and six month periods and June 28, 2019, respectively. These amounts are included as a component of interest expense in the Consolidated Statements of Income.

The Partnership filed a Registration Statement on Form S-8 with the U.S. Securities and Exchange Commission ("SEC") on January 12, 2018, to register \$450 of Interests issuable pursuant to the Partnership's 2018 Employee Limited Partnership Interest Purchase Plan (the "2018 Plan"). The Partnership issued approximately \$380 and \$1 of Interests under the 2018 Plan on January 2, 2019 and January 2, 2020, respectively. The remaining \$69 of Interests may be issued under the Plan at the discretion of the Managing Partner in the future.

NOTE 8 – NET CAPITAL REQUIREMENTS

As a result of its activities as a U.S. broker-dealer, Edward Jones is subject to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and capital compliance rules of the FINRA Rule 4110. Under the alternative method permitted by the rules, Edward Jones must maintain minimum net capital equal to the greater of \$0.25 or 2% of aggregate debit items arising from client transactions. The net capital rules also provide that Edward Jones' partnership capital may not be withdrawn if resulting net capital would be less than minimum requirements. Additionally, certain withdrawals require the approval of the SEC and FINRA to the extent they exceed defined levels, even though such withdrawals would not cause net capital to be less than minimum requirements.

The Partnership's Canada broker-dealer subsidiary is a registered broker-dealer regulated by the Investment Industry Regulatory Organization of Canada ("IIROC"). Under the regulations prescribed by IIROC, the Partnership's Canada broker-dealer subsidiary is required to maintain minimum levels of risk-adjusted capital, which are dependent on the nature of the Partnership's Canada broker-dealer subsidiary's assets and operations.

The following table shows the Partnership's capital figures for its U.S. and Canada broker-dealer subsidiaries as of:

	June 26, 2020	December 31, 2019
U.S.:		
Net capital	\$ 1,320	\$ 1,244
Net capital in excess of the minimum required	\$ 1,265	\$ 1,188
Net capital as a percentage of aggregate debit items	48.2%	44.2%
Net capital after anticipated capital withdrawals, as a percentage of aggregate debit items	25.5%	26.4%
Canada:		
Regulatory risk-adjusted capital	\$ 39	\$ 40
Regulatory risk-adjusted capital in excess of the minimum required to be held by IIROC	\$ 38	\$ 38

U.S. net capital, Canada regulatory risk-adjusted capital and the related capital percentages may fluctuate on a daily basis. In addition, Trust Co. was in compliance with its regulatory capital requirements.

Item 1. Financial Statements, continued

NOTE 9 – CONTINGENCIES

In the normal course of its business, the Partnership is involved, from time to time, in various legal and regulatory matters, including arbitrations, class actions, other litigation, and examinations, investigations and proceedings by governmental authorities, self-regulatory organizations and other regulators, which may result in losses. These matters include:

Retirement Plan Litigation. On August 19, 2016, JFC, Edward Jones and certain other defendants were named in a putative class action lawsuit (*McDonald v. Edward D. Jones & Co., L.P., et al.*) filed in the U.S. District Court for the Eastern District of Missouri brought under the Employee Retirement Income Security Act of 1974, as amended, by a participant in the Edward D. Jones & Co. Profit Sharing and 401(k) Plan (the "Retirement Plan"). The lawsuit alleges that the defendants breached their fiduciary duties to Retirement Plan participants and seeks declaratory and equitable relief and monetary damages on behalf of the Retirement Plan. The defendants filed a motion to dismiss the *McDonald* lawsuit which was granted in part dismissing the claim against JFC and denied in part as to all other defendants on January 26, 2017.

On November 11, 2016, a substantially similar lawsuit (*Schultz, et al. v. Edward D. Jones & Co., L.P., et al.*) was filed in the same court. The plaintiffs consolidated the two lawsuits by adding the *Schultz* plaintiffs to the *McDonald* case, and the *Schultz* action was dismissed. The plaintiffs filed their first amended consolidated complaint on April 28, 2017. On December 13, 2018, the court entered a preliminary order approving a class action settlement agreement reached among the parties. Following a fairness hearing held on April 18, 2019, the court entered judgment on April 22, 2019 in which it granted final approval of the settlement, effected a full release of claims by the settlement class in favor of the defendants, and dismissed the consolidated lawsuit with prejudice. On June 14, 2019, the lone objector filed an appeal to the judgment approving the settlement. On January 31, 2020, the U.S. Court of Appeals for the Eighth Circuit denied the objector's appeal and affirmed the district court's approval of the class action settlement. On February 6, 2020, the objector petitioned the Court of Appeals for a rehearing, which was denied on March 3, 2020, and on May 11, 2020, the objector filed a petition for certiorari seeking review of the Court of Appeals' decision by the U.S. Supreme Court.

Wage-and-Hour Class Action. On March 13, 2018, JFC and Edward Jones were named as defendants in a purported collective and class action lawsuit (*Bland, et al. v. Edward D. Jones & Co., L.P., et al.*) filed in the U.S. District Court for the Northern District of Illinois by four former financial advisors. The lawsuit was brought under the Fair Labor Standards Act (FLSA) as well as Missouri and Illinois law and alleges that the defendants unlawfully attempted to recoup training costs from departing financial advisors and failed to pay all overtime owed to financial advisor trainees among other claims. The lawsuit seeks declaratory and injunctive relief, compensatory and liquidated damages. On March 19, 2019, the court entered an order granting the defendants' motion to dismiss all claims, but permitting the plaintiffs to amend and re-file certain of their claims. Plaintiffs filed an amended complaint on May 3, 2019. On March 30, 2020 the court partially granted the defendants' renewed motion to dismiss the amended complaint and dismissed seven of the ten causes of action it purported to state. The court's order eliminated from the case any claims that rely upon the firm's contractual right to recoup training costs as well as related claims for declaratory relief. It also dismissed various state law claims. JFC and Edward Jones deny the allegations in the remaining counts and intend to vigorously defend against the allegations in this lawsuit.

Securities Class Action. On March 30, 2018, Edward Jones and its affiliated entities and individuals were named as defendants in a putative class action (*Anderson, et al. v. Edward D. Jones & Co., L.P., et al.*) filed in the U.S. District Court for the Eastern District of California. The lawsuit was brought under the Securities Act of 1933, as amended (the "Securities Act"), and the Exchange Act, as well as Missouri and California law and alleges that the defendants inappropriately transitioned client assets from commission-based accounts to fee-based programs. The plaintiffs requested declaratory, equitable, and exemplary relief, and compensatory damages. On July 9, 2019, the district court entered an order dismissing the lawsuit in its entirety without prejudice. On July 29, 2019, the plaintiffs filed a second amended complaint, which eliminated certain affiliated entities and individuals as defendants, withdrew the claims under the Securities Act, added claims under the Investment Advisers Act of 1940, as amended (the "Investment Advisers Act"), and certain additional state law claims, and reasserted the remaining claims with modified allegations. In response to the amended complaint, the defendants filed a motion to dismiss. In the plaintiffs' opposition brief filed on September 9, 2019, the plaintiffs withdrew their Investment Advisers Act claims. On November 12, 2019 the district court granted defendants' motion to dismiss the second amended complaint and entered judgment in favor of defendants. On December 11, 2019,

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements, continued

plaintiffs filed a notice of appeal of the district court's order dismissing the case. Edward Jones and its affiliated entities and individuals deny the allegations and intend to continue to vigorously defend this lawsuit on appeal.

Discrimination Class Action. On May 24, 2018, Edward Jones and JFC were named as defendants in a putative class action lawsuit (*Bland v. Edward D. Jones & Co., L.P., et al.*) filed in the U.S. District Court for the Northern District of Illinois by a former financial advisor under 42 U.S.C. § 1981, alleging that the defendants discriminated against the former financial advisor and other financial advisors and financial advisor trainees on the basis of race. On July 27, 2018, two named plaintiffs filed an amended complaint adding allegations of discrimination and retaliation under 42 U.S.C. § 2000e, Title VII of the Civil Rights Act of 1964 and retaliation under 42 U.S.C. § 1981. On November 26, 2018, three named plaintiffs filed a second amended complaint. The lawsuit seeks equitable and injunctive relief, as well as compensatory and punitive damages. Edward Jones and JFC deny the allegations and intend to vigorously defend this lawsuit.

Reimbursement Class Action. On April 25, 2019, Edward Jones and JFC were named as defendants in a putative class action (*Watson, et al. v. The Jones Financial Companies L.L.P., et al.*) filed by two former financial advisors in the Superior Court of the State of California, Sacramento County. Plaintiffs allege that defendants did not reimburse financial advisors and financial advisor trainees in California for certain categories of business expenses, which plaintiffs allege violates the California Labor Code and California Unfair Competition Law. The lawsuit seeks damages and restitution as well as attorneys' fees and costs and equitable and injunctive relief. On February 19, 2020, the plaintiffs filed a motion seeking the court's approval of a proposed class action settlement reached by the parties. On June 5, 2020, the court granted preliminary approval of the proposed settlement.

In addition to these matters, the Partnership provides for potential losses that may arise related to other contingencies. The Partnership assesses its liabilities and contingencies utilizing available information. The Partnership accrues for potential losses for those matters where it is probable that the Partnership will incur a potential loss to the extent that the amount of such potential loss can be reasonably estimated, in accordance with FASB Accounting Standards Codification No. 450, *Contingencies*. This liability represents the Partnership's estimate of the probable loss at June 26, 2020, after considering, among other factors, the progress of each case, the Partnership's experience with other legal and regulatory matters and discussion with legal counsel, and is believed to be sufficient. The aggregate accrued liability within the accounts payable, accrued expenses and other line of the Consolidated Statements of Financial Condition was \$109 as of June 26, 2020 and may be adjusted from time to time to reflect any relevant developments.

For such matters where an accrued liability has not been established and the Partnership believes a loss is both reasonably possible and estimable, as well as for matters where an accrued liability has been recorded but for which an exposure to loss in excess of the amount accrued is both reasonably possible and estimable, the current estimated aggregated range of additional possible loss is up to \$22 as of June 26, 2020. This range of reasonably possible loss does not necessarily represent the Partnership's maximum loss exposure as the Partnership was not able to estimate a range of reasonably possible loss for all matters.

Further, the matters underlying any disclosed estimated range will change from time to time, and actual results may vary significantly. While the outcome of these matters is inherently uncertain, based on information currently available, the Partnership believes that its established liabilities at June 26, 2020 are adequate, and the liabilities arising from such matters will not have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Partnership. However, based on future developments and the potential unfavorable resolution of these matters, the outcome could be material to the Partnership's future consolidated operating results for a particular period or periods.

NOTE 10 – SEGMENT INFORMATION

The Partnership has determined it has two operating and reportable segments based upon geographic location, the U.S. and Canada. Canada segment information, as reported in the following table, is based upon the consolidated financial statements of the Partnership's Canada operations, which primarily occur through a non-guaranteed subsidiary of the Partnership. The U.S. segment information is derived from the Consolidated Financial Statements less the Canada segment information as presented. Pre-variable income represents income before variable compensation expense and before allocations to partners. This is consistent with how management views the segments to assess performance.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements, continued

The following table shows financial information for the Partnership's reportable segments:

	Three Months Ended		Six Months Ended	
	June 26, 2020	June 28, 2019	June 26, 2020	June 28, 2019
Net revenue:

Variable compensation:				
U.S.	\$ 283	\$ 273	\$ 614	\$ 513
Canada	7	6	14	12
Total variable compensation	<u>\$ 290</u>	<u>\$ 279</u>	<u>\$ 628</u>	<u>\$ 525</u>
Income (loss) before allocations to partners:				
U.S.	\$ 286	\$ 284	\$ 591	\$ 532
Canada	2	1	—	(6)
Total income before allocations to partners	<u>\$ 288</u>	<u>\$ 285</u>	<u>\$ 591</u>	<u>\$ 526</u>

NOTE 11 – OFFSETTING ASSETS AND LIABILITIES

The Partnership does not offset financial instruments in the Consolidated Statements of Financial Condition. However, the Partnership enters into master netting arrangements with counterparties for securities purchased under agreements to resell that are subject to net settlement in the event of default. These agreements create a right of offset for the amounts due to and due from the same counterparty in the event of default or bankruptcy.

The following table shows the Partnership's securities purchased under agreements to resell as of:

	Gross amounts of recognized assets	Gross amounts offset in the Consolidated Statements of Financial Condition	Net amounts presented in the Consolidated Statements of Financial Condition	Gross amounts not offset in the Consolidated Statements of Financial Condition		Net amount
				Financial instruments	Securities collateral ⁽¹⁾	
June 26, 2020	\$ 1,443	—	1,443	—	(1,443)	\$ —
December 31, 2019	\$ 1,693	—	1,693	—	(1,693)	\$ —

⁽¹⁾ Actual collateral was 102% of the related assets in U.S. agreements and 100% in Canada agreements as of all dates presented.

Item 1. Financial Statements, continued

NOTE 12 – CASH FLOW INFORMATION

The following table shows supplemental cash flow information for:

	Six Months Ended	
	June 26, 2020	June 28, 2019
Cash paid for interest	\$ 55	\$ 80
Cash paid for taxes	\$ 4	\$ 7
Non-cash activities:		
Issuance of general partnership interests through partnership loans in current period	\$ 163	\$ 164
Repayment of partnership loans through distributions from partnership capital in current period	\$ 135	\$ 97

The following table reconciles certain line items on the Consolidated Statements of Financial Condition to the cash, cash equivalents and restricted cash balance on the Consolidated Statements of Cash Flows as of:

	June 26, 2020	June 28, 2019
Cash and cash equivalents	\$ 1,228	\$ 978
Cash and investments segregated under federal regulations	13,012	7,912
Less: Investments segregated under federal regulations	8,096	1,597
Total cash, cash equivalents and restricted cash	<u>\$ 6,144</u>	<u>\$ 7,293</u>

Restricted cash represents cash segregated in special reserve bank accounts for the benefit of U.S. clients pursuant to the Customer Protection Rule, Rule 15c3-3 under the Exchange Act.

PART I. FINANCIAL INFORMATION

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis is intended to help the reader understand the results of operations and the financial condition of the Partnership. Management's Discussion and Analysis should be read in conjunction with the Consolidated Financial Statements and accompanying notes included in Part I, Item 1 – Financial Statements of this Quarterly Report on Form 10-Q and Part II, Item 8 – Financial Statements and Supplementary Data of the Partnership's Annual Report. All amounts are presented in millions, except as otherwise noted.

Basis of Presentation

The Partnership broadly categorizes its net revenues into four categories: fee revenue, trade revenue, net interest and dividends revenue (net of interest expense) and other revenue. In the Partnership's Consolidated Statements of Income, fee revenue is composed of asset-based fees and account and activity fees. Asset-based fees are generally a percentage of the total value of specific assets in client accounts. These fees are impacted by client dollars invested in and divested from the accounts which generate asset-based fees and changes in market values of the assets. Account and activity fees and other revenue are impacted by the number of client accounts and the variety of services provided to those accounts, among other factors. Trade revenue is composed of commissions and principal transactions revenue. Commissions are earned from the purchase or sale of mutual fund shares and equities, as well as the purchase of insurance products. Principal transactions revenue primarily results from the Partnership's distribution of, and participation in, principal trading activities in municipal obligations, over-the-counter corporate obligations and certificates of deposit. Trade revenue is impacted by the number of financial advisors, trading volume (client dollars invested), mix of the products in which clients invest, size of trades, margins earned on the transactions and market volatility. Net interest and dividends revenue is impacted by the amount of cash and investments, receivables from and payables to clients, the variability of interest rates earned and paid on such balances, the number of Interests outstanding, and the balances of Partnership loans.

COVID-19

In the second half of March 2020, markets and interest rates experienced sudden declines due to the global uncertainty from the COVID-19 pandemic. While the federal funds effective rate remains near zero, markets in the second quarter of 2020 experienced a significant rebound compared to the end of the first quarter of 2020. Market volatility still remains, and the effects of such volatility are ongoing and may continue to impact future financial results. In addition, the full extent of the health crisis and related economic impact is not yet known, which may lead to further market volatility and market declines that will impact the Partnership's overall financial results in fiscal 2020 compared to fiscal 2019.

The Partnership has implemented several measures in response to COVID-19 to support the health and well-being of its clients and associates, as well as measures to optimize firm resources and control costs. The measures taken include, among other things, closure and phased reopening of branches to public access, establishing the technological capability for branches to serve clients remotely, virtually all home-office associates working remotely with limited exceptions, temporary financial support for certain financial advisors, temporary hiring reductions, wage freezes for certain associates, additional paid time off for associates related to COVID-19, a travel halt, and a pause on certain strategic firm initiatives and new branch and home office real estate projects. The Partnership is continuing to assess these and other existing firm measures in response to the COVID-19 pandemic and is continuing to consider additional potential measures. Further, in response to COVID-19, the Partnership continues to review its business continuity plans and has had ongoing conversations with third-party providers to ensure the viability of their business operations supporting the Partnership. The Partnership has not experienced any significant disruptions in providing services to clients. The impact of COVID-19, as well as the Partnership's response to it, continues to rapidly evolve and is uncertain.

⁽¹⁾ Client dollars invested for trade revenue represents the principal amount of clients' buy and sell transactions resulting in revenue and for advisory programs revenue represents the net of the inflows and outflows of client dollars into advisory programs.

⁽²⁾ Net new assets represents cash and securities inflows and outflows from new and existing clients and excludes mutual fund capital gain distributions received by U.S. clients.

⁽³⁾ Attrition % represents the annualized number of financial advisors that left the firm during the period compared to the total number of financial advisors as of period end.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Second Quarter 2020 versus Second Quarter 2019 Overview

The Partnership ended the second quarter of 2020 with 19,161 financial advisors and \$1.31 trillion in client assets under care, which reflected increases of 5% and 4%, respectively, compared to the second quarter of 2019. Net new assets remained consistent at \$15 billion during the second quarters of both 2020 and 2019. Average client assets under care increased 2% during the second quarter of 2020 compared to the same period in 2019, primarily due to net new assets gathered during the period.

Advisory programs' average assets under care increased 7% in the second quarter of 2020 to \$428 billion due to the continued investment of client assets into advisory programs.

Net revenue increased \$6 to \$2,325 for the second quarter of 2020 compared to the same period in 2019. Results reflected a \$53 increase in asset-based fee revenue, primarily due to the cumulative impact of net asset inflows into advisory programs and changes in market values of assets in both 2020 and 2019, which was partially offset by a \$50 decrease in net interest and dividends revenue due to the low interest rates in the second quarter of 2020 compared to the same period in 2019.

Operating expenses slightly increased to \$2,037 in the second quarter of 2020 compared to 2019, primarily due to an increase in compensation and benefits expense, partially offset by decreases in other operating expenses primarily as a result of reductions in discretionary spending, a travel halt, and a pause on certain strategic firm initiatives and real estate projects. Financial advisor compensation increased largely due to an increase in revenues on which commissions are earned, an increase in the number of financial advisors, and an increase in compensation related to supporting new financial advisors and trainees. Home office and branch compensation increased primarily due to higher wages and healthcare costs.

Overall, the increase in net revenue, offset by the increase in operating expenses, generated income before allocations to partners of \$288, a 1% increase from the second quarter of 2019.

Six Months Ended June 26, 2020 versus Six Months Ended June 28, 2019 Overview

Net new assets increased 10% to \$34 billion during the first half of 2020 compared to the first half of 2019, primarily due to net new asset growth in the first quarter of 2020. Average client assets under care increased 8% during the first half of 2020 compared to the same period in 2019, due to increases in the market value of client assets and net new assets gathered during the period.

Advisory programs' average assets under care increased 13% in the first half of 2020 to \$438 billion due to the continued investment of client assets into advisory programs and higher average market levels in the second half of 2019 and the first quarter of 2020.

Net revenue increased 7% to \$4,816 for the first half of 2020 compared to the same period in 2019. Results reflected a 9% increase in asset-based fee revenue primarily due to the cumulative impact of net asset inflows into advisory programs and changes in market values of assets in both 2020 and 2019. The increase in net revenue also reflected 15% growth in trade revenue due to increased client dollars invested, particularly during market volatility in the second half of March 2020, and overall margin earned. The increase in net revenue was partially offset by the decrease in net interest and dividends revenue and other revenue. Net interest and dividends revenue decreased due to the low interest rates in the first half of 2020 compared to the same period in 2019. The decrease in other revenue was the result of the significant market volatility in the second half of March 2020, causing an unrealized loss from the decrease in the value of investment securities held to economically hedge future liabilities related to the non-qualified deferred compensation plan, which was partially offset by increased market values in the second quarter of 2020. The unrealized loss was offset by lower financial advisor compensation expense.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Operating expenses increased 6% to \$4,225 in the first half of 2020 compared to 2019, primarily due to an increase in compensation and benefits expense, partially offset by decreases in other operating expenses primarily as a result of reductions in discretionary spending, a travel halt, and a pause on certain strategic firm initiatives and real estate projects. Financial advisor compensation increased largely due to an increase in revenues on which commissions are earned, an increase in the number of financial advisors, and an increase in compensation related to supporting new financial advisors and trainees. Home office and branch compensation increased primarily due to an increase in the average number of personnel to support increased client activity, certain strategic firm initiatives to enhance the client experience, and growth of the Partnership's financial advisor network, as well as higher wages and healthcare costs.

Overall, the increase in net revenue, offset by the increase in operating expenses, generated income before allocations to partners of \$591, a 12% increase from the first half of 2019, primarily due to results in the first quarter of 2020.

Given the global health, market, employment and economic uncertainty of the COVID-19 pandemic and governmental responses to it, the Partnership cannot reliably predict the ultimate impact of COVID-19 on financial markets or its financial results, including how its clients, their trading activity, the financial markets or government regulators will respond to such uncertainty. The Partnership's composition of net revenue is heavily weighted towards asset-based fee revenue, which is highly dependent on market performance and asset values. Due to the heightened market volatility from the global pandemic and its effects on the economy and the Partnership's current and prospective clients, the Partnership could experience declines in client assets under care, and net new asset growth may continue to slow in fiscal 2020, which could result in declines in future asset-based fee revenue and overall net revenue.

Given the global health, market, employment and economic uncertainty of COVID-19, the Partnership is unable to reliably predict future client trading activity in response to COVID-19, and future trade revenue may continue to decline in fiscal 2020 as uncertainty continues.

Additionally, interest rates remain at record low levels since the Federal Reserve cut the federal funds effective rate to near zero in March 2020. Given the above-described uncertainties relating to COVID-19, the Partnership is unable to reliably predict future changes to interest rates and balances. Based on current information, however, the Partnership expects continued decreases in net interest and dividends revenue in fiscal 2020 compared to fiscal 2019.

Although the Partnership cannot reliably predict the ultimate impact of COVID-19 on financial markets or its financial results, the Partnership has made several strategic decisions to reduce future operating expenses in an effort to help mitigate the negative impacts of potentially lower revenue on the Partnership's future income before allocations to partners, such as temporary hiring reductions, wage freezes for home office and branch office associates, reduction of discretionary spending, a travel halt, and a pause on certain strategic firm initiatives and new branch and home office real estate projects. The Partnership is continuing to assess these and other existing firm measures in response to the COVID-19 pandemic and is continuing to consider additional potential measures.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

RESULTS OF OPERATIONS FOR THE THREE AND SIX MONTH PERIODS ENDED JUNE 26, 2020 AND JUNE 28, 2019

The discussion below details the significant fluctuations and their drivers for each of the major categories of the Partnership's Consolidated Statements of Income.

Fee Revenue

Fee revenue, which consists of asset-based fees and account and activity fees, increased 3% to \$1,878 and 8% to \$3,855 in the second quarter and the first half of 2020, respectively, compared to the same periods in 2019. A discussion of fee revenue components follows.

	Three Months Ended			Six Months Ended		
	June 26, 2020	June 28, 2019	% Change	June 26, 2020	June 28, 2019	% Change

Advisory programs fees	\$ 1,258	\$ 1,178	7%	\$ 2,558	\$ 2,274	12%
Service fees	323	330	-2%	663	643	3%
Other asset-based fees	137	157	-13%	303	307	-1%
Total asset-based fee revenue	1,718	1,665	3%	3,524	3,224	9%
Account and activity fee revenue:						
Shareholder accounting services fees	104	107	-3%	213	214	0%
Other account and activity fee revenue	56	58	-3%	118	123	-4%
Total account and activity fee revenue	160	165	-3%	331	337	-2%
Total fee revenue	<u>\$ 1,878</u>	<u>\$ 1,830</u>	<u>3%</u>	<u>\$ 3,855</u>	<u>\$ 3,561</u>	<u>8%</u>
Related metrics:						
Average U.S. client asset values (\$ billions) ⁽¹⁾ :						
Mutual fund assets held outside of advisory programs	\$ 430.5	\$ 418.8	3%	\$ 443.6	\$ 407.2	9%
Advisory programs	\$ 420.8	\$ 395.2	6%	\$ 430.9	\$ 382.4	13%
Insurance	\$ 72.3	\$ 74.7	-3%	\$ 74.6	\$ 73.3	2%
Cash solutions	\$ 38.7	\$ 32.4	19%	\$ 37.1	\$ 32.5	14%
Shareholder accounting holdings serviced	30.6	28.9	6%	30.4	28.7	6%

⁽¹⁾ Assets on which the Partnership earns asset-based fee revenue. The U.S. portion of consolidated asset-based fee revenue was 98% for the periods presented.

Overall asset-based fee revenue increased 3% to \$1,718 and 9% to \$3,524 in the second quarter and first half of 2020, respectively, compared to the same periods in 2019, primarily due to 7% and 12% respective increases in revenue from advisory programs fees. Growth in advisory programs fees was due to the continued investment of client assets in advisory programs in the second quarter and first half of 2020. The increase in asset-based fee revenue in the first half of 2020 compared to the same period in 2019 also reflected higher average market levels in the first quarter of 2020. The decrease in other asset-based fee revenue in 2020 reflected declines in cash solutions revenue from increased fee waivers in order to maintain a positive client yield on the Money Market Fund following the decrease in the federal funds effective rate to near zero in March 2020.

Given the global health, market, employment and economic uncertainty of the COVID-19 pandemic and governmental responses to it, the Partnership cannot reliably predict the ultimate impact of COVID-19 on client asset values and asset-based revenue. With the continued market volatility from the global COVID-19 pandemic, and based on current information, the Partnership could experience a reduction in the average value of client assets, resulting in decreases in

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

advisory program revenue, service fee revenue and other asset-based fee revenue in fiscal 2020 compared to fiscal 2019. In addition, with the recent decline in the federal funds rate to near zero and corresponding declines in the interest rates of securities in which the Money Market Fund invests, the Partnership has incurred, and expects to further incur in fiscal 2020, fee waivers in order to maintain a positive client yield on the Money Market Fund, thereby reducing other asset-based fee revenue.

Trade Revenue

Trade revenue, which consists of commissions and principal transactions, decreased 1% to \$395 and increased 15% to \$888 in the second quarter and first half of 2020, respectively, compared to the same periods in 2019. A discussion of trade revenue components follows.

	Three Months Ended			Six Months Ended		
	June 26, 2020	June 28, 2019	% Change	June 26, 2020	June 28, 2019	% Change
Trade revenue:						
Commissions revenue:						
Equities	\$ 164	\$ 125	31%	\$ 371	\$ 243	53%
Mutual funds	150	171	-12%	354	316	12%
Insurance products and other	64	77	-17%	130	147	-12%

Principal transactions	17	28	-39%	33	63	-48%
Total trade revenue	<u>\$ 395</u>	<u>\$ 401</u>	<u>-1%</u>	<u>\$ 888</u>	<u>\$ 769</u>	<u>15%</u>
Related metrics:						
Client dollars invested (\$ billions)						
Equities	\$ 11	\$ 8	38%	\$ 25	\$ 15	67%
Mutual funds	8	9	-11%	19	16	19%
Insurance products and other	2	1	100%	3	3	0%
Principal transactions	6	12	-50%	15	26	-42%
Total client dollars invested	<u>\$ 27</u>	<u>\$ 30</u>	<u>-10%</u>	<u>\$ 62</u>	<u>\$ 60</u>	<u>3%</u>
Margin per \$1,000 invested	\$ 14.8	\$ 13.2	12%	\$ 14.3	\$ 12.7	13%
U.S. business days	63	63	—	123	124	-1%

The decrease in trade revenue in the second quarter of 2020 was primarily due to a decrease in principal transactions revenue. Principal transactions revenue decreased as a result of a decrease in client dollars invested, due to the decline in interest rates on those products during the second quarter of 2020 compared to the prior period. The decrease in principal transactions revenue was partially offset by an increase in commissions revenue in equities and overall margin earned as a result of a change in product mix with a higher proportion of client dollars invested in equities, which earn higher margins than principal transaction products.

The increase in trade revenue for the first half of 2020 was due to an increase in commissions revenue and overall margin earned, partially offset by a decrease in principal transactions revenue. Commissions revenue increased primarily due to additional financial advisors serving clients and an increase in client dollars invested, largely in equities and mutual funds. Year to date results also reflected significant increases in first quarter trade revenue. As global markets became increasingly volatile in the second half of March 2020 due to the uncertainties surrounding the impacts of COVID-19, resulting in lower securities prices, the Partnership experienced a significant increase in client dollars invested in equities.

Given the global health, market, employment and economic uncertainty of COVID-19, the Partnership is unable to reliably predict future client trading activity in response to COVID-19, and future trade revenue may decline in fiscal 2020 as uncertainty continues.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Net Interest and Dividends

Net interest and dividends revenue decreased 74% to \$18 and 47% to \$69 in the second quarter and first half of 2020, respectively, compared to the same periods in 2019 due to interest rates remaining at record low levels since the Federal Reserve cut the federal funds effective rate to near zero in March 2020. Despite increases in short-term investment balances, interest revenue decreased due to the lower federal funds rate compared to the prior period. Interest revenue also decreased due to lower interest earned on lower client margin balances. The decrease in interest revenue was partially offset by a decrease in customer credit interest expense in 2020 compared to the same periods in 2019.

Given the uncertainty of the ongoing impacts of COVID-19 on the global economy, the Partnership is unable to reliably predict future changes to interest rates. Based on current information, however, the Partnership expects continued decreases in net interest and dividends revenue in fiscal 2020 compared to fiscal 2019.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Operating Expenses

Operating expenses slightly increased to \$2,037 in the second quarter of 2020 and increased 6% to \$4,255 in the first half of 2020 compared to the same periods in 2019, primarily due to an increase in compensation and benefits expense. A discussion of operating expense components follows.

	Three Months Ended			Six Months Ended

⁽²⁾ Operating expenses used in calculation represent total operating expenses less financial advisor compensation, variable compensation and fund sub-adviser fees.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

The increases in operating expenses in the second quarter and first half of 2020 were primarily due to compensation and benefits expense (described below) increasing 2% to \$1,646 and 8% to \$3,410 for the second quarter and first half of 2020, respectively. The increases in operating expenses were partially offset by decreases in other operating expenses in the second quarter and first half of 2020 primarily as a result of reductions in discretionary spending, a travel halt, and a pause on certain strategic firm initiatives and real estate projects.

Financial advisor compensation and benefits expense increased 1% and 6% in the second quarter and first half of 2020 due to an increase in revenues on which commissions are earned, growth in the number of financial advisors and an increase in compensation related to supporting new financial advisors and trainees.

Home office and branch compensation and benefits expense increased 3% in the second quarter, primarily due to higher wages and healthcare costs, and increased 5% in the first half of 2020, primarily due to an increase in the average number of personnel to support increased client activity, certain strategic firm initiatives to enhance the client experience, and growth of the Partnership's financial advisor network, as well as higher wages and healthcare costs. The average number of the Partnership's home office associates and branch office administrators ("BOAs") increased 2% and 1%, respectively, for the second quarter of 2020 and increased 2% and 3%, respectively, for the first half of 2020.

Variable compensation expands and contracts in relation to the Partnership's related profitability and net margin earned. A significant portion of the Partnership's profits are allocated to variable compensation and paid to associates in the form of bonuses and profit sharing. Variable compensation increased 4% to \$290 and 20% to \$628 in the second quarter and first half of 2020 due to increases in the Partnership's profitability, including an increase in the number of profitable branches and an overall increase in branch profitability. The increase in variable compensation for the first half of 2020 was primarily due to higher profitability in the first quarter of 2020. Given the uncertainty of the ongoing impacts of COVID-19, the Partnership cannot reliably predict their effects on profitability and variable compensation. Based on current information, however, the Partnership may experience a decline in variable compensation expense in fiscal 2020 compared to fiscal 2019.

The Partnership uses the ratios of both the number of home office associates and the number of BOAs per 100 financial advisors, as well as operating expenses per financial advisor (excluding financial advisor compensation, variable compensation and fund sub-advisor fees), as key metrics in managing its costs. In the second quarter of 2020, the average number of home office associates and BOAs per 100 financial advisors decreased 4% and 5%, respectively, and decreased 4% and 3%, respectively, in the first half of 2020. The operating expenses per financial advisor decreased 8% in the second quarter of 2020 due to a decrease in operating expenses (excluding financial advisor compensation, variable compensation and fund sub-advisor fees) and an increase in financial advisors. The operating expenses per financial advisor decreased 5% in the first half of 2020 due to the larger increase in the number of financial advisors compared to the increases in home office and branch compensation and benefits and the decrease in other operating expenses described above. While the Partnership's longer-term strategy is to continue to grow its financial advisor network at a faster pace than its home office staff, the near-term growth will be slowed due to recent temporary hiring reductions. In addition, effects of COVID-19 on financial advisor attrition are uncertain and cannot be reliably predicted; however, the Partnership anticipates that attrition could increase due to potentially lower compensation resulting from challenges financial advisors may experience in the current environment.

Given the uncertainty of the ongoing impacts of COVID-19, the Partnership has made strategic decisions to support the health and well-being of its clients and associates while also reducing future operating expenses, such as temporary reductions to hiring of new financial advisors, BOAs and home office associates, as well as certain wage freezes, all of which may slow the growth of compensation and benefits expense in fiscal 2020. The Partnership has also decreased discretionary spending, implemented a travel halt and temporarily paused spending on certain strategic firm initiatives and new branch and home office real estate projects. Controlling costs could help reduce the impact that the potential decrease in Partnership revenue could have on future profitability. The Partnership is continuing to assess these and other existing firm measures in response to the COVID-19 pandemic and is continuing to consider additional potential measures.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Segment Information

The Partnership has two operating and reportable segments based upon geographic location, the U.S. and Canada. Canada segment information, as reported in the following table, is based upon the consolidated financial statements of the Partnership's Canada operations. The U.S. segment information is derived from the Consolidated Financial Statements less the Canada segment information as presented. Pre-variable income represents income before variable compensation expense and before allocations to partners. This is consistent with how management views the segments to assess performance. COVID-19 is a global pandemic that has resulted in rapid changes and significant uncertainty; however, based on current information, the Partnership expects COVID-19 to impact the future financial results of the segments similarly.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

U.S.

For the second quarter of 2020, net revenue slightly increased to \$2,261, and for the first half of 2020, net revenue increased 7% to \$4,684, compared to the same periods in 2019, primarily due to increases in asset-based fee revenue. Asset-based fee revenue increased 3% to \$1,679 and 9% to \$3,442 in the second quarter and first half of 2020 led by an increase in advisory programs fees largely due to the cumulative impact of net asset inflows into advisory programs. The increase in asset-based fee revenue for the first half of 2020 also reflected higher average market levels in the first quarter of 2020 compared to the same period in 2019. The increase in net revenue for the first half of 2020 also reflected growth in trade revenue of 16% to \$859 due to an increase in client dollars invested and overall margin earned, primarily in the first quarter of 2020, compared to the same period in 2019.

Operating expenses (excluding variable compensation) slightly decreased to \$1,692 in the second quarter of 2020 and increased 4% to \$3,479 in the first half of 2020 compared to the same periods in 2019. The decrease in operating expenses (excluding variable compensation) for the second quarter of 2020 was primarily due to reductions in discretionary spending, a travel halt, and a pause on certain strategic firm initiatives and real estate projects, partially offset by an increase in financial advisor and home office and branch compensation. The increase in operating expenses (excluding variable compensation) for the first half of 2020 was due to an increase in financial advisor and home office and branch compensation, partially offset by reductions in discretionary spending, a travel halt, and a pause on certain strategic firm initiatives and real estate projects. Financial advisor compensation and benefits expense increased primarily due to an increase in revenues on which commissions are earned, growth in the number of financial advisors and an increase in compensation related to supporting new financial advisors and trainees. Home office and branch compensation and benefits expense increased primarily due to higher wages and healthcare costs in the second quarter of 2020 and increased primarily due to an increase in the average number of personnel to support increased client activity, certain strategic firm initiatives to enhance the client experience, and growth of the Partnership's financial advisor network, as well as higher wages and healthcare costs in the first half of 2020.

Canada

For the second quarter and first half of 2020, net revenue increased 2% to \$64 and 12% to \$132, respectively, compared to the same periods in 2019. The increase in net revenue for the second quarter of 2020 was due to an increase in trade revenue while the increase in net revenue for the first half of 2020 was primarily due to an increase in asset-based fee revenue. Asset-based fee revenue increased 9% to \$82 in the first half of 2020 led by an increase in advisory programs fees largely due to the cumulative impact of net asset inflows into advisory programs, as well as higher average market levels in the first quarter of 2020.

Operating expenses (excluding variable compensation) decreased 2% to \$55 in the second quarter of 2020 and increased 5% to \$118 in the first half of 2020. The decrease in operating expenses (excluding variable compensation) for the second quarter of 2020 was the result of a decrease in other operating expenses, partially offset by an increase in financial advisor compensation. The increase in operating expenses (excluding variable compensation) for the first half of 2020 was due to an increase in financial advisor compensation attributable to growth in the number of financial advisors and an increase in compensation related to supporting new financial advisors and trainees.

LEGISLATIVE AND REGULATORY REFORM

As discussed more fully in Part I, Item 1A – Risk Factors – Risk Related to the Partnership's Business – Legislative and Regulatory Initiatives of the Partnership's Annual Report, which is supplemented by Part II, Item 1A – Risk Factors – Legislative and Regulatory Initiatives of this Quarterly Report on Form 10-Q for the period ended June 26, 2020 and the Quarterly Report on Form 10-Q for the period ended March 27, 2020, the Partnership continues to monitor several proposed, potential and recently enacted federal and state legislation, rules and regulations ("Legislative and Regulatory Initiatives"), including the SEC's Regulation Best Interest and Form CRS Relationship Summary and accompanying guidance.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

MUTUAL FUNDS AND INSURANCE PRODUCTS

The Partnership estimates approximately 30% of its total revenue was derived from sales and services related to mutual fund and insurance products for each of the three and six month periods ended June 26, 2020 and June 28, 2019. In addition, the Partnership derived 13% and 14% of its total revenue for the three and six month periods ended June 26, 2020, respectively, and 14% of its total revenue for both of the three and six month periods ended June 28, 2019 from one mutual fund company. The revenue generated from this company relates to business conducted with the Partnership's U.S. segment.

Significant reductions in these revenues due to changes in mutual fund fee structures that result in decreased margins earned, regulatory reform or other changes to the Partnership's relationship with mutual fund or insurance companies could have a material adverse effect on the Partnership's results of operations, financial condition, and liquidity.

LIQUIDITY AND CAPITAL RESOURCES

The Partnership requires liquidity to cover its operating expenses, net capital requirements, capital expenditures, distributions to partners and redemptions of Partnership interests, as well as to facilitate client transactions. The principal sources for meeting the Partnership's liquidity requirements include existing liquidity and capital resources of the Partnership, discussed further below, and funds generated from operations. The Partnership believes that the liquidity provided by these sources will be sufficient to meet its capital and liquidity requirements for the next twelve months. Depending on conditions in the capital markets and other factors, the Partnership will, from time to time, consider the issuance of debt and additional Partnership capital, the proceeds of which could be used to meet growth needs or for other purposes.

As of June 26, 2020, the Partnership had \$2.7 billion in highly liquid investments, \$3.1 billion in Partnership capital and no debt. The Partnership has committed and uncommitted lines of credit in place should the need arise but has not drawn upon these lines. The Partnership believes that its financial position remains strong as it addresses the uncertainty of the ongoing impacts of COVID-19 on the global economy and, based on current information, does not anticipate any significant changes to its current liquidity or capital position.

Partnership Capital

The Partnership's growth in capital has historically been the result of the sale of Interests to its associates and existing limited partners, the sale of subordinated limited partnership interests to its current or retiring general partners, and retention of general partner earnings.

The Partnership filed a Registration Statement on Form S-8 with the SEC on January 12, 2018, to register \$450 of Interests issuable pursuant to the 2018 Plan. The Partnership issued approximately \$380 and \$1 of Interests under the 2018 Plan on January 2, 2019 and January 2, 2020, respectively. The remaining \$69 of Interests may be issued under the 2018 Plan at the discretion of the Managing Partner in the future. Proceeds from the offering under the 2018 Plan are expected to be used for working capital and general firm purposes and to ensure there is adequate general liquidity of the Partnership for future needs. The issuance of Interests reduces the Partnership's net interest income and profitability.

The Partnership's capital subject to mandatory redemption at June 26, 2020, net of reserve for anticipated withdrawals, was \$3,114, an increase of \$157 from December 31, 2019. This increase in Partnership capital subject to mandatory redemption was primarily due to the retention of a portion of general partner earnings (\$59) and additional capital contributions related to limited partner, subordinated limited partner and general partner interests (\$1, \$49 and \$163, respectively), partially offset by the net increase in Partnership loans outstanding (\$28) and redemption of limited partner, subordinated limited partner and general partner interests (\$6, \$36 and \$45, respectively). During the three and six month periods ended June 26, 2020 and June 28, 2019, the Partnership retained 13.8% of income allocated to general partners.

Under the terms of the Partnership Agreement, a partner's capital is required to be redeemed by the Partnership in the event of the partner's death or withdrawal from the Partnership, subject to compliance with ongoing regulatory capital requirements. In the event of a partner's death, the Partnership generally redeems the partner's capital within six months. The Partnership has restrictions in place which govern the withdrawal of capital. Under the terms of the Partnership

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Agreement, limited partners requesting withdrawal from the Partnership are to be repaid their capital in three equal annual installments beginning no earlier than 90 days after their withdrawal notice is received by the Managing Partner. The capital of general partners requesting withdrawal from the Partnership is converted to subordinated limited partnership capital or, at the discretion of the Managing Partner, redeemed by the Partnership. Subordinated limited partners requesting withdrawal are repaid their capital in six equal annual installments beginning no earlier than 90 days after their request for withdrawal of contributed capital is received by the Managing Partner. The Partnership's Managing Partner has discretion to waive or modify these withdrawal restrictions and to accelerate the return of capital.

The Partnership makes loans available to those general partners and, in limited circumstances, subordinated limited partners (in each case, other than members of the Executive Committee) who require financing for some or all of their Partnership capital contributions. In limited circumstances a general partner may withdraw from the Partnership and become a subordinated limited partner while he or she still has an outstanding Partnership loan. It is anticipated that, of the future general and subordinated limited partnership capital contributions (in each case, other than for Executive Committee members) requiring financing, the majority will be financed through Partnership loans. Loans made by the Partnership to such partners are generally for a period of one year but are expected to be renewed and bear interest at the interest rate defined in the loan documents. The Partnership recognizes interest income for the interest earned related to these loans. Partners borrowing from the Partnership will be required to repay such loans by applying the earnings received from the Partnership to such loans, net of amounts retained by the Partnership, amounts distributed for income taxes and 5% of earnings distributed to the partner. The Partnership has full recourse against any partner that defaults on loan obligations to the Partnership. The Partnership does not anticipate that partner loans will have an adverse impact on the Partnership's short-term liquidity or capital resources.

Any partner may also choose to have individual banking arrangements for their Partnership capital contributions. Any bank financing of capital contributions is in the form of unsecured bank loan agreements and is between the individual and the bank. The Partnership does not guarantee these bank loans, nor can the partner pledge his or her partnership interest as collateral for the bank loan. The Partnership performs certain administrative functions in connection with its limited partners who have elected to finance a portion of their Partnership capital contributions through individual unsecured bank loan agreements from banks with whom the Partnership has other banking relationships. For all limited partner capital contributions financed through such bank loan agreements, each agreement instructs the Partnership to apply the proceeds from the redemption of that individual's capital account to the repayment of the limited partner's bank loan prior to any funds being released to the partner. In addition, the partner is required to apply Partnership earnings, net of any distributions to pay taxes, to service the interest and principal on the bank loan. Should a partner's individual bank loan not be renewed upon maturity for any reason, the Partnership could experience increased requests for capital liquidations, which could adversely impact the Partnership's liquidity. In addition, partners who finance all or a portion of their capital contributions with bank financing may be more likely to request the withdrawal of capital to meet bank financing requirements should the partners experience a period of reduced earnings. As a partnership, any withdrawals by general partners, subordinated limited partners or limited partners would reduce the Partnership's available liquidity and capital.

Many of the same banks that provide financing to limited partners also provide financing to the Partnership. To the extent these banks increase credit available to the partners, financing available to the Partnership may be reduced.

The Partnership, while not a party to any partner unsecured bank loan agreements, does facilitate making payments of allocated income to certain banks on behalf of the limited partner. The following table represents amounts related to Partnership loans as well as bank loans (for which the Partnership facilitates certain administrative functions). Partners may have arranged their own bank loans to finance their Partnership capital for which the Partnership does not facilitate certain administrative functions and therefore any such loans are not included in the table.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

	As of June 26, 2020			
	Limited Partnership Interests	Subordinated Limited Partnership Interests	General Partnership Interests	Total Partnership Interests
Total Partnership capital ⁽¹⁾	\$ 1,244	\$ 540	\$ 1,718	\$ 3,502
Partnership capital owned by partners with individual loans	\$ 347	\$ 1	\$ 909	\$ 1,257
Partnership capital owned by partners with individual loans as a percent of total Partnership capital	28%	0%	53%	36%
Individual loans:				
Individual bank loans	\$ 88	\$ —	\$ —	\$ 88
Individual Partnership loans	—	1	387	388
Total individual loans	\$ 88	\$ 1	\$ 387	\$ 476
Individual loans as a percent of total Partnership capital	7%	0%	23%	14%
Individual loans as a percent of respective Partnership capital owned by partners with loans	25%	100%	43%	38%

⁽¹⁾ Total Partnership capital, as defined for this table, is before the reduction of Partnership loans and is net of reserve for anticipated withdrawals.

Historically, neither the amount of Partnership capital financed with individual loans as indicated in the table above, nor the amount of partner withdrawal requests, has had a significant impact on the Partnership's liquidity or capital resources.

Lines of Credit

The following table shows the composition of the Partnership's aggregate bank lines of credit in place as of:

	June 26, 2020	December 31, 2019
2018 Credit Facility	\$ 500	\$ 500
Uncommitted secured credit facilities	390	290
Total bank lines of credit	<u>\$ 890</u>	<u>\$ 790</u>

In accordance with the terms of the Partnership's \$500 committed revolving line of credit (the "2018 Credit Facility") entered into in September 2018, the Partnership is required to maintain a leverage ratio of no more than 35% and minimum Partnership capital, net of reserve for anticipated withdrawals and Partnership loans, of at least \$1,884. In addition, Edward Jones is required to maintain a minimum tangible net worth of at least \$1,344 and minimum regulatory net capital of at least 6% of aggregate debit items as calculated under the alternative method. The Partnership has the ability to draw on various types of loans. The associated interest rate depends on the type of loan, duration of the loan, whether the loan is secured or unsecured and the amount of leverage. Contractual rates are based on an index rate plus the applicable rate. The 2018 Credit Facility is intended to provide short-term liquidity to the Partnership should the need arise. As of June 26, 2020, the Partnership was in compliance with all covenants related to the 2018 Credit Facility.

In addition, the Partnership has multiple uncommitted lines of credit, including the \$390 of uncommitted secured lines of credit that are subject to change at the discretion of the banks. The amount available on one of the uncommitted lines of credit and the associated collateral requirements are at the bank's discretion upon the event of a borrowing. Based on credit market conditions and the uncommitted nature of these credit facilities, it is possible that these lines of credit could decrease or not be available in the future. Actual borrowing availability on the uncommitted secured lines is based on availability of client margin securities or firm-owned securities, which would serve as collateral on loans in the event the Partnership borrowed against these lines.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

There were no amounts outstanding on the 2018 Credit Facility or the uncommitted lines of credit as of June 26, 2020 or December 31, 2019. In addition, the Partnership did not have any draws against these lines of credit during the three or six month period ended June 26, 2020.

Cash Activity

As of June 26, 2020, the Partnership had \$1,228 in cash and cash equivalents and \$1,443 in securities purchased under agreements to resell, which generally have maturities of less than one week. This totaled to \$2,671 of Partnership liquidity as of June 26, 2020, a 1% (\$36) decrease from \$2,707 at December 31, 2019. The Partnership had \$13,012 and \$10,387 in cash and investments segregated under federal regulations as of June 26, 2020 and December 31, 2019, respectively, which was not available for general use. As of June 26, 2020, \$7,996 of the cash and investments segregated under federal regulations balance consisted of U.S. treasuries, compared with \$3,394 as of December 31, 2019. Given global health, market, employment and economic uncertainty from COVID-19, the Partnership increased the proportion of U.S. treasuries to focus on principal protection of the portfolio. There was an increase in cash held in clients' accounts, resulting in an increase in cash and investments segregated under federal regulations. Changes in cash were also due to timing of daily client cash activity in relation to the weekly segregation requirement.

Regulatory Requirements

As a result of its activities as a U.S. broker-dealer, Edward Jones is subject to the net capital provisions of Rule 15c3-1 of the Exchange Act and capital compliance rules of the FINRA Rule 4110. Under the alternative method permitted by the rules, Edward Jones must maintain minimum net capital, as defined, equal to the greater of \$0.25 or 2% of aggregate debit items arising from client transactions. The net capital rules also provide that Edward Jones' partnership capital may not be withdrawn if the resulting net capital would be less than minimum requirements. Additionally, certain withdrawals of partnership capital require the approval of the SEC and FINRA to the extent they exceed defined levels, even though such withdrawals would not cause net capital to be less than minimum requirements.

The Partnership's Canada broker-dealer subsidiary is a registered broker-dealer regulated by IIROC. Under the regulations prescribed by IIROC, the Partnership's Canada broker-dealer subsidiary is required to maintain minimum levels of risk-adjusted capital, which are dependent on the nature of the Partnership's Canada broker-dealer subsidiary's assets and operations.

The following table shows the Partnership's capital figures for its U.S. and Canada broker-dealer subsidiaries as of:

	June 26, 2020	December 31, 2019	% Change
U.S.:			
Net capital	\$ 1,320	\$ 1,244	6%
Net capital in excess of the minimum required	\$ 1,265	\$ 1,188	6%
Net capital as a percentage of aggregate debit items	48.2%	44.2%	9%
Net capital after anticipated capital withdrawals, as a percentage of aggregate debit items	25.5%	26.4%	-3%
Canada:			
Regulatory risk-adjusted capital	\$ 39	\$ 40	-3%
Regulatory risk-adjusted capital in excess of the minimum required to be held by IIROC	\$ 38	\$ 38	0%

U.S. net capital, Canada regulatory risk-adjusted capital and the related capital percentages may fluctuate on a daily basis. In addition, Trust Co. was in compliance with its regulatory capital requirements.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

OFF-BALANCE SHEET ARRANGEMENTS

The Partnership does not have any significant off-balance sheet arrangements.

THE EFFECTS OF INFLATION

The Partnership's net assets are primarily monetary, consisting of cash and cash equivalents, cash and investments segregated under federal regulations, firm-owned securities, and receivables, less liabilities. Monetary net assets are primarily liquid in nature and would not be significantly affected by inflation. Inflation and future expectations of inflation influence securities prices, as well as activity levels in the securities markets. As a result, profitability and capital may be impacted by inflation and inflationary expectations. Additionally, inflation's impact on the Partnership's operating expenses may affect profitability to the extent that additional costs are not recoverable through increased prices of services offered by the Partnership.

RECENTLY ADOPTED ACCOUNTING STANDARDS

There have been no material changes to the Partnership's disclosures of recently issued and adopted accounting standards as described in Part II, Item 8 – Financial Statements and Supplementary Data – Note 1 of the Partnership's Annual Report. See Note 2 of this Quarterly Report on Form 10-Q for recently adopted accounting standards.

OTHER EVENTS

As disclosed in the Partnership's Form 8-K dated July 1, 2020, JFC issued a press release relating to an application it submitted on July 1, 2020 to the Federal Deposit Insurance Corporation ("FDIC") and Utah Department of Financial Institutions ("UDFI") in connection with a proposed Utah-chartered industrial bank to be named Edward Jones Bank.

EXECUTIVE COMMITTEE CHANGES

On August 10, 2020, the Managing Partner of the Partnership, Penny Pennington, announced the appointment of general partner Lisa Dolan, age 54, to the Partnership's Executive Committee. It was also announced that Ms. Dolan has been named Chief Operating Officer for Edward Jones with responsibility for leading Operations, Service, Firm Analytics, Strategic Enablement and Planning and Workplace Services.

Ms. Dolan joined the Edward Jones Finance division in 2005 with responsibility for tax and partnership accounting. She was named a principal in 2007 after which her responsibilities have expanded to include financial and regulatory reporting, expenditure management, compensation accounting and finance systems. Ms. Dolan was appointed to the Partnership's Audit Committee in 2014. In 2016, she was appointed to the Partnership's Management Committee and assumed responsibility for the Finance division. Ms. Dolan is a certified public accountant.

She does not have any family relationship to any executive officer of the Partnership.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, and in particular Management's Discussion and Analysis of Financial Condition and Results of Operations, contains forward-looking statements within the meaning of the federal securities laws. You can identify forward-looking statements by the use of the words "believe," "expect," "anticipate," "intend," "estimate," "project," "will," "should," and other expressions which predict or indicate future events and trends and which do not relate to historical matters. You should not rely on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, some of which are beyond the control of the Partnership. These risks, uncertainties and other factors may cause the actual results, performance or achievements of the Partnership to be materially different from the anticipated future results, performance or achievements expressed or implied by the forward-looking statements.

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Some of the factors that might cause differences between forward-looking statements and actual events include, but are not limited to, the following: (1) general economic conditions, including an economic downturn or volatility in the U.S. and/or global securities markets, and actions of the U.S. Federal Reserve and/or central banks outside of the United States; (2) regulatory actions; (3) changes in legislation or regulation; (4) actions of competitors; (5) litigation; (6) the ability of clients, other broker-dealers, banks, depositories and clearing organizations to fulfill contractual obligations; (7) changes in interest rates; (8) changes in technology and other technology-related risks; (9) a fluctuation or decline in the fair value of securities; (10) our ability to attract and retain qualified financial advisors and other employees; and (11) the risks discussed under Part I, Item 1A – Risk Factors in the Partnership's Annual Report and Part II, Item 1A – Risk Factors in the Partnership's Quarterly Reports on Form 10-Q for the periods ended March 27, 2020 and June 26, 2020. These forward-looking statements were based on information, plans, and estimates at the date of this report, and the Partnership does not undertake to update any forward-looking statements to reflect changes in underlying assumptions or factors, new information, future events or other changes.

The spread and rapid evolution of COVID-19 and various governments' responses to the pandemic have adversely affected the global economy and have resulted in significant uncertainty, which could negatively impact our future business operations and financial results.

The Partnership has implemented several measures in response to COVID-19 to support the health and well-being of its clients, partners and associates, as well as measures to optimize firm resources and control costs, but cannot provide any assurance that such measures will be successful. The Partnership anticipates that financial results could be lower in fiscal 2020 compared to fiscal 2019, depending on the future economic and market impacts. The potential effects of the pandemic and interest rate reductions made in continued response to the pandemic on certain of the Partnership's financial results have been disclosed in Note 1 and Management's Discussion and Analysis of Financial Condition and Results of Operations of this Quarterly Report on Form 10-Q. However, actual results with respect to such items will vary from the assumed amounts and the variation could be material. Accordingly, you should not rely on these descriptions because they involve known and unknown risks, uncertainties and other factors, some of which are beyond the control of the Partnership.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Various levels of management within the Partnership manage the Partnership's risk exposure. Position limits in inventory accounts are established and monitored on an ongoing basis. Credit risk related to various financing activities is reduced by the industry practice of obtaining and maintaining collateral. The Partnership monitors its exposure to counterparty risk through the use of credit exposure information, the monitoring of collateral values and the establishment of credit limits. For further discussion of monitoring, see the Risk Management discussion in Part III, Item 10 – Directors, Executive Officers and Corporate Governance of the Partnership's Annual Report.

The Partnership is exposed to market risk from changes in interest rates. Such changes in interest rates impact the income from interest-earning assets, primarily receivables from clients on margin balances and short-term, primarily overnight, investments, which are primarily comprised of cash and cash equivalents, investments segregated under federal regulations, and securities purchased under agreements to resell, which averaged \$2.8 billion and \$14.1 billion, respectively, for the six month period ended June 26, 2020. These margin receivables and investments earned interest at an average annual rate of approximately 420 and 70 basis points (4.20% and .70%), respectively, during the first half of 2020. Changes in interest rates also have an impact on the expense related to the liabilities that finance these assets, such as amounts payable to clients.

The Partnership performed an analysis of its financial instruments and assessed the related interest rate risk and materiality in accordance with the SEC rules. Under current market conditions and based on current levels of interest-earning assets and the liabilities that finance these assets, the Partnership estimates that a 100 basis point (1.00%) increase in short-term interest rates could increase its annual net interest income by approximately \$108 million. Conversely, the Partnership estimates that a reduction in short-term interest rates to zero could decrease the Partnership's annual net interest income by approximately \$19 million. A 100 basis point (1.00%) decrease in short-term interest rates was not utilized for this comparison because it would result in negative rates given that rates are already near zero. Assuming interest rates and balances as of June 26, 2020 remain unchanged, the Partnership estimates that

PART I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

its net interest and dividends revenue could decline by approximately \$145 for fiscal 2020 compared to fiscal 2019. Actual results likely will vary from those estimates and the variation could be material.

For information related to the impacts of COVID-19 on interest rates and the Partnership's market risk, see Part I, Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations of this Quarterly Report on Form 10-Q.

ITEM 4. CONTROLS AND PROCEDURES

The Partnership maintains a system of disclosure controls and procedures which are designed to ensure that information required to be disclosed by the Partnership in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and communicated to management, including the Partnership's certifying officers, as appropriate to allow timely decisions regarding required disclosure.

Based upon an evaluation performed as of the end of the period covered by this report, the Partnership's certifying officers, the Chief Executive Officer and the Chief Financial Officer, have concluded that the Partnership's disclosure controls and procedures were effective as of June 26, 2020.

There have been no changes in the Partnership's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Partnership's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The information in Part I, Item 1, Note 9 supplements the discussion in Item 3 – Legal Proceedings in the Partnership's Annual Report.

ITEM 1A. RISK FACTORS

For information regarding risk factors affecting the Partnership, please see the language in Part I, Item 2 – Forward-looking Statements of this Quarterly Report on Form 10-Q and the discussion in Part I, Item 1A – Risk Factors of the Partnership's Annual Report and Part II Item 1A – Risk Factors of the Quarterly Report on Form 10-Q for the period ended March 27, 2020. The following risk factors supplement the risk factors in Part I, Item 1A – Risk Factors – Risk Related to the Partnership's Business of the Partnership's Annual Report.

COVID-19 GLOBAL PANDEMIC — *Given the significant global health, market, employment and economic impacts of COVID-19 and the uncertainty of its duration, the Partnership may experience negative impacts to its business operations and financial results.*

The spread of COVID-19 has adversely affected global business activities and has resulted in significant uncertainty in the global economy and volatility in financial markets. The effects of the ongoing market volatility may result in a negative impact on the Partnership's business operations and financial results in fiscal 2020. In particular, the Partnership may experience lower asset-based revenue due to declines in the market value of client assets on which asset-based revenue is earned and lower interest revenue due to decreases in the federal funds rate and increased fee waivers in order to maintain a positive client yield on the Money Market Fund.

In response to the COVID-19 global pandemic, the uncertainty of its duration and the potentially negative impacts on the Partnership's business operations and financial results, the Partnership has implemented several measures to support the health and well-being of its clients and associates, as well as measures to optimize firm resources and control costs. The measures taken include, among other things, closure and phased reopening of branches to public access, establishing the technological capability for branches to serve clients remotely, as well as virtually all home-office associates working remotely with limited exceptions. Such remote work may limit financial advisors' ability to obtain new clients and maintain existing client relationships through face-to-face client interactions. Additionally, the Partnership has reduced hiring of new financial advisors in light of the COVID-19 pandemic, which may lower the Partnership's ability for growth. Slower growth rates in the number of financial advisors, client accounts and net new assets could have an adverse impact on revenue the Partnership receives from commissions and asset-based fees and on its results of operations.

Potentially lower asset-based fees and trade revenue resulting from the market uncertainty in response to COVID-19 could reduce commissions, bonuses, travel benefits and branch profitability for financial advisors. The effects of COVID-19 on financial advisor attrition are uncertain and cannot be reliably predicted; however, the Partnership anticipates that these potentially negative impacts to financial advisor compensation and benefits may result in increased financial advisor attrition. The Partnership may experience increased costs from providing temporary financial assistance to certain financial advisors in attempts to help support some financial advisors that may be experiencing financial hardship while also potentially mitigating heightened attrition rates.

Additionally, in an effort to help mitigate the negative impacts of potentially lower revenue on the Partnership's future income before allocations to partners, the Partnership has temporarily paused certain strategic firm initiatives designed to enhance the firm's competitive advantage.

PART II. OTHER INFORMATION

Item 1A. Risk Factors, continued

MARKET CONDITIONS AND INFLATION — *As a part of the securities industry, a downturn in the U.S. and/or global securities markets historically has, and in the future could have, a significant negative effect on revenues and could significantly reduce or eliminate profitability of the Partnership. In addition, an increase in inflation could affect securities prices and as a result, the profitability of the Partnership.*

General political and economic conditions and events such as U.S. fiscal and monetary policy, economic recession, governmental shutdown, trade tensions and disputes, global economic slowdown, widespread health epidemics or pandemics, natural disasters, terrorist attacks, war, changes in local and national economic and political conditions, regulatory changes or changes in the law, or interest rate or currency rate fluctuations could create a downturn in the U.S. and/or global securities markets. The securities industry is, and therefore the Partnership is, highly dependent upon market prices and volumes which are highly unpredictable and volatile in nature. Events such as global recession, frozen credit markets, and institutional failures could make the capital markets increasingly volatile. Weakened global economic conditions and unsettled financial markets, among other things, could cause significant declines in the Partnership's net revenues which would adversely impact its overall financial results.

The Partnership's composition of net revenue is heavily weighted towards asset-based fee revenue, and a decrease in the market value of assets would have a negative impact on the Partnership's financial results due to the fact that asset-based fees are earned on the market value of the underlying client assets. A market decline could have a greater negative impact on revenues and profitability than experienced in prior years due to the increasing proportion of asset-based revenues. Market volatility could also cause clients to move their investments to lower margin products, or withdraw them, which could have an adverse impact on the profitability of the Partnership. The Partnership could also experience a material reduction in volume and lower securities prices in times of market volatility, which would result in lower trade and asset-based fee revenue, decreased margins and losses in firm inventory accounts. Current and potential market changes to fee structures in the mutual funds industry have resulted in and may continue to result in decreased margins and therefore lower revenues. In the event of a significant reduction in revenues and depending on the amount of fixed financial advisor compensation at that time, the Partnership could experience a material adverse impact on the profitability of the Partnership.

Inflation and future expectations of inflation can negatively influence securities prices, as well as activity levels in the securities markets. As a result, the Partnership's profitability may be adversely affected by inflation and inflationary expectations. Additionally, the impact of inflation on the Partnership's operating expenses may affect profitability to the extent that additional costs are not recoverable through increased prices of services offered by the Partnership.

Refer to the preceding risk factor for specific market conditions and risks related to the current COVID-19 pandemic.

LEGISLATIVE AND REGULATORY INITIATIVES — *Legislative and Regulatory Initiatives could significantly impact the regulation and operation of the Partnership and its subsidiaries. In addition, Legislative and Regulatory Initiatives may significantly alter or restrict the Partnership's historic business practices, which could negatively affect its operating results.*

The Partnership is subject to extensive regulation by federal and state regulatory agencies and by SROs and other regulators. The Partnership operates in a regulatory environment that is subject to ongoing change and has seen significantly increased regulation in recent years. The Partnership may be adversely affected as a result of new or revised legislation or regulations, by changes in federal, state or foreign tax laws and regulations, or by changes in the interpretation or enforcement of existing laws and regulations. Legislative and Regulatory Initiatives may impact the manner in which the Partnership markets its products and services, manages its business and operations, and interacts with clients and regulators, any or all of which could materially impact the Partnership's results of operations, financial condition, and liquidity. Regulatory changes or changes in the law could increase compliance costs which would adversely impact profitability.

There is a high degree of uncertainty surrounding Legislative and Regulatory Initiatives. Current Legislative and Regulatory Initiatives have resulted in an increasingly complex environment in which the Partnership conducts its business. As such, the Partnership cannot reliably predict when or if any of the proposed or potential Legislative and Regulatory Initiatives will be enacted, when or if any enacted Legislative and Regulatory Initiatives will be implemented,

PART II. OTHER INFORMATION

Item 1A. Risk Factors, continued

whether there will be any changes to enacted or proposed Legislative and Regulatory Initiatives or the impact that any Legislative and Regulatory Initiatives will have on the Partnership.

The Partnership continues to monitor several Legislative and Regulatory Initiatives, including, but not limited to:

SEC Rules and Guidance on the Standards of Conduct for Investment Professionals (the "Rules and Guidance"). On June 5, 2019, the SEC adopted Regulation Best Interest, establishing a standard of care for broker-dealers that includes acting in the best interest of their brokerage clients when making a recommendation and addressing conflicts of interest. On the same day, the SEC adopted the Form CRS Relationship Summary and accompanying rule requiring registered investment advisers and broker-dealers to deliver a brief relationship summary to their clients informing them of the types of client relationships offered, together with the applicable standards of care, and information on fees, costs, conflicts of interest, and legal and disciplinary history. Regulation Best Interest and Form CRS and its rule became effective September 10, 2019, with a compliance date of June 30, 2020. On June 5, 2019, the SEC issued guidance clarifying the "fiduciary" standard of care applicable to investment advisers and advisory clients and guidance clarifying what broker-dealer activities are excluded from the definition of "investment adviser." The Partnership implemented measures to comply with the Rules and Guidance by the June 30, 2020 compliance date.

Canadian Securities Administrators ("CSA") Amendments. On October 3, 2019, the CSA finalized amendments (the "Client Focused Reforms") to National Instrument 31-103, "Registration Requirements, Exemptions and Ongoing Registrant Obligations." The Client Focused Reforms, many of which are similar to the SEC's Rules and Guidance, make changes to the registrant conduct requirements applicable to the Partnership's Canada broker-dealer subsidiary. The amendments will become effective over a two-year phased implementation, concluding December 31, 2021. The Partnership is continuing to dedicate significant resources to interpret and address the Client Focused Reforms, to identify any potential changes to be made by the phased compliance dates and to assess the potential impact on the Partnership's business.

Other Standard of Care Initiatives. In addition, state legislators and other regulators are proposing, or have adopted, laws and rules to articulate their required standard of care, which may diverge from the SEC's Rules and Guidance. The Partnership is dedicating significant resources to interpret and address these laws and rules as well. The Partnership cannot reliably predict the ultimate form or impact of such rules and laws, but their enactment and implementation may have an adverse effect on the Partnership's financial condition, results of operations, and liquidity.

INTENT TO PURSUE A BANK — *The Partnership is subject to the risk its application to obtain an industrial bank charter may not be successful; and if the charter is granted, the Partnership would be subject to additional risks related to capital and other costs to establish and maintain the bank, additional regulatory oversight, potential legislative changes and uncertainty of obtaining the anticipated benefits.*

On July 1, 2020, the Partnership announced it had submitted an application to the FDIC and UDFI to establish a Utah-chartered industrial bank subsidiary to be named Edward Jones Bank. The Partnership cannot reliably predict the timing of the application process, whether its application will be successful and, if so, on what terms and whether and to what extent an industrial bank would yield the anticipated benefits. If the charter is granted, the Partnership expects to incur substantial start-up costs and commit a significant amount of capital to support the development and initial operations of the Edward Jones Bank. Factors that could affect the profitability and success of Edward Jones Bank if the charter is granted include, but are not limited to, unanticipated additional costs, the need for additional capital support, significant delays, operational challenges, uncertain client demand, legislative changes and regulatory changes and oversight, any or all of which may adversely impact Edward Jones Bank's and the Partnership's results of operations, financial condition and liquidity.

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, Penny Pennington, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of The Jones Financial Companies, L.L.P. (the "Registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize, and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
